

# Mid North Coast Aboriginal Health Accord 2024–2029

## What is the Mid North Coast Aboriginal Health Accord

The Mid North Coast Aboriginal Health Accord, established since 2014, includes five Partner entities: Healthy North Coast Primary Health Network, Durri Aboriginal Corporation Medical Service, Galambila Aboriginal Health Service, Werin Aboriginal Corporation and Mid North Coast Local Health District.

The Accord ensures that there is effective partnerships and meaningful collaboration focused on shared decision-making which are vital to achieving improvement in the health and wellbeing of Aboriginal communities.

## Accord Vision

Optimal health and wellbeing for Aboriginal people and communities on the Mid North Coast.

## Accord Mission

The Accord Partners will work together with stakeholders to achieve excellence in healthcare provision and equitable health outcomes for the Aboriginal community.

## Guiding Principles

### Partnership Not Competition

We are not competitors in the provision of health care for Aboriginal people on the Mid North Coast, we are partners

### Leadership for Health

Strong leadership is required to bring about the necessary Aboriginal Health reform

### Self-Determination

Aboriginal Health outcomes will improve when Aboriginal people have an equal say in how health services are designed, delivered and evaluated

### Innovation and Creativity

Creative exploration of innovative solutions to old problems is needed for success in improving health outcomes

### Quality and Excellence

The pursuit of constantly improving health services and the achievement of the best possible health practices

### Equity in Healthcare

The Aboriginal Community requires improved access to quality healthcare if current health outcomes are to be reversed
