

Data Dictionary
**Public Admitted Patient
Care Data Stream**

EDWARD
Version: 2021

Overview

This is the EDWARD Admitted Patient Care (Public Sector) Stream Data Dictionary for reporting services via an EDWARD data extract from 1 July 2021 - Revision 2 (as at 1 July 2021).

This data dictionary describes the data element concepts in scope of the data stream and is a companion resource to the NSW Health EDWARD Data Stream Interface Requirements Specification and the EDWARD Data Stream Control and Audit Data Element Data Dictionary.

This data dictionary prescribes the concept definitions, the State standard classifications / codes that must be reported, category definitions, justification for inclusion, scope and related guidelines for reporting the data.

This data dictionary covers concepts within the scope of the data stream interface requirements specification that are common to all service events, regardless of service setting. It also covers concepts specific to the setting of service event.

The data dictionary covers all data elements in scope of the data stream interface requirements irrespective of their business mandatory status. It includes data elements that are data elements that are technically required by EDWARD (such as primary key and foreign key fields), business mandatory and condition fields, and optional fields that may be required to support Local Health District level reporting.

The target audience of this data dictionary includes staff who configure source system builds, data suppliers, data custodians and data stewards, and technical staff involved in developing and maintaining the EDWARD format source system extracts.

Note 1: This data dictionary is subject to updates, extensions and revisions from time to time. Such changes will reflect clarifications and updates to data elements shared with other data streams, and requirements for reporting requirements that may emerge during the financial year so as to give data suppliers maximum time to prepare systems for future reporting requirements.

Note 2: The EDWARD Data Stream ID for this data stream is "17".

Data Dictionary ID: 13015

Data Type: Data Dictionary

Name: EDWARD Data Stream - Service Events - Admitted Patient Care (Public Sector) - Source System Supplied Data Elements 2020/21 – Revision 2

Request for Service

Data Object ID 72

Business context

This object holds a record for a request for a service event. This object contains data about the requesting service provider, the service required and the date of the request, but excludes the details of the requested service provider.

The Request for Service concept covers requests or referrals from any party, including the client themselves (a self-referral), a health service provider, a person known to the client, or another human service agency.

A Request for Service includes a Referral for Admission (RFA) and a Referral for Service (RFS).

Business rules for reporting

A Request for Service record is a parent record of all other records reported to this data stream.

A Request for Service record must be reported for all referrals placed on a waiting list / appointment list.

A Request for Service record must be reported for all initial service events in a “chapter” of care (same service unit for same presenting problem) for community health and outpatient care service events.

Where possible, each subsequent service event record (for example, an admission or non-admitted patient appointment) should be linked with the relevant Request for Service record, so as to associate a series of service events provided to the same client/patient by the same service unit/team

Request for Service: Request for Service Source Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	REQUEST_FOR_SERVICE_SOURCE_ID
Data Element ID:	10419
Version:	1.0
Definition:	The unique identifier of the source system on which the request for service details are recorded and reported from.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	Required for community health and outpatient care service events. Report where available for admitted patient service events. May be the same value as the SERVICE_EVENT_SOURCE_ID.
Scope:	
Justification:	
Supporting Information:	

Domain	
Domain name:	Request for Service Source Identifier (EDW)
Domain ID:	10572
Version:	1.0
Domain definition:	The unique identifier of the source system that has the request for service details are recorded on and reported from.

Domain			
Domain name:	Service Event Type Code (EDW)		
Domain ID:	10338	Version:	1.0
Domain definition:	An indication of whether the service event is for a community health / outpatient care services, an admitted patient service, a residential aged care service, or an emergency department service.		

Domain value set

Code	Descriptive label	Definition
1	Emergency Department service	Covers emergency services provided in an emergency department setting, and includes dead on arrival patients. This category may include some services provided in emergency department settings, such as planned outpatient clinic services delivered out of hours in the emergency department setting, however the preference is for these to be reported as 4 - Outpatient / Community Health services and comply with the community health and outpatient care service event reporting requirements.
2	Admitted patient service	Covers formal admissions to a recognised hospital or multi-purpose service for admitted patient care. Prior to 1 Jan 2018, this included admissions where the patient was formally admitted and discharged as an inpatient while in the emergency department

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
3	Residential care service	(where such activity was recorded in the admitted patient module of the patient administration system). Includes residential aged care services reported by residential aged care facilities, including multi-purpose services and (rural) integrated health services. That is, commonwealth funded designated residential aged care beds.
4	Non-admitted patient service	Includes community residential care services (e.g. covering mental health services). Includes all community health services, outpatient care services. May include some services provided in emergency department settings, and health support services (such as services provided under the National Disability Insurance Scheme). This category covers planned outpatient clinic services delivered out of hours in the emergency department setting. Note: This category may be used for reporting consultation liaison services provided by non-admitted patient service units to admitted patients, emergency department patients, and persons in living in residential care settings.
6	Supplementary service	Supplementary (auxiliary) services provided to an admitted patient either as part to an Admitted Patient team or Emergency Department team or as a consultation liaison service provided by a NAP team for reporting the following data set extensions: 1. Allied Health Data Set Extension 2. Violence, Abuse Neglect (VAN) Data Set Extension
7	Specialist mental health service	A specialist non-admitted patient mental health service. Note: These services have traditionally been referred to as "Community Health Ambulatory" clients and were reported to the HIE data warehouse via the "CHAMB" extract.

Request for Service: Request Source Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[REQUEST_FOR_SERVICE].[REQUEST_SOURCE_TYPE_CODE]		
Data Element ID:	10422	Version:	1.0
Definition:	A code representing the person, provider or type of service entity from which the client/patient was referred, including self referrals.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	2	Maximum: 5
Representation Layout:	NN(.NN)		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	<p>This field is often referred to as "Source of Referral".</p> <p>Service requests include both formal referrals (e.g. a written referral from a General Practitioner), and other informal requests for service (e.g. self referral for an unplanned 'walk-in' service). The service request should not be from another provider within the same health service unit (i.e. a registered entity in HERO) but from a person or agency external to the health service unit. Where there have been multiple referrals to the health service unit and/or the Individual Service Provider for the same service, the request source should reflect the first referral received.</p> <p>The data domain is hierarchically structured. Wherever possible the selected value should be at the lowest level of the hierarchy (i.e. at the four-digit level XX.XX).</p>
Scope:	<p>MANDATORY</p> <p>Mandatory for all Request for Service records</p>
Justification:	<p>Required to assist in the analyses of client flow and for health care planning. This data element can assist in identifying areas for targeting the promotion of services as well as highlighting areas in which new services should be developed.</p>

Request for Service: Request Correspondence Date (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[REQUEST_FOR_SERVICE].[REQUEST_CORRESPONDENCE_DATE]
Data Element ID:	10423
Version:	1.0
Definition:	The documented date the health service was requested (e.g. by a doctor's referral letter), usually the date when the referral was written.
Status Allocation Date:	
Representation	
Data Type:	Date
Form:	Date
Field Size:	Minimum: 8 Maximum: 8
Representation Layout:	YYYYMMDD
Unit Of Measure:	
Additional Information:	Formatted as 'YYYY-MM-DD' when provisioned to cubes.
Collection and Usage Guide	
Guide for Use:	<p>Traditionally referrals have been produced on paper based letters. In this case the request correspondence date is the date written on the letter by the requester. The difference between the date the request was written or created and the date the request was received could be significant because of Australian Post and internal mail systems, or the use of the client / patient to deliver the referral letter to the intended recipient.</p> <p>Increasingly the mechanisms of making requests for service, such as referrals, are electronic in nature. When electronic means are used the time between creating the request for service and it being received by the intended recipient are a matter of seconds.</p> <p>The Request Correspondence Date must be less than or equal to the following related date fields: Request Received Date; Request Acknowledgement Date; Request Review Date; Request Assessment Date; Request Acceptance Date; Request Rejection Date; Request Expiry Date; Request Notified Ready For Care Date; and Service Event Start Date/time</p>
Scope:	MANDATORY Mandatory for all Request for Service records
Justification:	This data element is required because it accounts for part of the time between referral and clinical assessment and treatment. This delay can potentially be avoided or significantly reduced to enable the more timely delivery of care to clients/patients and if reduced could potentially avoid the complexity and costs of care. This data element enables the measurement of time between the request for service and the receipt of the request, as well as the measurement of the total waiting time from request for service to actual assessment and treatment. The collection of this data element therefore enables waiting times to be monitored over time and compared with peer services.

Request for Service: Request Received Date (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[REQUEST_FOR_SERVICE].[REQUEST_RECEIVED_DATE]
Data Element ID:	10424
Version:	1.0
Definition:	The date that the health organisation or service unit to whom the patient was referred became aware a service was required, usually the date the referral is received by the health organisation or service unit.
Status Allocation Date:	
Representation	
Data Type:	Date
Form:	Date
Field Size:	Minimum: 8 Maximum: 8
Representation Layout:	YYYYMMDD
Unit Of Measure:	
Additional Information:	Formatted as 'YYYY-MM-DD' when provisioned to cubes.
Collection and Usage Guide	
Guide for Use:	<p>Requests for Admission</p> <p>For requests for admission, including requests for elective surgery or non-admitted services, the request received date should be reported as the date the hospital or service actually received the request. Where this is a Request for Admission form it must be compliant with all requirements outlined in the Wait List Management Policy.</p> <p>For emergency admissions, the request received date is not a mandatory reporting item.</p> <p>Where a client/personal carer or medical professional contacts the hospital or community health service and requests a non-admitted patient service, and the written referral is provided at the first appointment, then the date that the client contacted the health service and was either put on a wait list or issued an appointment date should be used (rather than the date the written referral was actually received).</p> <p>Where the service does not require a formal referral from a medical professional (that is the request for service is a self referral), report the date and time that the client or their personal carer first requested the service unit or health care provider to provide the non-admitted patient service.</p> <p>Where the service is provided as an unscheduled walk-in service and the service does not require a formal referral from a medical practitioner (that is the request for service is a self referral), the referral receipt date should be reported as the service event date.</p> <p>As a result of the guidelines outlined above, the referral receipt date may be different from the: 1. date of correspondence recorded on the referral letter by the referring medical professional; 2. date that the referral was first recorded on the</p>

	source system; and 3. date of the initial consultation.
	The referral receipt date/time must be less than or equal to the service event start date/time and greater than or equal to the referral (issue) date/time.
Scope:	MANDATORY Mandatory for all Request for Service records
Justification:	Required to assist in calculating the period between receipt of request for service and the first service event. This field supports analysis of the demand for services. Although some clients are self-referred to community health and outpatient services, collecting the date of referral together with the date of the service event allows waiting times to be measured, which can be used to assess service access.

Request for Service: Request Expiry Date (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[REQUEST_FOR_SERVICE].[REQUEST_EXPIRY_DATE]
Data Element ID:	10425 Version: 1.0
Definition:	The date that a request for service expires, usually as set by Medicare.
Status Allocation Date:	
Representation	
Data Type:	Date
Form:	Date
Field Size:	Minimum: 8 Maximum: 8
Representation Layout:	YYYYMMDD
Unit Of Measure:	
Additional Information:	Formatted as 'YYYY-MM-DD' when provisioned to cubes.
Collection and Usage Guide	
Guide for Use:	Not all requests for service will have an expiry date. To remain eligible for some Medicare benefits, a renewed referral is required. In CHIME, one Referral may have many Allocations; for EDW, each Allocation is considered a new Referral.

Request for Service: Client Identifier Type Code - Client Registration (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	CLIENT_ID_TYPE_CODE
Data Element ID:	10429 Version: 1.0
Definition:	The type of client identifier being reported to uniquely identify the client / patient.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 3 Maximum: 3
Representation Layout:	NNN
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>Client identifier type code is always reported and used in conjunction with the client identifier and client identifier issuing authority.</p> <p>NSW Health allocates its clients two main types of client identifiers:</p> <ol style="list-style-type: none"> 1) Medical Record Numbers (MRN) which typically identifies unique persons within the context of one or more health organisations (i.e.: hospital or community health service) and 2) An Area Unique Client identifier (AUID) which typically identifies unique persons within the context of a NSW Health District/Network (or former NSW Area Health Service) or an instance of the Patient Administration System (PAS). <p>A unique person is likely to have many MRNs and many AUIDs if they have attended multiple NSW Health hospitals and community health centres, and if they have sought or received services from multiple Local Health Districts. A client must only have one Major MRN or AUID in the same source system at any one time.</p> <p>In some source systems client identifier types include minor identifiers. These are identifiers that were previously used to identify the client that are no longer used. This may be because the client registration was found to be a duplicate. In such cases one of the identifiers may be made a minor identifier while the major identifier continues to be used.</p>
Scope:	<p>MANDATORY</p> <ul style="list-style-type: none"> • Mandatory for all client identifier records
Justification:	The Client Identifier Type Code is used to qualify the Client Identifier in conjunction with the Client Identifier Issuing Authority.

It also can be used in reports to select the type identifier the report user would prefer to see displayed.

Domain

Domain name:	Client Identifier Type Code (EDW)
Domain ID:	9850 Version: 1.0
Domain definition:	The code for the type of client identifier reported in the accompanying Client Identifier data element.
	Note: This is only for use in the EDWARD Client Characteristics Data Stream. See other versions for other data streams with restricted set of domain values.

Domain value set

Code	Descriptive label	Definition
004	Area Unique Person Identifier	The identifier that uniquely identifies the client / patient at an area level, that is a level above the hospital, community health service and local health district level, but below the State and/or national level. As of January 2011, this level equates to the former NSW Area Health Services that were dissolved on 31 December 2010.
016	Medical Record Number (Local)	The identifier that uniquely identifies the client at the local hospital or community health service level. This is typically the identifier used on physical medical records and other documents relating to the client at the front line. For some services or clients this identifier may be the same as the area client identifier.
054	Minor Amalgamation Identifier	A client identifier that was previously actively used to uniquely identify a patient, and where is cannot be determined as either an Area Unique patient identifier or a local medical record number.
		Note: This is only for use by selected iPM sites, where the build and version require it to be used.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
056	Medical Record Number (Temporary Local)	The temporary unique Identifier assigned to the client / patient, generally used by hospital emergency department during periods where is no administrative support to fully register client.
057	Replicated Medical Record Number (Local)	<p>Note: This is only for use by iPM sites.</p> <p>A replicated Medical Record Number is for the aliasing of client identifiers recorded in a secondary PAS, that is a PAS other than the PAS that issued the original Medical Record Number.</p> <p>For example, if iPM issued the Medical Record Number, and this Medical Record Number was then stored in Cerner PAS, the Cerner PAS version of the MRN should have a client identifier type code of "057" so that the Cerner PAS version of the client identifier does not over-ride the iPM PAS version of the client registration record. It is only intended to be reported via the EDWARD Client Data Stream. Other data streams, must report "004" or "016".</p>

Request for Service: Client Identifier Issuing Authority (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	CLIENT_ID_ISSUING_AUTHORITY
Data Element ID:	10431
Version:	1.0
Definition:	The code assigned to the entity, usually an organisation (such as a hospital, health service, or community health service), that issued the unique client identifier reported in the Client Identifier (or Major Client Identifier) field.
Status Allocation Date:	
Representation	
Data Type:	Numeric
Form:	Code
Field Size:	Minimum: 7 Maximum: 8
Representation Layout:	N[7]{N}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>All issuing authorities of client identifiers must be registered in HERO, and the entity (organisation) identifier assigned by HERO is the reportable code for this data element. Issuing authority of client identifiers in NSW Health are usually an Area Health Service (for the Area Unique Patient Identifier), a hospital or a community health organisation.</p> <p>There will usually be many Local IDs linked to a Primary ID, in which case each relationship is created as new row in the EDW CLIENT_LOCAL_IDENTIFIER table.</p> <p>In the case that one client record is merged with another client record, the Replacement Primary Client Identifier Issuing Authority is the State standard unique identifier assigned to the source system that issued the major primary client identifier that will replace the minor primary client identifier.</p> <p>Also known as:</p> <ul style="list-style-type: none"> Major Client Identifier Issuing Authority Replaced Primary Client Identifier Issuing Authority
Scope:	Client data stream
Justification:	Required to assist with the identification of an individual. Required to analyse care received by individual patients, following the patient journey. These analyses can examine the use of the health system by individuals to see the care and treatment they receive across settings and over time. This identifier also enables analyses of patterns of disease within the community.
Supporting Information:	
Domain	
Domain name:	Client Identifier Issuing Authority Code (EDW)
Domain ID:	10102
Version:	1.0
Domain definition:	The code assigned to the entity, typically an organisation, Management Authority of a former Area Health Services, or an Issuing Authority for a pool of Medical Record Numbers, that

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

issues the unique client Identifier.

Includes private hospitals (PeriPH), CIAA (AUID) and public hospitals (MRNs)

Note: All Issuing Authorities of client identifiers must be registered in HERO, and the entity identifier assigned by HERO is the reportable code for this data element.

Request for Service: Client Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	CLIENT_ID
Data Element ID:	10432
Version:	1.0
Definition:	A unique personal identifier assigned by the source system where the client is registered, used to identify a client within a health service, hospital or community health organisation.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>The client identifier is also commonly known as Medical Record Number (MRN) or Area Unique Identifier Number (AUID).</p> <p>When reported, this data element is used to report all client identifier types (MRN, AUID etc...) assigned to the client by any health service within the scope of the Patient Administration System (PAS) where the client is registered.</p> <p>It is a mandatory requirement that client identifiers that may have been assigned by minor source systems are also stored in the PAS and reported to EDWARD via the Client Data stream. It is also mandatory to report both major and minor client identifiers as minor identifiers may be required for historical data. Minor client identifiers can result from duplicated client registrations in the same source system followed by a merge of the two registrations. The decision as to which client identifier to keep using (major client identifier) and which one(s) are no longer used (minor client identifiers) is a local process but wherever possible the lowest number should be kept as the major.</p> <p>Where the client is assigned only an Area Unique Person Identifier (Client ID Type Code = 004), the Area Unique Person Identifier must also be reported as the Medical Record Number (Client ID Type Code = 016) (i.e.: the same identifier for both the MRN and AUID).</p> <p>There may be multiple client identifiers associated with one major primary client identifier.</p> <p>Provision of a client identifier is not required where aggregate level data is being provided as no client identifier is required in these datasets.</p>
Scope:	<p>CONDITIONAL</p> <ul style="list-style-type: none"> Mandatory for all client level reporting.
Justification:	Required to assist with the identification of an individual, and client characteristics reported via the client data stream to other

EDWARD data stream and facts, such as requests for service, planned event offers, wait list bookings, service events. Required to lookup Area Unique Patient Identifiers, State Unique Patient Identifiers and National Unique Patient Identifiers.

The client identifier is a national mandatory reporting requirement to external health agencies such as the Australian Institute of Health and Welfare, the Australian Government Department of Health, the Independent Hospital Pricing Authority, the Hospital Funding Pool Administrator.

Client Identifiers are also used to analyse packages of care received by individual patients for related problems, which often referred to as analysis of the patient journey through the NSW Health system. These analyses can examine the use of the health system by individuals to see the care and treatment they receive across settings and over time. This identifier also enables analyses of patterns and incidence of disease within the community.

9475-001	HERO - Statewide	

Request for Service: Requesting Organisation Service Provider Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[REQUEST_FOR_SERVICE].[REQUESTING_OSP_ID]
Data Element ID:	10952
Version:	1.0
Definition:	The NSW Health state unique identifier (assigned by HERO) for the Organisation Service Provider that requested the health service.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>A requesting organisation may be a hospital, a hospital emergency department, a hospital outpatient clinic / service unit, a community health organisation, a community health service unit, or any other NSW Health managed organisation entity.</p> <p>A referring organisation may also be an organisation external to NSW Health such as a private general practice, private hospital or day procedure centre, private residential aged care facility, interstate hospital, or another government human services agency.</p> <p>All organisation entities that commonly refer patients to the NSW Health Services should be registered in HERO and their HERO Identifier recorded as an organisation alias code in the source system.</p> <p>For some service events, the referring organisation may be unknown, not represented as a referring organisation in the source system, the patient may refer themselves, or the patient may be referred by an individual who is not associated with an organisation. In these cases the referring organisation need not be reported on the request for service record.</p> <p>This data element must be reported in conjunction with Requesting Organisation Source Identifier.</p>
Scope:	MANDATORY Mandatory for all Request for Service records
Justification:	Provides information on referral patterns to monitor patient journey's and flows through the NSW Health Services. This information will facilitate improved planning of services and health outcomes.

Request for Service: Requesting Individual Service Provider Identifier Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[REQUEST_FOR_SERVICE].[REQUESTING_ISP_ID_TYPE_CODE]		
Data Element ID:	10953	Version:	1.0
Definition:	The sort of identifier associated with the Requesting Individual Service Provider Identifier.		
Status Allocation Date:			
Representation			
Data Type:	Alphanumeric		
Form:	Code		
Field Size:	Minimum:	3	Maximum: 3
Representation Layout:	X{3}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>This must always be set to '035' (Source System Unique Person ID) and must be reported in conjunction with the Requesting Individual Service Provider Identifier, as it forms a foreign key join to the individual provider details.</p> <p>If the Requesting Individual Service Provider Identifier is not reported then the Requesting Individual Service Provider Identifier Type Code should not be reported.</p> <p>The Requesting Individual Service Provider Identifier and Requesting Individual Service Provider Identifier Type Code will only be reported if the requesting individual service provider is known and registered with the source system.</p>		
Scope:	<p>CONDITIONAL</p> <ul style="list-style-type: none"> Mandatory when a requesting individual service provider record is reported. 		
Justification:			
Supporting Information:			
Domain			
Domain name:	Individual Service Provider Identifier Type Code (EDW)		
Domain ID:	10961	Version:	1.0
Domain definition:	A code representing the type of requesting identifier associated with the Individual Service Provider.		
	Based on 'Person Identifier Type 1.2' Domain.		
Domain value set			
Code	Descriptive label	Definition	
035	Source System Unique Person ID

Service Event and Admitted Data Object ID 112

Business context

This object holds a record for an admitted service event. This object holds a record for each service event delivered to a client in an Admitted Patient – Public setting by a service provider, regardless of the setting.

For admitted patient, a service event equates to what is commonly referred to as an 'episode of care'. Each 'episode of care' has a single 'Care Type'.

Business rules for reporting

Service Event is a mandatory data object, i.e. every Service Provision for Admitted patient – Public supplied in this data container must have a Service Event record.

This data container consists of data targeted for the Service Event table and for the Service Event Admitted table (that contains additional data specific to an Admitted Patient – Public service event).

Each separate service event provided within a known encounter with the health service must have a unique SERVICE_EVENT_RECORD_ID. In the example of an emergency department service event followed by an admitted patient service event, the emergency department service event must have a different SERVICE_EVENT_RECORD_ID to the admitted patient service event, and may or may not share the same SERVICE_ENCOUNTER_RECORD_ID.

When reporting unbroken sequential service event records for an Admitted Patient – Public patient stay in hospital, each care type change must have the same SERVICE_ENCOUNTER_RECORD_ID and a unique SERVICE_EVENT_RECORD_ID for each service event.

Service Event and Admitted: Service Event Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	SERVICE_EVENT_TYPE_CODE		
Data Element ID:	10339	Version:	1.0
Definition:	An indication of whether the service event is for a community health / outpatient care services, an admitted patient service, a residential aged care service, or an emergency department service.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 2
Representation Layout:	X{2}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The Service Event Type Code should always be set to 1 (Emergency) when service events are reported for via the emergency department data stream, even though the emergency department system may include some planned outpatient services.</p> <p>The Service Event Type Code should be set to either 2 - Admitted or 3 - Residential based on the type of health organisation being reported. Multi Purpose Services typically are created as both an admitted patient organisation and a residential aged care organisation, and this distinction should be used to assign the appropriate Service Event Type Code (via an alias of the health organisation).</p> <p>The Service Event Type Code should always be set to '4' (Outpatient / Community Health) when service events are reported via the community health and outpatient care data stream.</p>		
Scope:	MANDATORY Mandatory for all Service Event and Admitted records		
Justification:	Used to distinguish the setting of the service event. This determines the data elements that will be available for analysis and reporting.		
Supporting Information:			
Domain			
Domain name:	Service Event Type Code (EDW)		
Domain ID:	10338	Version:	1.0
Domain definition:	An indication of whether the service event is for a community health / outpatient care services, an admitted patient service, a residential aged care service, or an emergency department service.		

Domain value set

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
1	Emergency Department service	<p>Covers emergency services provided in an emergency department setting, and includes dead on arrival patients.</p> <p>This category may include some services provided in emergency department settings, such as planned outpatient clinic services delivered out of hours in the emergency department setting, however the preference is for these to be reported as 4 - Outpatient / Community Health services and comply with the community health and outpatient care service event reporting requirements.</p>
2	Admitted patient service	<p>Covers formal admissions to a recognised hospital or multi purpose service for admitted patient care.</p> <p>Prior to 1 Jan 2018, this included admissions where the patient was formally admitted and discharged as an inpatient while in the emergency department (where such activity was recorded in the admitted patient module of the patient administration system).</p>
3	Residential care service	<p>Includes residential aged care services reported by residential aged care facilities, including multi-purpose services and (rural) integrated health services. That is, Commonwealth funded designated residential aged care beds.</p> <p>Includes community residential care services (e.g. covering mental health services).</p>
4	Non-admitted patient service	<p>Includes all community health services, outpatient care services. May include some services provided in emergency department settings, and health support services (such as services provided under the National Disability Insurance Scheme). This category covers planned outpatient clinic services delivered out of hours in the emergency department setting.</p> <p>Note: This category may be used for reporting consultation liaison services provided by non-admitted patient service units to admitted patients, emergency department patients, and persons in living in residential care settings.</p>
6	Supplementary service	<p>Supplementary (auxiliary) services provided to an admitted patient either as part to an Admitted Patient team or Emergency Department team or as a consultation liaison service provided by a NAP team for reporting the following data set extensions:</p> <ol style="list-style-type: none"> 1. Allied Health Data Set Extension 2. Violence, Abuse Neglect (VAN) Data Set Extension
7	Specialist mental health service	<p>A specialist non-admitted patient mental health service.</p> <p>Note: These services have traditionally been referred to as "Community Health Ambulatory" clients and were reported to the HIE data warehouse via the "CHAMB" extract.</p>

Service Event and Admitted: Service Event Source Identifier (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	SERVICE_EVENT_SOURCE_ID		
Data Element ID:	10449	Version:	1.0
Definition:	A unique code assigned to the instance of the source system that issued service event record identifier.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 20
Representation Layout:	N(NNNN)-NNN		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	The service event source system may or may not be the same as the source system reporting this event, for instance where one system is used for booking and scheduling events and another for recording the provision of services. The booking system may issue service event ID that the service provision system accepts and records activity against. In this scenario the service provision system will report the activity against the Service Event ID issued by the booking system. In the case where the one system is used to both book schedule events as well as record the provision of services, the service event source system and source system will be the same.		
Scope:	MANDATORY Mandatory for all Service Event records		
Justification:	This is a technical field used to uniquely identify each service event record, and forms part of the primary key of the service event notification records. It is used for record insert, update and ageing processes in the EDWARD data warehouse.		
Supporting Information:			
Domain			
Domain name:	Service Event Source Identifier - All Service Event Types (EDW)		
Domain ID:	10398	Version:	1.0
Domain definition:	A code representing source systems for reporting service event data covering admitted patients, non-admitted patient, emergency department and residential care services.		
	Note: This is a subset of 'EDW - Record Source System Identifier 1.0'. ie does not contain alpha suffix identifiers or non patient source system identifiers. This domain is also used for both "Service Event Source Identifier" and Service Activity Source Identifier".

9475-001	HERO	Note: This is only for use in the Service Event Provider file in the Service Provider Source ID field when reporting organisation service provider records.

Service Event and Admitted: Service Encounter Record Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	SERVICE_ENCOUNTER_RECORD_ID
Data Element ID:	10928
Version:	1.0
Definition:	A source system assigned unique identifier for a record representing a client's continuous contact with a health organisation. One encounter may have one or many service events, each of a different or same service event type.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	This may also be known as "Stay Number".
	<p>In the admitted patient context, an encounter must represent at least a period of stay in hospital and cover the period of the formal admission to the formal discharge (i.e. including one or more service category type changes). Such encounters may, or may not, also cover an emergency department presentation which results in an admission (note that this may vary based on the source system(s) used).</p> <p>In a non-admitted patient context, an encounter may represent a period where the patient has an on-going course of treatment for a particular issue / problem, with service events (contacts) on non-contiguous calendar days. For activity reported via some source systems, one encounter will always equate to one service event (due to the system design and implementation).</p> <p>For the Cerner HNA Millennium Source System this should be the HERO Identifier for the hospital concatenated with the Visit Number.</p>
Scope:	MANDATORY Mandatory for all Service Event and Admitted records
Justification:	This data element is required to ensure uniqueness of a service event identifier. To this extent it is necessary for source systems where one record is used for more than one type of service events when they are provided continuously back to back. This data element can be used to link such service events together.

Service Event and Admitted: Service Event Record Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	SERVICE_EVENT_RECORD_ID
Data Element ID:	10450 Version: 1.0
Definition:	The unique identifier assigned by the source system to the service event record. See also the definition of the Service Event concept.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	In the context of admitted patient services, this represents the unique record identifier of the "episode of care". A new service event record identifier must be reported for each service category / care type change within a continuous stay in hospital. In the context of emergency department services, this represents the unique record identifier of a presentation of a patient to the emergency department, and includes patients who did not wait for the service. In the context of community health or outpatient care services, a service event is an instance of service provision to one or more clients by one or more individual service providers.
Scope:	All types of service events, including admitted, emergency department, residential care, community health and outpatient care.
Justification:	The service event record identifier is used as a primary key and foreign key. In the context of a primary key it is used in EDWARD to determine whether a service event record should be inserted, updated or aged.

Guide for Use:			
Scope:	MANDATORY Mandatory for all Service Event and Admitted records		
Justification:			
Supporting Information:			
Domain			
Domain name:	Wait List / Planned Service Event Type Code (EDW)		
Domain ID:	11011	Version:	1.0
Domain definition:	Indicates whether the offer is an offer of a community health / outpatient service event, or a formal admission to hospital. Only relevant to scheduling, so does not include emergency admissions. Based on 'Service Event Type Code 1.0' Domain.		

Domain value set

Code	Descriptive label	Definition
2	Admitted patient service event	Covers formal admissions to a recognised hospital or multi-purpose service for admitted patient care. Prior to 1 Jan 2018, this included admissions where the patient was formally admitted and discharged as an inpatient while in the emergency department (where such activity was recorded in the admitted patient module of the patient administration system).
3	Residential care service event	Includes residential aged care services reported by residential aged care facilities, including multi-purpose services and (rural) integrated health services. That is, commonwealth funded designated residential aged care beds.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
4	Community health or outpatient care service event	<p>Includes community residential care services (e.g. covering mental health services).</p> <p>Includes all community health services, outpatient care services. May include some services provided in emergency department settings, and health support services (such as services provided under the National Disability Insurance Scheme). This category covers planned outpatient clinic services delivered out of hours in the emergency department setting.</p> <p>Note: This category may be used for reporting consultation liaison services provided by non-admitted patient service units to admitted patients, emergency department patients, and persons in living in residential care settings.</p>
5	Supplementary service to an admitted or emergency department patient	<p>Supplementary (auxiliary) services provided to an admitted patient either as part to an Admitted Patient team or Emergency Department team or as a consultation liaison service provided by a NAP team for reporting the following data set extensions:</p> <p>1. Allied Health Data Set Extension 2. Violence, Abuse & Neglect (VAN) Data Set Extension</p>
6	Specialist mental health service	<p>A specialist non-admitted patient mental health service that is in scope of the mental health program.</p> <p>Note: These services have traditionally been referred to as "Community Health Ambulatory" clients and were reported to the HIE data warehouse via the "CHAMB" extract</p>

Service Event and Admitted: Planned Event Offer Source Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT].[PLANNED_EVENT_OFFER_SOURCE_ID]
Data Element ID:	10439
Version:	1.0
Definition:	The unique identifier of the source system used to maintain details of the Planned Event Offer of an appointment or admission date.
Status Allocation Date:	

Representation	
Data Type:	Alphanumeric
Form:	Code
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	N(NNNN)-NNN
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	This will usually be the same value as the SERVICE_EVENT_SOURCE_ID and WAIT_LIST_BOOKING_SOURCE_ID.
Scope:	MANDATORY Mandatory for all Service Event and Admitted records
Justification:	
Supporting Information:	

Domain	
Domain name:	Service Event Source Identifier - All Service Event Types (EDW)
Domain ID:	10398
Version:	1.0
Domain definition:	A code representing source systems for reporting service event data covering admitted patients, non-admitted patient, emergency department and residential care services.
	Note: This is a subset of 'EDW - Record Source System Identifier 1.0'. ie does not contain alpha suffix identifiers or non patient source system identifiers. This domain is also used for both "Service Event Source Identifier" and Service Activity Source Identifier".

Collection and Usage Guide	
Guide for Use:	<p>The 'Collaborative Care Service Flag' should be set to 'Y' if the service event has been performed as part of a contract or collaborative care arrangement with another Organisation Service Provider. If the 'Collaborative Care Service Flag' is set to 'Y' then the 'Collaborative Care Rle Flag' must also be reported.</p> <p>Collaborative Care is care provided to a patient under an agreement between a purchaser / requestor and a provider of services. It includes contracted care (between a private sector admitted patient facility and a public sector admitted patient facility where a financial agreement is in place) and arrangements between two public hospitals where both sites provide part of the continuous care, and where at least one provides a same-day service, regardless of financial arrangements.</p> <p>To determine whether a service event has been provided under a collaborative care arrangement within a community health or outpatient care context regard should be paid to the following:</p> <ol style="list-style-type: none"> (1) The service provided must meet the definition of a 'service event'. (2) The arrangement must be between two health Organisation Service Providers, of which at least one must be a NSW Health public sector community health or outpatient care OSP and be required to report community health or outpatient care activity at the service event level. (3) The arrangement must be for the provision of one or more service events as defined under a contractual document. (4) The arrangement must involve some consideration of payment, e.g. direct payment for each service event, block payment for a defined number of service events. <p>Contracted Care, a subset of Collaborative Care, involves all of the following: (1) a purchasing facility (a recognised public</p>

	<p>hospital, public multi purpose service, private hospital or private day procedure centre) or a purchasing LHN; (2) a contracted admitted patient service provider (a recognised public hospital, public multi purpose service, private hospital or private day procedure centre); (3) a formal agreement or arrangement between the purchaser and the service provider to provide specific services, which may or may not include a financial payment, and (4) the patient being physically present in the contracted hospital for the provision of a contracted service.</p> <p>Collaborative Care excludes (1) Services provided to a patient in a separate facility during their episode of care, where the patient is directly responsible for all payments (medical and accommodation) relating to this additional service; (2) Pathology or other investigations performed at another location on specimens gathered at the purchasing hospital; (3) The arrangements with privately owned and/or operated public hospitals (e.g. Port Macquarie and Hawkesbury); (4) Services provided by one public hospital on behalf of another public hospital within the same LHN where the patient receives the full admitted patient service at one hospital only; (5) Services provided by two public hospitals where the patient does not return to the hospital where they were first admitted on the same calendar day they were transferred to the second hospital; (6) Care provided to patients admitted to Commonwealth block funded Residential Aged Care Beds in Multi-Purpose Services or Residential Aged Care facilities; (7) Overnight admitted patient services provided by a public hospital to a private patient of a private hospital where the patient accepts the additional charges that could accrue from the private hospital if they are admitted directly to the private hospital outside a contract arrangement (such as charges above the schedule fee for clinical services). (Note: This situation must involve a discharge from the first hospital, and a formal admission at the second hospital. It may also be followed by a discharge from the second hospital, then a formal readmission at the first hospital); (8) Overnight admitted patient services provided to public patients by a public ho</p>
Scope:	<p>MANDATORY</p> <p>Mandatory for all Service Event and Admitted records</p>
Justification:	<p>Collaborative care services need to be identified as they impact funding and expenditure. Service events provided under collaborative care arrangements may indicate that payment for the service is derived from a different source of funding than the majority of service events. Identification of service events that are funded by another responsible service provider under contract ensures the same service is not paid for twice.</p> <p>Collaborative care arrangements needs to be identified in order to ensure the same service event is not double counted where both the purchaser and provider are required to report the activity.</p>

Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>Collaborative care arrangements include:</p> <ol style="list-style-type: none"> 1. public to private contract arrangements 2. arrangements between two public health organisations where both health organisation provide a continuous service to the patient and one health organisation provides a same day service on behalf of the other. <p>Note: Collaborative Care arrangements include both public to private contract arrangements, and arrangements between two public facilities where both facilities provide a continuous service to the patient, and one facility provides a same day service on behalf of the other hospital.</p> <p>Collaborative care is provided to a patient under an agreement between a purchaser and a provider of admitted patient services. It includes:</p> <ul style="list-style-type: none"> -contracted care between a private sector facility and a public sector facility where a financial agreement is in place; -arrangements between two public hospitals where both sites provide part of the continuous care, and where at least one provides a same-day service, regardless of financial arrangements. <p>Contracted care is a subset of collaborative care. It includes all of the following:</p> <ul style="list-style-type: none"> -a purchasing facility (a recognised public hospital, public multi-purpose service, private hospital or private day procedure centre) or a purchasing Area Health Service; AND -a contracted admitted patient service provider (a recognised public hospital, public multi-purpose service, private hospital or private day procedure centre); AND 		

-a formal agreement or arrangement between the purchaser and the service provider to provide specific admitted patient services, which may or may not include financial payment; AND
 -the patient being physically present in the contracted hospital for the provision of an admitted patient contracted service.

Collaborative care excludes:

-additional services provided to a patient in a separate facility during their episode of care where the patient is directly responsible for all payments (medical and accommodation);
 -pathology or other investigations performed at another location on specimens gathered at the purchasing hospital;
 -arrangements with privately owned and/or operated public hospitals (eg Hawkesbury);
 -services provided by one public hospital on behalf of another public hospital within the same Area health Service where the patient receives full admitted patient service at one hospital only;
 -services provided by two public hospitals where the patient does not return to the hospital where they were first admitted on the same calendar day they were transferred to the second hospital;
 -care provided to patients admitted to Commonwealth block funded residential aged care beds in multi-purpose services or residential aged care facilities;
 -overnight admitted patient services provided by a public hospital to a private patient of a private hospital where the patient accepts additional charges that could accrue if they are admitted to the private hospital outside a contract arrangement (such as charges above the schedule fee for clinical services). (Note: this situation must involve a discharge from the first hospital and a formal admission at the second hospital. It may also be followed by a discharge from the second hospital, then a formal readmission at the first hospital);
 -overnight admitted patient services provided to public patients by a public hospital or multi-purpose service, that is, a patient is referred from, and returns to another public hospital or multi-purpose service on different calendar days. (Note: this situation must involve a discharge from the first hospital, admission at the second hospital followed by a discharge, then a re-admission at the first hospital);

This information should be collected from an administrative file or system and provided by the facility's administration.

Both the facility purchasing and the facility providing the service must report the collaborative care service.

The concept is not in scope of the reporting of admitted patient services events of Hawkesbury District Health Service, Chris O'Brien Lifecare or Northern Beaches Hospital. These are privately operated health organisation that report the admitted patient service event and, unlike other contractual arrangements with the private sector, these admitted patient service event are not reported or coded by a health organisation operated by NSW Health staff.

