Agree. This is not appropriate. He is to attend the meeting as a member and if he has clinical concerns he is to escalate through the appropriate Channels including referring the to me

Kind regards

Teresa

Hi Teresa, Andrew,

I'd value your advice regarding how I should respond to this request below.

Andrew you may be aware Teresa, John Ajaka and I met with Winston late last year to enable him as chair of the MSC to talk to us regarding his concerns regarding a wide range of issues, from funding in the District, service provision, staff disquiet, and so on

We invited him to join the committee meeting but I don't recall inviting him to speak in the way he proposes.

I don't see this as a forum for raising clinical issues without notice and without an opportunity to see the facts/ data to determine if in fact they are issues.

I would also question their broader utility to the District as is usually the case in material presented and discussed at these meetings.

Thanks

Subject: Arranging time to discuss Concord clinical issues at SLHD Clinical Quality Council meeting 22 Feb

Dear John,

Hope you have had a good break over the holiday period.

I understand the next SLHD Clinical Quality Council Meeting is on 22 February.

As discussed with John Ajaka, Teresa and yourself at the meeting on 15 November last year, I would like to present some of the important clinical issues at Concord to the SLHD Clinical Quality Council. John Ajaka told me that important clinical issues should be raised at this forum, as well as through the usual channels.

I envisage each issue will take 5 minutes to present, and then there may be 5 minutes of questions and discussion from the council. Therefore we could discuss 6 issues in 60 minutes. I understand this may take up a large proportion of the meeting, but I think the issues are important enough to warrant a few minutes discussion each.

Can we arrange an extended meeting on 22 February to accommodate this?
I need to give the relevant stakeholders as much notice as possible so that they can make arrangements to present.

Many thanks.

Regards,

Winston Cheung
