Southern NSW  
Local Health District

SNSWLHD are seeking local community and staff views in the development of a five year Clinical Service Plan.

The development of a Clinical Services Plan for Monaro Health Services includes the communities in Bombala, Cooma-Monaro and Snowy River Shires and provides the opportunity to review population needs against current service capacity and plan for the range of services required to meet the needs of the Monaro community to 2019 and beyond.

This planning process represents the first opportunity to develop a Clinical Services Plan for the Monaro District. The plan builds on previous planning processes for each health service and community and will use the newly released SNSWLHD Strategic Plan to inform us.

The Local Health District has an ongoing commitment to supporting consumer participation in health care recognizing the vital role that consumers play in the provision of their own care.

Staff and community will have the opportunity to contribute through information and feedback sessions that will be run. Written feedback would also be appreciated.

The first Community Consultation forum will be held in Jindabyne Community Health Centre Bent St, Jindabyne on 20 May at 6pm.

A forum for staff will be held on the 26 May 2014 at 2.30pm in Cuppa Corner Cooma Health Service.

Please find attached a background document for your information outlining services currently provided.

We look forward to seeing you then.