Scope:

CONDITIONAL

- Mandatory where the admitted patient service event is provided fully or in part under a collaborative or contracted care arrangement.

Justification:	Collected for the purposes of: <ol style="list-style-type: none"> 1. Monitoring the value and outcomes of contracted care services 2. Eliminating double counting of admitted patient activity during aggregate data analysis, and 3. Monitoring patient flows between the public and private sector.

Domain definition:	A classification indicating whether or not the admitted patient service being provided during this stay in hospital is being performed under a collaborative arrangement with another public/private facility or Local Health District / Specialist Health Network.

Domain value set

Code	Descriptive label	Definition
0	Single Facility Admitted Patient Care	<p>The admitted patient service was provided entirely by the reporting public sector facility and no collaborative care arrangement, either purchased from or provided to another facility was made.</p> <p>When two public hospitals provide continuous services to a patient and the patient stays overnight at the second public hospital (regardless of whether or not the overnight stay was planned), the patient must be formally discharged from the first facility, and transferred and formally admitted to the second facility. Both hospitals report '0 - Single Facility Admitted Patient Care' as this scenario does not involve a collaborative care service.</p>
3	Full Care Purchased from a Private Facility	<p>The admitted patient service is being reported by the facility purchasing the collaborative care service, and the entire service was provided by a private facility under a contract arrangement. The service may be a same-day or overnight service.</p> <p>Scenario: On the day of formal admission, the patient proceeded directly to the private facility providing the service under contract, and the patient was formally discharged from that private facility and did not transfer to the purchasing facility for further care following the contracted service.</p>
4	Part Care Purchased from a Private Facility	<p>The admitted patient service is being reported by the facility purchasing the collaborative care service, and part of the admitted patient service was provided by a private facility under a contract arrangement. The service may be a same-day or overnight service.</p> <p>Scenario 1: On the day of formal admission, the patient proceeded directly to the private facility providing the service under contract, and following the completion of the contract service the patient was transferred to the purchasing facility for further admitted care.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
5	Part Care Obtained from another Public Facility	<p>Scenario 2: The patient's admission began in the purchasing hospital. Following some initial admitted patient care in the purchasing facility, the patient was transferred to a private facility for a contracted service. When the private facility completed the service, the patient was either transferred back to the purchasing facility for further care or was formally discharged without returning to the purchasing hospital.</p> <p>The admitted patient service being reported was provided by two public facilities under a collaborative care arrangement, whereby the second public hospital provided a same-day service. This value is reported by the first facility (the facility requesting the same-day service from the second public facility).</p>
7	Part Care Provided for another Public Facility	<p>Scenario: A service rationalisation arrangement exists whereby a public hospital will provide certain same day services and other public hospitals will make use of those services rather than provide them themselves. A patient is admitted to one public hospital, and requires the same day services provided by another public hospital. After some initial admitted patient treatment at the first public hospital, the patient is transferred to the second public hospital for a same day service. On completion of the service at the second hospital, the patient is either transferred back to the first hospital, or is formally discharged from both hospitals.</p> <p>The admitted patient service being reported was provided by two public facilities under a collaborative care arrangement, whereby the second public hospital provided a same-day service. This value is reported by the second facility (the facility providing the same-day service for the first facility).</p>
8	Part Care Provided for a Private Facility	<p>Scenario: A service rationalisation arrangement exists whereby a public hospital provides certain same day services and other public hospitals make use of those services rather than provide them themselves. A patient is admitted to one public hospital, and requires same day services provided by another public hospital. After some initial admitted patient care at the first public hospital, the patient is transferred to the second public hospital for a same day service. On completion of the service the patient is either transferred back to the first hospital, or is formally discharged from both hospitals.</p> <p>The admitted patient service is being reported by a public facility that is providing a service to a private patient of a private facility, where the private facility is charging the patient (or the patient's health fund) for the entire service, and the private facility is paying the public hospital for the service under a contractual arrangement.</p> <p>Scenario 1: A private hospital or private day procedure centre is purchasing the services of a public hospital for its patients. On the day of formal</p>

Representation Layout:	X(.X)
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>NHDD stands for National Health Data Dictionary.</p> <p>This is Australian national equivalent concept of the NSW Health concept referred to as "Service Category". This aligns to the National Health Data Dictionary entry with METeOR identifier 584408.</p> <p>Only one type of care can be assigned at a time. In cases when a patient is receiving multiple types of care, the care type that best describes the primary clinical purpose or treatment goal should be assigned.</p> <p>The care type is assigned by the clinician responsible for the management of the care, based on clinical judgements as to the primary clinical purpose of the care to be provided and, for mental health and subacute care types, the specialised expertise of the clinician who will be responsible for the management of the care. At the time of mental health or subacute care type assignment, a multidisciplinary management plan may not be in place but the intention to prepare one should be known to the clinician assigning the care type.</p> <p>Where the primary clinical purpose or treatment goal of the patient changes, the care type is assigned by the clinician who is taking over responsibility for the management of the care of the patient at the time of transfer. Note, in some circumstances the patient may continue to be under the management of the same clinician. Evidence of care type change (including the date of handover, if applicable) should be clearly documented in the patient's medical record.</p> <p>The clinician responsible for the management of care may not necessarily be located in the same facility as the patient. In these</p>

circumstances, a clinician at the patient's location may also have a role in the care of the patient; the expertise of this clinician does not affect the assignment of care type.

The care type should not be retrospectively changed unless it is:

for the correction of a data recording error, or the reason for change is clearly documented in the patient's medical record and it has been approved by the hospital's director of clinical services.

Subacute care is specialised multidisciplinary care in which the primary need for care is optimisation of the patient's functioning and quality of life. A person's functioning may relate to their whole body or a body part, the whole person, or the whole person in a social context, and to impairment of a body function or structure, activity limitation and/or participation restriction.

Subacute care comprises the defined care types of rehabilitation, palliative care, geriatric evaluation and management and psychogeriatric care.

A multidisciplinary management plan comprises a series of documented and agreed initiatives or treatments (specifying program goals, actions and timeframes) which has been established through multidisciplinary consultation and consultation with the patient and/or carers.

While psychogeriatric care is a subspecialty of mental health, it is an established component of subacute care. Therefore, if a patient meets the definition of psychogeriatric care, then the psychogeriatric care type should be allocated.

It is highly unlikely that, for care type changes involving subacute or mental health care types, more than one change in care type will take place within a 24-hour period. Changes involving subacute or mental health care types are unlikely to occur on the date of formal separation.

Patients who receive intervention(s) (for example dialysis, chemotherapy or radiotherapy) during the course of a subacute episode of care do not change care type. Instead, procedure codes for the acute same-day intervention(s) and an additional diagnosis (if relevant) should be added to the record of the subacute episode of care.

Palliative care episodes can include grief and bereavement support for the family and carers of the patient where it is documented in the patient's medical record.

Note: This field is not applicable for the Emergency Department services.

Scope:

Hospital admitted patient and non-admitted patient care.

Justification:

This is a national minimum data set data element for the Admitted patient care National Minimum Data Set.

For admitted patients, the type of care received will determine the appropriate casemix classification employed to classify the episode of care.

When measuring and comparing length of stay, Care Type is

used to distinguish different types of care where a longer length of stay might be expected.

Domain name:	Care Type (Admitted Patient) NHDD Code (EDW)
Domain ID:	13031 Version: 1.0
Domain definition:	The care type defines: (1) the overall nature of a clinical service provided to a patient during an admitted patient episode of care, and (2) the type of service provided by the hospital for boarders, persons living in supported accommodation, or posthumous organ procurement, and (3) the overall nature of subacute care delivered during a non-admitted patient service event.

Note: Two NSW values have been added to support NSW Health use of PAS for recording of non-admitted activity and residential care in admitted patient modules.

Domain value set

Code	Descriptive label	Definition
1	Acute care	<p>Acute care is care in which the primary clinical purpose or treatment goal is to:</p> <ul style="list-style-type: none"> manage labour (obstetric) cure illness or provide definitive treatment of injury perform surgery relieve symptoms of illness or injury (excluding palliative care) reduce severity of an illness or injury protect against exacerbation and/or complication of an illness and/or injury which could threaten life or normal function perform diagnostic or therapeutic procedures. <p>Acute care excludes care which meets the definition of mental health care</p>
2	Rehabilitation care	<p>Rehabilitation care is care in which the primary clinical purpose or treatment goal is improvement in the functioning of a patient with an impairment, activity limitation or participation restriction due to a health condition. The patient will be capable of actively participating.</p> <p>Rehabilitation care is always:</p> <p>delivered under the management of or informed by a clinician with specialised expertise in rehabilitation, and evidenced by an individualised multidisciplinary management plan, which is documented in the patient's medical record, that includes negotiated goals within specified time frames and formal assessment of functional ability.</p> <p>Rehabilitation care excludes care which meets the definition of mental health care.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
3	Palliative care	<p>Palliative care is care in which the primary clinical purpose or treatment goal is optimisation of the quality of life of a patient with an active and advanced life-limiting illness. The patient will have complex physical, psychosocial and/or spiritual needs.</p> <p>Palliative care is always:</p> <p>delivered under the management of or informed by a clinician with specialised expertise in palliative care, and evidenced by an individualised multidisciplinary assessment and management plan, which is documented in the patient's medical record, that covers the physical, psychological, emotional, social and spiritual needs of the patient and negotiated goals.</p> <p>Palliative care excludes care which meets the definition of mental health care.</p>
4	Geriatric evaluation and management	<p>Geriatric evaluation and management is care in which the primary clinical purpose or treatment goal is improvement in the functioning of a patient with multi-dimensional needs associated with medical conditions related to ageing, such as tendency to fall, incontinence, reduced mobility and cognitive impairment. The patient may also have complex psychosocial problems.</p> <p>Geriatric evaluation and management is always:</p> <p>delivered under the management of or informed by a clinician with specialised expertise in geriatric evaluation and management, and evidenced by an individualised multidisciplinary management plan, which is documented in the patient's medical record that covers the physical, psychological, emotional and social needs of the patient and includes negotiated goals within indicative time frames and formal assessment of functional ability.</p> <p>Geriatric evaluation and management excludes care which meets the definition of mental health care.</p>
5	Psychogeriatric care	<p>Psychogeriatric care is care in which the primary clinical purpose or treatment goal is improvement in the functional status, behaviour and/or quality of life for an older patient with significant psychiatric or behavioural disturbance, caused by mental illness, an age-related organic brain impairment or a physical condition.</p> <p>Psychogeriatric care is always:</p> <p>delivered under the management of or informed by a clinician with specialised expertise in psychogeriatric care, and evidenced by an individualised multidisciplinary management plan, which is documented in the patient's medical record, that covers the physical, psychological, emotional and social needs of the</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>patient and includes negotiated goals within indicative time frames and formal assessment of functional ability.</p> <p>Psychogeriatric care is not applicable if the primary focus of care is acute symptom control.</p> <p>Psychogeriatric care excludes care which meets the definition of mental health care.</p>
6	Maintenance care	<p>Maintenance (or non-acute) care is care in which the primary clinical purpose or treatment goal is support for a patient with impairment, activity limitation or participation restriction due to a health condition. Following assessment or treatment the patient does not require further complex assessment or stabilisation. Patients with a care type of maintenance care often require care over an indefinite period.</p> <p>Maintenance care excludes care which meets the definition of mental health care.</p>
7	Newborn care	<p>Newborn care is initiated when the patient is born in hospital or is nine days old or less at the time of admission. Newborn care continues until the care type changes or the patient is separated:</p> <p>patients who turn 10 days of age and do not require clinical care are separated and, if they remain in the hospital, are designated as boarders</p> <p>patients who turn 10 days of age and require clinical care continue in a newborn episode of care until separated</p> <p>patients aged less than 10 days and not admitted at birth (for example, transferred from another hospital) are admitted with a newborn care type</p> <p>patients aged greater than 9 days not previously admitted (for example, transferred from another hospital) are either boarders or admitted with an acute care type</p> <p>within a newborn episode of care, until the baby turns 10 days of age, each day is either a qualified or unqualified day</p> <p>a newborn is qualified when it meets at least one of the criteria detailed in Newborn qualification status. Within a newborn episode of care, each day after the baby turns 10 days of age is counted as a qualified patient day. Newborn qualified days are equivalent to acute days and may be denoted as such.</p>
9	Organ procurement - posthumous	<p>Organ procurement—posthumous is the procurement of human tissue for the purpose of transplantation from a donor who has been declared brain dead.</p> <p>Diagnoses and procedures undertaken during this activity, including mechanical ventilation and tissue procurement, should be recorded in accordance with the relevant ICD Australian Coding Standards. These patients are not admitted to the hospital but are registered by the hospital.</p>
10	Hospital boarder	A hospital boarder is a person who is receiving food and/or accommodation at the hospital but for whom

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		the hospital does not accept responsibility for treatment and/or care.
		Hospital boarders are not admitted to the hospital. However, a hospital may register a boarder. Babies in hospital at age 9 days or less cannot be boarders. They are admitted patients with each day of stay deemed to be either qualified or unqualified.
11	Mental Health Care	<p>Mental health care is care in which the primary clinical purpose or treatment goal is improvement in the symptoms and/or psychosocial, environmental and physical functioning related to a patient's mental disorder. Mental health care:</p> <p>is delivered under the management of, or regularly informed by, a clinician with specialised expertise in mental health;</p> <p>is evidenced by an individualised formal mental health assessment and the implementation of a documented mental health plan; and</p> <p>may include significant psychosocial components, including family and carer support.</p>
21	Residential Aged Care	<p>A non-admitted patient residential care service provided to an aged care resident who is accommodated in a residential aged care facility or multi-purpose service with designated residential aged care beds.</p> <p>Note: This category is not in scope of the National Health Data Dictionary because it is assumed to exclude non-admitted patient residential aged care. However this is required for NSW data because these residents are reported via the admitted patient data stream to EDWARD.</p>
22	Community residential	<p>A non-admitted patient residential care service provided to people who require supported accommodation in a community residential care facility with either 24 hour support, or less than 24 hour support.</p> <p>Note: This category is not in scope of the National Health Data Dictionary because it is assumed to exclude non-admitted patient residential aged care. However this is required for NSW data because these residents are reported via the admitted patient data stream to EDWARD.</p>
88	Other admitted patient care	<p>Other care is care where the principal clinical intent does meet the criteria for any of other category.</p> <p>Applicable to both admitted and non-admitted patient care.</p>

Service Event and Admitted: Previous Specialised Treatment Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT].[PREV_SPEC_TREATMENT_CODE]
Data Element ID:	10920
Version:	1.0
Definition:	An indication of whether the patient has had a previous admission or service contact for treatment in the specialty area within which treatment is now being provided.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 2
Representation Layout:	X(X)
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>A previous specialised treatment means a patient who has been seen at any time in the past within the speciality within which the patient is currently being treated (e.g. mental health or palliative care), regardless of whether it was part of the current episode or a previous admission/service contact many years in the past.</p> <p>Applies regardless of whether the previous treatment was provided within the service in which the person is now being treated, or another equivalent specialised service (either institutional or community based).</p> <p>Complete this question for all patients admitted to a designated psychiatric bed, and any patients admitted to the Service Category of "Palliative Care" at any time during the stay in hospital.</p> <p>This information should be provided by the patient. This information should be collected from an admissions form completed by the patient, or where appropriate, asked verbally. The response should be verified against the patient's medical record kept by the Health Service.</p> <p>For admitted patient service events Previous Specialised Treatment should be recorded where there has been an admission to a "Bed Type" of "04", "05", "06", "12", "13", "20", "21", "22", or "24" (designated psychiatric units) at any time during the admission, or where there has been a Service Category of "3 - Palliative Care" at any time during the admission.</p> <p>Expect a null value for the Emergency Department stream.</p>
Scope:	CONDITIONAL

- Mandatory for reporting of mental health and palliative care admitted patient, community health and outpatient care service events.

Justification: This information is collected for the purpose of enabling approximate identification of the number of new palliative care patients and mental health patients receiving specialised treatment.

Domain name:	Previous Specialised Treatment Code (EDW)		
Domain ID:	13029	Version:	1.0
Domain definition:	A code indicating whether the patient has had a previous admission or service contact for treatment in the specialty area within which treatment is now being provided.		

Domain value set

Code	Descriptive label	Definition
1	No Previous Specialised Treatment	Patient has no previous admission(s) or service contact(s) for the specialised treatment to be provided in this admission.
2	Previous Hospital Admissions	Patient has previous hospital admission(s) but no service contact(s) other than the service contact that referred the patient to the admission, for the specialised treatment to be provided in this admission.
3	Previous Service Contact Only	Patient has previous service contact(s) in addition to the service contact that referred them to the admission, but no hospital admission(s) for the specialised treatment to be provided in this admission.
4	Both Previous Admission and Service Contact	Patient has both previous hospital admission(s) and service contact(s) in addition to the service contact that referred the patient to the admission, for the specialised treatment to be provided in this admission.
5	Unknown/Not Stated	The patient was admitted to a Service Category of Palliative Care, or admitted to a Designated Psychiatric Unit and it cannot be determined whether or not the patient has had a previous admission or service contact for the specialised treatment being provided in this admission.
9	Not applicable	This data item is not applicable to this patient, that it the patient was not admitted to a Service Category of Palliative Care, nor admitted to a Designated Psychiatric Unit.

Service Event and Admitted: Primary Treatment Purpose Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT].[PRIMARY_TREATMENT_PURPOSE_CODE]		
Data Element ID:	10922	Version:	1.0
Definition:	The primary purpose or treatment goal of the service event describing the broad objective for providing the particular service event.		
	Note: This concept is referred to as the "Primary Service Category" in the Mental Health Data Dictionary 3.0		
Status Allocation Date:			
Representation			
Data Type:	Alphanumeric		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 10
Representation Layout:			
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	For services not in scope of the reporting requirements for this data element concept, the code "7 - Not Applicable" should be reported.		
	This concept is referred to as the "Primary Service Category" in the Mental Health Data Dictionary 3.0. The data concept name was changed in EDWARD to avoid confusion with the concept of "Service Category", and to better reflect the definition of the concept definition.		
	Expect a null value for the Emergency Department stream.		
Scope:	CONDITIONAL <ul style="list-style-type: none"> Mandatory for Mental Health services delivered as admitted care, community health and outpatient care and community residential care services.. 		
Justification:	This concept relates the service event to the spectrum of Mental Health policy areas for service provision. It allows interpretation of relationship between type of service and client outcomes and/or service costs. It is essential to support evaluation of relative expenditure for each primary treatment purpose.		
Supporting Information:

Domain definition:	The primary purpose or treatment of the service event.		
	(Akin to Principal Service Category in HIE / Mental Health Data Dictionary)		

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Domain value set

Code	Descriptive label	Definition
7	Not applicable	The concept of primary purpose treatment is not required to be reported for this service event, according to the business rules.
A	Acute - Clinical	relates to any client related service provision for acute episodes of mental illness characterised by recent onset of severe clinical symptoms that have potential for prolonged dysfunction or risk to self or others. Treatment is focused on clinical symptom reduction with a reasonable expectation of substantial improvement in the short term. Clients may have no previous history of psychiatric illness or may be individuals with a continuing psychiatric disorder for whom there has been an acute exacerbation of clinical symptoms. Activity must primarily involve the client's physical health, medication, status under the Mental Health Act, or other specific mental health issue.
C	Consultation (to a service unit not funded from the MH program)	relates to the provision of specialist mental health input by a provider from a Mental Health Service Unit to a service unit not funded from the Mental Health Financial Program. (The nature of the input activity will determine whether this is "consultation-liaison" to an individual client; or case conferencing; or advice, education etc).
D	Early Intervention - Depression	relates to interventions targeting people displaying the prodromal signs and symptoms of depression, including the early identification of people suffering from depression.
E	Emergency - clinical	relates to any activity that contains an urgent or unscheduled or crisis or out-of-hours component, where the client's physical health, medication, status under the Mental Health Act, or other specific mental health issue is addressed.
F	Emergency - social	relates to any activity that contains an urgent or unscheduled or crisis or out-of-hours component, where the client's housing, finances, employment, or other social issue is addressed.
G	Early Intervention - General	relates to interventions targeting people displaying the prodromal signs and symptoms of an illness, including the early identification of people suffering from a disorder, where the specific disorder is not specified.
H	Acute - Social	relates to any client related service provision for acute episodes of mental illness characterised by recent onset of severe clinical symptoms that have potential for prolonged dysfunction or risk to self or others. Treatment is focused on clinical symptom reduction with a reasonable expectation of substantial improvement in the short term. Clients may have no previous history of psychiatric illness or may be individuals with a continuing psychiatric disorder for whom there has been an acute exacerbation of clinical symptoms. Activity must primarily involve the client's housing, finances, employment, or other social issue.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
J	Promotion, Prevention or Early Intervention	Promotion, Prevention or Early Intervention, not otherwise specified.
K	Consultation (to a Mental Health Service Unit)	relates to the provision of expert mental health advice by a specialist mental health clinician from a Mental Health Service Unit regarding a client who is under the care of a different Mental Health Service Unit. (The nature of the input activity will determine whether this is "consultation-liaison" to an individual client; or case conferencing; or advice, education etc).
L	Research	relates to research done by a provider as part of their employment eg a staff specialist undertaking research or staff member in designated research position with the employing service unit. The research may also be externally funded such as NHMRC grant.
M	MH Service not otherwise specified	is included to allow minimum compliance with previous NAPOOS reporting. This simply asserts that the service was in some way related to the client's mental health. This is to be used as the default value when no more specific information is available and can be used to categorise generalist MH service entities
N	Early Intervention - Anxiety	relates to interventions targeting people displaying the prodromal signs and symptoms of an anxiety disorder, including the early identification of people suffering from a disorder
P	Mental Health Promotion	related to action to maximise mental health and wellbeing among populations and individuals.
Q	Emergency/acute - clinical/social	Any emergency/crisis/acute client related service provision. This is a non-preferred code for use only when the distinctions between E,F,A,H cannot be made.
R	Rehabilitation - clinical	relates to any client related service provision where some functional gain of a clinical nature is expected eg CBT for reduced vulnerability to stress, relapse prevention, medication concordance education, etc. Activity must primarily involve the client's physical health, medication, status under the Mental Health Act, or other specific mental health issue
S	Rehabilitation - social	relates to any client related service provision where some functional gain of a social nature is expected eg improved life skills performance. Activity must primarily involve the client's housing, finances, employment, or other social issue
U	Extended - social	relates to any client related service provision of an ongoing nature where improvement is not expected but where the goal is maintenance of current social status and relapse prevention. Activity must primarily involve the client's housing, finances, employment, or other social issue
V	Mental Illness Prevention	relates to interventions that occur before the initial onset of a disorder.
W	Non acute - clinical/social	relates to any non acute client related service provision. This is a non-preferred code for use only when the distinctions between R, S, X or U cannot be made.
X	Extended - clinical	relates to any client related service provision of an ongoing nature where improvement is not expected but where the goal is maintenance of current clinical

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
Y	Early Intervention - Psychosis	status and relapse prevention. Activity must primarily involve the client's physical health, medication, status under the Mental Health Act, or other specific mental health issue. relates to interventions targeting people displaying the prodromal signs and symptoms of psychosis, including the early identification of people suffering from psychosis. This specifically includes all client care provided according to protocols defined by the EI program.

		residential service to women (and their children) who have been involved in domestic violence.
10	Other Supported Accommodation	Includes patients whose usual place of accommodation is in any other supported accommodation facility, such as a hostel for people with disabilities. These facilities provide board and lodging and rostered care workers provide client support services.
11	Prison / Detention Centre	Includes patients whose usual place of accommodation is in a prison, remand centre or youth training centre.
12	Homeless / No usual residence	Includes patients whose usual place of accommodation is a public place where homeless people reside – for example, parks, streets, bridges, tunnels.
		Excludes Informal Housing.
15	Brain Injury Transitional Living Unit	Transitional Living Units are a service provided under the Brain Injury Rehabilitation Program. They provide a supervised residence and a short term set of treatments that promote evaluation and development of a client's functional independence, psychological independence and community integration following brain injury. A client who participates in a transitional living program, receives a minimum of three hours of therapy support each day (primarily weekdays).
17	Indigenous Community / Settlement	Note: For reporting from 1 July 2018.
18	Caravan / Mobile Home on a serviced site	Note: For reporting from 1 July 2018.
19	Community residential, not elsewhere classified	Note: For reporting from 1 July 2018.
20.01	Hospital - Acute	An establishment that provides at least minimal medical, surgical or obstetric services for inpatient treatment and/or care, and which provide round-the-clock comprehensive qualified nursing service as well as other necessary professional services. They must be licensed by the state health department, or controlled by government departments. Most of the patients have acute conditions or temporary ailments and the average stay per admission is relatively short. Includes: Hospitals and other health care facilities but not specialised prison health facilities or psychiatric hospitals.
		Note: For reporting from 1 July 2018.
20.02	Hospital - Psychiatric	Includes patients whose usual place of accommodation is any hospital or unit of a hospital dedicated to the provision of treating mainly psychiatric patients.
		Note: For reporting from 1 July 2018.
20.03	Hospital - Rehabilitation	An establishment that provides care in which the primary clinical purpose or treatment goal is

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>improvement in the functioning of a patient with an impairment, activity limitation or participation restriction due to a health condition. The patient will be capable of actively participating.</p> <p>Rehabilitation care is always: delivered under the management of or informed by a clinician with specialised expertise in rehabilitation, and evidenced by an individualised multidisciplinary management plan, which is documented in the patient's medical record, that includes negotiated goals within specified time frames and formal assessment of functional ability.</p> <p>Note: For reporting from 1 July 2018.</p>
20.99	Hospital - not elsewhere classified	<p>Includes: Multi-purpose services</p>
24	Informal housing	<p>Note: For reporting from 1 July 2018.</p> <p>Residence occupied outside legal tenure arrangement, improvised and makeshift dwellings.</p> <p>Includes: Squat, humpy, tent.</p>
97	Other Accommodation, not elsewhere classified	<p>Note: For reporting from 1 July 2018.</p> <p>Includes patients usually accommodated in any other type of accommodation not covered by the other categories in this classification. For example, a person who has been living in a rented hotel or motel room for more than three months.</p>
98	Declined to respond	<p>Note: For reporting from 1 July 2018.</p> <p>The client / patient did not wish to supply a response to the question about their usual accommodation.</p>
99	Unknown / Not Applicable	<p>Includes patients for whom their place of usual accommodation is not able to be determined due to the fact that:</p> <ul style="list-style-type: none"> - the patient is unable to inform staff about their usual place of accommodation when asked at any point during their episode of care, and - there is no other person (such as a carer, referring support worker, relative, or next of kin) known who could provide information about the patient's place of usual accommodation. <p>Includes mental health patients who were not accommodated in a designated psychiatric unit at any point during their episode of care.</p>

Service Event and Admitted: Ambulance Incident Identifier (Conditional:)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT].[AMBULANCE_INCIDENT_ID]
Data Element ID:	13937
Version:	1.0
Definition:	The identifier assigned to a patient by the NSW Ambulance Service where they have been transported to hospital by an Ambulance.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 14
Representation Layout:	
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	The Ambulance Incident Identifier is intended to be used in conjunction with Ambulance Incident Identifier Create Datetime for data linkage with data from the NSW Ambulance Service CAD system.
Scope:	Conditional: Emergency Department and admitted patient service events for persons transported to the hospital by the NSW ambulance service.
Justification:	In conjunction with the NSW Ambulance Incident Identifier Create Datetime the NSW Ambulance Incident Identifier facilitates data linkage between the emergency department service event and the NSW Ambulance CAD system data. Such linkage can indicate performance and efficiency, particularly in relation to turn around times from care handover to the Emergency Department to readiness for the next job.

Code	Descriptive label	Definition
0	Hospital Boarder	<p>A hospital boarder is a person who has been registered on a patient administration system for the purpose of recording the person's presence in the hospital, but who does not meet the criteria of an admitted patient. A hospital boarder may be one of the following:</p> <p>*A person receiving food and/or accommodation from the hospital but for whom there is no principal clinical intent, and the hospital has not accepted responsibility for treatment and/or care. This person may be a carer of a patient who stays overnight in the hospital with the patient; OR *A newborn aged 10 days old or more who does not require clinical care but remain in hospital with the mother (who remains an admitted patient); OR *A patient receiving non-admitted patient care where there is no local requirement to record clinical activity. This may include patients accommodated in Commonwealth Block funded residential aged care beds, and community residential care beds.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
1	Acute Care	<p>The principal clinical intent is to: * Manage labour (obstetric)· * Cure illness or provide definitive treatment of injury· * Perform surgery· * Relieve symptoms of illness or injury (excluding palliative care)· * Reduce severity of an illness or injury· * Perform diagnostic or therapeutic procedures; and/or· * Protect against exacerbation and/or complication of an illness and/or injury which could threaten life or normal function</p>
2	Rehabilitation Care	<p>The principal clinical intent is to improve the functional status of a patient with an impairment, disability or handicap. It is usually evidenced by a multi-disciplinary rehabilitation plan comprising negotiated goals and indicative time frames which are evaluated by a periodic assessment using a recognised functional assessment measure. It includes care provided:</p> <p>* In a designated rehabilitation bed/unit ? that is a bed dedicated that attracts funding specifically for rehabilitation care and/or a unit/ward that primarily delivers rehabilitation care, or</p> <p>* In a designated rehabilitation program, or in a psychiatric rehabilitation program as designated by NSW Health Department for public patients in a recognised hospital, for private patients in a public or private hospitals approved by a registered health benefits organisation, or</p> <p>*Under the principal clinical management of a rehabilitation physician or, in the opinion of the treating doctor, when the principal clinical intent of care is rehabilitation.</p>
3	Palliative Care	<p>The principal clinical intent is to provide relief of suffering and enhancement of quality of life for a patient with an active, progressive disease and for who there is little or no prospect of cure. It is usually evidenced by an interdisciplinary assessment and/or management of the physical, psychological, emotional and spiritual needs of the patient; and a grief and bereavement support service for the patient and their carers/family. It includes care provided:</p> <p>* In a palliative care unit, or * In a designated palliative care program, or· * Under the principal clinical management of a palliative care physician or, in the opinion of the treating doctor, when the principal clinical intent of care is palliation.</p> <p>Note: Interventions such as radiotherapy, chemotherapy, and surgery are considered part of the palliative episode if they are undertaken specifically to provide symptomatic relief. Grief and bereavement activity attributed to relatives should not be captured against the deceased client.</p>
4	Maintenance Care	<p>The principal clinical intent is prevention of deterioration in the functional and current health status of a patient with a disability or severe level of</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		functional impairment. Following assessment of treatment the patient does not require further complex assessment or stabilisation, and requires care over an indefinite period. This care includes that provided to a patient who would normally receive care in another setting, for example, at home, or in a nursing home, by a relative or carer, that is unavailable in the short term.
5	Newborn Care	<p>The principal clinical intent is to provide care and/or accommodation to a patient born in the hospital or who is nine days old or less at the time of admission.</p> <p>Note: Newborn Care continues until the care type changes or the patient is separated. See rules for type changing newborns</p>
6	Other Care	Non-admitted activity reported via a patient administration system. This activity may include community residential care, and residential aged care covered by Commonwealth Block funding.
7	Geriatric Evaluation and Management	<p>The principal clinical intent or treatment goal is to maximise health status and/or optimise the living arrangements for a patient with multi-dimensional medical conditions associated with disabilities and psychosocial problems, who is usually (but not always) an older patient. This may also include younger adults with clinical conditions generally associated with old age. This care is usually evidenced by multi-disciplinary management and regular assessments against a management plan that is working towards negotiated goals within indicative time frames. Geriatric evaluation and management includes care provided:</p> <p>* In a geriatric evaluation and management unit; or</p> <p>* In a designated geriatric evaluation and management program, or</p> <p>*Under the principal clinical management of a geriatric evaluation and management physician or, in the opinion of the treating doctor, when the principal clinical intent of care is geriatric evaluation and management.</p> <p>Note: This category may only be used for patients who are admitted as an inpatient to a bed other than a Residential Aged Care bed.</p>
8	Psycho-geriatric Care	<p>Patients (almost always elderly) with either an age-related organic brain impairment with significant behavioural disturbance, or late onset psychiatric disturbance, or a physical condition accompanied by severe psychiatric or behavioural disturbance, and for whom the primary treatment goal is improvement in health, modification of symptoms and enhancement in functional behaviour or quality of life which is evidenced by: *multidisciplinary assessment and/or management of complex medical, psychiatric and functional conditions and needs; · *regular assessments; and · *working towards negotiated</p>

Code	Descriptive label	Definition
		goals within an indicative time frame.
		Note: This category may only be used for patients who are admitted as an inpatient to a bed other than a Residential Aged Care bed.
9	Organ Procurement - Posthumous	The principal clinical intent is the procurement of human tissue for the purpose of transplantation from a donor who has been declared brain dead.
M	Mental Health	Mental health care is care in which the primary clinical purpose or treatment goal is improvement in the symptoms and / or psychosocial, environmental and physical functioning related to a patient's mental disorder. Mental health care: a) Is delivered under the management of, or regularly informed by, a clinician with specialised expertise in mental health; b) is evidenced by an individualised formal mental health assessment and the implementation of a documented mental health plan and c) May include significant psychosocial components, including family and carer support.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Domain value set

Code	Descriptive label	Definition
01	Public Patient Election	Patient was Medicare eligible and elected to be treated as a public patient; also for other reason, not elsewhere classified
02	Unqualified Newborn	As an unqualified newborn the patient was ineligible to make a private health insurance claim, as stipulated by the Health Insurance Act.
03	Department of Veterans' Affairs eligible	patient was eligible to be treated as a DVA patient and elected to be so treated.
04	Compensable - Workers' Compensation	Admission was covered by workers' compensation and the patient was thus ineligible for a private health insurance claim.
05	Compensable - Motor Vehicle Accident	Admission was covered by MVA compensation and the patient was thus ineligible for a private health insurance claim.
06	Compensable - Other	Admission was covered by compensation other than workers' compensation or MVA and the patient was thus ineligible for a private health insurance claim.
07	Hospital insurance excess policy	Patient chose not to claim against their private health insurance because they did not want to, or were unable to pay excess expenses such as the gap payment.
08	Hospital insurance exclusion policy	Patient could not claim against their private health insurance because their policy did not cover the condition for which they were being treated.
09	Hospital insurance waiting period	Patient could not claim against their private health insurance because they were still in the waiting period for coverage of the condition for which they were being treated.
10	Defence force cover	Patient's admission is covered by the Defence Forces.
11	Medicare ineligible	Patient is not eligible for Medicare and thus cannot claim under an Australian health insurance policy. Such patients must cover the costs of the admission and may claim under travel insurance or an overseas insurance policy.
12	Self-paying Medicare Eligible Private Patient	Patient chose to meet the costs of their admission as a private patient, rather than claim under health insurance
13	Not Interviewed	The patient or representative has not been interviewed by hospital staff to ascertain their election choice; <ul style="list-style-type: none"> • waiting for interview • discharged prior to interview • unable to be interviewed • theatre performed by registrar prior to interview
15	Clinician	Clinical staff have:- <ul style="list-style-type: none"> • advised patient against using PHI • refused to treat private patient • have out of pocket expenses (OOP's) and patient does not want to pay, or is unable to pay
16	Hospital in the Home (HITH)	The patient is admitted to a HITH ward and unable to utilise their private health insurance as the health

		service does not currently have a negotiated rate with the health fund.
17	Procedure Cancelled	Booked procedure cancelled (patient sent home without receiving any treatment)
18	Reclassified – PHF	Private Health Fund has rejected claim and episode has been reclassified

Service Event and Admitted: Formal Admission Urgency Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_ADMITTED].[FORMAL_ADMIT_URGENCY_CODE]		
Data Element ID:	14011	Version:	1.0
Definition:	An indication of whether or not, the admission was either an emergency, that is, care or treatment was required within 24 hours, or the admission was planned or a regular same day admission or is associated with a maternity/newborn admission.		
Status Allocation Date:			
Representation			
Data Type:	Char (Fixed Length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 1
Representation Layout:	N		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	Equates to URGENCY OF ADMISSION in HIE.		
<p>This information should be collected from clinical notes. This information reflects the clinical need for admission, not aligned with the actual admission time. For example if a patient does not need clinical care within 24 hours however they are admitted within 24 hours, they are not considered emergency. Do not confuse this domain with the admission timeframe.</p> <p>When assigning Urgency of Admission consideration must be given to whether or not the clinician determined that the patient required admission within 24 hours. Length of time between the decision to admit and the actual admission is not relevant.</p> <p>Below are examples of the correct Urgency of Admission category for two situations that are commonly miscoded:</p> <p>* A patient admitted from an elective surgery wait list booking must be classified as '1-Emergency' if their condition deteriorated before the planned admission date to the extent that a clinician determined that urgent admission within 24 hours was required.</p> <p>* A patient who was not on an elective surgery wait list whose condition was not determined to require an admission within 24 hours must be classified as '2- Non Emergency' even if they were admitted within 24 hours because a bed and/or theatre time was immediately available.</p> <p>Source of Referral is not necessarily related to Urgency of Admission. Patients who are coded '1- Emergency' will not necessarily have a Source of Referral '01-Emergency Department'. Conversely, patients coded to '2- Non-</p>			

Emergency/Planned' may also have a Source of Referral '01- Emergency Department' if the referral for admission was made by Emergency Department clinicians.

Obstetric admissions must be classified as '1- Emergency' if the patient presents: -before term (less than 37 weeks gestation); or -with complications obvious at the time of admission which are determined by the clinician to require admission within 24 hours.

Obstetric admissions must be coded as '4- Maternity/Newborn' if the patient: -presents to the hospital for the delivery at term (37 weeks gestation or more), and -does not have any obvious complications at the time of presentation.

Note: These definitions apply regardless of whether or not the patient made a booking for the confinement. This means that a patient without a booking who presents for confinement at term and without complications must be classified as '4- Maternity/Newborn'.

As a guide, obstetric complications which generally require treatment within 24 hours include: -ruptured ectopic pregnancy - post-termination complications -miscarriage for dilation and curettage -genitourinary tract infection for antibiotic -placental abruption/anteartum haemorrhage -prolapse of cord -threatened premature labour/premature labour to be stopped -eclampsia -intrauterine death -puerperal sepsis.

As a guide, gynaecological complications which generally require treatment within 24 hours include: -acute pelvic pain (which may include ruptured ectopic pregnancy or post-termination complications -acute pelvic inflammatory disease requiring antibiotics -rupture/torsion of ovarian cyst.

Urgency of Admission for a newborn born in hospital or born immediately before the mother's admission should be the same as for the mother.

Patients who meet the criteria for '2- Non-Emergency/Planned' must be added to the hospital's waiting list and admitted from that booking. This procedure should be followed even if the patient was admitted within 24 hours if the admission was not clinically necessary. Such a situation may occur if a bed or theatre time is immediately available. The booking would be assigned a Removal reason of '1- Routine Admission'.

A patient who attends an outpatient or diagnostic clinic and is admitted on the same day (eg for the sake of convenience or clinician availability) should not be coded '1- Emergency' unless the condition is determined to clinically require admission within 24 hours.

The presence of clinical code '080- Normal Delivery' indicates '4- Maternity/Newborn' should be coded.

