

## Dr Rebecca (Bec) Nogajski

### Current roles

---

**Western Sydney Local Health District**, Executive Director of Medical Services      October 2022 –Current

The EDMS oversees the medical workforce and clinical services across Western Sydney Local Health District, ensuring high-quality person-centred care through the provision of clinical excellence and best practice. This is enabled through a focus on the wellbeing of our senior and junior medical staff. The position plays a key role in implementation of new and enhanced clinical services and models of care as part of redevelopment projects underway at Westmead and Blacktown hospitals and responsibility for the professional oversight, appointment and credentialling of all senior medical officers.

**Western Sydney Local Health District**, Clinical Network Director of Paediatrics      2021-Current
