

Emma Skulander

Current role

Health Infrastructure, Acting Chief Executive

Established in 2007, Health Infrastructure oversees the planning, design and construction of health capital projects and programs over \$10 million in NSW. With more than 100 projects underway, our portfolio ranges from billion-dollar precinct redevelopments to new and upgraded hospitals, health facilities and ambulance stations. In my role as Acting Chief Executive, I am responsible for overseeing the delivery of sustainable infrastructure solutions and services to support the healthcare needs of NSW communities now and into the future.