When undertaken apart from any other planned or emergency procedures the following diagnoses and procedures should be coded to '5- Regular Same Day Planned Admission'.
DIAGNOSES: -extracorporeal

Scope: Applies to public hospital admitted patient data only.

Justification:	This information is collected for the purposes of: -identifying patients admitted for elective surgery from the elective surgery wait list (and comparing this with the information reported to the Waiting Times Collection) -identifying patients whose conditions require immediate (time dependent) admission -reporting to the National Minimum Data Set for Institutional Health Care (Australian Institute of Health and Welfare and Commonwealth Health Department).

Supporting Information:

Domain	
Domain name:	Formal Admit Urgency Code (EDW)
Domain ID:	14154
Version:	1.0
Domain definition:	An indication of whether or not, in the opinion of the treating clinician, the admission was an emergency, that is, care or treatment was required within 24 hours at the time of formal admission.

Domain value set

Code	Descriptive label	Definition
1	Emergency	<p>An admission of a patient who has a condition that requires treatment within 24 hours at the time of diagnosis. This includes patients who are:</p> <ul style="list-style-type: none"> * At risk of serious morbidity or mortality and requiring urgent assessment and/or resuscitation. * Suffering from suspected acute organ or system failure. * Suffering from an illness or injury where the viability or function of a body part or organ is acutely threatened. * Suffering from a drug overdose, toxic substance or toxin effect. * Experiencing severe psychiatric disturbance whereby the health of the patient or other people is at immediate risk. * Suffering severe pain where the viability or function of a body part or organ is suspected to be acutely threatened. * Suffering acute significant haemorrhage and requiring urgent assessment and treatment * Suffering gynaecological or obstetric complications. * Presenting for an expected delivery prior to term (less than 37 weeks of gestation). * Suffering an acute condition which represents a significant threat to the patient's physical or psychological wellbeing, or * Suffering a condition that represents a significant threat to public health.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		Note: This category includes patients admitted for a procedure for which they were booked on the hospital's waiting list before his/her planned procedure date because his/her condition changed in urgency and was determined to require treatment within 24 hours.
2	Non-Emergency / Planned	<p>An admission of a patient for care or treatment that, in the opinion of the treating clinician, can be delayed for at least 24 hours at the time of diagnosis.</p> <p>Note: This category includes admissions where the admission could have been delayed at least 24 hours, but the admission actually occurred within 24 hours of that determination being made. Wait List bookings are usually raised for these patients, however this category may include admissions where no wait list booking is required prior to admission. This category excludes non-emergency/planned: maternity/newborn admissions; regular intended same day admissions (e.g. chemotherapy and renal dialysis); and inter-hospital transfers.</p>
3	Urgency Not Assigned	<p>An admission of a patient who is transferred from another hospital for non-emergency care, including transfers of newborns.</p> <p>Note: No wait list booking should be raised for admissions classified to this category. Where a patient is transferred to another hospital for emergency care because the referring hospital does not have the clinical expertise or equipment to continue to provide the care, the patient should be classified with an "Urgency of Admission" code of "1 - Emergency" at the second hospital.</p>
4	Maternity / Newborn	<p>An admission that:</p> <ul style="list-style-type: none"> * Begins with the birth of the patient, or begins shortly after the birth of the patient (e.g. in the case of deliveries prior to arrival), where there has been at least 37 weeks gestation or more and the mother had no obvious complications at the time of presentation; OR * An obstetrics admission for delivery, at term (i.e. at least 37 weeks gestation or more), without obvious complications at the time of presentation regardless of whether or not the patient delivers the baby; OR * An admission for foetal monitoring, or maternity blood pressure monitoring. <p>Note: Wait List bookings can be raised for these patients, however this category also includes admissions where no wait list booking was made prior to admission.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
5	Regular Same Day Planned Admissions	Admissions that are intended regular and planned same-day admissions for an on-going phase of treatment, such as renal dialysis or chemotherapy. Note: Wait List bookings can be raised for these patients, however this category also includes admissions where no wait list booking was made prior to admission.

Service Event and Admitted: Formal Readmission Status Code (EDW)

Defining Characteristics

Service Event and Admitted: AR-DRG Reference Domain Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_ADMITTED].[AR_DRG_REF_DOMAIN_ID]
Data Element ID:	14141 Version: 1.0
Definition:	The version of the Diagnosis Related Group code returned from the Australian Refined Diagnosis Related Group (AR-DRG) grouper.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	N(NNNN)
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	In the majority of cases, SRG backgrouping will only apply to the records represented by the '004' identifier. The requirement for SRG backgrouping of the other SRG / DRG / cost weight combinations is almost non-existent, and the other three options are provided in order to minimise potential processing impact.
Scope:	MANDATORY Mandatory for all Service Event and Admitted records
Justification:	
Supporting Information:

23	Factors Influencing Health Status Other Contacts with Health Services	
ER	Error Diagnosis Related Group	Error Diagnosis Related Group. V6.0 only: 960Z, 961Z, 963Z
PR	Pre-MDC	Because some patient groups are extremely resource intensive, they are put into a separate DRG group, before MDC assignment, based on the operating room procedure rather than principal diagnosis. This group is called pre-MDC DRGs. Pre-MDC DRGs include organ transplants, bone marrow transplants and tracheostomy cases. If a procedure places a case into a Pre-MDC DRG, the DRG is assigned outside of the MDC. For example, DRG 103, Heart Transplant or Implant of Heart Assist System, is assigned based on the procedure performed pre-MDC. The principal diagnosis is not taken into consideration. Assigned to A01Z, A03Z, A05Z, A06A, A06B, A06C, A06D, A07Z, A08A, A08B, A09A, A09B, A10Z, A11A, A11B, A12Z, A40Z.

Service Event and Admitted: AR-DRG Patient Clinical Complexity Level Code (EDW)

Defining Characteristics		
Data Element Type:	Data Element	
Physical Name:	[SERVICE_EVENT_ADMITTED].[AR_DRG_PCCL_CODE]	
Data Element ID:	14325	
Version:	1.0	
Definition:	An indicator of the patient's clinical complexity level (PCCL), provided by the Australian Revision Diagnosis Related Group (AR-DRG) grouper.	
Status Allocation Date:		
Representation		
Data Type:	Char (Fixed Length)	
Form:	Code	
Field Size:	Minimum: 1 Maximum: 1	
Representation Layout:	X{1}	
Unit Of Measure:		
Additional Information:		
Collection and Usage Guide		
Guide for Use:	PCCL is a measure of the cumulative effect of a patient's complications and comorbidities, and is calculated for each episode. The calculation is complex and has been designed to prevent similar conditions from being counted more than once. This data element value is returned from third party Diagnosis Related Group software applications.	
Scope:	Acute admitted patient service events	
Justification:	Client clinical complexity influences cost and casemix payments in activity based funding / casemix funding models. It also indicates the level of care and resources a patient may need, and explain extended lengths of stay.	
Supporting Information:		
Domain		
Domain name:	Australian Revision Diagnosis Related Group Patient Clinical Complexity Level Code (EDW)	
Domain ID:	14447	
Version:	1.0	
Domain definition:	An indicator of the patient's clinical complexity level, based on the logic within the Australian Revision Diagnosis Related Group grouper software.	
Domain value set		
Code	Descriptive label	Definition
0	No complication / comorbidity effect	1. The code is not a complication/comorbidity; or 2. the code forms part of the definition for the adjacent DRG to which the episode has been assigned; or 3. the code is a complication/comorbidity, but is closely related to the principal diagnosis; or 4. exactly the same code appears elsewhere on the record.
1	Minor complication / comorbidity	The diagnosis is a minor complication / comorbidity.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
2	Moderate complication / comorbidity	The diagnosis is a moderate complication / comorbidity.
3	Severe complication / comorbidity	The diagnosis is a severe complication / comorbidity.
4	Catastrophic complication / comorbidity	The diagnosis is a catastrophic complication / comorbidity.

Service Event and Admitted: AR-DRG Return Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_ADMITTED].[AR_DRG_RETURN_CODE]
Data Element ID:	14326
Version:	1.0
Definition:	The return code from the Australian Refined Diagnosis Related Group (AR-DRG) grouping software, which indicates the quality of the data element inputs and the grouping process.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 5
Representation Layout:	NN
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	This is a national standard issued to all Australian DRG grouping software vendors, by the Australian Government.
Scope:	
Justification:

Domain definition:	The return code from the Diagnosis Related Group grouping software, which indicates that quality of the data element inputs and the grouping process. This is a national standard issued to all Australian DRG grouping software vendors, by the Australian Government.

Domain value set

Code	Descriptive label	Definition
00	Normal grouping	
01	Invalid or missing principal diagnosis	
02	Diagnosis code cannot be used as principal diagnosis	
03	Record does not meet criteria for any DRG	
04	Invalid age, admit, birth or separation date	
05	Invalid sex	
06	Invalid mode of separation	
07	Invalid admission weight	
08	Invalid length of stay	
09	Invalid same-day status	

Service Event and Admitted: Wait List Service Event Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT].[WAIT_LIST_SERVICE_EVENT_TYPE_CODE]		
Data Element ID:	10948	Version:	1.0
Definition:	A code indicating whether the reported offer is for a Community Health Outpatient Care service event, or a formal admission to hospital.		
Status Allocation Date:			
Representation			
Data Type:	Alphanumeric		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 2
Representation Layout:	N(N)		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>Note that WLCOS only reports admitted patient services ('2' - Hospital Admission).</p> <p>Note also that bookings which are intended to be admitted may ultimately be treated on a non-admitted basis or vice versa. Comparing WAIT_LIST_SERVICE_EVENT_TYPE_CODE with SERVICE_EVENT_TYPE_CODE in SERVICE_EVENT_FACT would show any changes.</p> <p>Expect a null value for the Emergency Department stream.</p>		
Scope:	<p>MANDATORY</p> <p>Mandatory for all Service Event and Admitted records</p>		
Justification:			
Supporting Information:			
Domain			
Domain name:	Wait List / Planned Service Event Type Code (EDW)		
Domain ID:	11011	Version:	1.0
Domain definition:	Indicates whether the offer is an offer of a community health / outpatient service event, or a formal admission to hospital. Only relevant to scheduling, so does not include emergency admissions. Based on 'Service Event Type Code 1.0' Domain.		
Domain value set			
Code	Descriptive label	Definition	
2	Admitted patient service event	<p>Covers formal admissions to a recognised hospital or multi-purpose service for admitted patient care.</p> <p>Prior to 1 Jan 2018, this included admissions where the patient was formally admitted and discharged as an inpatient while in the emergency department</p>	

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
3	Residential care service event	(where such activity was recorded in the admitted patient module of the patient administration system). Includes residential aged care services reported by residential aged care facilities, including multi-purpose services and (rural) integrated health services. That is, commonwealth funded designated residential aged care beds.
4	Community health or outpatient care service event	Includes community residential care services (e.g. covering mental health services). Includes all community health services, outpatient care services. May include some services provided in emergency department settings, and health support services (such as services provided under the National Disability Insurance Scheme). This category covers planned outpatient clinic services delivered out of hours in the emergency department setting. Note: This category may be used for reporting consultation liaison services provided by non-admitted patient service units to admitted patients, emergency department patients, and persons in living in residential care settings.
5	Supplementary service to an admitted or emergency department patient	Supplementary (auxiliary) services provided to an admitted patient either as part to an Admitted Patient team or Emergency Department team or as a consultation liaison service provided by a NAP team for reporting the following data set extensions: 1. Allied Health Data Set Extension 2. Violence, Abuse & Neglect (VAN) Data Set Extension
6	Specialist mental health service	A specialist non-admitted patient mental health service that is in scope of the mental health program. Note: These services have traditionally been referred to as "Community Health Ambulatory" clients and were reported to the HIE data warehouse via the "CHAMB" extract

Service Event and Admitted: Wait List Booking Source System Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT].[WAIT_LIST_BOOKING_SOURCE_ID]
Data Element ID:	10447
Version:	1.0
Definition:	The source of the Wait List Booking Identifier, issued by NSW Health.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	N(NNNN)-NNN
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	Required for offers of admitted patient service events. Report where available for Community Health and Outpatient Care service events. This item identifies the source system that has the patient's wait list entry (booking), usually a PAS. Expect a null value for the Emergency Department stream.
Scope:	Admitted Patient, Non-Admitted Patient
Justification:	Reference field for HIE Facility ID Mapping table in MDS, source system ids must be validated from Doman 11067.
Supporting Information:	

Domain	
Domain name:	Wait List Booking Source Identifier (EDW)

Domain definition:			

Service Event and Admitted: Primary Program Funding Source Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT].[PRIMARY_PROGRAM_FUNDING_SOURCE_CODE]		
Data Element ID:	10924	Version:	1.0
Definition:	The specific health care program that is the primary source of funding for the service event.		
Status Allocation Date:			

Representation			
Data Type:	Alphanumeric		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 10
Representation Layout:	NN(.NN)		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	Expect a null value for the Emergency Department stream.
Scope:	Community health and outpatient care service events. Mental health admitted patient service events.
Justification:	Determines source of funding, which drives some reporting requirements back to organisation that provided the funds for the services. Used for activity based funding, to avoid double payments for services provided.
Supporting Information:	

Domain			
Domain name:	Program Funding Source Code (EDW)		
Domain ID:	10959	Version:	1.0
Domain definition:	Health care programs that provide sources of fund for a well-defined range of service events and/or activities.		

Domain value set

Code	Descriptive label	Definition
90	Other NSW Government Funding Agreement	Activity funded via a NSW Government funding program agreement, not covered by any other category within this classification. Includes, but is not limited to, NSW Community Care Supports Program (HACC Disability Care) Funding Agreement, Keep them Safe Agreement, NSW Community Transport Program, Home and Community Care (HACC) Community Transport Sub-Program, and NSW State Government Transitional Care Program (Aged Care).
91	Federal Funding Agreement	Australian Government funding source, not able to be classified to any other category in this classification. Note: This category excludes Medicare Claims, which should be classified to "98 - LHD / SHN Direct Revenue".

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
92	Other NSW Health Program Specific Funding Agreement	Excludes the ABF / block funded activity component of the NSW Health Service Agreements.
93	NSW Health Service Agreement (ABF / block Funded)	<p>Services that are purchased via the NSW Health Service Agreements with Local Health Districts and Specialist Health Networks via and Activity based funding or block funded arrangement.</p> <p>Includes all services that are not covered by any other category.</p> <p>It also covers services that are bundled to related service consultations classified to this category. For example, if a diagnostic services was ordered at a service contact classified to this category, the reported diagnostic service would also be reported in this category, even though the diagnostics service is bundled, and does not attract national weighted activity units.</p>
98	LHD / SHN Direct Revenue, not elsewhere classified	<p>Services that the Local Health District or Specialist Health Network can bill for and where the revenue is paid directly to the LHD / SHN by the patient or a 3rd party. This category covers Medicare Ineligible patients, or any service that the LHD / SHN is entitled to charge a 3rd party for (including a private sector organisation, a compensation fund, Department of Veteran's Affairs, the Medicare Benefits Scheme, an overseas travel insurance fund, an Australian Overseas Student Health Insurance Fund, Department of Defence).</p> <p>Note: This category does not cover Medicare claims which are covered by category '91 - Federal Funding'.</p>
99	Unknown / Not Applicable	The program funding source is unknown or not applicable because it can be determined from the reported Financial Class code.

Service Event and Admitted: Service Event Alternative Encounter Identifier (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT].[SERVICE_EVENT_ALT_ENCOUNTER_ID]		
Data Element ID:	14157	Version:	1.0
Definition:	An alternative identifier of the encounter with the health service that can be used by front line staff to search for, and return, the record in the source system.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Identifier Value

Service Event and Admitted: Service Event Model of Care Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT].[SERVICE_EVENT_MODEL_OF_CARE_CODE]		
Data Element ID:	13860	Version:	1.0
Definition:	A broad definition of the way health services are delivered. Local models of care outline best practice care and services for a person, population group or patient cohort as they progress through the stages of a condition, injury or event.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum: 2	Maximum:	5
Representation Layout:	NN(.NN)		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	This is a local value. As at 1 January 2012, service event models of care were relevant to emergency department service events only. It is a data element concept in Cerner's HNA Millennium FirstNet. This data element is also in scope of the admitted patient interface specification, but no service event models of care have been defined, so no data is expected at this point in time for admitted patient or residential care service events.		
Scope:	OPTIONAL Optional for all Service Event and Admitted records		
Justification:	As at 1 January 2012, this was required for local health district reporting requirements only.		
Supporting Information:			
Domain

Service Event and Admitted: Service Event Admission Mode Commonwealth Code (EDW)

Defining Characteristics			
Data Element Type:	Derived Data Element		
Physical Name:	[SERVICE_EVENT_ADMITTED].[SERVICE_EVENT_ADMISSION_MODE_NHDD_CODE]		
Data Element ID:	14014	Version:	1.0
Definition:	Code representing how a person begins an admitted patient service event / episode of care, as reported to the National Health Data Dictionary (NHDD).		
Status Allocation Date:			

Representation			
Data Type:			
Form:			
Field Size:	Minimum:	Maximum:	
Representation Layout:			
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	This is a mandatory field that must be reported for every admitted patient service event. It will need to be derived in patient administration system source system extracts.
Scope:	All NSW Health admitted patient services. Private hospital and day procedure centre services.
Justification:	Required for the national minimum data set reporting of admitted patient care.
Supporting Information:	

Domain	
Domain name:	Service Event Admission Mode National Code (EDW)
Domain ID:	14182 Version: 1.0
Domain definition:	The mechanism by which a person begins an episode of care. Modified code descriptors and definitions, but based on and aligned directly with 'Episode of admitted patient care—admission mode, code N' (METeOR).

Domain value set

Code	Descriptive label	Definition
1	Transfer of admitted patient from another facility	Formal admissions resulting from the transfer of an admitted patient from another admitted facility, including public sector, private sector and interstate admitted patient facilities. This excludes transfers from residential aged care facilities and other residential care facilities as residential (aged) care clients are not admitted patients.
2	Service category type change	Service category type changes, that is second or subsequent service events / episode of care occurring within the same continuous hospital stay / encounter as an admitted patient.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
3	Direct formal admission	Planned admissions and unplanned admissions (except transfers into the hospital from another hospital).

Service Event and Admitted: Service Event Separation Mode Commonwealth Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_ADMITTED].[SERVICE_EVENT_SEPARATION_MODE_NHDD_CODE]		
Data Element ID:	14022	Version:	1.0
Definition:	Code representing the status at separation of the person and place to which person is released, as reported to the National Health Data Dictionary (NHDD).		
Status Allocation Date:			

Representation			
Data Type:	Char (Fixed Length)

98	Other request source, not elsewhere classified	Note: This is a minimum mandatory category.

Client Service Event Data Object ID 57

Business context

This object holds a record that links each service event to a client record.

Business rules for reporting

A client service event record must be reported for every service event.

If two duplicate client records for the same person are merged and the event of the minor client is physically updated with the major client id in the source system, the same update must be sent to EDW.

Report the client identifier used to identify the patient at the health organisation providing the service, and that needs to appear on error and other local reports. Where the patient has both a local Medical Record Number and an Area Unique Patient Identifier, report the local Medical Record Number as the Client ID. If the patient only has an Area Unique Patient Identifier, report the Area Unique Patient Identifier as the Client ID.

Service Event Relationship

Data Object ID 131

Business context

This object holds a record for each relationship between this service event and another service event. An example is relating the service event of a mother with the service event of her child.

Business rules for reporting

A Service Event Relationship record must be reported for the related service events of a mother and her newborn baby where mother and baby are admitted at the same time, such as when a mother is admitted to give birth or when mother and baby are transferred together to a higher level care hospital. The relationship to the mother's service event must be reported against the baby's service event record, and the relationship to the baby's service event must be reported against the mother's service event record. Where a mother gives birth to multiple babies, or is admitted with multiple babies, then a relationship to each service event for each baby must be reported against the mother's record. It is not a requirement to report the service event relationships between each baby in a multiple birth.

- When a patient is admitted from the hospital's Emergency Department report the relationship of the Admitted Patient's first service event record with the Emergency Department service event record.

Service Event Relationship: Service Event Relationship Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_RELATIONSHIP].[SERVICE_EVENT_RELATIONSHIP_TYPE_CODE]		
Data Element ID:	14034	Version:	1.0
Definition:	The type of relationship one service event record has to another service event record.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	2	Maximum: 2
Representation Layout:	NN		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The relationship between two service events may be created and stored in the source system when:</p> <ul style="list-style-type: none"> The source system is triggered to store this association when a user follows a workflow that has been established for specific use case scenarios. <p>Example: The workflow to admit a newborn who is delivered during a mother's admission may create the association between the two admitted patient service events, allowing staff to easily track both mother and newborn.</p> <ul style="list-style-type: none"> Through back end (HL7) messaging between two systems that are used to record patient services <p>Example: The workflow to order a diagnostic test service during an emergency department service event may link the diagnostic test service and the emergency department service so that the results can be loaded against the correct emergency department service event when they are available and transmitted back to the source system through which the order was place.</p> <p>The manual entry of the unique record identifier by an end user is not recommended.</p>		
Scope:	Non-admitted Patient, Emergency Department and Admitted patient service events		
Justification:	Reporting of the relationship between two service events with the immutable unique record identifiers for both service events provides the most reliable means of associating related service events. Once established, it can replace probabilistic matching.

Presenting Issue

Data Object ID 59

Business context

This object holds a record for each presenting issue for a client at the time of the reported service event.

Business rules for reporting

A PRESENTING_ISSUE record must be reported for every presenting issue of a client at the time of the reported service event

- For admitted patient service events, presenting issues are not usually coded, however a presenting problem in a text format is frequently recorded. This free text of the presenting problem must be reported in the comments field of a presenting issue record.
- Where presenting issues are recorded as a coded value, report the code in the Presenting Issue Code field. Each coded presenting issue must be reported as a separate presenting issue record.
- The Presenting Issue Sequence Number must align with the sequence of the codes in the source system. For free text fields, report the Presenting Issue Sequence Number as null.
- If a coded presenting issue has associated free text qualifying information against a specific individual presenting issue, that free text qualifying information should be reported in the presenting issue comments field on the same record as presenting issue code it is associated with. Otherwise the comments field can be left null.
- The preferred coded classification for reporting presenting issues is ICD-10-AM.

Presenting Issue: Presenting Issue Source Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[PRESENTING_ISSUE].[PRESENTING_ISSUE_SOURCE_CODE]		
Data Element ID:	14136	Version:	1.0
Definition:	The source of the presenting issue information reported on the presenting issue record.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum: 2	Maximum:	2
Representation Layout:	X[2]		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	<p>If the source of the presenting issue is obtained from a screen intended to be completed by administrative staff, report that the source is administrative support staff.</p> <p>If the source of the presenting issue is obtained from a screen intended to be completed by clinical coding staff, report that the source is clinical coding staff.</p> <p>If the source of the presenting issue is obtained from a screen intended to be completed by clinicians, report that the source is clinician.</p>
Scope:	Admitted patient, emergency department and community health and outpatient care service events.
Justification:	For some activity the same information may be reported by different roles, and a different value may be given to the information on the basis of which role recorded / reported it. It can also be useful in ensuring that clinical information is not double counted.
Supporting Information:	

Domain			
Domain name:	Clinical Code Assignment Source Code (EDW)		
Domain ID:	10578	Version:	1.0
Domain definition:	A classification representing the broad staff profession group who recorded, classified or coded the diagnosis or presenting issues.		

Domain value set

Code	Descriptive label	Definition
01	Clinical coder	<p>This is the default value for admitted patient data stream reporting of clinical codes reported as an ICD9CM, ACHI or ICD10AM classification.</p> <p>For admitted patient coding the principal diagnosis is the diagnosis established, after study by a clinical coder, to be chiefly responsible for occasioning an</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>episode of admitted patient care, an episode of residential care or attendance at the health care establishment, as represented by a code.</p> <p>The phrase "after study" in the definition means evaluation of findings to establish the condition that was chiefly responsible for occasioning the episode of care. Findings evaluated may include information gained from the history of illness, any mental status evaluation, specialist consultations, physical examination, diagnostic tests or procedures, any surgical procedures, and any pathological or radiological examination. The condition established after study may or may not confirm the admitting diagnosis.</p>
02	Health service support staff	For use when a person that is not a clinician or a clinical coder enters information provided by the patient, such as his / her presenting problem / issue as provided and without any clinical assessment or advice.
03	Clinician, not further defined	<p>This is the default value for the diagnosis codes reported as an ICD9CM, ICD10AM, or SNOMED Concept classification code via the emergency department data stream.</p> <p>All diagnoses recorded in the emergency department source system should be determined by a qualified clinician, and there is no post assessment undertaken by a qualified clinical coder.</p>
04	Clinician, not elsewhere classified	<p>This is the default value for the diagnosis codes reported as an ICD9CM, ICD10AM, or SNOMED Concept classification code via the emergency department data stream.</p> <p>All diagnoses recorded in the emergency department source system should be determined by a qualified clinician, and there is no post assessment undertaken by a qualified clinical coder.</p>
05	Medical consultant	
06	Nurse / midwife	
07	Allied health practitioner	
08	Diagnostic health service profession	
90	Other health care professional, not elsewhere classified	Includes, but not limited to, professional home care support providers, medical technicians.
99	Unknown	The source of the diagnosis code is unknown, or not reported, such as for community health and outpatient care service events.

Presenting Issue: Presenting Issue Sequence Number (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[PRESENTING_ISSUE].[PRESENTING_ISSUE_SEQUENCE_NUMBER]		
Data Element ID:	10472	Version:	1.0
Definition:	A sequential number assigned to each presenting issue recorded by the clinician for each service event.		
Status Allocation Date:			

Representation			
Data Type:	Numeric		
Form:	Quantitative Value		
Field Size:	Minimum:	1	Maximum: 2
Representation Layout:	N(N)		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	<p>This field is used in conjunction with PRESENTING_ISSUE_CODE. The main presenting issue should be recorded as sequence number one (1), and any additional presenting issues listed as sequence number two (2) and so on for each service event. Numbering must start at one (1) for the service event and there must be no gaps in the sequence.</p> <p>The main presenting issue is defined as the most significant reason for the client/patient seeking the service, as determined after assessment by the Individual Service Provider. It may be taken from the referral letter or may be determined by the ISP in the course of the service event.</p>
Scope:	<p>MANDATORY</p> <p>Mandatory for all Presenting Issue records</p>
Justification:	<p>Required to discriminate between the main presenting issue and other presenting issues so as to facilitate analysis of the range of problems or issues for which services are provided to support client/patient management, service development, service planning, epidemiological analysis and possibly resource allocation.</p>

Presenting Issue: Presenting Issue Start Date (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[PRESENTING_ISSUE].[PRESENTING_ISSUE_START_DATE]
Data Element ID:	10473 Version: 1.0
Definition:	The actual or approximate date that a client / patient reported as the date that the issue or problem commenced.
Status Allocation Date:	
Representation	
Data Type:	Date
Form:	Date
Field Size:	Minimum: 8 Maximum: 8
Representation Layout:	YYYYMMDD
Unit Of Measure:	
Additional Information:	Formatted as 'YYYY-MM-DD' when provisioned to cubes.
Collection and Usage Guide	
Guide for Use:	The presenting issue start date should be the actual or approximate date that the patient / client states the issue started. If this date is not captured or known, report a null date (rather a derived or substitute date).
Scope:	MANDATORY Mandatory for all Presenting Issue records
Justification:	
Supporting Information:

Service Event Attribute Data Object ID 60

Business context

This object holds records for attributes of the service event that are common to all types of service events (regardless of setting).

Business rules for reporting

The Attribute Type Code identifies the type of attribute:

- o Financial Class
- o Billing Category
- o Election Status
- o Legal Status

Domain definition:	A code representing the type of attribute associated with service event.

Domain value set

Code	Descriptive label	Definition
01	Financial Class Code	<p>Code representing the financial class that is applicable to the patient throughout their stay in hospital.</p> <p>For Service Provision, reportable for Non-admitted Patient Data Collection (Community Health and Outpatient Care Services) and NSW Health public sector Admitted Patient Data Collection (Admitted Patient Services).</p>
02	Billing Category Code	An indicator of the funding arrangements covering the service event.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
03	Election Status Code	<p>From 1 July 2017, this attribute is only reportable for Emergency Department service events.</p> <p>The patient's election to be treated as a public or private patient. Private patients are those who either choose the doctor of their choice, and/or single room accommodation.</p>
04	Health Care Campus / Centre Service Location Identifier	<p>For Service Provision, reportable for Admitted Patient - Public.</p> <p>The NSW Health state identifier, assigned by HERO, to the service location that the health service was provided at.</p> <p>This covers locations classified as "04.11: Location - Health Care Campus / Centre" in HERO.</p> <p>Such locations include:</p> <ul style="list-style-type: none"> - NSW Crown Land hosting hospitals, community health services, integrated care services, multi-purpose services, and/or residential care services. - Community health centre locations (including single stand-alone buildings) in the community used by NSW Health services, or services contracted by NSW Health (including not for profit / non-government organisations). - NSW Private Hospital / Day Procedure and Health Care Campuses / Centres (including single stand-alone buildings) on privately owned or rented land. - NSW Private residential care centres (including single stand-alone buildings) on privately owned land. - NSW General Practice / Primary Care centres, where NSW Health staff provide services at. <p>Note: This attribute is only reportable for non-admitted patient service events with setting type codes that indicate the service was delivered on a health care campus or in a community health centre. It is not reportable where the service provided outside a health care or aged care facility, such as in the patient's home.</p>
05	Service Delivery Setting Type Code	<p>An indicator of the type(s) of location(s) the health establishment provides services at, and the methods used to deliver the services.</p> <p>For Service Provision, reportable for Non-admitted Patient Data Collection (Community Health and Outpatient Care Services) only.</p>
06	Service Off Base Site Indicator	<p>An indicator of whether the service was delivered on the health care campus that the individual service provider is based at, or not.</p> <p>For Service Provision, reportable for Non-admitted</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
09	Legal Status Code	Patient Data Collection (Community Health and Outpatient Care Services) only. The legislative provision governing the patient's current health care. For Service Provision, reportable for Community Health and Outpatient Care and Admitted Patient - Public.

Service Event Attribute: Service Event Attribute Local Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_ATTRIBUTE].[SERVICE_EVENT_ATTRIBUTE_LOCAL_CODE]
Data Element ID:	10941
Version:	1.0
Definition:	The source system assigned local codeset for a service event attribute. Local codes are developed and maintained by health services, rather than the NSW Ministry of Health.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 30
Representation Layout:	X{30}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>Local codesets are developed and maintained by health services, rather than the NSW Ministry of Health.</p> <p>They typically vary between health services and each implementation of a source system.</p> <p>The Local Health District / Specialist Health Network can determine the local code set values to report. Where they do not specify local code set values, the source system native assigned code value should be reported.</p>
Scope:	<p>MANDATORY</p> <p>Mandatory for all Service Event Attribute records</p>
Justification:	<p>Local code values can be reported where there is a local need for reporting at a lower level of granularity than the Ministry of Health requires.</p> <p>Local code values can also be source system assigned native values (uniquely assigned code set values) that can be used to identify source system code values that have not been aliased or aliased correctly.</p> <p>When native code values are reported they can be used to identify candidate records for data fixes directly on the EDWARD database in cases where those errors and oversights have occurred. Where native code values are not reported, the data fix may not be possible and bulk re-extracts may be the only means of recovering from the problem.</p>

Domain			
Domain name:	Election Status (EDW)		
Domain ID:	11726	Version:	1.0
Domain definition:	The patient's election for treatment as a public or private patient.		
<p>This Domain has been expanded for use from 'Election Status On Admission 1.0' (used in HIE 'Stay' tables) to accommodate wider usage than only Admitted Patients in the EDWARD Service provision stream, e.g. in community health settings. For more information on the codes in an admitted setting, refer to the original Domain.</p>			
Domain value set			
Code	Descriptive label	Definition	
1	Public Patient	The election of a patient, or the election of the unqualified newborn of a patient, who (1) was admitted as an inpatient to a public hospital, multi-purpose service, or a private hospital who treats public patients under contract; and (2) elected to be treated as a public patient (that is, the patient elected to be treated by the medical practitioner nominated by the hospital and be accommodated in a shared ward); and (3) was either eligible to hold a Medicare Card, or was an overseas visitor whose admission was	

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>covered by a Reciprocal Health Care Agreement with Australia.</p> <p>Note: This category includes patients who have never made an election due to their health condition, but were assumed to be Medicare Eligible (for example, a person who is admitted unconscious and dies where no next of kin can be identified). Patients who are eligible for compensation or DVA funding must be classified as “2 – Private Patients” even if they elect to be treated by a hospital doctor in a shared ward. Non-charge patients who are ineligible for Medicare (e.g. overseas visitor with tuberculosis, or victims of crime) are classified as “3 – No Election Made”.</p>
2	Private Patient	<p>The election of a patient, or the election of the unqualified newborn of a patient, who (1) was admitted to a private hospital, private day procedure centre, or private sleep disorder centre licensed under the New South Wales Private Hospitals and Day Procedure Centres Act, 1988; or (2) elected to be treated as a private patient (that is, elects to be treated by the medical practitioner of his or her choice and/or elected to be accommodated in a single room); or (3) was not eligible to hold a Medicare Card, and is also not an overseas visitor eligible for Medicare under a Reciprocal Health Care Agreement, an overseas visitor eligible for free care because he/she has tuberculosis, or because he/she is victim of crime, or a prisoner; or (4) was eligible for workers compensation, public liability compensation, motor accident compensation, and the claim was accepted; or (5) was a Department of Veterans’ Affairs Gold Card Holder; or (6) was a Department of Veterans’ Affairs White Card Holder whose claim was accepted by the Department of Veterans’ Affairs.</p>
3	No Election Made	<p>A person admitted to a public facility as an inpatient who (1) is an overseas visitors who is ineligible for Medicare and is being admitted for the treatment of tuberculosis or conditions resulting a crime against that person, and who elects to be treated in the same manner as a Medicare Eligible public patient – that is, treated by the medical practitioner nominated by the hospital in shared ward accommodation; or (2) is a prisoner, or (3) is a person being admitted to a “Free Standing Public Psychiatric Hospitals” (formerly classified as 5th Schedule institutions); or (4) is a Residential Aged Care client accommodated in a designated Residential Aged Care Bed.</p>
9	Deferred Election	<p>A person who has not made an election due to his/her health condition. This may only be used as a temporary classification in systems before reporting the patient to the collection.</p>

Service Event Attribute Code: Financial Class (EDW)

Defining Characteristics			
Data Element Type:	Composite Element		
Physical Name:	[SERVICE_EVENT_ATTRIBUTE].[SERVICE_EVENT_ATTRIBUTE_CODE]		
Data Element ID:	13012	Version:	1.0
Definition:	A code representing the financial class that is applicable to the patient throughout their stay in hospital, as supplied via the Service Event Attribute Code, with a Service Event Attribute Type code of '01'.		
Status Allocation Date:			
Representation			
Data Type:			
Form:			
Field Size:	Minimum:	Maximum:	
Representation Layout:			
Unit Of Measure:			
Additional Information:	Refer to 'Service Event Attribute Code (EDW)' for Representation details.		
Collection and Usage Guide			
Guide for Use:	<p>The shared room rates apply for private patients in single rooms where the patient elects shared ward accommodation but the patient is accommodated in a single room because only single room accommodation is available, or it is necessary on a clinical basis.</p> <p>Gold Card Department of Veterans' Affairs (DVA) patients, and White Card DVA patients whose episode has been accepted by DVA, are eligible to elect the doctor of their choice and shared ward accommodation. DVA patients may elect single room accommodation, however a charge must then be raised for the single room accommodation which is not covered by DVA. Where single room accommodation is elected and provided, the Master Financial Class must remain a DVA financial class because DVA covers all charges other than the single room accommodation charge. Local Financial Class codes that map to the DVA Master Financial Class Codes may be established to ensure the patient or health fund is appropriately charged for the single room accommodation, and that DVA is appropriately charged for the other costs.</p> <p>An "Unqualified Newborn" Financial Class must be assigned when the baby is aged nine days old or less, and the baby and mother are both admitted at the same time, and the baby is a single birth, or the first of a multiple birth, and the baby is NOT admitted to an intensive care unit approved by the Commonwealth for the purpose of the provision of special care.</p> <p>To classify a newborn as qualified, and thus assign a Financial Class other than an Unqualified Newborn Financial Class (U1 – U8) when he/she is admitted to the facility at the same time as his/her mother, and is either the only child or the first born of a multiple birth: (1) the newborn must be formally admitted as a patient of the hospital in which it receives medical care; (2) the</p>		

admitting medical practitioner must certify the diagnosis of the child, and that the newly born child was under the care of a specialist and the medical care was deemed necessary by that specialist and that the child was accommodated in an approved separate special care facility; and (3) the hospital must have appropriate admission, discharge and transfer policies in place commensurate with the levels of services able to be safely provided at the facilities.

As a guide it is envisaged that the following patients may be admitted to an approved neonatal special care facility and thus be classified as qualified newborns: (1) babies who are receiving additional oxygen; (2) babies who are receiving intravenous glucose and electrolyte solutions; (3) babies who are being tube fed; (4) babies who have had minor surgery in the previous 24 hours; (5) babies who are being barrier nursed; (6) babies who are receiving phototherapy; (7) babies who require continuous monitoring of respiration or heart rate, or by transcutaneous transducers; (8) babies who are receiving special monitoring (e.g. frequent glucose or bilirubin estimations); (9) other babies receiving constant supervision (e.g. babies whose mothers are drug addicts); (10) babies receiving antibiotics; (11) babies with conditions requiring radiological examinations or other methods of imaging; (12) dying babies (Source: Commonwealth Department of Health and Aged Care, Circular HBF 583, PH 340).

Scope: All patients admitted to public facilities.

Justification: This information is collected for the purpose of determining which patients are Medicare eligible, determining public versus private patient status, identifying patients who change their election, identifying compensable patients, identifying unqualified newborns, and identifying Department of Veterans' Affairs patients.

Supporting Information:

Domain

Domain name: Financial Class (EDW)

Domain ID: 11024 **Version:** Masterset

Domain definition: Code representing the financial class that is applicable to the patient throughout their stay in hospital.

NOTE: From 01/11/2020 through to 30/06/2021, the old Financial Class classification ([Version 5.0](http://hird.health.nsw.gov.au/hird/view_domain_description.cfm?ItemID=23594)) is being retired and the new version ([Version 6.0](http://hird.health.nsw.gov.au/hird/view_domain_description.cfm?ItemID=46594)) is being introduced in staggered tranches. This masterset currently contains both concurrently. As of 1 July 2021, the old values will be updated to include the word "EXPIRED".

Domain value set

Code	Descriptive label	Definition
ARC	Asylum Seeker/ROMAC - Critical Care	Asylum seeker or ROMAC patient admitted for critical care.
ARD	Asylum Seeker/ROMAC-Same Day Banding 1 - 4	Asylum seeker or ROMAC patient admitted for a same day procedure (Band 1-4).

