Good morning Maggie,
Happy New Year, I hope you enjoyed your break. I'm doing a follow up to see if you have had any opportunity to talk with Claire and Jo Burnund regarding this situation? As you are aware we have Goulburn and Bega (SERH) in Southern NSW which are both accredited teaching hospitals for JMO's. There are local people from this region who would like to learn in these facilities and there are students from other universities and ANU who are on Cadetship programs and would like to return to this area.

Looking forward to your response to enable a local workforce in these locations.

Regards

Jennie Gordon