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
ARS	Asylum Seeker/ROMAC - Single Room	Asylum seeker or ROMAC patient admitted to a single room.
ARW	Asylum Seeker/ROMAC - Shared Ward	Asylum seeker or ROMAC patient admitted to a shared room. Asylum seekers are people within Australia who apply to the Australian Government for formal recognition as a refugee. These patients are required to provide supporting. If no documentation is provided further follow up is required. ROMAC (Rotary Oceania Medical Aid for Children) organises surgical treatment for Pacific region children in Australia. Treatment and a guarantee of payment are arranged in advance.
BD	Brain Dead Organ Donor - Procurement	A person who has been pronounced brain dead but is being kept alive on life support for the purpose of procuring donated organs.
BO	Boarder (Other than Self Contained Unit)	A person who is accommodated at a hospital but not admitted for care. For example, the parent of a sick child. This includes newborn babies aged 10 days and over who are not in need of clinical care.
BS	Boarder (Self Contained Unit)	Boarder staying in a Self-contained Unit.
CDS	Compensable Other - Dialysis (per session)	Patient is claiming compensation for injuries caused by negligence and patient is admitted for dialysis.
CNW	Compensable Other - NWAU	Patient is claiming compensation for injuries caused by negligence and doesn't fall into any other Compensation category. Use an 'Other Compensable' Fin Class when the patient has lodged (or intends to lodge) a claim for compensation for injuries resulting from the negligence of another party (e.g. business owner, organisation).
CPO	Compensable Other - Psychiatric Hospital - Per Diem	Patient is claiming compensation for injuries caused by negligence and patient is admitted to a Psychiatric Hospital.
CSA	Compensable Other - Subacute/Non-acute - Per Diem	Patient is claiming compensation for injuries caused by negligence and admission is a sub/non-acute admission.
DC	Deferred Classification	Use as temporary classification only in the following circumstances: an after-hours admission; patient unable to sign at time of admission due to a clinical/social reason or other reason that prevents the patient from making an informed election (including lack of capacity).
DFO	ADF Health Services Claim - General - Overnight	Australian Defence Force serving members admitted overnight.
DFS	ADF Health Services Claim - General - Same Day	Australian Defence Force serving members admitted and discharged on the same day.
DVN	Department of Veterans' Affairs - NWAU	Patient holds a DVA card and is eligible for treatment based upon the card coverage.
E1	Medicare Card Holder - Elected Doctor - Same Day Band 1	Patient who elects to use their private health insurance and is admitted and discharged on the same day under Same Day Band 1 classification. Defined Item numbers that are Band 1 specific, as per the PHI (Benefit Requirement) Rules. Examples include: Gastroscopy, Colonoscopy without Polypectomy, Microlaryngoscopy, Dialysis.
E2	Medicare Card Holder - Elected Doctor - Same Day Band 2	Patient who elects to use their private health insurance and is admitted and discharged on the same day under Same Day Band 2 classification.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		This is any procedure that is not listed in Band 1 and is carried out under local anaesthetic (only) with no sedation.
E3	Medicare Card Holder - Elected Doctor - Same Day Band 3	Patient who elects to use their private health insurance and is admitted and discharged on the same day under Same Day Band 3 classification. This is any procedure not listed in Band 1, and: (a) general anaesthesia, regional anaesthesia or intravenous sedation is used, and (b) theatre time is less than 1 hour.
E4	Medicare Card Holder - Elected Doctor - Same Day Band 4	Patient who elects to use their private health insurance and is admitted and discharged on the same day under Same Day Band 4 classification. This is any procedure not listed in Band 1, and: (a) general anaesthesia, regional anaesthesia or intravenous sedation is used, and (b) theatre time is greater than 1 hour.
ECC	Medicare Card Holder - Contracted Care - Priv to Pub	Patient who elects to be treated as a private patient in a private facility whose care is purchased by that private facility from a public hospital. Public hospital is fully recompensed for services provided. Funding source is "other".
EH	Medicare Card Holder - Elected Doctor - HITH	Patient who elects to be treated as a private patient is receiving acute/sub-acute care in the patient's home or in the community as a substitute for in-hospital care. Your facility must have individual agreements in place with each private health insurer to establish rates and terms for payment for HITH services. If there is no agreement in place, this fin class cannot be used. Contact the Revenue team for more information.
EN	Medicare Card Holder - Elected Doctor - Nursing Home Type	Patient who has elected to use their health insurance on admission and no longer needs acute care. The patient has been in hospital for over 35 days without a 7 day break.
ES	Medicare Card Holder - Elected Doctor - Overnight - Single Room	Patient who elects to use their private health insurance and elects and is accommodated in a single room. Overnight means the patient is admitted and discharged on 2 different calendar days.
EU1	Medicare Card Holder - Self Funded Elected Doctor - Same Day Band 1	Patient who elects to be treated as a private patient (but does not possess any or sufficient private health insurance) and is admitted and discharged on the same day under Same Day Band 1 classification. Defined Item numbers that are Band 1 specific, as per the PHI (Benefit Requirement) Rules. Examples include: Gastroscopy, Colonoscopy without Polypectomy, Microlaryngoscopy, Dialysis.
EU2	Medicare Card Holder - Self Funded Elected Doctor - Same Day Band 2	Patient who elects to be treated as a private patient (but does not possess any or sufficient private health insurance) and is admitted and discharged on the same day under Same Day Band 2 classification. This is any procedure that is not listed in Band 1 and is carried out under local anaesthetic (only) with no sedation.
EU3	Medicare Card Holder - Self Funded Elected Doctor - Same Day Band 3	Patient who elects to be treated as a private patient (but does not possess any or sufficient private health insurance) and is admitted and discharged on the same day under Same Day Band 3 classification.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		This is any procedure not listed in Band 1, and: (a) general anaesthesia, regional anaesthesia or intravenous sedation is used, and (b) theatre time is less than 1 hour.
EU4	Medicare Card Holder - Self Funded Elected Doctor - Same Day Band 4	Patient who elects to be treated as a private patient (but does not possess any or sufficient private health insurance) and is admitted and discharged on the same day under Same Day Band 4 classification. This is any procedure not listed in Band 1, and: (a) general anaesthesia, regional anaesthesia or intravenous sedation is used, and (b) theatre time is greater than 1 hour.
EUS	Medicare Card Holder - Self Funded Elected Doctor - Overnight - Single Room	Patient who elects to be treated as a private patient (but does not possess any or sufficient private health insurance) and is accommodated in a single room. Overnight means the patient is admitted and discharged on 2 different calendar days.
EUW	Medicare Card Holder - Self Funded Elected Doctor - Overnight - Shared Ward	Patient who elects to be treated as a private patient (but does not possess any or sufficient private health insurance) and is accommodated in a shared room. This includes where the patient elects a shared room, but: (a) only a single room is available, or (b) due to clinical reasons accommodated in a single room. Overnight means the patient is admitted and discharged on 2 different calendar days.
EW	Medicare Card Holder - Elected Doctor - Overnight - Shared Ward	Patient who elects to use their private health insurance and is accommodated in a shared room. This includes where the patient elects a shared room, but: (a) only a single room is available, or (b) due to clinical reasons accommodated in a single room. Overnight means the patient is admitted and discharged on 2 different calendar days.
LA	LTCS Compensation - Designated Rehab Unit - Category A - (Active Rehabilitation) Subacute - Per Diem	Patient covered by Lifetime Care and Support (LTCS) and is receiving active inpatient care and participating in a rehabilitation program while in a purpose-built rehabilitation unit.
LB	LTCS Compens Designated Rehab Unit Category B (waiting placement/receiving Respite) Nonacute PerDiem	Patient covered by Lifetime Care and Support (LTCS) and is not on an active rehabilitation program. This includes respite care or patients awaiting transfer, placement or appropriate accommodation elsewhere.
LNW	LTCS Compensation - NWAU	Patient covered by Lifetime Care and Support (LTCS) and doesn't fall into any other LTCS category. Patients injured in a motor accident in NSW who require lifelong treatment are covered by LTCS.
LSA	LTCS Compensation - Subacute/Non-acute - Per Diem	Patient covered by Lifetime Care and Support (LTCS) and is being treated as a sub/non-acute patient.
LTA	LTCS Compensation - Transitional Living Units Category A (Active Rehabilitation) Subacute - Per Diem	Patient covered by Lifetime Care and Support (LTCS) and requires care in a Transitional Living Unit from a multidisciplinary team before being discharged.
LTB	LTCS Compens Transitional Living Unit Category B(waiting placement/receive Respite) Nonacute PerDiem	Patient covered by Lifetime Care and Support (LTCS) that has completed their rehabilitation in a Transitional Living Unit and is awaiting placement or respite.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
LX	LTCS Compens - Designated Rehab Unit Category X (Extreme High level care required) Subacute Per Diem	Patient covered by Lifetime Care and Support (LTCS) and is only to be used in very specific circumstances, when a patient cannot be managed without constant close supervision, generally requiring temporary additional staffing.
MH	Medicare Card Holder - PHI transfer to Public HITH	The Public/non chargeable patient has used their private health insurance for the first part of their admission prior to being transferred to Hospital In The Home (HITH).
MN	Medicare Card Holder - Nursing Home Type	Public/non chargeable patients that have been in hospital for over 35 days without a 7 day break and no longer in need of acute care are classified as Nursing Home Type patients. They are charged a daily fee.
MNW	Medicare Card Holder - Hospital Doctor	Public/non chargeable patient who doesn't fall into any other Public/non chargeable category. Public patients are covered by Medicare and elect to be treated as public.
MPS	Residential Aged Care - in Multi-Purpose Services - Respite Resident Contribution	Resident is receiving respite care in an MPS and is charged a daily fee.
NAC.01	Non-admitted: MBS/PBS Claim - Privately referred	Covers services that are provided to clients/ patients who are referred to a specifically nominated medical practitioner at a health service (either salaried or visiting) who services the non-admitted client/patient as part of their own private practice and bills the client/patient via Medicare bulk billing.
NAC.02	Non-admitted: Charge - Overseas Student Health Insurance Claim	Claims against a private health insurer covering an overseas student's tenure period while studying in Australia
NAC.03	Non-admitted: Charge - Medicare Eligible - Self Funded	The Australian Health Care Agreement between NSW Health and the Commonwealth Government states that charges may be raised against Medicare Eligible non-admitted public patients in public hospitals for selected services as provided for below in Schedule G - Business Rules for the National Health Reform Agreement. Public Patient Charges G1. Where an eligible person receives public hospital services as a public patient no charges will be raised, except for the following services provided to non-admitted patients and, in relation to (f) only, to admitted patients upon separation: a. dental services; b. spectacles and hearing aids; c. surgical supplies; d. prostheses – however, this does not include the following classes of prostheses, which must be provided free of charge: i.e. artificial limbs; and ii. prostheses which are surgically implanted, either permanently or temporarily or are directly related to a clinically necessary surgical procedure; e. external breast prostheses funded by the National External Breast Prostheses Reimbursement Program; f. pharmaceuticals at a level consistent with the PBS statutory co-payments; g. aids, appliances and home

Code	Descriptive label	Definition
		Coast, Hunter New England, Nepean Blue Mountains, Northern Sydney, South Western Sydney, Southern NSW, and Western Sydney. From 1 July 2017 to 30 June 2018 residents living within the following Local Health District boundaries will potentially be eligible for the scheme: Illawarra Shoalhaven, Mid North Coast, Murrumbidgee, Northern NSW, South Eastern Sydney, Sydney, Western NSW, and Far West. The NDIS may fund reasonable and necessary supports that help people with disabilities achieve their goals such as therapies, equipment, home modifications, mobility equipment, taking part in community activities or assistance with employment. An NDIS plan tailored to each individual's needs is developed to help the participant achieve their goals. The NDIS is being implemented by the National Disability Insurance Agency (NDIA).
NAI.01	Non-admitted: Charge - Medicare Ineligible - Self Funded	Medicare ineligible overseas visitors where it is known that the patient will be paying for the cost of the service, rather than a travel insurance fund.
NAI.02	Non-admitted: Charge - Medicare Ineligible - Travel Insurance	Medicare ineligible overseas visitors where it is known that the patient's travel insurance fund will be paying for the cost of the service.
NAL	Non-admitted: Compensable - Lifetime Care Support	<p>The LTCS Scheme provides lifelong treatment, rehabilitation and attendant care services to people who sustain a spinal cord injury, a moderate to severe brain injury, multiple amputations and severe burns or blindness from a motor accident in NSW. The Scheme commenced in relation to children under 16 years of age who are injured in a motor accident from 1 October 2006 and in relation to adults from 1 October 2007.</p> <p>The Scheme is a "no-fault" scheme which means that if the injured person's injuries are severe enough to enter the Scheme it does not matter if the injured person was at fault in the accident or not. This Scheme also covers vehicles registered in other States / Territories, provided the accident occurs in NSW. LTCS services are paid for as they are required, rather than paying the injured person a one-off lump sum to meet their lifetime needs at settlement of their CTP claim.</p> <p>Should a person injured in a motor accident whose injuries appear to meet the eligibility requirements for the Scheme present to a public hospital / facility, the public hospital / facility should contact the LTCS Authority. The Authority will appoint a LTCS coordinator who will assist with the completion of an application for participation in the Scheme.</p> <p>Fees for this category are outlined in Policy Directive 2015_020 issued on July 2015.</p> <p>LTCS CHARGING POLICY- OTHER THAN DESIGNATED UNITS</p>

Code	Descriptive label	Definition
		<p>Bulk billing arrangements, under the Purchasing Agreement for NSW Health Services to Motor Accident Patients, applies to all LTCS patient services except for services provided by designated Brain or Spinal Injury Rehabilitation units. The NSW Ministry of Health administers charging under the bulk billing arrangements from hospital / facility activity data recorded and conveyed via EDWARD and disseminates this revenue to LHDs as appropriate. Hospitals / facilities / Local Health Districts (LHD) should ensure that LTCS activity is accurately identified and coded to ensure that appropriate charging occurs.</p> <p>LTCS CHARGING POLICY – DESIGNATED UNITS</p> <p>LTCS non-admitted patient services provided by designated non-admitted patient units, are chargeable in accordance with the rates advised in this Policy Directive. LHD / hospital / facilities are to raise invoices against the LTCS Authority for these services.</p> <ol style="list-style-type: none"> 1. Non-Admitted Patient Services provided by designated Brain Injury / Spinal Injury Rehabilitation Transitional Living Units: Category A (which applies to patients who are being assessed for or receiving active rehabilitation) is \$835, and Category B (which applies to patients who are not on an active rehabilitation program. This category includes but is not limited to patients who are admitted for respite care or patients who have finished their rehabilitation program and are waiting for a transfer, placement or appropriate accommodation elsewhere) is \$414. 2. Non-admitted patient Rehabilitation Services, including Outreach At the cumulative rate of \$80 per half-hour. The fee shall not be greater than the equivalent of 5 hours per day of non-admitted patient care. 3. Non-admitted Patient Medical Consultation – Initial: Applies to a new patient referred for medical assessment by an attending medical officer - charged at the standard rate of \$276. 4. Non-admitted Patient Medical Consultation – Subsequent: Applies to follow-up appointments of a patient by an attending medical officer - charged at the standard rate of \$138. 5. Non-admitted Patient Group activities - qualified allied health clinician: Applies to those group activities directly supervised by a qualified allied health clinician - charged at the cumulative half hour rate of \$51. 6. Non-Admitted Patient Group activities - unqualified allied health clinician: Applies to those group activities not directly supervised by a qualified allied health

		<p>clinician - charged at the cumulative half hour rate of \$36.</p> <p>DESIGNATED UNITS</p> <p>Designated Brain Injury / Spinal Injury</p>
NAM	Non-admitted: Compensable - NSW Motor Accident Compensation, not further defined	<p>Services chargeable to the Motor Accident Authority for compensable services, where it is unknown whether the it was the driver at fault or not.</p> <p>Note: The CTP Scheme/Bulk billing agreement does not cover NSW residents injured in motor vehicle accidents outside of NSW as the accident did not occur within NSW or on a NSW road. In these instances the Motor Accident Authority provisions of the State/Territory in which the accident occurred would apply, therefore these client/patients would be classified as "NAS" (Non-Admitted charge - Interstate motor vehicle accident compensation).</p>
NAN.01	Non-admitted: No Charge - LHD/SHN Budget	<p>Services provided to patient at no charge where the costs of the service will be covered by the NSW Health Activity Based Funding or Block Funding budget agreement.</p>
NAN.02	Non-admitted: MBS/PBS Claim - Public Patient	<p>This category is for specialist rural providers that have approval to bill the Medicare Benefits Scheme for non-admitted services even though the patient is not privately referred.</p> <p>An exemption to section 19(2) of the Health Insurance Act 1973 is granted to an approved site by the Commonwealth Minister for Health. The Policy Directive 2012_034 outlines the Commonwealth section 19(2) exemptions initiative and the requirements for sites and General Practitioner Visiting Medical Officers participating in the initiative.</p> <p>To bill MBS under this category participating rural Local Health Districts are required to issue a Visiting Medical Officer - Letter of Agreement (Appendix 1) to participating Visiting Medical Officers and the Eligible Health Professional – Letter of Agreement (Appendix 2) to eligible health professionals prior to commencement of Medicare billing. A copy must be retained with the Visiting Medical Officer's contract or with the eligible health professional's employment records.</p> <p>Patients who receive eligible services must assign their Medicare benefits to the VMO/eligible health professional in accordance with Medicare Australia requirements.</p> <p>The Medicare benefits must be claimed in accordance with the Health Insurance Act 1973 and Medicare Australia billing rules. It will be the responsibility of the VMO/eligible health professional to allocate the item numbers, sign claim forms, and otherwise ensure compliance with Medicare Australia requirements.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>Participating Visiting Medical Officers and eligible health professionals are responsible for: 1. Compliance with Medicare Australia rules, especially with respect to the assignment of Medicare income from the patient. 2. Allocation of appropriate MBS item numbers. 3. Paying over Medicare earnings to the Local Health District</p> <p>Eligible Health professional in this context means an employee of a participating Local Health District who is either a Nurse practitioner, a Midwife, or an Allied Health Professional and who is eligible for a Medicare provider number.</p> <p>A participating site is a rural health facility granted an exemption by the Commonwealth Minister for Health. The document entitled COAG Improving Access to Primary Care in Rural and Remotes Areas (s19(2) Exemptions) Initiative NSW Information and Guideline June 2011 contains information on site eligibility and how to obtain an exemption.</p> <p>Since 1988 NSW has operated under the Rural Doctors Settlement Package for remuneration of VMOs in designated rural facilities. A section 19(2) exemption will not change these remuneration arrangements. What the exemption allows is for Medicare benefits to be claimed for services provided by VMOs to public patients in respect of which the VMO is remunerated by the Local Health District in accordance with their VMO Service Contract and the Rural Doctors Settlement Package.</p> <p>Further information about this scheme is outlined in Guideline 2017-005 - Improving Access to Primary Care in Rural and Remote Areas (s19(2) Exemptions) Initiative: http://www1.health.nsw.gov.au/pds/Pages/doc.aspx?dn=GL2017_005</p>
NAN.03	Non-admitted: No Charge - Overseas Visitor Reciprocal Agreement	Services provided to an overseas visitor who is not a Medicare Card Holder but who is eligible for a non-charge service under reciprocal health care agreement with their country of residence.
NAN.04	Non-admitted: No Charge - Medicare Ineligible Fees Waived	Services provided to Medicare ineligible overseas visitors where the patient is not charged due to their eligibility for a fee waiver, such as a tuberculosis case.
NAN.06	Non-admitted: No Charge - Prisoner / detainee	Covers persons who are prisoners of a NSW State Correction Centre or held in detention in a NSW State Detention centre.
NAN.08	Non-admitted: Charge - Other Recognised Health Care Scheme	<p>Covers health services that are funded by the Asylum Seekers Assistance Scheme (ASAS).</p> <p>The Asylum Seekers Assistance Scheme funds the health care needs of Medicare Ineligible individuals seeking asylum. In these instances the individual is issued with a letter guaranteeing payment to the</p>

		<p>Modification Fees Policy.</p> <p>Further information about this programme is available from the following NSW Department of Family and Community Services web site: http://www.adhc.nsw.gov.au/sp/nsw_community_care_supports_program.</p>
NAX.07	Non-admitted: Contract - Bill Transport NSW	For use when the patient has received transport (including the provision of cab vouchers) using funding received from the Ministry of Transport Community Transport Program, Ministry of Transport Area Assistance Program or other Transport NSW funds.
NAX.08	Non-admitted: Contract - Bill Other NSW Government Agency, not elsewhere classified	<p>Includes specific services purchased by NSW State Government agencies such as services purchased under the Keeping the Safe Program.</p> <p>Note: This category excludes services eligible under the NSW Community Care Supports Program (CCSP). See category "NAX.06" (NSW Department of Family and Community Services).</p>
NAX.09	Non-admitted: Contract - Bill other Australian Government Agency, not elsewhere classified	<p>Covers services purchased under a contract by another Australian Government agency other than Department of Veterans' Affairs, Department of Defence, or Australian Government Department of Health.</p> <p>Services funded by the Commonwealth Department of Immigration and Border Protection:</p> <p>The Commonwealth Department of Immigration and Border Protection are responsible for the provision of health services for persons in immigration detention, including Community Detention. The Department arranges health services through contracted providers. The contracted providers have a network of private sector health care professionals and they also utilise public sector health services. Services for immigration detainees will be pre-arranged by the detention centre or contracted provider. See Section 3.10 - Immigration Detention Centre Patients of Policy Directive 2016_031 - Medicare Ineligible and Reciprocal Health Care Agreement – Classification and Charging for NSW Public Health Services: http://www0.health.nsw.gov.au/policies/pd/2016/PD2016_031.html</p>
NAX.10	Non-admitted: Funding agreement - Commonwealth Home Support Programme (CHSP)	<p>Covers services funded under the Commonwealth Home Support Programme</p> <p>Commonwealth Home Support Programme (CHSP). The Commonwealth Home Support Programme (CHSP) program helps older persons stay independent and, in their home, and community for longer. It provides help with daily tasks and entry level care.</p> <p>Eligible people must be still living at home and in</p>

Code	Descriptive label	Definition
		<p>need of help at home to continue to live independently and either: - 65 years or older, or - 50 years or older and identify as an Aboriginal and/or Torres Strait Islander person or - 50 years or older and on a low income, homeless or at risk of homelessness</p> <p>From 1 July 2015, the Commonwealth Home Support Programme brought together the following former programs: - Commonwealth Home and Community Care (HACC) Programme - Planned respite from the National Respite for Carers Programme (NRCP) - Day Therapy Centres (DTC) Programme - Assistance with Care and Housing for the Aged.</p> <p>Persons with more complex needs may be eligible for a Home Care Package. These packages cover similar services to the Commonwealth Home Support Programme, but are coordinated and tailored to meet the aged person's specific needs. What is the Commonwealth Home Support Programme?</p> <p>The Commonwealth Home Support Programme is an entry level home help programme funded by the Australian Government. It is for older people who can mostly – but not completely – live and cope on their own, and don't yet need higher levels of support at home. A home support assessment (conducted by the Regional Assessment Service (RAS) is required to assess the person's eligibility for the programme.</p> <p>The Commonwealth Home Support Programme also provided help to carers. The Commonwealth Home Support Programme can arrange for someone to help an older person who has a carer who needs to attend to everyday activities while they are away.</p> <p>What types of services are provided? Commonwealth Home Support Programme services provided in the community may include: - social support (social activities in a community-based group setting) - transport (helps people get out and about for shopping or appointments)</p> <p>Commonwealth Home Support Programme services provided at home may include: - domestic assistance (household jobs like cleaning, clothes washing and ironing) - personal care (help with bathing or showering, dressing, hair care and going to the toilet) - home maintenance (minor general repair and care of houses or yards, for example, changing light bulbs or replacing tap washers) - home modification (minor installation of safety aids such as alarms, ramps and support rails in homes) - nursing care (a qualified nurse visits the home and may, for example, dress a wound or provide continence advice).</p> <p>Some Commonwealth Home Support Programme services can be provided either at a community</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
NAX.11	Non-admitted: Funding agreement - Commonwealth Aged Care Assessment Team (ACAT) Programme	<p>centre or in the client's home. These can include: - Food services: Providing meals at a community centre, helping with shopping for food, preparing and storing food in the aged person's home, and delivering meals to the aged person's home - Allied Health support services: These services are for people having particular health problems, for example with their speech or walking, or needing help with ongoing problems resulting from an accident or illness. They include physiotherapy (exercises, mobility, strength and balance), podiatry (foot care), speech pathology, occupational therapy (help to recover or maintain your physical ability), advice from a dietitian (healthy eating), other allied health and therapy services.</p> <p>Who funds Commonwealth Home Support Programme services The Australian Government funds the Commonwealth Home Support Programme service providers so they can deliver affordable services to you. The Commonwealth Home Support Programme has a client contribution policy, with a view to ensuring that those who can afford to contribute to the cost of their care do so, whilst protecting those most vulnerable.</p> <p>An ACAT assessment (aged care assessment) is an assessment organised by an Aged Care Assessment Team (ACAT) and is required for a person who needs to be approved for Government-funded services including; a nursing home (aged care home), home care, residential aged care, transition care or respite care. An ACAT assessment is used to make a recommendation for the type and level of care that will best meet your needs.</p> <p>The Aged Care Assessment Team (ACAT) helps the elderly and their carers determine what kind of support will best meet their needs when they are struggling in their current living situation. The team, often comprising a doctor, nurse, social worker and occupational therapist, will ask the client a series of questions to determine the best care options available, either at home or in a residential aged care home.</p> <p>This programme was previously classified to the broader category of NAN.11 Non-admitted: Contract – Bill Australian Government Department of Health Financial Class</p>
NAX.13	Non-admitted: Funding Agreement - Commonwealth Transitional (After-Hospital) Care	<p>WebNAP Financial Group code: 94 New from 1 July 2019</p> <p>Note: Equivalent to Financial Group WebNAP Code 82.</p> <p>This category covers services provided under the Transitional Aged Care Program (TACP). This program is known as Transition Care Programme</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>nationally and TACP in NSW.</p> <p>TACP provides a time-limited, goal-oriented and therapy-focused packages of services to older people after a hospital stay. The program is designed to improve a client's independence and functioning in order to delay their entry into residential aged care.</p> <p>The program supports older people who would otherwise be eligible for residential care. To enter transition care clients must have been assessed as eligible by an Aged Care Assessment Team (ACAT) while they are an in-patient of a hospital. Clients can only enter transition care directly after discharge from hospital.</p> <p>TACP provides short-term care of up to 12 weeks, care is able to be delivered in a hospital, residential or home setting. Recipients can have their episode extended by a maximum of 42 days (an additional six weeks) to ensure that their further transition care needs are met.</p> <p>These packages include low intensity therapy—such as physiotherapy and occupational therapy—social work and nursing support or personal care. Schedule 1 of the Transition Care Programme Guidelines 2015 provides a list of care and services that is not exhaustive but indicates the basic level of care that providers must be able to provide, if required by a recipient of transition care.</p> <p>TACP was established in 2004–05 as a jointly funded initiative between the Australian Government and state and territory governments. The Australian Government provides the Flexible Care Subsidy for the program. Within the framework of the program, state and territory governments determine the model of service delivery that best responds to local service and individual care recipient needs. All state and territory governments have partnership arrangements with non-government organisations for the provision of TACP.</p>
NAX.14	Non-admitted: Funding Agreement - Commonwealth Home Care Packages	<p>New from 1 July 2019</p> <p>Note: Equivalent to Financial Group WebNAP Code 83.</p> <p>This category covers services provided through Home Care Packages (HCPs).</p> <p>The HCPs Program helps older Australians with complex care needs to live independently in their own homes. It is part of the Australian Government's continuum of care for older Australians and is positioned between residential aged care and the Commonwealth Home Support Programme.</p> <p>Individuals are assessed by an Aged Care</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>Assessment Team (ACAT) assessor using a nationally consistent assessment framework.</p> <p>There are four levels of support: Home Care Level 1 – basic care needs Home Care Level 2 – low level care needs Home Care Level 3 – intermediate care needs Home Care Level 4 – high care needs</p> <p>During the assessment process each individual's priority for care is also determined. Individuals approved for a HCP are placed on a national queue until a package becomes available and is assigned to them. Under the Aged Care Act 1997, the Australian Government provides a subsidy to an approved provider of home care to coordinate a package of care, services and case management to meet the individual needs of older Australians. The HCP Program provides a subsidy towards the total amount of funds available under a home care package. Each level of HCP provides a different subsidy amount. Supplements are also available to eligible approved providers of home care to meet individual needs. If personal circumstances allow, consumers can be asked to make a financial contribution towards the cost of their care.</p>
NAX.15	Non-admitted: Funding Agreement - Commonwealth Regional Assessment Service	<p>New from 1 July 2019</p> <p>Note: Equivalent to Financial Group WebNAP Code 84.</p> <p>This category covers services provided by NSW Health Regional Assessment Service (RAS) Outlets. The Australian Government directly engages RAS organisations to operate the RAS in Aged Care Planning Regions across Australia. These organisations are responsible for the provision of Home Support Assessment services in those jurisdictions including the assessment of service eligibility for the Commonwealth Home Support Programme (CHSP). The RAS may deliver Home Support Assessments through subcontracting arrangements subject to approval from the Department.</p> <p>The RAS is designed to give a clear access pathway and greater choice of entry level services to older Australians who wish to continue living at home and can do so with some support. RAS assesses clients' needs, goals and preferences holistically and refers them to services that will help them achieve the best possible level of function and independence.</p> <p>The RAS deliver the assessment of client needs independent of provider preferences and ensure clients are referred only to the services that will fulfil their needs and goals.</p>
NAX.16	Non-admitted: Funding Agreement - Commonwealth Department of Home Affairs	<p>New from 1 July 2019</p> <p>Note: Equivalent to Financial Group WebNAP Code</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		85. Services funded by the Department of Immigration and Border Protection. These include primary and mental health care services within the Australian detention network to asylum seekers in immigration detention centres. Note: This may include services sub-contracted by International Health and Medical Services.
NAX.17	Non-admitted: Funding Agreement - Commonwealth Aged Care Provider	New from 1 July 2019 Note: Equivalent to Financial Group WebNAP Code 86. This category covers activity provided by NSW Health staff, where there is a service level agreement and funding arrangement between the Commonwealth provider and the LHD/SHN to provide services that would normally be covered under the associated Commonwealth funding program. Such services could include: • General nursing services (continence services / medication administration and management) • Physiotherapy services • Occupational Therapy services The patient could be under the care of any of the following Commonwealth programs: • Residential Aged Care Facility (RACF) • Home Care Package (HCP) • Transitional Aged Care Program (TACP) • Short Term Restorative Care (STRC) service
OCC	Overseas - Critical Care	Patient is an overseas visitor and does not hold a work or student visa, and is receiving critical care (e.g. admitted to an intensive care unit).
OCV	Overseas - Victim of Crime - Hospital Doctor	Patient is admitted to hospital as a result of a crime committed against them in NSW. A police event number is no longer required to classify someone as a victim of crime. NSW Health clinical staff may determine if someone should be classified as a victim of crime based on their own assessment, or on other information available such as a report from police, government agency or government-funded organisation.
OHP	Overseas - High Risk Pregnancy	Patient is admitted for a pregnancy that is classified as high-risk to mother and/or baby. The Fin Class should be changed once the need for high risk treatment has passed.
OID	Overseas - Infectious Diseases - Public Health Risk - Hospital Doctor	Patient is admitted for suspected or confirmed cases of an Infectious Disease, whether this be for investigation or treatment.
OIM	Overseas - Involuntary MH Patient	Patient is admitted as an involuntary mental health inpatient who lacks capacity to make an informed decision. The Fin Class should be changed once the patient is no longer involuntary.
ONC	Overseas - Non Critical Care	Patient is an overseas visitor and does not hold a work or student visa, and is receiving non-critical care (e.g. admitted to a general or rehab ward).

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
OPY	Overseas - Psychiatric Hospital - All Visa Types	Overseas patient is admitted to a Psychiatric Hospital.
OVC	Overseas Visa Holder - Critical Care	Patient is an overseas visitor, holds a work or student visa, and is receiving critical care (e.g. admitted to an intensive care unit).
OVD	Overseas - All Visa Types - Dialysis (per session)	Overseas patient is admitted for Dialysis (per session).
OVH	Overseas - All Visa Types - HITH	Overseas patient is admitted to Hospital in the Home (HITH).
OVK	Organ Donor - Overseas Visitor - Kidney Only	Overseas visitor admitted to the hospital for the sole purpose of donating a kidney as an organ donor.
OVN	Overseas Visa Holder - Non critical	Patient is an overseas visitor and holds a work or student visa, and is receiving non-critical care (e.g. admitted to a general or rehab ward).
OVR	Overseas - All Visa Types - Other (e.g. Residential Aged Care Facilities)	An overseas patient who is a resident accommodated in a Residential Aged Care facility.
PO	Prisoner	A person who is a prisoner. All Prisoners are entitled to free inpatient and non-inpatient services in public hospitals.
R11	Resident of Home/Home Section of Hospital or Psychiatric Hospital - Single Rate	Patient with a Single Pension (age or disability) receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days). The patient may be entitled to Rent Assistance.
R12	Resident of Home/Home Section of Hospital or Psychiatric Hospital - Partner Rate (each)	Patient with a Partner Pension (age or disability) receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days). The patient may be entitled Rent Assistance and the single rate of pension as they are separated from their partner due to illness.
R13	Resident of Home/Home Section of Hospital or Psychiatric Hosp - Partnered - Illness Separated (each)	Patient with a Single Pension (age, disability) receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days) due to being separated from partner due to illness. Note: The patient may be entitled to Rent Assistance.
R14	Resident of Home/Home Section of Hosp/Psych Hosp <18 years old at home single no dependent benefit	Patient aged 16-17, single with no dependent, living in the family home, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R15	Resident of Home/Home Section of Hosp/Psych Hosp 18-21 years old at home single no dependent benefit	Patient aged 18-21, single with no dependent, living in the family home, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R16	Resident Home/Home Section of Hosp/Psych Hosp <22 years old away from home single no depend benefit	Patient aged 16-21, single with no dependent, no longer living in the family home, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R17	Resident of Home/Home Section of Hosp or Psych Hosp >=22 years of age single no dependent benefit	Patient aged 22 and over, single with no dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R18	Resident of Home/Home Section of Hosp/Psych Hosp <22 years of age single with dependent benefit	Patient aged 16-21, single with dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
R19	Resident of Home/Home Section of Hosp/Psych Hosp >= 22 years of age single with dependent benefit	Patient aged 22 and over, single with dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R20	Resident of Home/Home Section of Hosp/Psych Hosp <22 years old partner rate no dependent benefit	Patient aged 16-21, partner with no dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R21	Resident of Home/Home Section of Hosp/Psych Hosp >=22 years old partner rate no dependent benefit	Patient aged 22 and over, partner with no dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R22	Resident of Home/Home Section of Hosp/Psych Hosp <22 years old partner rate with dependent benefit	Patient aged 16-21, partner with dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R23	Resident of Home/Home Section of Hosp/Psych Hosp >=22 years old partner rate with dependent benefit	Patient aged 22 and over, partner with dependent, receiving subacute care in Home Section of Hospital/Residential Psychiatric Facility (more than 60 days).
R24	Resident of Home/Home Section of Hospital or Psychiatric Hospital - Non-Pensioner patient	A non-pensioner resident of Home/Home Section of Hospital or Psychiatric Hospital, receiving sub-acute care in a Residential Psychiatric Facility (more than 60 days).
RAC	Residential Aged Care - in Multi-Purpose Services - Standard Resident Contribution	Resident is receiving residential aged care in an MPS and is charged a daily fee.
RCN	RAC - General non-pensioner resident no C'wealth Senior Health Card care >= 01/07/2012 Stand contrib	Non pensioner residents who do not hold a C'wealth Seniors Health Card in care as of 1 July 2012 - Standard contribution. Resident is being charged a per diem standard contribution for residential services excluding those subject to the Aged Care Act.
RCO	RAC - General all other non-pensioner residents no C'wealth Seniors Health Card Standard contrib	All other non-pensioner residents who do not hold a C'wealth Seniors Health Card - Standard contribution. Resident is being charged a per diem standard contribution for residential services excluding those subject to the Aged Care Act.
RCS	Resident Aged Care - General - pensioner/holder with C'wealth Seniors Health Card - Standard contrib	Commonwealth Seniors/Pension card holder standard contribution (including DVA). Resident is being charged a per diem standard contribution for residential services excluding those subject to the Aged Care Act. Residential aged care is for senior Australians who can no longer live independently in their own home. It includes accommodation, nursing, general health care services and personal care 24 hours a day.
RMA	NSW Motor Accident - Residential Aged Care	Aged care resident requires aged care as a result of an accident/injury subject to a Motor Accident and has lodged a CTP claim.
RN	Reciprocal - Hospital Doctor - Nursing Home Type	Reciprocal patients that have been in hospital for over 35 days without a 7 day break and no longer need acute care are classified as Nursing Home Type patients. They are charged a daily fee.
RP	Drug Trial / Research Patient	
RW	Reciprocal - Hospital Doctor	Reciprocal Patient admitted to a NSW public hospital. Reciprocal health care agreements cover residents from: (i) New Zealand; (ii) United Kingdom; (iii)

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		Sweden; (iv) Netherlands; (v) Belgium; (vi) Norway; (vii) Slovenia; (viii) Finland; (ix) Republic of Ireland; (x) Malta (visiting Australia for 6 months or less) or (xi) Italy (visiting Australia for 6 months or less). The patients must: (a) Require immediately necessary treatment that cannot be postponed until they return to their home country and (b) Elect to be treated by a hospital doctor in shared ward accommodation. If the patient chooses to use their Private Health Insurance, use a Medicare Ineligible Fin Class.
TA1	Transitional Aged Care Services - Residential places - Hospital/Facility	Patient is in an aged care facility while they recover after a hospital stay.
TA2	Transitional Aged Care Services - Residential places - Community Based Places	Patient is recovering in the community after a hospital stay.
UQ	Unqualified Newborn	A baby: (a) aged nine days old or less (the day of birth is counted as day one); or (b) whose mother is admitted to the same hospital; or (c) who was a single birth or the first of a multiple birth; or (d) who is not admitted. Note: On day 10 the Fin Class must be changed (e.g. boarder).
V10	NSW Motor Accident - No Claim - Hospital Doctor	The patient is Medicare Eligible and has decided not to submit a CTP claim following a motor accident.
V12	NSW Motor Accident - No Claim - Elected Doctor	This patient is Medicare Eligible and has decided not to submit a CTP claim following a motor accident. They have elected to use their Private Health Insurance to cover doctors' billings.
V14	NSW Motor Accident - No Claim - DVA	This patient is eligible for DVA and has decided not to submit a CTP claim following a motor accident. They have elected to use DVA to cover doctors' billings.
V16	NSW Motor Accident - No Claim - Ineligible	The patient is an overseas visitor and has decided not to submit a CTP claim following a motor accident.
VNW	NSW Motor Accident - Purchasing Agreement - NWAU - Claim	The patient intends to submit a Compulsory Third Party claim for their acute care treatment following a motor accident. Costs for injuries caused by motor accidents in NSW are covered by CTP insurance policies held by all car owners. This covers all drivers, passengers, riders, pillion passengers (e.g. on back of motorcycle), pedestrians and cyclists. These patients are not eligible for Medicare.
WCD	Workers Compensation - Dialysis (per session)	Patient has an approved worker's compensation claim and is receiving dialysis.
WCP	Workers Compensation - Psychiatric Hosp - Per Diem	Patient has an existing, approved worker's compensation claim and is receiving psychiatric care as a sub/non-acute patient.
WNW	Workers Compensation - NWAU	Patient is admitted due to a workplace injury or illness and doesn't fall into any other Workers Compensation category.
WSA	Workers Compensation - Subacute/Non-acute - Per Diem	Patient is admitted due to a workplace injury or illness and is receiving sub/non-acute care, e.g. rehabilitation.
Y1	Non-NSW Motor Accident - NWAU	The injury or illness was from a motor accident occurring outside NSW. The patient is required to claim through the relevant CTP insurer of the other state/territory.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
Y2	Non-NSW Motor Accident - Subacute/Non-acute - Per Diem	The injury or illness was from a motor accident occurring outside NSW and being treated as a sub/non-acute patient.

Service Event Attribute Code: Legal Status (EDW)

Defining Characteristics			
Data Element Type:	Composite Element		
Physical Name:	[SERVICE_EVENT_ATTRIBUTE].[SERVICE_EVENT_ATTRIBUTE_CODE]		
Data Element ID:	10997	Version:	1.0
Definition:	A code representing the legislative provision governing the client's or patient's health care for the reported service event, as supplied via the Service Event Attribute Code, with a Service Event Attribute Type code of '09'.		
Status Allocation Date:			
Representation			
Data Type:			
Form:			
Field Size:	Minimum:	Maximum:	
Representation Layout:			
Unit Of Measure:			
Additional Information:	Refer to 'Service Event Attribute Code (EDW)' for Representation details.		
Collection and Usage Guide			
Guide for Use:	<p>The Legal Status of admitted patient/clients and ambulatory patient/clients being treated in the community may change many times throughout the admission or episode of care. Multiple changes of Legal Status may occur within an admission or episode of care depending upon the patient/client's clinical or social conditions, his/her capacity to consent to treatment, etc.</p> <p>The Legal Status is recorded for any point during the admission or episode of care, and therefore should be updated with each change in status.</p> <p>The information provided here should not be used to determine an applicable legislative instrument upon which to base service provision. Reference should be made to the relevant legislative instrument or departmental or local policies. This data item is only to record the legal status of a patient at a point during an admission or episode of care.</p> <p>Mental Health Act Involuntary Patients: Where more than one Act applies to a patient at the same time and one of the options is an involuntary mental health act code, then record the mental health act code. (1) Involuntary patients / clients are persons who are detained in hospital or compulsorily treated under the mental health legislation for the purpose of assessment or provision of appropriate treatment or care. Approval is required under legislation in order to detain patient/clients for the provision of mental health care or for patients to be treated compulsorily in the community. (2) Only designated psychiatric units, recognised under the Mental Health Act 1990, may treat patient/clients on an involuntary basis. (3) Patients / clients may be admitted or commence their episode of care on an involuntary basis and subsequently be changed to voluntary status, or vice versa. (4) Patients may be involuntarily admitted to a psychiatric hospital due to the effects of alcohol intoxication. However this type of</p>		

	<p>admission is classified as voluntary under the Mental Health Act 1990 for purposes of mapping and reporting Mental Legal Status in the National Minimum Data Sets for Admitted or Community Client Mental Health Care.</p> <p>For Mental Health clients a note is to be made on the client file for every change in legal status.</p> <p>For data collection purposes, the following apply: (1) Admitted MH patients – record on admission and all subsequent changes to legal status; (2) Ambulatory MH Patients – must be recorded when client is accepted for treatment (registration) or if client is already known to the service unit then record (or update) for any service/activity even if treatment is not to be ongoing.</p> <p>May be recorded for any activity involving the client up to the time of acceptance for treatment where the client is new or unknown.</p>
Scope:	Admitted care; ambulatory care; community residential care
Justification:	<p>For mental health this data element is required to monitor trends in the use of compulsory treatment provisions under the Mental Health Act 1990 by hospitals and community health care facilities, including 24 hour community based residential services. It can also be an indicator of severity of illness and resources required to treat the patient/client.</p> <p>For those hospitals and community mental health services which provide psychiatric treatment to involuntary patients under the Mental Health Act, Legal Status information is an essential data element within local reporting systems.</p> <p>This element will be mapped by NSW Health to the data element required by the Commonwealth for the Mental Health data collection. Local Health Networks are required to report activity under the Mental Health Act to the Mental Health Tribunal.</p> <p>Patients undergoing health care may also be subject to a particular status under one or more legal Acts.</p>

Code	Descriptive label	Definition
25	Other State Mental Health Act	<p>A NSW Mental Health service required to care for a person who is involuntary under the Mental Health Act of another state. It includes community orders as well as admitted schedules.</p> <p>In the rare case that a person is voluntary under another State's Mental Health Act, and attends for treatment in NSW themselves, they should be admitted under the appropriate NSW legal status code.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		In the very unlikely circumstance of a voluntary person being transferred from an interstate hospital, use code 95 'No Act Applies', unless it is decided that the patient is to be classified as '01 Informal' under the NSW MH Act.
30	Bail Act 2013 s.28 Bail condition can impose accommodation requirements	That a person enter into an agreement to subject himself or herself to an assessment of the person's capacity and prospects for drug or alcohol treatment or rehabilitation, that the person enter into an agreement to participate in a drug or alcohol treatment or rehabilitation program.
40	Children and Young Persons (Care and Protection) Act 1998 s.17 Secretary's request from agencies	Children and Young Persons (Care and Protection) Act 1998 s.17 Secretary's request for services from other agencies: Service provided in response to a request from the Department of Community Services Director-General to provide services to a child, young person or his/her family.
41	Children and Young Persons (Care and Protection) Act 1998 s.18 Obligation to co-operate	A 'Best Endeavours' response to comply with a request made under s.17.
42	Children and Young Persons (Care and Protection) Act 1998 s.53 Making of assessment orders	A physical, psychological, psychiatric or other medical examination, or an assessment of a child or young person under an order of the Children's Court.
43	Children and Young Persons (Care and Protection) Act 1998 s.74 Order for provision support services	Support for a child or young person as directed in an order of the Children's Court.
44	Children and Young Persons (Care and Protection) Act 1998 s.75 Order to attend therapeutic treatment	Attendance of a child less than 14 years in a therapeutic program relating to sexually abusive behaviours in compliance with an order of the Children's Court.
47	Children and Young Persons (Care and Protection) Act 1998 s.173 Med examination of children in need	A medical examination under a notice (as prescribed by the regulations) by the Director-General of the Department of Community Services or a police officer.
48	Children and Young Persons (Care and Protection) Act 1998 s.174 Emergency medical treatment	Medical or dental treatment on a child or young person carried out by medical practitioner or registered dentist (without the consent of the child or young person or the parent of the child or young person) as a matter of urgency, and in order to save his or her life or to prevent serious damage to his or her health.
49	Children and Young Persons (Care and Protection) Act 1998 s.175 Special medical treatment	Special medical treatment on a child carried out as a matter of urgency in order to save the life of the child or to prevent serious damage the child's health, or as consented to by the Guardianship Tribunal or in accordance with the regulations.
50	Children and Young Persons (Care and Protection) Act s.135A - Statutory Out of Home Care	"Statutory out-of-home care" is out-of-home care that is provided in respect of a child or young person for a period of more than 14 days: (a) pursuant to a care order of the Children's Court, or (b) by virtue of the child or young person being a protected person. (2) Any statutory out-of-home care provided in

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>respect of a child or young person is taken to commence:</p> <p>(a) immediately on the making of a care order for a period of more than 14 days in respect of the child or young person, or</p> <p>(b) in any other case--immediately the child or young person is placed with an authorised carer.</p> <p>(3) In this section, "protected person" means:</p> <p>(a) a person who is a ward of the Supreme Court, or subject to an order of the Supreme Court in its <i>parens patriae</i> jurisdiction, and of whom the Minister or the Secretary has the custody or care pursuant to an order of the Supreme Court, or</p> <p>(b) a person who is under the parental responsibility of the Secretary pursuant to Part 6 (Parental responsibility for children awaiting adoption) of Chapter 4 of the Adoption Act 2000 , or</p> <p>(c) a person in respect of whom the Minister or the Secretary has parental responsibility, either wholly or partially, pursuant to an order in force under the Family Law Act 1975 of the Commonwealth, or</p> <p>(d) a person who, having been a person referred to in paragraph (a), (b) or (c), was in the custody of a person referred to in section 91 (1) (d) (i) or (ii) of the Children (Care and Protection) Act 1987 immediately before its repeal.</p>
51	Children and Young Persons (Care and Protection) Act s.135B - Supported Out of Home Care	"Supported out-of-home care" is out-of-home care in respect of a child or young person that is, as a result of the Secretary forming the opinion that the child or young person is in need of care and protection, arranged, provided or otherwise supported by the Secretary under Part 3 of this Chapter.
52	Children's Guardian Act 2019 s76 - Voluntary Out of Home Care	<p>(1) In this Act, voluntary out-of-home care is out-of-home care for a child that is arranged by a parent of the child, but does not include—</p> <p>(a) out-of-home care that is provided by an individual in a private capacity, or</p> <p>(b) out-of-home care that is provided outside New South Wales.</p> <p>(2) For subsection (1)(a), out-of-home care is provided by an individual in a private capacity if it is provided by an individual who is not acting on behalf of, or under an arrangement with, an entity or other organisation.</p>
60	Guardianship Act 1987 s.40 Consents given by persons responsible for patients	A person responsible consents to the carrying out of medical or dental treatment on the patient.
61	Guardianship Act 1987 s.44 Tribunal may give consent	After conducting a hearing for the consent to the carrying out of medical or dental treatment the Tribunal may consent to the carrying out of the treatment.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
62	Guardianship Act 1987 s.45AA Tribunal may approve clinical trials	The Tribunal may approve a clinical trial as trial in which patients to whom this Part applies may participate.
63	Guardianship Act 1987 s.46A Power of Guardian to override patient's objection to treatment by Tribunal	The Tribunal may confer on the guardian of a patient to whom this Part applies authority to override the patient's objection to the carrying out on the patient of major or minor treatment.
70	Public Health Act 2010 s.8 Ministerial directions dealing with public health risks during Emergency	An order under this section may direct persons in a specified group or residing in a specified area to submit themselves for medical examination.
71	Public Health Act 2010 s.61 Secretary may direct persons to undergo medical examination	The Director-General may require a person to undergo a medical examination.
72	Public Health Act 2010 s.62 Public health orders relating to person with Category 4 or 5 condition	Public Health Act 2010 s.62 Public health orders made by authorised medical practitioners, relating to person with Category 4 or 5 condition or contact order condition: A Public Health Order made by an authorised medical practitioner may require the person to undergo specified treatment, counselling, submit to the supervision of a specified person or be detained for treatment.
73	Public Health Act 2010 s.7 Ministerial directions dealing with public health risks generally	Pertains to Ministerial directions dealing with public health risks generally (e.g. Public Health (COVID-19 Air Transportation Quarantine) Order (No 2) 2020)
80	Drug and Alcohol Treatment Act 2007- Involuntary	This code relates to the Drug and Alcohol Treatment Regulation 2012, the Drug Alcohol Treatment Act 2007 and the Involuntary Drug Alcohol Treatment (IDAT) program, which commenced on 4th September, 2012.
95	Other Legal Status	The patient is currently subject to an Act or provision other than those specified.
98	No Act Applies	The patient is not currently subject to any Act.
99	Not Known / Not Stated	It is unknown whether the patient is currently subject to any Act.
1A	Inpatient: Voluntary – Admission on own request	includes those admitted under sections 5 and 6 of the Mental Health Act (2007)
1B	Inpatient: Voluntary admission of persons under guardianship	includes those admitted under section 7 of the Mental Health Act (2007)
1C	Inpatient: Re-classification of involuntary patient as voluntary patient	includes those who have been reclassified under section 40 of the Mental Health Act (2007)
1D	Inpatient: Correctional patient	Includes those classified as a correctional patient under section 41 of the Mental Health (Forensic Provisions) Act (1990)
1E	Inpatient: Re-classification of involuntary patient as correctional patient	Includes those classified as a correctional patient under section 40 of the Mental Health (Forensic Provisions) Act (1990)
1F	Inpatient: Re-classification of correctional patient as voluntary patient	Includes those classified as a correctional patient under section 76(H) of the Mental Health (Forensic Provisions) Act (1990)

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
2B	Inpatient: Detention on information of ambulance officer	includes those admitted under section 20 of the Mental Health Act (2007)
2C	Inpatient: Detention after apprehension by police	includes those admitted under section 22 of the Mental Health Act (2007)
2D	Inpatient: Detention after order for medical examination or observation	includes those admitted under section 23 of the Mental Health Act (2007)
2E	Inpatient: Detention on order of Magistrate or bail officer	includes those admitted under section 24, those who undergo ongoing detention as a result of a mental health inquiry under section 35, or those who undergo ongoing detention as a result of an order by the Tribunal under sections 37 and 38 or section 64 of the Mental Health Act (2007)
2F	Inpatient: Detention on order of the Mental Health Review Tribunal	includes those admitted under section 24, those who undergo ongoing detention as a result of a mental health inquiry under section 35, or those who undergo ongoing detention as a result of an order by the Tribunal under sections 37 and 38 or section 64 of the Mental Health Act (2007)
2G	Inpatient: Detention after transfer from another health facility	includes those admitted under section 25 of the Mental Health Act (2007)
2H	Inpatient: Detention on request of primary carer, relative or friend	includes those admitted under section 26 of the Mental Health Act (2007)
2J	Inpatient: Detention order or request from other specified authorised person or body	includes those admitted under any other section of the Mental Health Act (2007) not already classified, in particular those patients initially admitted as a result of a breach of the Community Treatment Order by the Director of the Community treatment facility under section 58 of the Mental health Act (2007), prior to (if required) their detention on certificate of medical practitioner (Section 61.4)
2K	Inpatient: Detention on certificate of medical practitioner or accredited person (Mentally Ill)	Includes those detained under section 19(4)(a), those who undergo ongoing detention as a result of a medical examination under section 27, and those who are detained under section 61(4) of the Mental Health Act (2007)
2L	Inpatient: Detention on cert. of medical practitioner or accredited person (Mentally Disordered)	Includes those detained under section 19(4)(b), those who undergo ongoing detention as a result of a medical examination under section 27, and those who are detained under section 61(4) of the Mental Health Act (2007)
2M	Inpatient: Detention on breach of Community Treatment Order	Includes those detained under section 60 of the Mental Health Act (2007)
2N	Inpatient: Detention with assistance of police on breach of Community Treatment Order	Includes those apprehended under section 59 of the Mental Health Act (2007)
3A	Ambulatory or inpatient: Community Treatment Order	includes those who have been granted a community treatment order under sections 51, 52 and 53 of the Mental Health Act (2007)
3B	Ambulatory: Voluntary mental health client	includes mental health clients who are being treated in the community, or who are in a residential facility, but are not subject to any portion of the Mental Health Act (2007)

Guide for Use:	<p>THIS DATA ELEMENT IS NO LONGER REQUIRED IN THE EDW ADMITTED PATIENT DATA STREAM, AS IT IS NOW DERIVED FROM FINANCIAL CLASS VIA MASTER DATA SERVICES.</p> <p>DEPARTMENT OF VETERANS' AFFAIRS CATEGORIES:</p> <p>If a Department of Veterans' Affairs category is reported, DVA Card Type and DVA File Number must be reported.</p> <p>The cover eligibility DVA Card Colours indicate are as follows: Gold - All conditions covered: White - Specific conditions covered only: White Card holders have restricted entitlements, and as such their eligibility for DVA funded treatment must be checked by staff prior to the provision of care. Orange: Pharmaceuticals covered only.</p> <p>COMPENSATION CATEGORIES:</p> <p>LIFE TIME CARE AND SUPPORT</p> <p>The LTCS Scheme provides lifelong treatment, rehabilitation and attendant care services to people who sustain a spinal cord injury, a moderate to severe brain injury, multiple amputations, severe burns or blindness from a motor accident in NSW. It applies to children under 16 years of age who are injured in a motor accident from 1 October 2006 and to adults (regardless of who was at fault in the accident) from 1 October 2007.</p> <p>Detailed information in relation to eligibility for participation in the LTCS Scheme is available on the LTCS Website at http://www.lifetimecare.nsw.gov.au under LTCS Guidelines.</p> <p>MOTOR ACCIDENT AUTHORITY COMPENSATION:</p>		

	<p>The New South Wales motor accidents scheme is a privately underwritten compulsory third party (CTP) personal injury insurance scheme overseen by the MAA.</p> <p>The motor accidents scheme is a modified common law, primarily fault-based scheme, operating under the Motor Accidents Compensation Act 1999. This means that everyone who is injured in a motor vehicle accident in New South Wales that is caused through another driver's fault is entitled to claim for compensation. In some cases the person at fault may also be eligible to claim.</p> <p>Compensation entitlements include current and future medical, rehabilitation and treatment expenses, domestic assistance, past and future lost earnings, and in cases of injuries involving ongoing impairment, damages for non-economic loss or pain and suffering. Compensation for pain and suffering may be reduced in cases where the injured person is partly to blame for their injuries. Unlike some other compensation schemes, the CTP scheme pays for medical and treatment related costs as they are incurred. When injuries stabilise the claim is settled with a lump sum payment for future losses. A claim cannot generally be reopened after it is settled.</p> <p>The motor accidents scheme also incorporates a Nominal Defendant scheme, which provides compensation for injuries that result from motor vehicle accidents caused by the fault of an owner or driver of a vehicle that is uninsured or unidentified.</p> <p>For the purposes of this Act, a motor vehicle has motor accident insurance cover for a motor accident if and only if:</p> <p>(a) at the time of the motor accident the motor vehicle was subject to coverage under a third-party policy or was subject to coverage under a policy of compulsory third-party personal injury insurance or a compulsory motor vehicle accident compensation scheme under the law of a place other than New South Wales or under a law of the Commonwealth, or</p> <p>(b) at the time of the motor accident, the motor vehicle was owned by the Commonwealth or by any person or body of persons representing the Commonwealth, or</p> <p>(c) there is a right of action against the Nominal Defendant in respect of the motor accident or there would be a right of action against the Nominal Defendant in respect of the motor accident if the motor accident had been caused by the fault of the owner or driver of the motor vehicle in the use or operation of the vehicle.</p> <p>For registered vehicles (any State/Territory) the Compulsory Third Party (CTP) scheme provides accident injury cover for motor vehicle accidents that occur anywhere within NSW. If a vehicle is unregistered the</p>
Scope:	<p>MANDATORY</p> <p>Mandatory for all Service Event Attribute records</p>
Justification:	<p>This field is required to support the reporting of activity to external agencies that fund non-admitted patient service events. Such data may be required under bulk-purchasing arrangements, or may be used to determine future financial recoup arrangements. This data may also be used to identify the approximate number of services that can be charged to sources outside NSW Health, and has the potential to predict revenue. It can be used to analyse trends in the number and nature of services provided to compensable clients, or specific client</p>

groups such as prisoners, overseas visitors, or war veterans and their dependents.

Domain value set

Code	Descriptive label	Definition
01	DVA - Direct DVA Claim	Services covered for payment by the Department of Veterans' Affairs (DVA). For non-admitted services, the person must be a DVA health care card holder and the services must be one of those eligible to be charged to DVA (for example, medical, nursing, diagnostic and allied health non-admitted patient services). Note that White card holders have limited coverage and coverage must be confirmed with DVA to determine eligibility for a DVA payment. This category excludes privately referred non-admitted patients who are DVA card holders. DVA does not cover services covered by compensation.
06	Compensable - Lifetime Care Support	<p>The LTCS Scheme provides lifelong treatment, rehabilitation and attendant care services to people who sustain a spinal cord injury, a moderate to severe brain injury, multiple amputations and severe burns or blindness from a motor accident in NSW. The Scheme commenced in relation to children under 16 years of age who are injured in a motor accident from 1 October 2006 and in relation to adults from 1 October 2007.</p> <p>The Scheme is a "no-fault" scheme which means that if the injured person's injuries are severe enough to enter the Scheme it does not matter if the injured person was at fault in the accident or not. This Scheme also covers vehicles registered in other States / Territories, provided the accident occurs in NSW. LTCS services are paid for as they are required, rather than paying the injured person a one-off lump sum to meet their lifetime needs at settlement of their CTP claim.</p> <p>Should a person injured in a motor accident whose injuries appear to meet the eligibility requirements for the Scheme present to a public hospital / facility, the public hospital / facility should contact the LTCS Authority. The Authority will appoint a LTCS coordinator who will assist with the completion of an application for participation in the Scheme.</p> <p>Fees for this category are outlined in Policy Directive 2015_020 issued on July 2015.</p> <p>LTCS CHARGING POLICY- OTHER THAN DESIGNATED UNITS</p>

Code	Descriptive label	Definition
		<p>Bulk billing arrangements, under the Purchasing Agreement for NSW Health Services to Motor Accident Patients, applies to all LTCS patient services except for services provided by designated Brain or Spinal Injury Rehabilitation units. The NSW Ministry of Health administers charging under the bulk billing arrangements from hospital / facility activity data recorded and conveyed via EDWARD and disseminates this revenue to LHDs as appropriate. Hospitals / facilities / Local Health Districts (LHD) should ensure that LTCS activity is accurately identified and coded to ensure that appropriate charging occurs.</p>
		<p>LTCS CHARGING POLICY – DESIGNATED UNITS</p>
		<p>LTCS non-admitted patient services provided by designated non-admitted patient units, are chargeable in accordance with the rates advised in this Policy Directive. LHD / hospital / facilities are to raise invoices against the LTCS Authority for these services.</p>
		<p>1. Non-Admitted Patient Services provided by designated Brain Injury / Spinal Injury Rehabilitation Transitional Living Units: Category A (which applies to patients who are being assessed for or receiving active rehabilitation) is \$835, and Category B (which applies to patients who are not on an active rehabilitation program. This category includes but is not limited to patients who are admitted for respite care or patients who have finished their rehabilitation program and are waiting for a transfer, placement or appropriate accommodation elsewhere) is \$414.</p>
		<p>2. Non-admitted patient Rehabilitation Services, including Outreach At the cumulative rate of \$80 per half-hour. The fee shall not be greater than the equivalent of 5 hours per day of non-admitted patient care.</p>
		<p>3. Non-admitted Patient Medical Consultation – Initial: Applies to a new patient referred for medical assessment by an attending medical officer - charged at the standard rate of \$276.</p>
		<p>4. Non-admitted Patient Medical Consultation – Subsequent: Applies to follow-up appointments of a patient by an attending medical officer - charged at the standard rate of \$138.</p>
		<p>5. Non-admitted Patient Group activities - qualified allied health clinician: Applies to those group activities directly supervised by a qualified allied health clinician - charged at the cumulative half hour rate of \$51.</p>
		<p>6. Non-Admitted Patient Group activities - unqualified allied health clinician: Applies to those group activities</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		not directly supervised by a qualified allied health clinician - charged at the cumulative half hour rate of \$36.
		DESIGNATED UNITS
		Designated Brain Injury / Sp
07	Compensable - Interstate 3rd party motor vehicle accident compensation	Services provided to clients who have a condition caused by a motor accident caused by an at fault interstate motor vehicles and covered by motor vehicle compensation other than Transcover or MAA.
08	Compensable - Transcover	Services covered by Transcover (GIO). Transcover applies to services provided to clients who have a condition caused by a motor accident that occurred prior to 1 July 1989.
09	Compensable - Public liability / Other	Services covered by a compensation Act not separately categorised, such as Public Liability and Workers Compensation relating to interstate employees injured outside NSW.
10	No Charge - Prisoner / detainee	Services provided to prisoners held in custody within the NSW Justice system for whom charges cannot be raised; and services provided to people held within Commonwealth detention centres.
11	No Charge - Overseas Visitor Reciprocal agreement	Services provided to overseas visitors whose service is covered by the terms of a Reciprocal Health Care Agreement Australia has with another country. The countries with whom Australia has an agreement are Ireland, Italy, Finland, Malta, the Netherlands, New Zealand, Norway, Sweden and the United Kingdom. Coverage under these Agreements is restricted to the treatment of an illness or injury which occurs during their stay, and which requires treatment before returning home (that is, these Agreements cover immediately necessary medical treatment only) as a public patient. Prearranged and elective treatment is not covered. The Agreement with New Zealand and the Agreement with Ireland do not cover out-of-hospital medical treatment. Visitors from Italy and Malta are covered for a period of six months only from their entry date to Australia. Dental care is not covered by any Agreement. Persons studying in Australia on a student visa are not covered by the Agreements.
12	Charge - Overseas student health insurance claim	Covers health services provided to overseas students who are covered by overseas student health cover (OSHC) insurance. What is OSHC? OSHC is insurance to assist international students meet the costs of medical and hospital care that they may need while in Australia. OSHC will also pay limited benefits for pharmaceuticals and ambulance services. Who has to take out OSHC? People who must take out OSHC are overseas students undertaking formal studies in Australia and their dependents (for example, spouses and children under 18 years old).

Code	Descriptive label	Definition
		<p>For the purposes of OSHC, 'overseas student' means: •a person who is the holder of a student visa; or •a person who: - is an applicant for a student visa; and - is the holder of a bridging visa; and - was immediately before being granted the bridging visa, the holder of a student visa.</p> <p>The Department of Immigration and Citizenship requires overseas students to maintain OSHC for the duration of time they are in Australia. For further information please visit the Department of Immigration Border Protection website.</p> <p>Who doesn't have to take out OSHC? Belgian, Norwegian and some Swedish students are not required to purchase OSHC as part of their visa requirements. Belgian, Norwegian and Swedish students who are not required to purchase OSHC, will be covered for treatment that is medically necessary under their country's Reciprocal Health Care Agreement (RHCA) with Australia. (See category 51 - No Charge - Overseas Visitor Reciprocal Health Care Agreement).</p> <p>The following insurers offer OSHC: •Australian Health Management •Allianz Global Assistance (subcontracted by Lysaght Peoplecare) •BUPA Australia •Medibank Private •nib</p> <p>What does OSHC cover? OSHC provides a safety net for international students. It includes cover for visits to the doctor, some hospital treatment, ambulance cover and limited pharmaceuticals (medicines).</p> <p>OSHC insurers can provide a range of different OSHC products. These may range from a basic product which covers only the compulsory minimum services to comprehensive products which cover, in addition to the compulsory minimum services, extra services as specified under the particular policy.</p> <p>At a minimum, each OSHC product must include cover for: •the benefit amount listed in the Medicare Benefits Schedule (MBS) fee for out-of-hospital medical services (for example, a general practitioner) - 100 per cent of the MBS fee for in-patient medical services (for example, surgery) - public hospital shared ward accommodation - day surgery accommodation - some prosthetic devices - pharmaceutical benefits up to \$50 per pharmaceutical item to a maximum of \$300 a year for a single membership (\$600 for a family membership). Overseas students may face significant out of pocket costs if they do not have appropriate coverage for treatment with pharmaceuticals, particularly oncology (cancer) treatment. - ambulance services.</p> <p>Waiting periods Under OSHC policies, OSHC insurers may impose waiting periods for the following:</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>- treatment during the first 12 months of membership for pre-existing medical conditions, disabilities and pregnancy-related services; and - treatment during the first 2 months of membership for pre-existing psychiatric conditions. Waiting periods start from the day of arrival in Australia on a student visa.</p> <p>What insurers cannot cover under the OSHC Deed? - treatment arranged before coming to Australia - treatment needed while travelling to or from Australia - transportation of an overseas student or dependent into or out of Australia for any reason - treatment covered by provisions for compensation and damages.</p>
13	Charge - Other recognised health care scheme	Includes, but not limited to, services provided to Norfolk Island residents that are covered by the Norfolk Island Health Care Scheme, and services provided to asylum seekers that are covered by the Asylum Seeker Assistance Scheme and paid for by the Australian Red Cross on behalf of the Department of Immigration.
14	Contract - Other NSW LHD/SHN	Services covered for payment by a NSW Health Local Health District (former Area Health Service), the Children's Hospital at Westmead or Justice Health.
15	Contract - Other NSW Government Agency	Services covered for payment by a public sector organisation or agency who have contracted NSW Health to provide services on their behalf. This excludes interstate health authorities, NSW Health Area Health Services, Children's Hospital at Westmead and Justice Health.
16	Contract - Interstate Local Health Network / Government Agency	Covers services covered by revenue generated by billing an interstate Local Health Network (including its subsidiaries, such as interstate public hospitals).
17	Contract - Other private sector agency / organisation	Services covered for payment by a private sector organisation (e.g. a private hospital or day procedure centre) who have contracted NSW Health to provide services on their behalf.
18	Contract - Not for profit non-government agency / organisation	Services covered for payment by a not for profit agency / organisation (e.g. NGO) who have contracted NSW Health to provide services on their behalf.
20	No Charge - LHD/SHN Budget	Services that are provided to Medicare eligible persons by a NSW Health hospital or community health service where the full cost of the service is covered by the NSW Health budget allocation to the hospital or community health service.
21	MBS/PBS Claim - Privately referred	Services that are provided to Medicare eligible persons by a NSW Health hospital or community health service where the full cost of the service is billed to Medicare bulk billing arrangements.
22	Charge - Medicare Eligible - Health Insurance Claim	Covers services that are provided to a Medicare eligible non-admitted patient covered by private health insurance. These services may be billed directly to the patient who may then subsequently submit a claim to a private health fund.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
23	Charge - Medicare eligible - Self Funded	Services provided to patients who have elected to be treated on a private patient basis, that is the patient elects to be accommodated in a private room (if admitted) or treated by the health service provider of their choice where they do not meet the criteria of a compensable, Medicare ineligible, or DVA billing category. For admitted patient services this covers patients who elect to be treated by a health service provider of his/her choice during the patient election process. For non-admitted patient services, this cover private referrals. A private referral is a referral to a health service provider by name (i.e. not the hospital or outpatient department). The patient must have a pre-arranged agreement with the health service provider to be treated as a privately referred non-admitted patient prior to the time the first appointment is made for examination, treatment or consultation. Private referrals must be made by a health service provider in private practice, and include private referrals made to staff specialists exercising a right of private practice. This category excludes: services resulting from referrals made by an intern, a resident medical officer, registrar or medical superintendent of any public hospital; and services provided to patients who present directly to the outpatient clinic or community health service for treatment of, or examinations relating to, an episode of illness.
24	Charge - Department of Defence	A non-admitted patient service that is chargeable to the Department of Defence. Note: This is a requirement of the national minimum data set for outpatient care
26	Charge - Medicare ineligible - self funded	Services provided to overseas visitors who are Medicare Ineligible and who will be billed directly for the costs of the service, usually at the Medicare Ineligible rate. This category includes services where the patient is a Medicare Ineligible overseas visitor and it is unknown (from the assigned financial class) whether or not a claim against travel insurance was made.
27	Charge - Medicare ineligible - travel insurance	Services provided to overseas visitors who are Medicare Ineligible and whose travel insurance fund will be billed directly for the costs of the service, usually at the Medicare Ineligible rate.
28	No Charge - Medicare ineligible fees waived	Services provided to overseas visitors who are Medicare Ineligible and for whom fees have been waived either on an individual case basis, or due to a general NSW Health fee waive policy directive such as free treatment for patient's with tuberculosis or for victims of crime.
29	Service to Admitted Patient	Non-admitted patient services provided to patients who are currently admitted patients of a public hospital, and covered by the admitted patient funding arrangements. This category does not include clients who may be admitted to aged care facilities.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
33	Compensable - NSW Workers Compensation	<p>Service fees are charged at the compensable rate as the service provided was covered by workers compensation insurance.</p> <p>Note: This category covers compensation claims made under the following workers compensation Acts and Regulations:</p> <p>1. The Workers Compensation Act 1987 2. The Workplace Injury Management and Workers Compensation Act 1998 3. The Workers Compensation Regulation 2010 4. Workers Compensation (Bush Fire, Emergency and Rescue Services) Act 1987</p>
34	Compensable - NSW Motor Accident - not further defined	Services covered for payment under the Motor Accidents Act 1988. The Act covers services provided to patients (other than the driver at fault) who have conditions caused by an accident involving a NSW registered motor vehicle (or unregistered vehicle) that occurred on or after 1 July 1989.
36	Service to Emergency Department Patient	Covers services provided to patients who are under the care of the Emergency Department team, i.e. From the time of ED arrival to the time of ED departure.
38	DVA - No Direct DVA Claim	Services covered for payment by the Department of Veterans' Affairs (DVA) Bulk Purchasing Agreement with NSW Health, including community home nursing. For non-admitted services, the person must be a DVA health care card holder and the services must be one of those eligible to be charged to DVA (for example, medical, nursing, diagnostic and allied health non-admitted patient services). Note that White card holders have limited coverage and coverage must be confirmed with DVA to determine eligibility for a DVA payment. This category excludes privately referred non-admitted patients who are DVA card holders. DVA does not cover services covered by compensation.
39	MBS/PBS Claim - DVA Privately Referred	Covers privately referred patients who are a Department of Veterans' Affairs card holder, but not funded by Department of Veterans' Affairs.
40	MBS/PBS Claim - Public patient	
41	MBS/PBS Claim - DVA Public Patient	Covers services that are provided to clients/patients who are referred to a specifically nominated medical practitioner at a health service (either salaried or visiting) who are a Department of Veterans' Affairs card holder, but not funded by Department of Veterans' Affairs and choose to be treated as a public patient.
42	No Charge - NDIS Support Type LHD/SHN Budget	This category covers non-admitted services where:

Code	Descriptive label	Definition
		<ul style="list-style-type: none"> - the support recipient is identified as an NDIS participant, and - the NDIS support is listed in the patient's NDIS participant's plan, and - the LHD does not bill the NDIS Plan Manager for the support provided, and the cost is covered by the LHD/SHN budget.
43	No Charge - Outsourced to Private Sector - LHD/SHN Budget	Covers activity provided by private practice providers that have been contracted to provide services to NSW Health non-chargeable public patients on a fee for service contract basis.
44	Contract - Other NSW Health Agency / Program	<p>Purchase agreements entered into by NSW Health pillars or the Ministry of Health for the provision of specific non-admitted patient services, outside the Activity Base Funding and Block funding agreement.</p> <p>Covers Breast Screen Services funded via Cancer Institute NSW</p>
45	Contract - NSW Department of Family Community Services	<p>The NSW Community Care Supports Program (CCSP) funds basic maintenance and support services for younger people with disability and also provides support services for their carers. 'Younger people' refers to people under 65 years of age and under 50 years of age for Aboriginal and Torres Strait Islander people.</p> <p>Basic maintenance and support services are defined as those essential to maintaining a person's wellbeing, for example nutrition, home maintenance, transport or personal care.</p> <p>The overall aims of the NSW Community Care Supports Program are to:</p> <ol style="list-style-type: none"> 1. provide a comprehensive, coordinated and integrated range of basic maintenance and support services for people with disability and their carers; 2. support people with disability to be more independent at home and in the community, thereby enhancing their quality of life; enable people with disability to understand and focus on their individual needs and achieve their goals; 3. decrease the risk of, and prevent inappropriate admission to, long term residential care; and 4. provide flexible, timely services that respond to the needs of people with disability and their carers. <p>Eligibility for the NSW Community Care Supports Program</p> <p>The target group for assistance under the NSW Community Care Supports Program is younger people with disability who require basic maintenance and support services and who are at risk of premature</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>or inappropriate admission to long term residential care.</p> <p>A 'person in the target group' is defined as a person who has a disability that is attributable to an intellectual, cognitive, neurological, psychiatric, sensory or physical impairment; is permanent or likely to be permanent; and results in a significant reduction in a person's functional capacity in one or more areas of major life activity.</p> <p>Home Modifications</p> <p>The CCSP funded home modification services provide minor modifications (such as grab rails and access ramps) and major modifications (such as improving access into and within the home). The aim of modifications services is to assist younger people with disability to remain living in their own home by providing affordable modifications designed to change the home environment to make it safer and easier to carry out tasks of daily living and maintain independence. For more information to assist home modification services in NSW refer to The Home Modification Service Type Guidelines and The Home Modification Fees Policy.</p> <p>Further information about this programme is available from the following NSW Department of Family and Community Services web site: http://www.adhc.nsw.gov.au/sp/nsw_community_care_supports_program.</p>
46	Contract - Transport NSW	
47	Contract - Australian Government Department of Health	<p>Covers services funded under the Commonwealth Home Support Programme (CHSP). This program helps older persons stay independent and in their home and community for longer. It provides help with daily tasks and entry level care.</p> <p>Eligible people must be still living at home and in need of help at home to continue to live independently.and either: - 65 years or older, or - 50 years or older and identify as an Aboriginal and/or Torres Strait Islander person or - 50 years or older and on a low income, homeless or at risk of homelessness</p> <p>From 1 July 2015, the Commonwealth Home Support Programme brought together the following former programs:</p> <ul style="list-style-type: none"> - Commonwealth Home and Community Care (HACC) Programme - Planned respite from the National Respite for Carers Programme (NRCP) - Day Therapy Centres (DTC) Programme - Assistance with Care and Housing for the Aged. <p>Persons with more complex needs may be eligible for</p>

Code	Descriptive label	Definition
		<p>a Home Care Package. These packages cover similar services to the Commonwealth Home Support Programme, but are coordinated and tailored to meet the aged person's specific needs.</p> <p>What is the Commonwealth Home Support Programme?</p> <p>The Commonwealth Home Support Programme is an entry level home help programme funded by the Australian Government. It is for older people who can mostly – but not completely – live and cope on their own, and don't yet need higher levels of support at home. A home support assessment (conducted by the Regional Assessment Service (RAS) is required to assess the person's eligibility for the programme.</p> <p>The Commonwealth Home Support Programme also provided help to carers. The Commonwealth Home Support Programme can arrange for someone to help an older person who has a carer who needs to attend to everyday activities while they are away.</p> <p>What types of services are provided?</p> <p>Commonwealth Home Support Programme services provided in the community may include: - social support (social activities in a community-based group setting) - transport (helps people get out and about for shopping or appointments)</p> <p>Commonwealth Home Support Programme services provided at home may include: - domestic assistance (household jobs like cleaning, clothes washing and ironing) - personal care (help with bathing or showering, dressing, hair care and going to the toilet) - home maintenance (minor general repair and care of houses or yards, for example, changing light bulbs or replacing tap washers) - home modification (minor installation of safety aids such as alarms, ramps and support rails in homes) - nursing care (a qualified nurse visits the home and may, for example, dress a wound or provide continence advice).</p> <p>Some Commonwealth Home Support Programme services can be provided either at a community centre or in your home. These can include:</p> <ul style="list-style-type: none"> - Food services: Providing meals at a community centre, helping with shopping for food, preparing and storing food in the aged person's home, and delivering meals to the aged person's home. - Allied Health support services: These services are for people having particular health problems, for example with their speech or walking, or needing help with ongoing problems resulting from an accident or illness. They include: physiotherapy (exercises, mobility, strength and balance), podiatry (foot care),

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>speech pathology, occupational therapy (help to recover or maintain your physical ability), advice from a dietitian (healthy eating), other allied health and therapy services.</p> <p>Who funds Commonwealth Home Support Programme services</p> <p>The Australian Government funds the Commonwealth Home Support Programme service providers so they can deliver affordable services to you. The Commonwealth Home Support Programme has a client contribution policy, with a view to ensuring that those who can afford to contribute to the cost of their care do so, whilst protecting those most vulnerable. What the person receiving the service pays is discussed and agreed upon bet</p>
48	Charge - NDIS Plan Manager	<p>This category covers non-admitted services where:</p> <ul style="list-style-type: none"> - the support recipient is identified as an NDIS participant, and - the NDIS support is listed in the patient's NDIS participant's plan, and - the LHD bills the NDIS Plan Manager for the support provided.
49	Contract - Other Australian Government Agency - not elsewhere classified	<p>Covers services purchased under a contract by another Australian Government agency other than Department of Veterans' Affairs, Department of Defence, or Australian Government Department of Health.</p> <p>Services funded by the Commonwealth Department of Immigration and Border Protection:</p> <p>The Commonwealth Department of Immigration and Border Protection are responsible for the provision of health services for persons in immigration detention, including Community Detention. The Department arranges health services through contracted providers. The contracted providers have a network of private sector health care professionals and they also utilise public sector health services. Services for immigration detainees will be pre-arranged by the detention centre or contracted provider. See Section 3.10 - Immigration Detention Centre Patients of Policy Directive 2016_031 - Medicare Ineligible and Reciprocal Health Care Agreement – Classification and Charging for NSW Public Health Services: http://www0.health.nsw.gov.au/policies/pd/2016/PD2016_031.html</p>
50	Contract - Private sector hospital / health facility	<p>Covers services covered by revenue generated by billing a private sector agency or organisation. This includes private hospitals and day procedure centres / employers / companies etc.</p>

Service Event Attribute: Service Event Attribute Effective Start Datetime (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_ATTRIBUTE].[EFFECTIVE_START_DATETIME]
Data Element ID:	13971
Version:	1.0
Definition:	The first date and time from which the characteristic, or combination of values that describe the characteristic being reported apply.
Status Allocation Date:	
Representation	
Data Type:	DateTime
Form:	Date - Time
Field Size:	Minimum: 19 Maximum: 19
Representation Layout:	YYYY-MM-DD HH:MM:SS
Unit Of Measure:	
Additional Information:	Changes to the respective values and date of change for these data items must be kept by the source system in appropriate history tables to track changes to the values supplied over time.
Collection and Usage Guide	
Guide for Use:	<p>This item is used and reported in conjunction with:</p> <ul style="list-style-type: none"> • Service Event Attribute Record Identifier • Service Event Attribute Type Code • Service Event Attribute Code <p>The Start DateTime is the latest start date and time of the set of values each with their own effective start date and time.</p> <p>A change to any of the items within the relevant Service Event Attribute record should end date that instance of the attribute requiring an effective end date and a new effective start date for the new combination of items comprising the service event attribute.</p> <p>The Service Event Attribute Effective End Datetime of one record equals the Service Event Attribute Effective Start Datetime of the next. The only exception to this is where there is no data reported for a period, e.g. there is missing address history.</p> <p>Emergency Department Data Stream For the Emergency Department data stream, the only attribute being supplied is Financial Class. Therefore, this is the effective start datetime of the Financial Class assignment.</p>
Scope:	<p>MANDATORY</p> <ul style="list-style-type: none"> • Mandatory for all Service Event Attribute records
Justification:	Required to reflect the span of time during which the service event attribute values recorded was valid.

Service Event Provider

Data Object ID 63

Business context

This object holds records for both the organisation entity that provided the service event, and the individual service providers that provided the service event.

Business rules for reporting

Every service event with a “Service Event Type Code” of “2 – Admitted” must have at least one Service Event Provider record with a Service Provider Type Code” of “I”, representing an individual service provider, and at least one Service Event Provider record with a Service Provider Type Code” of “O” representing an organisation service provider.

- Every service event with a “Service Event Type Code” of “4 –Residential” must have at least one Service Event Provider record with a Service Provider Type Code” of “O”, representing an organisation service provider.
- For service events with a “Service Event Type Code” of “2 – Admitted” a separate Service Event Provider Record must be reported for each recorded attending medical office, the admitting medical officer, and any other health service providers who are recorded as also seeing the patients and set up as professional carers in the patient administration system (and therefore have their details reported to EDWARD on the Individual Service Provider data stream).
- Where a service event is delivered via a collaborative care (e.g. contract) arrangement, the health organisation purchasing the service (the contracting organisation), and the health organisation providing the service (the contracted organisation) must be reported as separate Service Event Provider records for the same Service Event.
- Ideally only the service providers involved with the patient care between the service event start date and service event end date should be reported as Service Event Provider records for a particular service event. However, if there are more than one service event for an encounter, and it is not possible to determine which service event within the encounter the Service Event Provider should be reported against, report the service event provider against each of the service events within the encounter.
- The “Collaborative Care Role Code” must be set as follows:
 - o For Organisation Service Provider Records, where a service event is delivered via a collaborative care (including contract) arrangement, set the code to:
 - “1 – Purchaser” in the Service Event Provider of the purchasing (contracting) health organisation, else
 - “2 – Provider” in the Service Event Provider record of the provider (contracted) health organisation.
 - o For Organisation Service Provider Records, where the service event is not delivered via a collaborative care (including contract) arrangement, set the code to null.
 - o For Individual Service Provider Records, always set the “Collaborative Care Role Code” to null.
- The “Responsible Provider Flag” must be set as follows
- For Organisation Service Provider records:

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

o Where there is no collaborative care arrangement, that is, there is only one health organisation involved in the service event, set the flag to “Y”

Where there is a collaborative care arrangement, that is there are two health organisations involved in the service event (a purchaser and a provider), set the flag to:

- “Y” on the Service Event Provider record for the health organisation that is the purchaser (contracting) health organisation, and
- “N” on the Service Event Provider record for the health organisation that is the provider (contracted) health organisation.

• For Individual Service Provider records:

o Set to “Y” in the Service Event Provider record of the individual service provider who is the attending medical officer in charge of the case.

o Set to “N” in the Service Event Provider record of any other individual service provider that is recorded as seeing the patient during the service event.

• The Effective Start Datetime should be set to the date and time the service event provider commenced delivering the service to the patient. If this date and time is not known, set to the Service Event Start Datetime.

• The Effective End Datetime should be set to the date and time the service event provider ceased delivering the service to the patient. If this date and time is not known, set to the Service Event End Datetime.

• Only report the OSP Local ID for Service Event Provider records of type “O” for Organisation.

• Only report the ISP_DISC_SPEC_CODE and ISP_DISC_SPEC_LOCAL_CODE for Service Event Provider records of type “I” for Individual.

• Where the service event provider type code = “O” (for organisation) report the value “Y” in the OSP Created Service Event Flag data element of the service event provider record containing the OSP_ID of the organisation that created the service event record else report the value “N”.

9475-001	HERO	Note: This is only for use in the Service Event Provider file in the Service Provider Source ID field when reporting organisation service provider records.

Service Event Provider: Service Provider Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_PROVIDER].[SERVICE_PROVIDER_ID]
Data Element ID:	10436
Version:	1.0
Definition:	A unique identifier of the Individual or Organisation Service Provider. Assigned by NSW Health for Organisation Providers from HERO, such as a facility or a service unit identifier.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>When reporting the organisation service provider identifier, the organisation service provider type code must be reported as "O".</p> <p>When reporting the individual service provider identifier, the organisation service provider type code must be reported as "I".</p> <p>For SERVICE_EVENT_PROVIDER, report the organisation service provider identifier assigned to the organisation entity that provided the service event, and report each individual service provider identifier assigned to the individual provider that provided a service during the service event.</p> <p>For SERVICE_ACTIVITY_PROVIDER, report the Individual Service Providers who delivered the activity.</p> <p>For THEATRE_CASE_PROVIDER, report the identifier of the legally responsible principal proceduralist as the individual service provider, and the hospital's organisation service provider identifier.</p> <p>For THEATRE_CASE_PROCEDURE_PROVIDER, report all the individual service providers recorded as providing each procedure performed during the theatre case service. There may be a different set of individual service providers for each procedure performed (e.g. different specialist for different procedures).</p> <p>For WAIT_LIST_BOOKING_PROVIDER, report the identifier of the planned legally responsible principal proceduralist as the individual service provider identifier, and the hospital's organisation service provider identifier.</p>
Scope:	MANDATORY Mandatory for all Service Event Provider records
Justification:	This field is collected to identify the facility at which the service was provided.

Service Event Provider: Individual Service Provider Discipline Specialty Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_PROVIDER].[ISP_DISC_SPEC_CODE]
Data Element ID:	10437
Version:	1.0
Definition:	The clinical field of practice of the individual service provider involved with the service event.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 7 Maximum: 10
Representation Layout:	X[10]
Unit Of Measure:	
Additional Information:	For Inadequately described may be in form: NNNN-NN-X Where N is a numeric, - is a dash, X is a number or alpha character, () indicates optional.
Collection and Usage Guide	
Guide for Use:	<p>An individual service provider's discipline / speciality code should be recorded for all health professionals reported for the service event.</p> <p>Where an Individual Service Provider is working in a position with duties or roles that do not match their specific qualification, they are to be classified to the discipline that reflects the duties and role of the position to which they have been appointed at the time of the service event. For example, if a person who is qualified as a Registered Nurse is appointed to the position/role of counsellor, his/her discipline should be classified as 'counsellor', not a nurse. Trainee staff operating under the supervision of a qualified practitioner are to be coded to the discipline of the Individual Service Provider supervising them.</p> <p>The basis of this classification is the Australian and New Zealand Standard Classification of Occupations (ANZCO), 2013, Version 1.2 (Australian Bureau of Statistics Catalogue Number 1220.0). The extension are adapted from a NHETA national health provider classification, and NSW Health's own refinement requirements.</p> <p>In the context of the Waiting List data stream (e.g. the REQUEST_FOR_SERVICE_PROVIDER table), this code only needs to be reported where SERVICE_PROVIDER_TYPE_CODE is 'I' (ISP) and not where it is 'O' (OSP).</p>
Scope:	<p>MANDATORY</p> <ul style="list-style-type: none"> Emergency Department and Non-Admitted Patient Data Stream service events, Waiting List Data Stream and Attending medical officers for admitted patient (public sector) data stream

- Individual Service Provider Data Stream

Justification: This field is required to provide information about the nature of the service being delivered, and also provides information to support analysis of the costing or classification of health services.

Supporting Information:

Domain

Domain name: Individual Service Provider Discipline / Specialty Code (EDW)
Domain ID: 10801 **Version:** 1.0

Domain definition: A classification of disciplines and specialties for individual health service providers.

This classification is based on the Australian and New Zealand Standard Classification of Occupations (ANZSCO), First Edition Revision 1, 2009.

This subset reflects fields of practice, disciplines, and clinical specialisations within the NSW Health system. See the full ANZCO classification publication (attached to version 1.0 of this domain in HIRD) for further details regarding the classification and other definitions.

From version 1.3 onwards, this codeset reflects NEHTA Healthcare Provider Identifiers for Individual Providers. In terms of the ANZSCO codeset, the four character codes represent occupation, the six character codes are specialties (or 'fields of practice'), and the lowest level codes represent specialisations within a field of practice.

Where specialties required for reporting are not defined by ANZSCO, and alphabetical character will be used in place of a numeral, e.g. '253913-A' (Gynaecologist).

Version 1.1 of this Domain retained only the 4 and 6 character level codes, i.e. only those used to classify Discipline Specialty Codes. 'NFD' ('Not further defined') has been added to the 4 character codes.

In Version 1.2, certain codes have been broken down into specialties, when required for reporting purposes. These lower level codes are delimited with a single alphabetical character, e.g. '252311' (Dental Specialist, nfd) now contains '252311A' (Oral and Maxillofacial Surgeon).

In Version 1.4, ANZSCO First Edition 2006 is updated to First Edition Revision 1 2009, keeping the NEHTA augmentations and amendments in place.

NB. the NEHTA codeset is currently in draft (as at August 2010). Note that the DISC_SPEC_CODES are being updated from 7 to 10 characters in length.

Source: ANZSCO 2009, with NEHTA 'Healthcare Provider Classification for the HI Services' Position Paper, Version 1.00, 17 March 2010, Final

Domain value set

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
134211	Medical Administrator, not further defined	Medical Administrators administer or manage a health service, utilising the medical and clinical knowledge, skill, and judgement of a registered medical practitioner. This may include administering or managing a hospital or other health service, or developing health operational policy, or planning or purchasing health services.
134212	Nursing Clinical Director	Nursing clinical directors oversee the planning, organisation, direction and coordination of the clinical nursing services in a hospital, aged care or other healthcare facility or service.
134213	Primary Health Organisation Manager	Plans, organises, directs, controls and coordinates a primary health organisation that provides a broad range of out-of-hospital health services.
134214	Welfare Centre Manager	A welfare centre manager plans, organises, directs, controls and coordinates a centre, program or project concerned with social welfare support.
134299	Health and Welfare Services Managers, not elsewhere classified	This occupation group covers health and welfare managers not elsewhere classified.
231111	Aeroplane Pilot	A professional who flies aeroplanes to transport passengers, mail and freight, or provide agricultural, aerial surveillance or other aviation services.
231114	Helicopter Pilot	A professional who flies helicopters to transport passengers, mail or freight, or provide agricultural, aviation or aerial surveillance services.
233913	Biomedical Engineer, not further defined	An engineering professional that applies knowledge and methodology of physics, engineering, mathematics, computing, physical chemistry and materials science to problems in biology and the treatment and prevention of human disease.
234511	Life Scientist (General)	Studies the origin, anatomy, physiology, reproduction and behaviour of living organisms and the ways in which they interact with the environment in which they live.
234513	Biochemist	Biochemists study the chemical processes in living organisms, including DNA, heredity and cell development. They work to understand how certain chemical reactions happen in tissues and record the effects of medicines. The aim of a biochemist is to improve our quality of life by understanding living organisms at the molecular level. This can include running laboratory experiments to develop effective medicines or going out in the field to collect cell samples from animals and plants in order to understand how genetic traits are carried.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
234514	Biotechnologist	<p>Biotechnologists use biological organisms to create and improve products and processes in fields such as agriculture, environmental conservation and medicine. They study the genetic, chemical and physical attributes of cells, tissues and organisms, and identify industrial uses for this knowledge. The applications of biotechnology are widespread and include developing new medicines and vaccinations, cross-breeding plants and animals to encourage beneficial characteristics, and using bacteria and enzymes in areas such as food production and waste treatment. Some biotechnologists may also work with cutting edge and potentially controversial technologies such as genetic modification and stem cell research.</p>
234517	Microbiologist	<p>Microbiologists study microscopic forms of life such as bacteria, viruses, protozoa, algae and fungi to increase scientific knowledge and develop medical, veterinary, industrial, environmental and other practical applications.</p> <p>Microbiologists may perform the following tasks:</p> <ul style="list-style-type: none"> develop products, such as antibiotics, detergents or cosmetics, that either combat diseases caused by pathogenic microorganisms or harness the positive capabilities of microorganisms; test samples from patients, isolating and identifying the microbes that cause illness, examining their susceptibility to antibiotics and giving advice about appropriate treatment prevent and control the spread of harmful microbes in hospitals, the food industry and the general population; advise the government about public health policies examine natural products for their ability to inhibit the growth of dangerous microbes and apply their findings to the medical and food industries; investigate the potential of microbes to improve human and animal health through nutrition develop and improve fermented drinks and foods, such as beer, wine, cheese and yoghurt; research the microbiology of plants and use microbes to control pests, weeds and animal disease; study DNA and the use of bacteria to introduce specially engineered genes into an organism in order to fight disease or to change a specific feature of the organism; use their knowledge of microbiology to minimise the environmental impact of production and clean up existing pollution; investigate the ways in which microorganisms can be used to improve and enhance products that impact on quality of life, such as food and beverages.
234599	Life Scientists, not further defined	<p>Life scientists include anatomists, neuroscientists, parasitologists, and toxicologists.</p> <p>Life scientists examine the anatomy, physiology and biochemistry of humans, animals, plants and other living organisms to better understand how living</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>organisms function and interact with each other and the environment.</p> <p>A life scientist may perform the following tasks:</p> <ul style="list-style-type: none"> study the genetic, chemical, physical and structural composition of cells, tissues and organisms; identify cellular and developmental events that ensure continuity of life; determine the influence of internal and external environments on processes in animals (including humans), plants and other organisms; study organisms in controlled environments to gain an understanding of their survival and growth in real environments; examine the way mixed communities and ecosystems function in relation to their environment and the different organisms found in them; predict the way humans and other influences will affect the structure and interactions in natural ecosystems apply their knowledge and findings from research to maximise the long-term economic, social, environmental and recreational return from living resources; write scientific reports on research, investigations and more general information for scientific, managerial, political and general audiences; provide advice to managers, politicians, primary producers, health care workers and the general public.
234611	Medical Laboratory Scientist, not further defined	<p>Medical Laboratory Scientists conduct medical laboratory tests to assist in the diagnosis, treatment and prevention of disease.</p> <p>Tasks Include:</p> <ul style="list-style-type: none"> preparing tissue sections for microscopic examination; examining and analysing samples to study the effects of microbial infections; analysing samples of body tissue and fluids to develop techniques to aid in the diagnosis and treatment of diseases; advising Medical Practitioners on the interpretation of tests and methods for use in the diagnosis and treatment of disease; setting up the steps and rules of laboratory medical testing; operating and maintaining laboratory equipment; maintaining laboratory quality assurance and safety standards; preparing scientific papers and reports
234914	Medical Physicist	<p>Medical Physicists apply knowledge and methodology of science of physics to all aspects of medicine, to conduct research, develop or improve theories and address problems related to diagnosis, treatment, and rehabilitation of human disease. They are directly involved with patients and people with disabilities.</p>

Code	Descriptive label	Definition
234915	Exercise Physiologist	<p>An Accredited Exercise Physiologist (AEP) is an allied health professional specialising in evidence based clinical exercise interventions for persons at high risk of developing or with existing chronic and complex medical conditions and injuries. AEP deliver clinical services to both acute and subacute patients across the full range of admitted and non-admitted care settings, and qualify for provider status through Medicare Australia, the Department of Veterans Affairs and most Private Health Insurers and compensation schemes (including WorkCover NSW). AEP are recognised as meeting national standards of clinical and professional qualification and competency. Exercise and Sports Science Australia (ESSA) provides the national accreditation program for AEPs.</p> <p>Interventions are designed for chronic disease and injury prevention, management and rehabilitation. They typically include screening and stratification, individualised clinical exercise testing and prescription, health and physical activity education, advice, support and lifestyle modification with a strong focus on achieving behavioural change.</p> <p>Interventions may be individual or group based (or a combination of both), and are appropriate for people of all ages with a variety of health conditions including (but not limited to) mental health, cardiac, respiratory, metabolic, neurological (such as stroke, traumatic brain injury, spinal cord dysfunction and others), musculoskeletal, orthopaedic, cancer, osteoporosis, osteoarthritis, risk of falls, pain, amputation, major trauma, chronic kidney disease, and reconditioning/restoration of optimal physical function, health and wellness.</p> <p>Examples of services provided by accredited exercise physiologists are: - Screening and risk stratifying to ensure the safety and appropriateness of exercise and physical activity interventions; - Assessing *movement* capacity in people of all ages and levels of health, well-being or fitness; - Development of safe, effective individualised exercise interventions; - Provision of health education, advice and support to enhance health and well-being; - Provision of physical activity advice and clinical exercise prescription, for those at high-risk of developing, or with existing chronic health conditions; and - Provision of rehabilitation and advice for patients following the acute stage of injury, surgical intervention, or during recovery to restore functional capacity and well-being.</p> <p>The above tasks may occur at any level of primary, secondary or tertiary health care, and may include employment or volunteer work at an individual, community or population health level through various employers or industries.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
251111	Dietitian	<p>Applies the science of human nutrition to help people understand the relationship between food and health and make appropriate dietary choices to attain and maintain health, and to prevent and treat illness and disease.</p> <p>Dietitians may perform the following tasks:</p> <p>collect, organise and assess data relating to the health and nutritional status of individuals, groups and communities;</p> <p>interpret and communicate scientific information, advice, education and professional opinion to individuals, groups and communities;</p> <p>manage nutrition care for individuals by planning appropriate diets and menus;</p> <p>educate people about their individual nutritional needs and methods of accessing and preparing their food;</p> <p>manage food service systems to provide safe and nutritious food by designing nutritionally appropriate menus and implementing nutrition policies;</p> <p>plan, evaluate and implement nutrition programmes with individuals, groups or communities as part of a team (this may be in a community health, public health or food industry setting);</p> <p>conduct food-related and nutrition-related research and evaluate practice.</p>
251112	Nutritionist	<p>A person who helps people form healthy eating habits to improve health and prevent disease. They may provide nutritional counselling, meal planning, and nutrition education programs. Nutritionists may also look at how the environment affects the quality and safety of food and how it may affect health.</p>
251200	Medical Imaging Professionals, not further defined	<p>Medical imaging professionals operate X-ray and other radiation producing and imaging equipment for diagnostic, monitoring and treatment purposes under the direction of Radiologists and other Medical Practitioners.</p>
251211	Medical Diagnostic Radiographer, not further defined	<p>Medical imaging technologists operate X-ray and other imaging equipment, such as Magnetic Resonance Imaging (MRI) and Ultrasound, to produce radiographic images that are used in the diagnosis and subsequent management of disease or injury.</p> <p>Medical imaging technologists may perform the following tasks:</p> <p>receive and interpret requests from medical practitioners for X-ray examinations to be performed on patients;</p> <p>determine the appropriate imaging techniques to provide doctors with diagnostic information;</p> <p>calculate details of procedures (such as length and intensity of exposure to radiation) and settings of recording equipment;</p> <p>explain procedures to patients and address any concerns they have about radiation processes;</p> <p>ensure patients undergo the correct preparation for</p>

		correction of a wide range of foot and leg irregularities.
252711	Audiologist	Provides diagnostic assessment and rehabilitative services related to human hearing defects.
252712	Speech Pathologist	Assesses and treats people with communication disorders, such as speech, language, voice, fluency and literacy difficulties, and people who have physical problems with eating or swallowing.
253111	General Practitioner, not further defined	General practitioners diagnose and treat physical and mental illnesses, disorders and injuries, recommend preventative action and refer patients to specialist Medical Practitioners, other health care workers, and social, welfare and support workers.
253211	Anaesthetist, not further defined	Provides direct medical care to patients requiring general or local anaesthesia for surgical, diagnostic and other procedures such as prevention of pain and maintenance of body function.
253300	Specialist Physician, not further defined	Investigates and diagnoses internal human disorders and diseases, and administers treatment.
253311	Specialist Physician (General Medicine)	A medical specialist that deals with the diagnosis and (nonsurgical) treatment of diseases of the internal organs. They are highly trained specialists who provide a range of non-surgical health care to adult patients. They care for difficult, serious or unusual medical problems and continue to see the patient until these problems have resolved or stabilised.
253312	Cardiologist	Investigates, diagnoses and treats diseases of the human heart.
253313	Clinical Haematologist	Investigates and diagnoses blood and other genetic disorders by studying cellular composition of blood and blood-producing tissues.
253314	Medical Oncologist	Manages and treats patients with cancer and tumours.
253315	Endocrinologist	Investigates, diagnoses and treats disorders of the human glandular and hormonal systems.
253316	Gastroenterologist	Investigates, diagnoses and treats diseases and disorders of the human liver, stomach and associated organs.
253317	Intensive Care Specialist	Investigates, diagnoses and treats patients in need of intensive and critical care.
253318	Neurologist	Investigates, diagnoses and treats diseases and injuries of the human brain, spinal cord, nervous system and muscle tissue.
253321	Paediatrician	Investigates, diagnoses and treats internal diseases and disorders in children from birth up to, and including, adolescence.
253322	Renal Medicine Specialist	Investigates, diagnoses and treats disorders of the human kidney.
253323	Rheumatologist	Investigates, diagnoses and treats diseases, injuries and deficiencies of human joints, muscles and soft tissue.
253324	Thoracic Medicine Specialist, not further defined	Investigates, diagnoses and treats diseases and disorders of the human respiratory system.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253399	Specialist Physicians, not elsewhere classified	This occupation group covers Internal Medicine Specialists not elsewhere classified.
253411	Psychiatrist, not further defined	A medical doctor that diagnoses, assesses, treats and prevents human mental, emotional and behavioural disorders.
253511	Surgeon (General)	Performs surgery to correct diseases and disorders covering a broad range of medical conditions.
253512	Cardiothoracic Surgeon	Cardiothoracic surgeons perform heart and lung surgery. Tasks Include: - examining patients to determine the necessity of operations, estimating and explaining risks to patients, and selecting the best operational procedures - reviewing reports on patients' general physical condition, reactions to medications and medical histories - consulting with Anaesthetists regarding the correct anaesthesia for patients - performing surgical operations - examining instruments, equipment, and surgical set-up to ensure that antiseptic and aseptic methods have been followed - instructing other medical, nursing and associated staff regarding the preparation of patients and instrument and equipment requirements - prescribing post-operative care, and observing and investigating patients' progress - maintaining records of operations performed - may specialise in particular types of operations
253513	Neurosurgeon	Performs surgery to correct disorders of the brain, spine and nervous system.
253514	Orthopaedic Surgeon	Performs surgery to treat muscular and skeletal diseases and injuries.
253515	Otorhinolaryngologist (Ear, Nose Throat), not further defined	A physician who specialises in the diagnosis and treatment of disorders of the ear, nose and throat.
253516	Paediatric Surgeon	Provides surgical care and treatment to children from birth up to, and including, adolescence.
253517	Plastic Reconstructive Surgeon	Performs surgery to repair and reconstruct muscle and tissue injuries and congenital deformities.
253518	Urologist	Provides medical and surgical treatment to patients with disorders of the kidney, urinary bladder and urethra, and treats disorders of the male sex organs.
253521	Vascular Surgeon	Performs surgery to treat patients with conditions affecting their arteries and veins.
253599	Surgeon, not elsewhere classified	This occupation group covers surgeons not elsewhere classified.
253911	Dermatologist	Provides diagnostic, treatment and preventative medical services related to disorders of the human skin.
253912	Emergency Medicine Specialist	Provides diagnostic medical services, and manages patients with acute and urgent illness and injury.
253913	Obstetrician Gynaecologist, not further defined	A specialist who provides diagnostic, treatment and preventative medical and surgical services related to the care of women, foetuses and children during pregnancy and childbirth, and to disorders of the

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		female genital, urinary, rectal and reproductive organs.
253914	Ophthalmologist	Provides diagnostic, treatment and preventative medical services related to diseases, injuries and deficiencies of the human eye and associated structures.
253915	Pathologist, not further defined	A pathologist uses laboratory procedures to identify and diagnose the presence and stages of diseases and possible sources of infection in body tissues, fluids, secretions and other specimens.
253917	Diagnostic Interventional Radiologist, not further defined	<p>Diagnostic and interventional radiologists provide diagnostic and treatment medical services, and monitor patients with various diseases utilising imaging techniques such as general radiography, angiography, fluoroscopy, mammography, ultrasound, computed tomography, magnetic resonance imaging, nuclear medicine and bone densitometry. The images are interpreted to aid in the diagnosis of disease.</p> <p>Interventional radiologists treat as well as diagnose disease using imaging equipment. Interventional radiologists may sub-specialise further so that they only treat abnormalities of the brain or spinal cord (neurointervention) or of the blood vessels elsewhere in the body (angiointervention) Interventional radiology is a minimally invasive procedures using X-ray, magnetic or ultrasound images to guide the procedures, usually done with tiny instruments and thin plastic tubes called catheters inserted through an artery or vein.</p>
253918	Radiation Oncologist	<p>A radiation oncologist is a medical specialist who has specific postgraduate training in management of patients with cancer, in particular, involving the use of radiation therapy (also called radiotherapy) as one aspect of their cancer treatment. They also have expertise in the treatment of non-malignant conditions with radiation therapy. Radiation oncologists work closely with other medical specialists, especially surgeons, medical oncologists and palliative care physicians, as part of a multidisciplinary team caring for patients with cancer.</p> <p>Most patients have a diagnosis of cancer prior to referral to a radiation oncologist. The radiation oncologist is responsible for assessing the patient by clinical evaluation, and organising imaging and other tests, in order to establish a management plan for an individual. Often, this is done in conjunction with other members of the team (both medical and non-medical). Radiation oncologists are an integral part of the initial and ongoing management process, and have an important role in communicating with patients, their family members and other carers in relation to all aspects of the management of the patient's disease and overall care. In particular, they are the experts managing the detail of the radiation therapy component of treatment. They work closely with medical physicists and radiation therapists to plan and deliver effective radiation treatment.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>Radiation oncologists have overall responsibility for determining and prescribing the most suitable dose of radiation (from high energy X-rays, electron beams or gamma rays) to deliver in a particular case, and the method and technique by which this will be achieved. They have skills and knowledge that enable them to merge many relevant clinical, biological and pathological factors to be merged into an individual recommendation regarding a course of radiation treatment. The application of their clinical and technical expertise aims at optimising the benefit of radiation therapy for their patients, whether the goal be cure of cancer or alleviation of symptoms e.g. pain. Consideration of the patient's social situation, their beliefs and wishes, and the impact of any treatments on quality of life of a person is a critical part of decision-making.</p> <p>Many radiation oncologists work in hospital cancer departments or in larger cancer treatment centres. Many also do clinical research, asking their patients if they wish to enter clinical trials and some also do laboratory research. Most radiation oncologists are also involved with teaching – both medical students and especially trainees training on-the-job in the specialty.</p>
253999	Medical Practitioners, not elsewhere classified	This occupation group covers Medical Practitioners not elsewhere classified.
254200	Nurse Educators Researchers, not further defined	Nurse Educators and Researchers provide clinical and theoretical education to and promote professional development of nurses and midwives, and conduct research into nursing practice.
254211	Nurse Educator	Designs, plans, implements and evaluates the delivery of nursing education and staff development programs, and manages educational resources.
254212	Nurse Researcher, not further defined	<p>Nurse researchers are scientists who study various aspects of health, illness, and health care. By designing and implementing scientific studies, they look for ways to improve health, healthcare services, and healthcare outcomes.</p> <p>Nurse researchers identify research questions, design and conduct scientific studies, collect and analyse data, and report their findings. They often rely on grants to fund their work, which requires writing grant proposals and meeting certain reporting requirements. Many teach in academic or clinical settings, and often write articles and research reports for nursing, medical, and other professional journals and publications.</p> <p>Nurse researchers may begin their research careers in positions such as research assistant, clinical data coordinator, and clinical research monitor. The title of principle investigator reflects the most senior research role and greatest responsibility and accountability associated with a research study. Studies conducted by these dedicated researchers are uncovering such</p>

		things as new and better ways to:
		<p>Deliver healthcare services more effectively and efficiently Improve quality of life for patients suffering from chronic illnesses Encourage patients to make healthy choices about nutrition, fitness, and lifestyle Assure patient safety and prevent injury and illness Provide care and comfort to patients at the end of life</p> <p>Nurse researchers often partner with scientists in other fields, such as pharmacy, nutrition, medicine, and engineering, to better address complex questions and problems.</p> <p>The results of nursing research help build the knowledge base and provide the evidence to guide interventions by nurses and other health care workers. For example, nursing research is improving prenatal care, patient recovery after heart transplant, and pain management for cancer and other patients.</p>
254311	Nurse Manager	A nurse responsible for a unit in a hospital, nursing home, or ambulatory care setting. The nurse manager supervises staff performance and patient care.
254411	Nurse Practitioner	Provides advanced and extended nursing care to patients, such as ordering diagnostic tests, undertaking diagnosis and health assessments, prescribing patient care management, medicines and therapies, as authorised in relevant nursing legislation, and referring to specialist Medical Practitioners and other Health Professionals in a range of health, welfare and community settings.
254412	Registered Nurse - Aged Care	Provides nursing care to the elderly in community settings, residential aged care facilities, retirement villages and health care facilities. Also known as Gerontology.
254413	Registered Nurse - Child Family Health	Provides nursing care to children from birth to school age and their families with an emphasis on the prevention, early detection of, and early intervention in, physical, emotional and social problems affecting children and their families such as assistance with parentcraft, immunisation and developmental milestones.
254414	Registered Nurse - Community Health, not further defined	Provides nursing care, health counselling, screening and education to individuals, families and groups in the wider community with a focus on patient independence and health promotion.
254415	Registered Nurse - Critical Care Emergency, not further defined	Provides nursing care to critically ill patients and patients with unstable health following injury, surgery or during the acute phase of diseases, integrating new technological equipment into care in settings such as high dependency units, intensive care units, emergency departments or retrieval services.
254416	Registered Nurse - Developmental Disability	Provides nursing care to people with intellectual and development disabilities in a range of health, welfare and community settings.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
254417	Registered Nurse - Disability Rehabilitation	Provides nursing care to patients recovering from injury and illness, and assists and facilitates patients with disabilities to live more independently.
254418	Registered Nurse - Medical	Provides nursing care to patients with conditions, such as infections, metabolic disorders and degenerative conditions, which require medical intervention in a range of health, aged care and community settings.
254421	Registered Nurse - Medical Practice	Provides clinical care to patients, undertakes clinical organisation and practice administration, and facilitates communication within a general practice environment and between the practice and outside organisations and individuals.
254422	Registered Nurse - Mental Health, not further defined	Provides nursing care to patients with mental health illness, disorder and dysfunction, and those experiencing emotional difficulties, distress and crisis in health, welfare and aged care facilities, correctional services and the community.
254423	Registered Nurse - Perioperative, not further defined	Provides nursing care to patients before, during and immediately after surgery, assesses patients' condition, plans nursing care for surgical intervention, maintains a safe and comfortable environment, assists Surgeons and Anaesthetists during surgery, and monitors patients' recovery from anaesthetic, prior to return to, or discharge from, ward.
254424	Registered Nurse - Surgical	Provides nursing care to patients with injuries and illness that require surgical intervention.
254425	Registered Nurse - Paediatrics	Provides nursing care to children of all ages, including neonates, across a range of health and community settings with an emphasis on assessing children's acute and ongoing needs while taking into account physical, social, cultural and family circumstances.
254499	Registered Nurse, not elsewhere classified	This occupation group covers Registered Nurses not elsewhere classified.
272112	Drug Alcohol Counsellor	Provides support and treatment for people with drug and alcohol dependency problems, develops strategies which assist them to set goals and affect and maintain change, and provides community education. May work in a call centre.
272113	Family Marriage Counsellor	Assists individuals, couples and families with marriage and relationship difficulties. May work in a call centre.
272114	Rehabilitation Counsellor	Assists physically, mentally and socially disadvantaged people to reintegrate into work and the community.
272199	Counsellor, not elsewhere classified	This occupation group covers Counsellors not elsewhere classified. Occupations in this group may work in a call centre. Occupations in this group include: Gambling Counsellor Grief Counsellor Life Coach Rape Crisis Counsellor Trauma Counsellor

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
333211	Fibrous Plasterer	<p>fit the glass using putty, chemical compounds or rubber strips into timber, steel and aluminium frames; assemble and secure parts of pre-made glass units, such as shop fittings, display cases and shower enclosures;</p> <p>install metal window and door frames into which glass panels are fitted, such as for shower screens and sliding doors;</p> <p>fabricate aluminium for domestic and commercial applications, and fit and install on site;</p> <p>inscribe decorative edges on glass and mirrors;</p> <p>create drawings using computer-aided design systems;</p> <p>read diagrams, drawings or specifications to determine job requirements.</p> <p>A plaster who utilises plastering reinforced with fibre (as Manila hemp or sisal) or provided with a cloth backing and used chiefly as sheeting, cornice moulding, and cover strips.</p> <p>Plasterers make, apply and fix the internal and external linings of commercial and domestic buildings. These linings may include office partitions, non-structural walls and ceilings.</p> <p>Plasterers may perform the following tasks:</p> <p>measure room walls, work out plasterboard layout and install insulation and moisture barriers;</p> <p>measure and mark cutting lines on plasterboard;</p> <p>cut plasterboard, lift and position panels, and nail, screw or glue panels to walls, ceilings or wooden strips (battens);</p> <p>prepare corner beading panel mouldings, ceiling centres and other plaster fittings;</p> <p>cover joints and nail holes with wet plaster or sealing compounds and smooth them using wet brushes and sand paper;</p> <p>fix precast cornices and panel mouldings, ceiling centres and other plaster fittings;</p> <p>apply finishing coats of plaster to give a smooth finish or decorative texture;</p> <p>install fire-rated wall barriers;</p> <p>spray fibrous materials over surfaces to be covered;</p> <p>install acoustic walls and treatments;</p> <p>render exterior walls and moulds;</p> <p>make fibrous plaster moulds in factories.</p>
333212	Solid Plasterer	<p>A plaster who coats a surface with cement render or plaster finish.</p> <p>Plasterers make, apply and fix the internal and external linings of commercial and domestic buildings. These linings may include office partitions, non-structural walls and ceilings.</p> <p>Plasterers may perform the following tasks:</p> <p>measure room walls, work out plasterboard layout and install insulation and moisture barriers;</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>measure and mark cutting lines on plasterboard; cut plasterboard, lift and position panels, and nail, screw or glue panels to walls, ceilings or wooden strips (battens); prepare corner beading panel mouldings, ceiling centres and other plaster fittings; cover joins and nail holes with wet plaster or sealing compounds and smooth them using wet brushes and sand paper; fix precast cornices and panel mouldings, ceiling centres and other plaster fittings; apply finishing coats of plaster to give a smooth finish or decorative texture; install fire-rated wall barriers; spray fibrous materials over surfaces to be covered; install acoustic walls and treatments; render exterior walls and moulds; make fibrous plaster moulds in factories.</p>
333311	Roof Tiler	<p>Roofers cover houses and other structures with roof tiles, slates, shingles or steel sheeting to form waterproof and durable surfaces.</p> <p>Roofers may perform the following tasks:</p> <p>examine drawings, specifications and worksites to determine materials required; assess risks; erect ladders and tile elevators; erect and dismantle restricted-height scaffolding; place roofing underlays over eaves and secure them by nailing or stapling these to roofs correctly; space and nail wooden strips (battens) across the roof rafters on which the tiles or other roofing material will be placed; measure and cut roofing material to fit around vents, chimney edges and the hips and valleys of the roof fix roof flashings (weatherproof covering); fix the ridge caps and gable ends with cement mortar or tech screws; apply protective paint coating systems; clear the roof of debris upon job completion.</p>
333411	Wall and Floor Tiler	<p>Wall and floor tilers lay ceramic, clay, slate, marble, glass and other types of tiles on external and internal walls and floors to provide protective and decorative finishes.</p> <p>Wall and floor tilers may perform the following tasks:</p> <p>look at plans, measure and mark surfaces to be covered and lay out work; prepare wall and floor surfaces by removing old tiles, grout, cement and adhesive; use tile-cutting tools to cut and shape tiles needed for edges, corners, or around obstacles such as fittings and pipes; attach tiles to surfaces, using correct adhesive, making sure that patterned tiles match; space and even the tiles by using tools such as spirit levels, squares and plumb-lines;</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		prepare and apply grout, remove excess grout, clean and polish tiles; lay floors of cement, granolithic, terrazzo or similar composition; apply waterproofing systems.
334111	Plumber (General)	<p>Plumbers lay out, install, test and maintain pipes, fixtures, metal roofing, fittings, gas meters and regulators.</p> <p>Plumbers may perform the following tasks:</p> <p>prepare and/or study plans and specifications to determine the layout of plumbing systems and materials needed find and mark positions for connections, measure pipes and mark cutting or bending lines, then cut holes through walls and floors to accommodate pipes cut, thread and bend pipes, assemble and install piping, valves and fittings, and join pipe sections and secure pipes test lines as required by local plumbing regulations install equipment such as boilers, chillers, pumps, heating and cooling systems, gas appliances, water tanks, water heaters and solar water heating systems, and fixtures such as toilets, wash basins and industrial processing units weld and braise pipework (steel, copper, plastic and stainless steel) system testing and commissioning maintain and repair plumbing systems.</p>
341111	Electrician (General)	<p>Electricians install, maintain, repair, test and commission electrical and electronic equipment and systems for industrial, commercial and domestic purposes. Electricians may also work on electrical transmission and distribution equipment.</p> <p>Electricians may perform the following tasks:</p> <p>read electrical, architectural and mechanical diagrams, drawings or specifications to determine job requirements; plan the layout of wiring systems; test for, locate and repair electrical malfunctions; install electrical and electronic control systems and insulated cables; install electrical equipment such as storage heaters, water heaters, electrical signs, switchboards and motors; assemble electrical and electronic components and appliances; connect electrical equipment to power supplies; connect switches, outlets and other fittings; connect circuit breakers; maintain automated production processes.</p>
341112	Electrician (Special Class)	An electrician that services and repairs intricate and complex electrical or electronic circuitry.
341113	Lift Mechanic	<p>Lift mechanics assemble, install, adjust, maintain and repair electric and hydraulic freight and passenger lifts and escalators.</p> <p>Lift mechanics may perform the following tasks:</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>study drawings and lay out the position of steelwork, guide rails, motors, pumps and cylinders; install lift guide rails and check that they are correctly aligned; install cables, counterweights, pumps, motor foundations, escalator drives, lift cars, doors, entrance frames and safety and control devices; connect electrical wiring to control panels and electric motors; test and adjust assemblies, including cables, wiring and electric controls, and adjust safety devices such as brakes and speed governors; carry out regular maintenance programmes on lifts and escalators; use laptop computers in the field for tuning and diagnostic work in fault finding; find the causes of faults in motors, brakes, switches and electrical and electronic control systems; repair hydraulic or mechanical brakes by adjusting or replacing valves, ratchets, seals and brake linings.</p>
362211	Gardener (General)	A gardener plants and cares for trees, lawns, shrubs and flower beds in areas around public and private institutions, city squares, parks and gardens, playing fields, golf courses and bowling greens, as well as private homes.
362212	Arborist	An arboriculture worker cares for and maintains trees in urban environments. The work may include tree climbing using ropes and a harness or operating from elevated platforms. Senior workers, sometimes called tree surgeons, provide specialist tree evaluation, assessment and treatment.
362213	Landscape Gardener	A landscape gardener designs and constructs garden landscapes or renovates existing gardens. They work in a variety of sites, including public and private parks and gardens, to create a landscape that is aesthetically pleasing as well as functional.
411111	Ambulance Officer	<p>Ambulance officers provide pre-hospital emergency care, treatment and specialised transport for patients.</p> <p>Ambulance officers may perform the following tasks:</p> <p>drive ambulances to sites of medical emergencies and accidents that may require the administration of advanced life support; lift and place patients on stretchers, load the stretchers into ambulances and transport patients to hospital; assess and treat patients at the site and on the way to hospital; administer pain-relieving drugs and replace fluids, often by inserting tubes into veins; prepare patient care records and other written reports on the state of patients' injuries and the treatment provided; attend public gatherings, such as large sporting events, where accidents or other health emergencies may occur; provide routine transport for patients between home</p>

Code	Descriptive label	Definition
		and hospital (for patients requiring further treatment or specialised treatment such as occupational therapy and chemotherapy, for example); perform daily vehicle and equipment checks, making sure that medical supplies (including drugs) are accounted for and that equipment and ambulances are in good working order.
411112	Intensive Care Ambulance Paramedic	An intensive care paramedic attends life-threatening emergencies such as heart attacks and car accidents, and gives intensive treatment to patients before arrival at hospital. They receive more training in the areas of anatomy, physiology, pathophysiology and pharmacology to increase their capacity to make complex clinical decisions without medical consultation.
411211	Dental Hygienist	Carries out preventative dental procedures under the direction of a Dentist. Dental hygienists use preventive, educational and therapeutic methods for controlling oral diseases to help individual patients and groups achieve and maintain oral health. Dental hygienists may perform the following tasks: •assess and record oral health conditions and plan treatments •educate, counsel and provide instruction for people of all ages, as well as other healthcare professionals, on oral health and hygiene, plaque control and nutrition •remove deposits and stains from teeth by scaling, root debridement and tooth polishing •identify and apply prevention strategies and control mechanisms for dental caries (decay) and periodontal (gum) disease •select and use appropriate fluoride treatments, and polish tooth restorations •apply professional tooth whitening agents •place temporary dental restorations •expose, process and interpret dental X-rays •take impressions of patients' mouths for the construction of study casts, mouthguards and orthodontic appliances •carry out orthodontic procedures that do not initiate tooth movement (such as band sizing and selection or bonding of fixed retainers) •apply and remove periodontal dressings and rubber dams •stabilise teeth affected by gum disease •select and administer pain control techniques, including local anaesthesia •remove dental sutures (stitches) •instruct patients on looking after their teeth and mouth after operations. Dental hygienists may work in a team with other dental practitioners.
411212	Dental Prosthetist	A dental prosthetist works as an independent practitioner in public or private clinics to provide complete and partial dentures and mouthguards to the public, consulting directly with patients about their removable dental prosthetic needs.
411213	Dental Technician	Dental technicians construct and repair dentures (false teeth) and other dental appliances, including crowns, bridges and orthodontic appliances. Dental technicians work closely with dentists and dental prosthetists and usually have no direct contact with

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>patients.</p> <p>They use a wide range of materials and techniques in their work, including plaster casting, electro-spot welding, metal casting, metal polishing, wax modelling, ceramics, wire bending, electroplating and sandblasting. The use of small CAD/CAM (computer-aided design/manufacturing) units is increasing in the design and manufacture of some dental products.</p> <p>Dental technicians may perform the following tasks:</p> <ul style="list-style-type: none"> - make models of the mouth and teeth from impressions of the patient's mouth (taken by the dental prosthetist, dentist, dental hygienist or dental therapist) - use models and moulds to make dental restorations such as inlays, onlays, veneers, crowns and bridges - polish and finish the appliance prior to placement in the patient's mouth - make appliances for patients with cleft palates, braces and plates for correcting irregular teeth - make mouthguards. <p>Dental technology may be divided into the following specialisation categories:</p> <ul style="list-style-type: none"> -General prostheses: the largest field in dental technology, in which partial or full dentures (metal and non-metal) are constructed to replace the partial or total loss of natural teeth. -Crown and bridge: used in the restoration of teeth and fixtures in the patient's mouth. -Maxillo-facial: prostheses are made to replace missing facial and body tissues due to injury, disease or developmental abnormality. -Orthodontics: the manufacture of fixed or removable appliances for the correction of dental irregularities in the mouths of patients.
411214	Dental Therapist / Oral Health Therapist, not further defined	Examines and treats diseases of the teeth in preschool, primary and secondary school children under the general supervision of a Dentist.
411311	Diversional Therapist	Plans, designs, coordinates and implements recreation and leisure-based activity programs to support, challenge and enhance the psychological, spiritual, social, emotional and physical wellbeing of individuals.
411412	Mothercraft Nurse	Provides care to newborn infants, and provides advice and training on infant care to parents of newborn infants.
411611	Massage Therapist	<p>Massage therapists assess and treat the soft tissue of the body for therapeutic purposes.</p> <p>Massage therapists may perform the following tasks:</p> <ul style="list-style-type: none"> - take a case history and assess the client's physical condition - massage the soft tissues of the human body, such as muscles, tendons and ligaments, to assist healing - assess and treat specific injuries and

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>other soft tissue dysfunction, and provide rehabilitation advice - administer treatments to promote relaxation, improve blood circulation and relieve muscle tension - use a range of techniques to enhance sports performance and prevent injury - provide advice about stretching exercises and relaxation techniques.</p> <p>Massage Therapists may specialise in one or more of the following techniques: -Remedial Massage - assists in rehabilitation, pain and injury management. -Therapeutic or Relaxation Massage - promotes wellbeing, improves sleep and treats anxiety and tension. -Sports Massage - treats and prevents injuries, improves recovery and increases flexibility and endurance. -Structural Bodywork - addresses injuries and dysfunction caused by postural and biomechanical strain. -Oncology, Palliative Care and Geriatric Massage - supports the primary care of patients with chronic illnesses, such as cancer. -Pregnancy and Paediatric Massage - supports the primary care of pregnant women and infants.</p>
411711	Community Worker	<p>Community workers encourage and assist community groups to identify their needs, participate in decision-making and develop appropriate services and facilities to meet those needs.</p> <p>Community workers may perform the following tasks:</p> <ul style="list-style-type: none"> - assist community groups in planning, developing, maintaining and evaluating community resources, programmes and support networks - support, develop and evaluate strategies that encourage community participation in activities - research, analyse and assist council, town planning, corporate planning and environmental health departments in developing community service policies - communicate frequently with community groups, welfare agencies, government bodies, non-government organisations and private businesses about community services such as housing, health, welfare and recreation - monitor, evaluate and recommend changes to community development programmes, policies, practices or budgets - help raise community and public awareness regarding issues such as welfare rights by promoting, organising and helping to coordinate meetings and seminars - carry out administrative work which may include written correspondence, preparing submissions and reports for government bodies or other agencies and attending management meetings.
411712	Disabilities Services Officer	<p>Disability services officers assess training needs, conduct training programmes and organise employment or recreation and leisure activities for people with intellectual, physical, sensory, social or emotional disabilities.</p> <p>Disability services officers may perform the following tasks: - determine the needs of people with disability,</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>including those needs that may be met through training or work experience - plan, develop and implement education and training programmes and check on how well they have worked - talk to parents, residential care workers, community groups, employers and other interested people.</p> <p>Disability services officers may specialise in one of the following service areas:</p> <ul style="list-style-type: none"> - Disability Employment Service: Finds jobs in the open labour market for people with disability, injury or health conditions. Disability services instructors also provide the necessary training and support to assist people to learn and retain the job, for as long as required. They work with local employers, Registered Training Organisations, government departments, community and health services, and other organisations as part of their service delivery. This is also known as Supported Employment. -Life Education: Teaches independent living skills to people with disability, as well as providing literacy and numeracy skills, communication and vocational training, community orientation training, and techniques of coping with daily living activities. -Recreation and Leisure: Establishes recreation and support networks and provides recreation and community orientation training.
411713	Family Support Worker	<p>A family support worker works with families experiencing financial, relationship or other difficulties. They offer practical help, emotional support and advice about coping strategies, so as to allow children to stay with their families rather than be placed under the care of the state.</p> <p>Tasks include:</p> <ul style="list-style-type: none"> *assessing clients' needs and planning, developing and implementing educational, training and support programs *interviewing clients and assessing the nature and extent of difficulties *monitoring and reporting on the progress of clients *referring clients to agencies that can provide additional help *assessing community need and resources for health, welfare, housing, employment, training and other facilities and services *liaising with community groups, welfare agencies, government bodies and private businesses about community issues and promoting awareness of community resources and services *supporting families and providing education and care for children and disabled persons in adult service units, group housing and government institutions *assisting young people to solve social, emotional and financial problems

Code	Descriptive label	Definition
		patients in recreational and leisure activities - supporting the training of disabled persons in self-care and daily living activities.
0988-88-J	Self Administered Home Based Clinical Care	A default value to be used for patients who are self-administering their own clinical care at home.
0999-10	Student	A person who is studying at a university or other place of higher education in order to enter a particular profession.
134211-1	Director of Clinical Services	An executive officer who directs the operations, programs, and activities in clinical area. They plan, direct, and coordinate patient care activities to maintain standards of patient care, and advise medical staff in matters related to clinical services.
134211-2	Director of Medical Services	A physician who is usually employed by a hospital to serve in a medical and administrative capacity as head of the organised medical staff. He or she also may serve as liaison for the medical staff with the hospital's administration and governing board
134212-1	Assistant Director of Nursing	A registered nurse who oversees and manages the work and services provided by the nursing staff.
134212-2	Deputy Director of Nursing	The second most senior nurse in charge of nursing in a healthcare facility.
134212-3	Executive Director of Nursing	The senior nurse in charge of nursing in a healthcare facility.
134299-1	Director of Pharmacy	The director of pharmacy is responsible for the operation and management of the Pharmacy Department.
134299-2	Director of Physiotherapy Services	The director of physiotherapy is responsible for the operation and management of the Physiotherapy Department.
134299-3	Director of Speech Pathology	The director of speech pathology is responsible for the operation and management of the Speech Pathology Department.
134299-4	Manager of Allied Health Services	The senior allied health profession in charge of all allied health professionals in a healthcare facility.
233913-1	Bioengineer	Bioengineers use engineering principles to help solve medical problems. Bioengineers interact with a variety of medical professionals — biologists, physicians, biochemists, therapists and physiologists — to design, develop and manufacture instruments and devices, or to develop procedures to remedy clinical problems. Common medical advancements attributed to bioengineering include prosthetic limbs, miniature cardiac devices, dialysis machines and therapeutic equipment.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
233913-2	Clinical Engineer	<p>Clinical engineering is a specialty within Biomedical engineering responsible primarily for applying and implementing medical technology to optimise healthcare delivery.</p> <p>Roles of clinical engineers include training and supervising biomedical equipment technicians (BMETs), working with governmental regulators on hospital inspections/audits, and serving as technological consultants for other hospital staff (e.g. physicians, administrators and I.T).</p> <p>Clinical engineers also advise medical device producers regarding prospective design improvements based on clinical experiences, as well as monitor the progression of state-of-the-art devices in order to redirect hospital procurement patterns accordingly.</p>
233913-3	Medical Engineer	Medical engineers work with doctors and medical scientists to design, manufacture and maintain medical equipment to improve health care and medical services. The discipline applies engineering and scientific methods to find solutions to problems in medicine and the life sciences.
234599-1	Parasitologist	A clinician who specialises in the study of the biology of parasites and parasitic diseases, including the distribution, biochemistry, physiology, molecular biology, ecology, evolution and clinical aspects of parasites, including the host response to these agents.
234599-2	Pharmacologist (non-clinical)	A person who carries out initial research and testing of drugs, often on animals, in a laboratory, before they are ready for clinical trials.
234599-3	Toxicologist	Toxicologists study the harmful effects of chemical, physical and biological agents on living organisms by detecting and examining the symptoms, mechanisms and treatments of poisoning (especially the poisoning of people). They also determine safe or acceptable levels of exposure to particular agents.
234599-A	Neuroanatomist	A specialist in the branch of anatomy dealing with the nervous system.
234611-1	Hospital Scientist	A type of medical laboratory scientist who conducts medical laboratory tests to assist in the diagnosis, treatment and prevention of disease
234611-2	Medical Scientific Officer	A type of medical laboratory scientist who conducts medical laboratory tests to assist in the diagnosis, treatment and prevention of disease
234611-A	Embryologist (IVF)	A specialist in the prenatal development of gametes (sex cells), fertilization, and development of embryos and fetuses.
251211-1	Medical Resonance Technologist	Operates X-ray and other medical imaging equipment to produce images for medical diagnostic purposes in conjunction with Diagnostic and Interventional Radiologists or other Medical Practitioners
251214-1	Obstetric and Gynaecological Ultrasound Specialist	Obstetrical and Gynaecological Ultrasound (OGU) subspecialists are specialists in Obstetrics and Gynaecology, awarded the FRANZCOG, who are

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		trained and assessed as being competent all aspects of ultrasound diagnosis relating to obstetrics and gynaecology, including ultrasound guided interventional diagnostic and therapeutic techniques.
251311-1	Food safety auditor	Food safety auditors provide advice to local governments about accreditation of food safety programs, conduct audits of accredited food safety programs, prepare audit reports, and provide a copy of these reports to the local government and the holder of the accredited food safety program.
251311-2	Food safety officer	An authorised officer tasked with ensuring that all persons working in the food industry meet their obligations under the relevant legislation, and that all food products sold and consumed are correctly labelled and safe.
251312-1	Occupational Hygienist	An occupational/industrial hygienist identifies and investigates problems of occupational/industrial hygiene (chemical and biological hazards) in the workplace and alerts managers and professionals to possible health risks. They use scientific equipment to measure and control hazardous substances.
251312-2	Workplace Rehabilitation Officer	A health professional such as an occupational therapist, physiotherapist or psychologist who has expertise in addressing the physical, psychological and/or workplace barriers that may prevent an injured worker returning to work.
251513-1	Retail Pharmacist / Community Pharmacist	Retail or community pharmacists provide general healthcare advice and supply prescription and non-prescription medication to the public. A retail pharmacist works in a retail setting rather than in a hospital or GP surgery. Retail or community pharmacists are responsible for dispensing and controlling both prescription and non-prescription medicine. They also advise customers on general healthcare.
251513-2	Consultant Pharmacist	A consultant pharmacist is a pharmacist who works as a consultant providing expert advice on the use of medications or on the provision of pharmacy services to medical institutions, medical practices and individual patients.
251911-1	Asthma Educator	An asthma educator is an expert in teaching, educating, and counselling individuals with asthma and their families in the knowledge and skills necessary to minimize the impact of asthma on their quality of life.
251911-2	Childbirth Educator	A health professional that possesses professional sources of information, with skills to support for parents as they prepare for pregnancy, labour, birth, and parenthood.
251911-3	Diabetes Educator	A health professional that possesses comprehensive knowledge of and experience in diabetes prevention, prediabetes, and diabetes management. They educate, support, and advocate for people affected by diabetes, addressing the stages of diabetes throughout the lifespan. They promote self-management to achieve individualised behavioural

		and treatment goals that reduce risks and optimize health outcomes.
252299-A	Play Therapist	Play therapy refers to a method of psychotherapy with children in which a therapist uses a child's fantasies and the symbolic meanings of his or her play as a medium for understanding and communication with the child.
252299-B	Music Therapist	Includes Child Life Therapist. Music therapy is the skilful use of music and musical elements by an accredited music therapist to promote, maintain, and restore mental, physical, emotional, and spiritual health.
252299-C	Art Therapist	Art therapy is the therapeutic use of art making, within a professional relationship, by people who experience illness, trauma or challenges in living, and by people who seek personal development.
252311-1	Endodontist	An endodontist diagnoses and treats diseases and injuries to the soft tissues within the hollow core of the tooth.
252311-2	Oral Maxillofacial Surgeon	An oral/maxillofacial surgeon surgically treats diseases and abnormalities of the mouth and adjacent parts.
252311-3	Oral Pathologist	A specialist pathologist that deals with the nature of diseases affecting the oral, maxillofacial and adjacent regions.
252311-4	Orthodontist	A dentist who specialises with irregularities of the teeth (such as malocclusion) and their correction.
252311-5	Paedodontist	A paediatric dentist / paedodontist deals with children's dental health.
252311-6	Periodontist	A periodontist prevents and treats diseases of the gums and supporting tissues.
252311-7	Prosthodontist	A prosthodontist restores and/or replaces teeth and their associated parts.
252311-8	Oral Medicine Specialist	The branch of dentistry concerned with the oral health care of patients with chronic and medically related disorders of the oral and maxillofacial region and with their diagnosis and nonsurgical management.
252311-9	Forensic Odontologist	A highly experienced, specially trained dentist who uses their expertise to help identify unknown remains and trace bite marks to a specific individual.
252611-1	Podiatric Surgeon	Podiatric surgery is the surgical treatment of conditions affecting the foot, ankle and related lower extremity structures by accredited and qualified specialist podiatrists.
253111-1	Specialist General Practitioner	Specialist general practitioners diagnose and treat physical and mental illnesses, disorders and injuries, recommend preventative action and refer patients to specialist Medical Practitioners, other health care workers, and social, welfare and support workers. Tasks Include: - conducting examinations and questioning patients to determine the nature of disorders and illnesses, and recording patients' medical information

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<ul style="list-style-type: none"> - ordering laboratory tests, X-rays and other diagnostic procedures, and interpreting findings to assist in diagnosis - providing overall care for patients, and prescribing and administering treatments, medications and other remedial measures - monitoring patients' progress and response to treatment - advising on diet, exercise and other habits which aid prevention and treatment of disease and disorders - referring patients to, and exchanging medical information with, specialist Medical Practitioners - reporting births, deaths and notifiable diseases to government authorities - arranging the admission of patients to hospitals
253111-2	General Practitioner w Women's Health Obstetrics Sub-specialisation	A GP who provides women's health and obstetrics services normally in a hospital theatre, maternity setting or other appropriately equipped facilities, that in urban areas are typically the province of a specific referral based specialty.
253111-3	General Practitioner w Anaesthetics Sub-specialisation	A GP who provides anaesthetic services normally in a hospital theatre, which in urban areas are typically the province of a specific referral based specialty.
253111-4	Proceduralist General Practitioner	A GP who provides non-referred services normally in a hospital theatre, maternity setting or other appropriately equipped facilities, that in urban areas are typically the province of a specific referral based specialty.
253111-5	General Practitioner w Surgery Sub-specialisation	A GP who provides surgical services normally in a hospital theatre, which in urban areas are typically the province of a specific referral based specialty.
253111-6	General Practitioner w Skin Cancer Sub-specialisation	A GP who provides skin cancer services normally in a hospital theatre or other appropriately equipped facilities, that in urban areas are typically the province of a specific referral based specialty.
253112-9	Career Medical Officer / Senior Medical Officer	Career Medical Officer means a Medical Officer who is employed and/or appointed to a position not being that of a medical officer in training in a hospital who may be required to undertake such duties and at such places as directed within such hospital. Medical Officer means a person licensed or registered by the Medical Board of New South Wales pursuant to the Medical Practice Act 1992 employed in a position covered by this Award.
253112-A	Medical Intern	<p>Australian and New Zealand medical school graduates must apply for provisional registration in order to undertake a period of approved intern training to become eligible for general registration.</p> <p>Interns are only permitted to work in accredited intern positions. They are not permitted to undertake any clinical work outside their allocated intern position.</p> <p>All terms must be accredited against approved accreditation standards by an authority approved by the Board. These authorities are commonly known as postgraduate medical councils.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253112-B	Resident Medical Officer	<p>After successful completion of intern training, provisional registrants can apply for general registration.</p> <p>Resident Medical Officers diagnose and treat physical and mental illnesses, disorders and injuries, recommend preventative action and refer patients to specialist Medical Practitioners, other health care workers, and social, welfare and support workers under the supervision of medical specialists or senior general practitioners.</p> <p>Tasks Include: - conducting examinations and questioning patients to determine the nature of disorders and illnesses, and recording patients' medical information - ordering laboratory tests, X-rays and other diagnostic procedures, and interpreting findings to assist in diagnosis - providing overall care for patients, and prescribing and administering treatments, medications and other remedial measures - monitoring patients' progress and response to treatment - advising on diet, exercise and other habits which aid prevention and treatment of disease and disorders - referring patients to, and exchanging medical information with, specialist Medical Practitioners - reporting births, deaths and notifiable diseases to government authorities - arranging the admission of patients to hospitals.</p> <p>Occupations in this unit group have a level of skill commensurate with a bachelor degree or higher qualification and at least one year of hospital-based training (ANZSCO Skill Level 1). Registration or licensing is required.</p> <p>In general, most doctors spend two to three years practicing as a Resident Medical Officer (RMO) in a hospital before commencing specialist training. Others may choose to continue practicing as an RMO for a longer period before deciding on the field in which they would like to specialise. Some may continue working as an RMO for the entirety of their medical careers, often because they enjoy the diversity that residency offers.</p>
253112-C	Registrar (Medical / Surgical)	<p>A registrar is a qualified doctor who has commenced specialist training through a Medical College (such as the Royal Australasian College of Surgeons), and who has completed the program to the level required for the college to refer to them a registrar.</p> <p>Most specialty training programs take between three and six years to complete. Some refer to the doctor as a registrar from commencement of the program, while others continue to refer to the doctor as a Resident Medical Officer until later in the program.</p> <p>The medical colleges also oversee and maintain professional standards for their areas of specialty, and as such the requirements of specialist training programs vary between colleges.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>Those successful in completing the requirements of their college program become Fellows of that college and are then referred to as specialists. Specialists typically work in specialist private practice or as a staff specialist consultant in a hospital, or sometimes both.</p> <p>Once a doctor is a fellow, they must be re-classified to the provider type category that best represents their specialist field of practice.</p> <p>Note: This category includes registrars regardless of their speciality. This includes medical specialties, surgical specialties, and specialisation in anaesthetics.</p>
253211-1	Anaesthetist - Intensive Care	Provides direct medical care to patients requiring general or local anaesthesia within an intensive care setting.
253211-2	Anaesthetist - Obstetrics	A sub-specialty of anaesthesiology that provides peripartum (time directly preceding, during or following childbirth) pain relief (analgesia) for labour and anaesthesia for caesarean deliveries.
253211-3	Pain Management Specialist	A pain management specialist is a physician with special training in evaluation, diagnosis, and treatment of all different types of pain. The pain medicine specialist serves both as a consultant to other physicians and often as the principal treating physician.
253211-4	Anaesthetist - Paediatrics	A subspecialty of anaesthesiology dealing with the anaesthesia of neonates, infants, special needs patients, and children up to 12 years of age.
253311-2	Specialist Rural Physician	A medical practitioner that has specialised in rural health needs.
253315-1	Diabetologist	A physician who specializes in the treatment of diabetes mellitus.
253321-1	Neonatologist	A neonatologist is responsible for the care of all newborn babies who need extra support shortly after birth. A neonatologist is responsible for liaising with obstetricians, providing antenatal and bereavement counselling to families, caring for babies on the neonatal unit during their acute stay, and following up babies in clinic after they have been discharged from the neonatal unit.
253321-10	Paediatric Gastroenterologist	Investigates, diagnoses and treats diseases and disorders of the human liver, stomach and associated organs of children from birth to early adolescence.
253321-11	Paediatric Intensive Care Specialist	An intensive care specialist diagnoses and provides intensive medical care for critically ill patients, often through the use of organ support systems of children from birth to early adolescence.
253321-12	Paediatric Medical Oncologist	An oncologist manages the care and treatment of patients diagnosed with cancer, and may further specialise in medical, radiation or surgical oncology of children from birth to early adolescence.
253321-13	Paediatric Neurologist	A paediatric neurologist studies and treats injuries and diseases affecting the brain, spinal cord,

		Relapsing Multifocal Osteomyelitis (CRMO) - Hypermobility - Chronic musculoskeletal pain syndromes – Chronic Regional Pain Syndrome (CRPS), Reflex Sympathetic Dystrophy (RSD), Fibromyalgia (FM) - Mechanical joint pains of all sorts - Other rare inflammatory or musculoskeletal conditions.
253321-18	Paediatric Sexual Health Specialist	A sexual health physician is a doctor who specialises in the management of sexual problems in children from birth to early adolescence.
253321-19	Paediatric Thoracic Medicine Specialist / Respiratory Specialist / Sleep Specialist	Investigates, diagnoses and treats diseases and disorders of the human respiratory system, including sleep disorders and sleep-related conditions, of children from birth to early adolescence.
253321-2	Paediatric Addiction Medicine Specialist	An addiction medicine physician is a physician trained and certified to provide comprehensive care for addiction and substance related disorders, including the diagnosis, treatment and prevention of such health conditions, of children from birth to early adolescence.
253321-20	Community Child Health Specialist	<p>A physician who has an understanding of the complex interplay between physical, social and environmental factors and human biology affecting the growth and development of all young people.</p> <p>Practising community child health specialists use their skills in:</p> <ul style="list-style-type: none"> • clinical practice including the assessment and management of infants, children and young people with developmental, learning, behavioural and emotional problems, disabilities, obesity, victims and those at risk of child abuse and neglect, and those in out of home care • population child health encompassing needs assessment for child and adolescent populations, community diagnosis, screening and surveillance, infectious disease control, injury control, health program planning, evaluation, and research including the quantitative and qualitative measurement of health outcomes and wellbeing • effective health service provision and management, communication, team leadership, liaison and referral within and across disciplines and relevant government, non-government and private agencies • child and adolescent health promotion and advocacy through education, information provision, effective use of medicine and other preventive programs and advocacy
253321-21	General Paediatrics Specialist	General paediatrics is a broad based multidisciplinary specialty, which, on referral from primary care providers, provides expert diagnosis, treatment and care for infants, children and young people aged up to 19 years.
253321-22	Paediatric Emergency Medicine Specialist	Provides diagnostic medical services, and manages child patients from birth to early adolescence with acute and urgent illness and injury.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253321-23	Paediatric Nuclear Medicine Specialist	Medical specialists that use tracers, usually radiopharmaceuticals, for diagnosis and therapy, for children from birth to early adolescence.
253321-3	Paediatric Cardiologist	Investigates, diagnoses and treats diseases of the human heart of children from birth to early adolescence.
253321-4	Paediatric Clinical Geneticist	Clinical geneticists see referred children from birth to early adolescence for diagnosis, management, genetic testing and genetic counselling.
253321-5	Paediatric Clinical Pharmacologist / Paediatric Clinical Toxicologist	A clinical pharmacologist or clinical toxicologist who has specialised in the treatment of children and adolescents.
253321-6	Paediatric Endocrinologist	Investigates, diagnoses and treats diseases of the endocrine system of children from birth to early adolescence.
253321-7	Paediatric Haematologist	Investigates and diagnoses blood and other genetic disorders by studying cellular composition of blood and blood-producing tissues of children from birth to early adolescence.
253321-8	Paediatric Immunologist / Allergy Specialist	A specialist who has undergone general training in medicine, followed by postgraduate advanced training in clinical immunology and allergy, who investigates and treats children from birth to early adolescence.
253321-9	Paediatric Infectious Diseases Physician	An infection diseases specialist is a medical doctor who is qualified as an expert in the diagnosis and treatment of infectious diseases of children from birth to early adolescence.
253324-1	Respiratory Medicine Physician	A specialist under the title of Respiratory Medicine Physician who manages non-surgical care of serious respiratory ailments like pneumonia, tuberculosis and chest infections, as well as performs diagnostic tests like bronchoscopies.
253324-2	Thoracic Medicine Physician	A specialist under the title of Thoracic Medicine Physician who manages non-surgical care of serious respiratory ailments like pneumonia, tuberculosis and chest infections, as well as performs diagnostic tests like bronchoscopies.
253399-1	Clinical Allergist	A specialist who has undergone general training in medicine, followed by postgraduate advanced training in allergy.
253399-10	Sexual Health Physician	A sexual health physician manages the sexual health components of gynaecology, urology, dermatology, psychiatry, infectious diseases, cardiology and many other disciplines. They are trained in all aspects of sexual health ranging from sexually transmitted diseases and HIV, sexual assault, sexual dysfunction and medical sex therapy, fertility and reproductive medicine, genital dermatology, endocrinology and public health.
253399-11	Sleep Medicine Specialist	A sleep specialist is a medical doctor who has completed additional education and training in the field of sleep medicine. Sleep medicine focuses on sleep, sleep disorders, and sleep-related conditions. Sleep specialists are trained in the diagnosis, management, treatment, and prevention of sleep disorders and sleep problems. They often work in sleep centres, also called sleep clinics and sleep labs

Code	Descriptive label	Definition
		(laboratories).
		Sleep medicine specialists diagnose and treat a number of sleep-related conditions, including excessive snoring, sleep apnoea (obstructive sleep apnoea; OSA), insomnia (inability to sleep or sleep well), narcolepsy (chronic, uncontrollable daytime sleepiness), and circadian rhythm disorders. Circadian rhythm sleep disorders, such as delayed sleep phase syndrome, jet lag, and shift work change, cause chronic (long term) or occasional disruptions in sleep patterns and may result in excessive sleepiness and/or difficulty sleeping.
		Sleep specialists also diagnose and treat parasomnias, which are abnormal conditions or events that occur during sleep.
253399-12	Addiction Medicine Specialist	An addiction medicine physician is a physician trained and certified to provide comprehensive care for addiction and substance related disorders, including the diagnosis, treatment and prevention of such health conditions.
253399-2	Clinical Geneticist	Clinical Geneticists are physicians who have undergone speciality training in genetics after general professional training in Medicine or Paediatrics. Clinical geneticists see referred patients for diagnosis, management, genetic testing and genetic counselling.
253399-3	Clinical Immunologist	A specialist who has undergone general training in medicine, followed by postgraduate advanced training in clinical immunology.
253399-4	Clinical Pharmacologist	Pharmacologists evaluate the origin, effects and mechanisms of drugs and develop them for human and animal use.
		Pharmacologists may perform the following tasks:
		<p>discover, develop and evaluate substances for use in the treatment of disease;</p> <p>modify the chemical structure of an effective substance to eliminate undesirable side effects;</p> <p>devise and carry out experiments to determine how drug concentrations in the body change over time;</p> <p>test newly discovered or manufactured substances for their safety, characteristics and possible use as drugs;</p> <p>study what happens to a drug after it has been administered;</p> <p>investigate drugs for unwanted or dangerous side effects and if found establish why they occur;</p> <p>study other substances that affect living organisms, such as pollutants, poisons and insecticides;</p> <p>write scientific reports on research and investigations, as well as more general information for scientific, managerial, political and general audiences;</p> <p>provide policy and clinical advice to managers, politicians, primary producers, healthcare workers and the general public.</p>
253399-5	Geriatrician	A doctor specialising in the medical aspects of old age.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253399-6	Industrial Medicine Specialist	A doctor specialising in the study and practice of the health care of employees of large organisations, including measures to prevent accidents, industrial diseases, and stress in the workforce.
253399-7	Infectious Diseases Specialist	An infection diseases specialist is a medical doctor who is qualified as an expert in the diagnosis and treatment of infectious diseases. The special skills of the infectious diseases specialist are not confined to one organ system but include expertise in infections of any kind, whether they are of the sinuses, heart, brain, lungs, urinary tract, bowel, bones or pelvic organs. Infectious diseases specialists have extensive training in all kinds of infections, including those caused by bacteria, viruses, fungi and parasites. Along with this knowledge comes a particular insight into the use of antibiotics and their potential adverse effects. The infectious diseases specialist also has additional training and understanding in immunology (how the body fights infection), epidemiology (how infections spread), and infection control.
253399-8	Palliative Medicine Specialist	A doctor specialising in palliative medicine, involving the study and management of patients with active, progressive, far-advanced disease for whom the prognosis is limited and the focus of care is the quality of life.
253399-9	Rehabilitation Medicine Physician	A medical doctor who specialises in restoring optimal function to people with injuries to the muscles, bones, ligaments, or nervous system.
253411-1	Adolescent Psychiatrist	A physician who specialises in the diagnosis and the treatment of disorders of thinking, feeling and/or behaviour affecting adolescents.
253411-2	Child Adolescent Psychiatrist	The child and adolescent psychiatrist is a physician who specialises in the diagnosis and the treatment of disorders of thinking, feeling and/or behaviour affecting children, adolescents, and their families. The child and adolescent psychiatrist uses the knowledge of biological, psychological, and social factors in working with patients.
253411-3	Child Psychiatrist	A physician who specialises in the diagnosis and the treatment of disorders of thinking, feeling and/or behaviour affecting children.
253411-4	Forensic Psychiatrist	The medical discipline concerned with such matters as criminal intent and the capacity to form it; criminal evidence and the vulnerability of suspects; the investigation of possible wrongful convictions; confessions and how they are obtained; the psychopathology of sexual offenders; and the risks of schizophrenics in the community.
253411-5	Geriatric Psychiatrist	Geriatric Psychiatry, a psychiatric subspecialty, focuses on the assessment, diagnosis and treatment of complex mental disorders uniquely occurring in late life. Geriatric Psychiatrists focus on providing care for intensive-needs patients and their caregivers at the end of the life cycle, a time when many complex physical and mental health issues coalesce.
253411-6	Medical Psychotherapist	Medical psychotherapists are trained psychiatrists (doctors who treat mental health problems) who have

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		specialised in psychotherapy (psychological or talking treatments). This can include different therapies such as cognitive behaviour therapy, psychodynamic psychotherapy, and systemic (group or family) therapy.
253511-1	Breast Surgeon	Surgeons specialise in the management of disorders of the breast.
253511-2	Transplant Surgeon	A transplant surgeon is a surgeon who specialises in organ transplantation.
253511-3	Upper Gastrointestinal Surgeon / Hepato-Pancreato-Biliary Surgeon	A surgeon who has specialised in surgery of the upper gastrointestinal tract and the liver, pancreas, gallbladder and biliary tracts.
253511-4	Colorectal Surgeon	<p>A colorectal surgeon is a surgeon who specialises in the management of disorders of the small bowel, colon, rectum and anus. This includes both benign (non-cancerous) and malignant (cancerous) problems such as:</p> <ul style="list-style-type: none"> • Colorectal cancer and polyps • Inflammatory bowel disease including Crohn's disease and ulcerative colitis • Diverticular disease of the colon • Anorectal conditions including haemorrhoids, fissures, abscesses and fistulas • Pelvic floor disorders including bowel prolapse • Functional bowel problems such as constipation and incontinence <p>In particular colorectal surgeons have specifically trained in the diagnosis and treatment of rectal cancer. Rectal cancer treatment requires special investigations prior to surgery and specialised skills to remove the rectum. Colorectal surgeons have additional experience in this type of surgery.</p>
253511-5	Endocrine Surgeon	<p>Endocrine surgeons specialise in the management of disorders of the thyroid gland, parathyroid glands, adrenal glands and the endocrine pancreas.</p> <p>Endocrine surgery refers to operations on one or more of the endocrine glands. These glands secrete hormones into the bloodstream, and have an important influence over the functions of almost all cells in the body. Endocrine surgeons are surgeons with special expertise and training in operations on a number of the endocrine glands including the thyroid gland, the parathyroid glands, the adrenal glands, the endocrine pancreas, and some neuroendocrine glands. There are a number of other endocrine glands and these are treated by different surgeons. They include the pituitary gland in the brain, which secretes various stimulating hormones and which is treated by neurosurgeons, and the ovaries, which secrete sex hormones and which are treated by gynaecologists. Endocrine surgeons work closely with their medical colleagues (endocrinologists) who are often the doctors who will be responsible for both the initial diagnosis and investigation of endocrine disorders. Endocrinologists may also be involved in long term follow up after endocrine surgery. Endocrine surgeons also work with nuclear medicine physicians, radiologists, pathologists, geneticists and</p>

		anaesthetists, in order to provide the best care for their patients.
253511-6	Surgical Oncologist	A surgeon who has special training in performing biopsies and other surgical procedures in cancer patients.
253515-1	Laryngologist	A physician who specialises in the diagnosis and treatment of disorders of the larynx
253515-2	Otologist	A physician trained in the diagnosis and treatment of diseases and other disorders of the ear
253515-3	Rhinologist	A physician who specialises in the diagnosis and treatment of disorders of the nose.
253515-4	Head and neck surgeon	Performs surgery to correct diseases and disorders of the ear, nose and throat.
253913-1	Gynaecological Oncologist	A specialist in obstetrics and gynecology who by virtue of education and training is prepared to provide consultation on and comprehensive management of patients with gynecologic cancer and whose present activity includes the practice of gynecologic oncology in an institutional setting wherein all the effective forms of cancer therapy are available. Comprehensive management should include those diagnostic and therapeutic procedures necessary for the total care of the patient with gynecologic cancer or complications resulting therefrom.
253913-2	Reproductive Endocrinologist / Infertility Specialist	A Reproductive Endocrinologist is a fertility specialist that specializes in the following fields of study: Polycystic ovarian syndrome (PCOS) Endometriosis Hypothalamic pituitary dysfunction A congenital adrenal hyperplasia Tubal factor infertility Male factor infertility In vitro fertilization (IVF) Fertility preservation Congenital uterine anomalies Other disorders of the female reproductive tract
253913-3	Urogynaecologist	Urogynaecologists manage women with urinary incontinence and pelvic floor dysfunction
253913-4	Maternal-fetal Medicine Specialist	A physician who has advanced knowledge and training in medical, surgical, obstetrical, foetal, and genetic complications of pregnancy and their effects on both the woman and foetus.
253913-A	Gynaecologist	A physician who specializes in treating diseases of the female reproductive organs and providing well-woman health care that focuses primarily on the reproductive organs.
253913-B	Obstetrician	A physician with special training in how to care for pregnant women and deliver babies.
253915-1	Clinical Cytopathologist	A subspecialisation of a general anatomic pathologist who has undergone additional specialist training in a cytology laboratory.
253915-2	Forensic Pathologist	A medical doctor who has completed training in anatomical pathology and has subsequently specialized in forensic pathology.
253915-3	General Anatomic Pathologist	This medical specialty involves the examination of surgical specimens removed from the body or

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		sometimes the examination of the whole body (autopsy) to investigate and diagnose disease.
253915-4	Chemical Pathologist	Chemical pathologists are qualified doctors who combine practical laboratory and clinical skills. They use biochemical laboratory tests to diagnose disease and to manage patients. Chemical pathologists have a detailed understanding of biochemical processes and changes that occur in disease.
253915-5	Clinical Cytogeneticist	A geneticist who specializes in the cellular components associated with heredity.
253915-6	Molecular Geneticist	Molecular geneticists identify genes associated with specific functions, diseases, and disorders. They identify genetic mutations on a molecular level and establish genotypes to better understand the nature of genetic makeup.
253915-7	Immunopathologist	A specialist that that deals with immune responses associated with disease. It includes the study of the pathology of an organism, organ system, or disease with respect to the immune system, immunity, and immune responses.
253915-8	Medical Microbiologist	Specialists that study microbes, such as bacteria, viruses, fungi and parasites, which cause a human illness and their role in the disease.
253917-1	Diagnostic Radiologist	Diagnostic radiologists provide diagnostic and treatment medical services, and monitor patients with various diseases utilising imaging techniques such as general radiography, angiography, fluoroscopy, mammography, ultrasound, computed tomography, magnetic resonance imaging, nuclear medicine and bone densitometry. The images are interpreted to aid in the diagnosis of disease.
253917-2	Medical Imaging Specialist	Operates X-ray and other medical imaging equipment to produce images for medical diagnostic purposes in conjunction with Diagnostic and Interventional Radiologists or other Medical Practitioners. Registration or licensing is required.
253917-3	Nuclear Medicine Specialist	Medical specialists that use tracers, usually radiopharmaceuticals, for diagnosis and therapy.
253917-A	Dento-maxillofacial radiologist	A dentistry sub-specialist concerned with performance and interpretation of diagnostic imaging used for examining the craniofacial, dental and adjacent structures.
253999-1	Occupation Medicine Physician	Occupational Medicine Physicians are highly trained specialists who provide a wide range of services relating to the health of workers and employers. The specialty of Occupational Medicine focuses on the inter-relationships between workers, their workplaces and their work practices. The specialty encompasses prevention, treatment and rehabilitation. It deals with health issues of the individual worker, populations of workers, their interaction with their environment and the "health" of the employing organisation. Occupational Physicians consider medical issues within the wider context of their psycho-social, industrial and motivational frameworks, and have a key role in communicating with employers, business and government.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253999-2	Public Health Physician	Public health physicians are primarily concerned with the health and care of populations. They provide medical diagnosis and patient care, conduct teaching and research and serve as program managers. Preventive medicine trained physicians work in primary care settings and managed care organisations, in public health and government agencies, in workplaces and in academia.
253999-3	Sports Physician	A medical practitioner concerned with the treatment of injuries resulting from athletic activities.
254111-B	Midwife (MBS eligible)	Provides care and advice to women during pregnancy, labour and childbirth, and postnatal care for women and babies in a range of settings such as the home, community, hospitals, clinics and health units. Midwives classified to this category are authorised to bill Medicare for their services.
254111-C	Midwife (MBS Ineligible)	Provides care and advice to women during pregnancy, labour and childbirth, and postnatal care for women and babies in a range of settings such as the home, community, hospitals, clinics and health units. Midwives classified to this category are those NOT authorised to bill Medicare for their services.
254414-1	Registered Nurse (Health Education Promotion)	Provides education to individuals, families and groups in the wider community with a focus on health promotion.
254414-2	Registered Nurse (Public Health)	A field of nursing that is concerned with the health needs of the community as a whole. Public health nurses may work with families in the home, in schools, at the workplace, in government agencies, and at major health facilities.
254414-3	Registered Nurse (School Nurse)	A specialised practice of professional nursing that advances the wellbeing, academic success, and life-long achievement of students. To that end, school nurses facilitate positive student responses to normal development; promote health and safety; intervene with actual and potential health problems; provide case management services; and actively collaborate with others to build student and family capacity for adaptation, self management, self advocacy, and learning.
254415-1	Registered Nurse (Acute Care)	Provides nursing care to critically ill patients and patients with unstable health following injury, surgery or during the acute phase of diseases.
254415-2	Registered Nurse (Emergency / Trauma)	Provides nursing care to critically ill patients in emergency departments or retrieval services.
254415-3	Registered Nurse (High Dependency)	A registered nurse who has been certified as being able to provide specialist nursing care within a high dependency unit.
254415-4	Registered Nurse (Neonatal Intensive Care)	A registered nurse who has been certified as being able to provide specialist nursing care within a neonatal intensive care unit.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
254415-5	Registered Nurse (Paediatric Intensive Care)	A registered nurse who has been certified as being able to provide specialist nursing care within a paediatric intensive care unit.
254417-1	Registered Nurse (Rehabilitation)	Rehabilitation nurses assist individuals with disability and/or chronic illness to attain and maintain maximum function. The rehabilitation nurse assists clients in adapting to an altered lifestyle, while providing a therapeutic environment for client's and their family's development. The rehabilitation nurse designs and implements treatment strategies that are based on scientific nursing theory related to self-care and that promote physical, psychosocial, and spiritual health. The rehabilitation nurse works in inpatient and outpatient settings that can be found in a range of acute to subacute rehabilitation facilities.
254422-1	Registered Nurse (Child Adolescent Mental Health)	Provides nursing care to patients with mental health illness, disorder and dysfunction, and those experiencing emotional difficulties, distress and crisis in health, welfare and aged care facilities, correctional services and the community, specialising in children and young adolescents.
254422-2	Registered Nurse (Drug Alcohol)	Provides nursing care to patients whose use of drugs and/or alcohol is sufficiently problematic that they require clinical intervention.
254422-3	Registered Nurse (Psychiatric Rehabilitation)	Provides nursing to patients that require restoration of community functioning and well-being in an individual diagnosed in mental health or mental or emotional disorder and who may be considered to have a psychiatric disability.
254422-4	Registered Nurse (Psychogeriatric Care)	A subspecialty of mental health nursing that focuses on older people's mental health.
254423-1	Registered Nurse (Anaesthetic)	A registered nurse who has completed additional training in anaesthesia and is qualified to serve as an anaesthetist under the supervision of a physician.
254423-2	Registered Nurse (Operating Room)	Provides nursing care to patients before, during and immediately after surgery, assesses patients' condition, plans nursing care for surgical intervention, maintains a safe and comfortable environment, assists Surgeons and Anaesthetists during surgery.
254423-3	Registered Nurse (Recovery)	A registered nurse who monitors patients' recovery from anaesthetic, prior to return to, or discharge from, ward.
254499-1	Registered Nurse (Defence Forces)	A registered nurse who has been employed by the Australian defence force.
254499-2	Registered Nurse (Infection Control)	A registered nurse who is assigned responsibility for surveillance and infection prevention, education, and control activities.
254499-4	Registered Nurse (Remote or Rural Area)	A registered nurse who has undertaken additional training and is able to provide a wider range of primary care and emergency services from rural health services.
254499-5	Registered Nurse (Sexual Assault Nurse Examiner)	A registered nurse who has undertaken additional specialised training in forensic nursing to provide 24-hour-a-day, first-response medical care and crisis intervention to rape survivors in either hospitals or clinic settings.
272199-A	Genetic Counsellor	A health professional that advises patients or relatives at risk of an inherited disorder of the consequences

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		and nature of the disorder, the probability of developing or transmitting it, and the options open to them in management and family planning.
272199-B	Sexual Assault Worker	A Sexual Assault Worker is a specialist clinician who provides evidence-based counselling and therapy to adult or child victims of sexual assault.
272311-1	Forensic psychologist	Forensic psychologists perform assessments, treatment, or consultations that revolve around clinical issues occurring in legal contexts.
272311-2	Health psychologist	Health psychologists study psychological and behavioural processes in health, illness, and healthcare. They are concerned with understanding how psychological, behavioural, and cultural factors contribute to physical health and illness.
272311-3	Clinical Neuropsychologist	A Clinical Neuropsychologist is a professional psychologist who applies principles of assessment and intervention based upon the scientific study of human behaviour as it relates to normal and abnormal functioning of the central nervous system.
272399-A	Community Psychologist	Community psychologists seek to understand the quality of life of individuals within groups, organisations and institutions, as well as communities and society. They study the individuals' contexts within communities and the wider society, and the relationships of the individual to communities and society.
272399-B	Counselling Psychologist	A professional specialist psychologist that focuses on facilitating personal and interpersonal functioning across the life span. The specialist pays particular attention to emotional, social, vocational, educational, health-related, developmental, and organizational concerns.
272399-C	Sport and exercise psychologist	Sport and exercise psychologists work in two principal areas: (a) helping athletes use psychological principles to achieve optimal mental health and to improve performance (performance enhancement) and (b) understanding how participation in sport, exercise and physical activity affects an individual's psychological development, health and well-being throughout the lifespan.
311299-A	Medical Technician (Clinical), not elsewhere classified	<p>Clinical Medical Technicians have an appropriate certification and provide support to medical professionals in a variety of ways. They operate medical equipment in emergency rooms and operating theatres, perform and assist with laboratory tests, and at times may fill prescriptions in pharmacies.</p> <p>Duties and tasks: - Assisting in the diagnosing of disease by studying laboratory reports and samples - Operating and monitoring medical equipment under the supervision of medical professionals - Performing laboratory test and analysing results - Preparing medications under the supervision of pharmacists - Recording heart, lung, and brain activity for the reference of the medical professional.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
311299-B	Medical Technician (Non-Clinical), not elsewhere classified	Non-clinical Medical Technicians provide support to medical professionals in a variety of ways. They operate medical equipment in emergency rooms and operating theatres, perform and assist with laboratory tests, and at times may fill prescriptions in pharmacies. They do not have a clinical certification.
411214-A	Dental Therapist	Examines and treats diseases of the teeth in preschool, primary and secondary school children under the general supervision of a Dentist.
411214-B	Oral Health Therapist	Examines and treats diseases of the teeth in preschool, primary and secondary school children under the general supervision of a Dentist.
411411-A	Enrolled Nurse	<p>Enrolled nurses, under the direction and supervision of registered nurses, assist with the provision of acute, preventative, curative and rehabilitative nursing care in hospitals, aged-care facilities, the community and other healthcare settings.</p> <p>Enrolled nurses may perform the following tasks:</p> <p>assist with initial and ongoing health assessments and the maintenance of patients' health; observe, measure and record patients' conditions (their temperature, pulse, respiration, blood pressure and blood sugar levels, for example); report changes in patients' conditions; attend to patients' hygiene and comfort by assisting with bathing, showering, dressing and bed-making; assist patients with meals when required; assist patients with rehabilitation exercises and programmes; assist in the care of wounds; assist in emergency situations; assist in providing education on health and lifestyle issues; maintain a safe environment for patients and assist with the prevention of injuries.</p>
411411-B	Assistant in Nursing	An Assistant in Nursing is an employee who works under the direction and supervision of a Registered Nurse, assisting in the performance of nursing duties.
411511-C	Aboriginal Health Practitioner	The role provides direct clinical services to the Aboriginal community and holds a Certificate IV Aboriginal Primary Health Care (Practice) qualification.
411511-D	Principal Aboriginal Health Worker	This role provides relevant graduate tertiary level clinical / professional services to the Aboriginal community.
411511-E	Aboriginal Community Health Worker	This role provides better access, liaison, health promotion and preventative health services to the Aboriginal community.
411511-F	Aboriginal Hospital Liaison Officer	This non-clinical role provides advocacy, support and liaison within an acute care health setting, eg. hospitals and multipurpose services.
423111-1	Home Support Worker	A home support worker provides in-home assistance and care for people unable to care for themselves

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		and/or their families because of sickness, disability or old age. They may provide in-home support with health issues and daily living tasks such as washing, dressing, eating, transport and budgeting. They may cook and serve meals, clean premises, wash, iron and perform other household tasks
423111-3	Personal Care Worker	<p>Personal care workers provide care, supervision and support for children, disabled and aged people in residential establishments, clinics, hospitals and nursing homes.</p> <p>Personal care workers may perform the following tasks:</p> <ul style="list-style-type: none"> assist people with self-medication; implement care programmes for those in residential establishments; provide in-home support with health issues and daily living tasks such as washing, dressing, eating, transport and budgeting; assist with the delivery of activities to enhance the physical, social, emotional and intellectual development of those in residential care; ensure those in residential care are washed, dressed, fed and ready for educational and recreational activities; assist those in residential care during domestic activities such as eating meals and showering; provide companionship and support during daily activities for those who are sick or aged; cook and serve meals, clean premises, wash, iron and perform other household tasks; organise refuge accommodation; implement appropriate strategies for managing problems related to dementia; work with a team of health professionals, family, friends and carers to implement a programme of support.
423111-4	Aged or Disabled Care Worker	<p>An Aged Care Worker offers support to assist aged people with the maintenance of personal care, domestic duties and management of problems related to dementia. They also provide companionship and emotional support, and promote independence and community participation.</p> <p>A Disabled Care Worker provides direct support to people with disability in the home, at work and in social situations. They also work with other health professionals to maximise the individual's physical and mental wellbeing.</p>
423211-1	Dental Chairsides Assistant	A non-nurse assistant that prepares patients for dental examination and assists Dental Practitioners, Hygienists and Therapists in providing care and treatment.
423211-2	Dental Nurse	A qualified nurse that prepares patients for dental examination and assists Dental Practitioners, Hygienists and Therapists in providing care and treatment.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Service Event Provider: Individual Provider Discipline Specialty Local Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_PROVIDER].[ISP_DISC_SPEC_LOCAL_CODE]		
Data Element ID:	13968	Version:	1.0
Definition:	The clinical field of practice of the individual service provider involved with the service event.as allocated by the local source system.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 40
Representation Layout:	X{40}		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	<p>An individual service provider's discipline / speciality code should be recorded for all health professionals reported for the service event.</p> <p>Where an Individual Service Provider is working in a position with duties or roles that do not match their specific qualification, they are to be classified to the discipline that reflects the duties and role of the position to which they have been appointed at the time of the service event. For example, if a person who is qualified as a Registered Nurse is appointed to the position/role of counsellor, his/her discipline should be classified as 'counsellor', not a nurse. Trainee staff operating under the supervision of a qualified practitioner are to be coded to the discipline of the Individual Service Provider supervising them.</p>
Scope:	
Justification:	
Supporting Information:	

Domain			
Domain name:	Individual Service Provider Discipline / Specialty Code (EDW)		
Domain ID:	10801	Version:	1.0
Domain definition:	<p>A classification of disciplines and specialties for individual health service providers.</p> <p>This classification is based on the Australian and New Zealand Standard Classification of Occupations (ANZSCO), First Edition Revision 1, 2009.</p> <p>This subset reflects fields of practice, disciplines, and clinical specialisations within the NSW Health system. See the full ANZCO classification publication (attached to version 1.0 of this domain in HIRD) for further details regarding the classification and other definitions.</p>		

From version 1.3 onwards, this codeset reflects NEHTA Healthcare Provider Identifiers for Individual Providers. In terms of the ANZSCO codeset, the four character codes represent occupation, the six character codes are specialties (or 'fields of practice'), and the lowest level codes represent specialisations within a field of practice.

Where specialties required for reporting are not defined by ANZSCO, and alphabetical character will be used in place of a numeral, e.g. '253913-A' (Gynaecologist).

Version 1.1 of this Domain retained only the 4 and 6 character level codes, i.e. only those used to classify Discipline Specialty Codes. 'NFD' ('Not further defined') was added to the 4 character codes.

In Version 1.2, certain codes have been broken down into specialties, when required for reporting purposes. These lower level codes are delimited with a single alphabetical character, e.g. '252311' (Dental Specialist, nfd) now contains '252311A' (Oral and Maxillofacial Surgeon).

In Version 1.4, ANZSCO First Edition 2006 is updated to First Edition Revision 1 2009, keeping the NEHTA augmentations and amendments in place.

NB. the NEHTA codeset is currently in draft (as at August 2010). Note that the DISC_SPEC_CODES are being updated from 7 to 10 characters in length.

Source: ANZSCO 2009, with NEHTA 'Healthcare Provider Classification for the HI Services' Position Paper, Version 1.00, 17 March 2010, Final

Domain value set

Code	Descriptive label	Definition
134211	Medical Administrator, not further defined	Medical Administrators administer or manage a health service, utilising the medical and clinical knowledge, skill, and judgement of a registered medical practitioner. This may include administering or managing a hospital or other health service, or developing health operational policy, or planning or purchasing health services.
134212	Nursing Clinical Director	Nursing clinical directors oversee the planning, organisation, direction and coordination of the clinical nursing services in a hospital, aged care or other healthcare facility or service.
134213	Primary Health Organisation Manager	Plans, organises, directs, controls and coordinates a primary health organisation that provides a broad range of out-of-hospital health services.
134214	Welfare Centre Manager	A welfare centre manager plans, organises, directs, controls and coordinates a centre, program or project concerned with social welfare support.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
134299	Health and Welfare Services Managers, not elsewhere classified	This occupation group covers health and welfare managers not elsewhere classified.
231111	Aeroplane Pilot	A professional who flies aeroplanes to transport passengers, mail and freight, or provide agricultural, aerial surveillance or other aviation services.
231114	Helicopter Pilot	A professional who flies helicopters to transport passengers, mail or freight, or provide agricultural, aviation or aerial surveillance services.
233913	Biomedical Engineer, not further defined	An engineering professional that applies knowledge and methodology of physics, engineering, mathematics, computing, physical chemistry and materials science to problems in biology and the treatment and prevention of human disease.
234511	Life Scientist (General)	Studies the origin, anatomy, physiology, reproduction and behaviour of living organisms and the ways in which they interact with the environment in which they live.
234513	Biochemist	Biochemists study the chemical processes in living organisms, including DNA, heredity and cell development. They work to understand how certain chemical reactions happen in tissues and record the effects of medicines. The aim of a biochemist is to improve our quality of life by understanding living organisms at the molecular level. This can include running laboratory experiments to develop effective medicines or going out in the field to collect cell samples from animals and plants in order to understand how genetic traits are carried.
234514	Biotechnologist	Biotechnologists use biological organisms to create and improve products and processes in fields such as agriculture, environmental conservation and medicine. They study the genetic, chemical and physical attributes of cells, tissues and organisms, and identify industrial uses for this knowledge. The applications of biotechnology are widespread and include developing new medicines and vaccinations, cross-breeding plants and animals to encourage beneficial characteristics, and using bacteria and enzymes in areas such as food production and waste treatment. Some biotechnologists may also work with cutting edge and potentially controversial technologies such as genetic modification and stem cell research.
234517	Microbiologist	Microbiologists study microscopic forms of life such as bacteria, viruses, protozoa, algae and fungi to increase scientific knowledge and develop medical, veterinary, industrial, environmental and other practical applications.
		Microbiologists may perform the following tasks:

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
234599	Life Scientists, not further defined	<p>develop products, such as antibiotics, detergents or cosmetics, that either combat diseases caused by pathogenic microorganisms or harness the positive capabilities of microorganisms;</p> <p>test samples from patients, isolating and identifying the microbes that cause illness, examining their susceptibility to antibiotics and giving advice about appropriate treatment prevent and control the spread of harmful microbes in hospitals, the food industry and the general population;</p> <p>advise the government about public health policies</p> <p>examine natural products for their ability to inhibit the growth of dangerous microbes and apply their findings to the medical and food industries;</p> <p>investigate the potential of microbes to improve human and animal health through nutrition develop and improve fermented drinks and foods, such as beer, wine, cheese and yoghurt;</p> <p>research the microbiology of plants and use microbes to control pests, weeds and animal disease;</p> <p>study DNA and the use of bacteria to introduce specially engineered genes into an organism in order to fight disease or to change a specific feature of the organism;</p> <p>use their knowledge of microbiology to minimise the environmental impact of production and clean up existing pollution;</p> <p>investigate the ways in which microorganisms can be used to improve and enhance products that impact on quality of life, such as food and beverages.</p> <p>Life scientists include anatomists, neuroscientists, parasitologists, and toxicologists.</p> <p>Life scientists examine the anatomy, physiology and biochemistry of humans, animals, plants and other living organisms to better understand how living organisms function and interact with each other and the environment.</p> <p>A life scientist may perform the following tasks:</p> <p>study the genetic, chemical, physical and structural composition of cells, tissues and organisms;</p> <p>identify cellular and developmental events that ensure continuity of life;</p> <p>determine the influence of internal and external environments on processes in animals (including humans), plants and other organisms;</p> <p>study organisms in controlled environments to gain an understanding of their survival and growth in real environments;</p> <p>examine the way mixed communities and ecosystems function in relation to their environment and the different organisms found in them;</p> <p>predict the way humans and other influences will affect the structure and interactions in natural ecosystems apply their knowledge and findings from research to maximise the long-term economic, social,</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>environmental and recreational return from living resources;</p> <p>write scientific reports on research, investigations and more general information for scientific, managerial, political and general audiences;</p> <p>provide advice to managers, politicians, primary producers, health care workers and the general public.</p>
234611	Medical Laboratory Scientist, not further defined	<p>Medical Laboratory Scientists conduct medical laboratory tests to assist in the diagnosis, treatment and prevention of disease.</p> <p>Tasks Include:</p> <p>preparing tissue sections for microscopic examination;</p> <p>examining and analysing samples to study the effects of microbial infections;</p> <p>analysing samples of body tissue and fluids to develop techniques to aid in the diagnosis and treatment of diseases;</p> <p>advising Medical Practitioners on the interpretation of tests and methods for use in the diagnosis and treatment of disease;</p> <p>setting up the steps and rules of laboratory medical testing;</p> <p>operating and maintaining laboratory equipment;</p> <p>maintaining laboratory quality assurance and safety standards;</p> <p>preparing scientific papers and reports</p>
234914	Medical Physicist	<p>Medical Physicists apply knowledge and methodology of science of physics to all aspects of medicine, to conduct research, develop or improve theories and address problems related to diagnosis, treatment, and rehabilitation of human disease. They are directly involved with patients and people with disabilities.</p>
234915	Exercise Physiologist	<p>An Accredited Exercise Physiologist (AEP) is an allied health professional specialising in evidence based clinical exercise interventions for persons at high risk of developing or with existing chronic and complex medical conditions and injuries. AEP deliver clinical services to both acute and subacute patients across the full range of admitted and non-admitted care settings, and qualify for provider status through Medicare Australia, the Department of Veterans Affairs and most Private Health Insurers and compensation schemes (including WorkCover NSW). AEP are recognised as meeting national standards of clinical and professional qualification and competency. Exercise and Sports Science Australia (ESSA) provides the national accreditation program for AEPs.</p> <p>Interventions are designed for chronic disease and injury prevention, management and rehabilitation. They typically include screening and stratification, individualised clinical exercise testing and prescription, health and physical activity education, advice, support and lifestyle modification with a strong</p>

Code	Descriptive label	Definition
		<p>focus on achieving behavioural change.</p> <p>Interventions may be individual or group based (or a combination of both), and are appropriate for people of all ages with a variety of health conditions including (but not limited to) mental health, cardiac, respiratory, metabolic, neurological (such as stroke, traumatic brain injury, spinal cord dysfunction and others), musculoskeletal, orthopaedic, cancer, osteoporosis, osteoarthritis, risk of falls, pain, amputation, major trauma, chronic kidney disease, and reconditioning/restoration of optimal physical function, health and wellness.</p> <p>Examples of services provided by accredited exercise physiologists are: - Screening and risk stratifying to ensure the safety and appropriateness of exercise and physical activity interventions; - Assessing *movement* capacity in people of all ages and levels of health, well-being or fitness; - Development of safe, effective individualised exercise interventions; - Provision of health education, advice and support to enhance health and well-being; - Provision of physical activity advice and clinical exercise prescription, for those at high-risk of developing, or with existing chronic health conditions; and - Provision of rehabilitation and advice for patients following the acute stage of injury, surgical intervention, or during recovery to restore functional capacity and well-being.</p> <p>The above tasks may occur at any level of primary, secondary or tertiary health care, and may include employment or volunteer work at an individual, community or population health level through various employers or industries.</p>
251111	Dietitian	<p>Applies the science of human nutrition to help people understand the relationship between food and health and make appropriate dietary choices to attain and maintain health, and to prevent and treat illness and disease.</p> <p>Dietitians may perform the following tasks:</p> <p>collect, organise and assess data relating to the health and nutritional status of individuals, groups and communities;</p> <p>interpret and communicate scientific information, advice, education and professional opinion to individuals, groups and communities;</p> <p>manage nutrition care for individuals by planning appropriate diets and menus;</p> <p>educate people about their individual nutritional needs and methods of accessing and preparing their food;</p> <p>manage food service systems to provide safe and nutritious food by designing nutritionally appropriate menus and implementing nutrition policies;</p> <p>plan, evaluate and implement nutrition programmes with individuals, groups or communities as part of a team (this may be in a community health, public</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		health or food industry setting); conduct food-related and nutrition-related research and evaluate practice.
251112	Nutritionist	A person who helps people form healthy eating habits to improve health and prevent disease. They may provide nutritional counselling, meal planning, and nutrition education programs. Nutritionists may also look at how the environment affects the quality and safety of food and how it may affect health.
251200	Medical Imaging Professionals, not further defined	Medical imaging professionals operate X-ray and other radiation producing and imaging equipment for diagnostic, monitoring and treatment purposes under the direction of Radiologists and other Medical Practitioners.
251211	Medical Diagnostic Radiographer, not further defined	<p>Medical imaging technologists operate X-ray and other imaging equipment, such as Magnetic Resonance Imaging (MRI) and Ultrasound, to produce radiographic images that are used in the diagnosis and subsequent management of disease or injury.</p> <p>Medical imaging technologists may perform the following tasks:</p> <p>receive and interpret requests from medical practitioners for X-ray examinations to be performed on patients; determine the appropriate imaging techniques to provide doctors with diagnostic information; calculate details of procedures (such as length and intensity of exposure to radiation) and settings of recording equipment; explain procedures to patients and address any concerns they have about radiation processes; ensure patients undergo the correct preparation for the procedure; correctly position the patient and imaging equipment to obtain the best image of the area being examined; ensure the patient's welfare during the examination, particularly their exposure to radiation; develop the X-ray films; inspect images to determine if any further views are necessary; operate special equipment such as fluoroscopy equipment (which gives a moving image of the part being examined), angiography equipment (which gives images of blood vessels) and computed tomography (CT) equipment (which gives cross-sectional images of the body).</p>
251212	Medical Radiation Therapist	Operates high energy X-ray and other radiation and electron generating and monitoring equipment to administer radiation treatment for medical purposes in conjunction with Radiologists or other specialist Medical Practitioners.
251213	Nuclear Medicine Technologist	<p>Nuclear medicine technologists use radioactive materials to diagnose physiological changes and treat diseases.</p> <p>Nuclear medicine technologists may perform the</p>

Code	Descriptive label	Definition
		<p>following tasks:</p> <p>maintain and operate equipment such as gamma cameras and computing systems to acquire images and process and analyse patient data; prepare and administer radiopharmaceuticals as tracers to demonstrate the function of organs in the body; explain procedures to patients and enquire about previous diagnostic studies and medication, making sure they receive the correct preparation for the procedure; check the patient's medical status and make sure that the patient's comfort, privacy and safety needs during the procedure are met; deliver findings of procedures to medical practitioners; provide treatment for cancer patients; perform laboratory procedures, including blood and specimen collection and quality control testing; make sure that radioactive materials are handled, stored and disposed of in a safe manner; perform routine quality control and testing procedures on instrumentation, radiopharmaceuticals, data, images and computing systems; initiate and participate in research programmes and in the development of new techniques supervise students.</p> <p>With experience and sometimes further training, nuclear medicine technologists may specialise in computer programming, bone mineral densitometry, or scanning techniques such as positron emission tomography (PET) and ultrasound.</p> <p>Nuclear medicine technologists work as part of a team with other health professionals and medical staff.</p>
251214	Sonographer, not further defined	Operates ultrasound equipment to acquire, interpret and selectively record anatomical images, physical data and real-time physiological information for medical diagnostic purposes in conjunction with other Medical Practitioners.
251311	Environmental Health Officer, not further defined	<p>Environmental health officers assess risk and develop, regulate, enforce and monitor laws and regulations governing public health for both the built and natural environment, in order to promote good human health and environmental practices.</p> <p>Environmental health officers may perform the following tasks:</p> <p>investigate complaints about food safety and ensure shops, restaurants and food processors; follow health regulations; monitor and control water, air and noise pollution and collect water samples for analysis initiate and conduct environmental health impact or risk assessments; design and conduct health education programmes or</p>

Code	Descriptive label	Definition
		<p>public information campaigns; prepare policy documents and guidelines relating to environmental health matters; manage immunisation campaigns; manage programmes to control disease-causing pests such as mosquitoes; investigate and manage public health incidents such as disease outbreaks; manage programmes to control public health and environmental issues associated with major public events; respond to disasters and emergency situations where public health is at risk; assess building development applications and inspect houses and public buildings to ensure they comply with environmental or health and safety standards; inspect and license premises that may present infectious disease risks to the community, such as tattoo parlours and acupuncturists, where skin penetration and body piercing occurs, and inspect hairdressing and beauty salons; maintain records, prepare statistics, write reports and give evidence in court cases where health or environmental regulations have been violated.</p> <p>Environmental health officers may specialise in the areas of air, food and water quality; disease vector control (mosquito control, for example); waste management; environmental protection; health education; and noise control.</p> <p>Environmental health officers are also involved in consultation, evaluation, managerial and health promotion activities.</p>
251312	Occupational Health and Safety Adviser, not further defined	<p>Occupational health and safety advisors coordinate health and safety systems in an organisation. They identify hazards, assess risks to health and safety, put appropriate safety controls in place and provide advice about accident prevention and occupational health to management and employees.</p> <p>Occupational health and safety advisors may perform the following tasks:</p> <p>promote occupational health and safety within an organisation and develop safer and healthier ways of working; inspect workplaces and workplace equipment, such as scaffolding, to ensure they meet safety regulations and to identify hazards and risks; ensure that workplaces conform with organisational procedures and safety standards; work with engineers and other professionals to ensure the safety of worksites and work practices; make sure that personal protective equipment, such as hearing protection, dust masks, safety glasses, footwear and safety helmets, is being used in workplaces according to regulations;</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>make sure that dangerous materials are correctly stored;</p> <p>identify and test work areas for potential accident and health hazards, such as toxic fumes and explosive gas-air mixtures, and implement appropriate control measures;</p> <p>make sure that an organisation is aware of, and complies with, all legislation relating to its duty of care, workplace activities and the use of its plant, equipment and substances record and report hazards, accidents, injuries and health issues within the workplace;</p> <p>assist with the investigation of accidents and unsafe working conditions, study possible causes and recommend remedial action;</p> <p>conduct training sessions for management, supervisors and workers on health and safety practices and legislation;</p> <p>assist with the rehabilitation of workers after accidents or injuries and make sure they experience a satisfactory return to work;</p> <p>coordinate emergency procedures, mine rescues, firefighting and first aid crews;</p> <p>communicate frequently with management to report on the status of occupational health and safety programmes;</p> <p>develop occupational health and safety systems, including policies, procedures and manuals.</p>
251411	Optometrist	<p>Optometrists perform eye examinations to determine the presence of vision problems and other eye conditions and disease. They treat or manage these problems by prescribing glasses, contact lenses, optical aids, vision therapy, medication (in the form of eye drops) or referral to an eye surgeon when required.</p> <p>Optometrists may perform the following tasks:</p> <p>determine the nature and extent of vision and eye problems and disease by examining patients' eyes using specialised instruments, techniques and tests;</p> <p>correct vision defects by prescribing and dispensing glasses or contact lenses, special optical aids or vision therapy;</p> <p>examine patients for signs of eye disease and systemic conditions, including glaucoma, diabetes, high blood pressure and multiple sclerosis, and work with medical practitioners and eye surgeons to co-manage patients when required;</p> <p>manage some eye conditions by prescribing ocular therapeutic drugs;</p> <p>monitor patients' vision and ocular health with the use of imaging techniques such as digital retinal photography and computerised vision tests;</p> <p>conduct eye screening and testing for the purposes of determining occupational fitness or fitness to drive;</p> <p>undertake managerial, retail and administrative tasks.</p>
251412	Orthoptist	<p>Orthoptists detect, diagnose and treat disorders of the eye and associated eye movement and vision</p>

Code	Descriptive label	Definition
		<p>problems.</p> <p>Orthoptists may perform the following tasks:</p> <p>measure and assess vision and prescribe glasses when appropriate; investigate, monitor and assist with treating eye disorders such as glaucoma, cataracts, diabetic eye disease and age-related macular degeneration; measure and select intraocular (within the eye) lenses for cataract surgery; detect and manage eye movement disorders, such as strabismus (turned eye) and amblyopia (lazy eye), and their sensory consequences; conduct specialised diagnostic and imaging techniques, such as ultrasonography and topography, to determine the effects and progression of eye disease; assess and provide management strategies for people with neurological disorders; devise strategies for rehabilitating impaired vision and design therapy programmes to maximise an individual's remaining vision; provide reports on the existence of eye defects to practitioners, therapists and relevant authorities, such as transport authorities; provide educational information to patients, families and members of the community about eye conditions and their effects; assist the community by providing vision screening tests and promoting preventative eye health care.</p> <p>Specialisations:</p> <p>Orthoptists may specialise in:</p> <p>ophthalmic eye care, which involves treatment of general eye diseases such as glaucoma, cataracts, diabetic eye disease and age-related macular degeneration; neuro-ophthalmology, which involves the treatment of neurologically based eye disorders caused by stroke and head injury; eye movement disorders and paediatric eye care, which involves the treatment of conditions such as strabismus, amblyopia and double vision; vision rehabilitation, which involves maximising remaining sight in people with low vision using rehabilitation strategies and magnification aids education or research.</p> <p>Orthoptists often work with ophthalmologists, medical practitioners and other allied health professionals.</p>
251511	Hospital Pharmacist	<p>A hospital pharmacist operates as part of a healthcare team and is involved in monitoring medication usage, counselling patients, providing drug information and advice to health professionals and the community, conducting clinical trials and preparing products for patient use. They usually have</p>

		organs. They are highly trained specialists who provide a range of non-surgical health care to adult patients. They care for difficult, serious or unusual medical problems and continue to see the patient until these problems have resolved or stabilised.
253312	Cardiologist	Investigates, diagnoses and treats diseases of the human heart.
253313	Clinical Haematologist	Investigates and diagnoses blood and other genetic disorders by studying cellular composition of blood and blood-producing tissues.
253314	Medical Oncologist	Manages and treats patients with cancer and tumours.
253315	Endocrinologist	Investigates, diagnoses and treats disorders of the human glandular and hormonal systems.
253316	Gastroenterologist	Investigates, diagnoses and treats diseases and disorders of the human liver, stomach and associated organs.
253317	Intensive Care Specialist	Investigates, diagnoses and treats patients in need of intensive and critical care.
253318	Neurologist	Investigates, diagnoses and treats diseases and injuries of the human brain, spinal cord, nervous system and muscle tissue.
253321	Paediatrician	Investigates, diagnoses and treats internal diseases and disorders in children from birth up to, and including, adolescence.
253322	Renal Medicine Specialist	Investigates, diagnoses and treats disorders of the human kidney.
253323	Rheumatologist	Investigates, diagnoses and treats diseases, injuries and deficiencies of human joints, muscles and soft tissue.
253324	Thoracic Medicine Specialist, not further defined	Investigates, diagnoses and treats diseases and disorders of the human respiratory system.
253399	Specialist Physicians, not elsewhere classified	This occupation group covers Internal Medicine Specialists not elsewhere classified.
253411	Psychiatrist, not further defined	A medical doctor that diagnoses, assesses, treats and prevents human mental, emotional and behavioural disorders.
253511	Surgeon (General)	Performs surgery to correct diseases and disorders covering a broad range of medical conditions.
253512	Cardiothoracic Surgeon	Cardiothoracic surgeons perform heart and lung surgery. Tasks Include: - examining patients to determine the necessity of operations, estimating and explaining risks to patients, and selecting the best operational procedures - reviewing reports on patients' general physical condition, reactions to medications and medical histories - consulting with Anaesthetists regarding the correct anaesthesia for patients - performing surgical operations - examining instruments, equipment, and surgical set-up to ensure that antiseptic and aseptic methods have been followed - instructing other medical, nursing and associated staff regarding the preparation of patients and instrument and equipment requirements -

		prescribing post-operative care, and observing and investigating patients' progress - maintaining records of operations performed - may specialise in particular types of operations
253513	Neurosurgeon	Performs surgery to correct disorders of the brain, spine and nervous system.
253514	Orthopaedic Surgeon	Performs surgery to treat muscular and skeletal diseases and injuries.
253515	Otorhinolaryngologist (Ear, Nose Throat), not further defined	A physician who specialises in the diagnosis and treatment of disorders of the ear, nose and throat.
253516	Paediatric Surgeon	Provides surgical care and treatment to children from birth up to, and including, adolescence.
253517	Plastic Reconstructive Surgeon	Performs surgery to repair and reconstruct muscle and tissue injuries and congenital deformities.
253518	Urologist	Provides medical and surgical treatment to patients with disorders of the kidney, urinary bladder and urethra, and treats disorders of the male sex organs.
253521	Vascular Surgeon	Performs surgery to treat patients with conditions affecting their arteries and veins.
253599	Surgeon, not elsewhere classified	This occupation group covers surgeons not elsewhere classified.
253911	Dermatologist	Provides diagnostic, treatment and preventative medical services related to disorders of the human skin.
253912	Emergency Medicine Specialist	Provides diagnostic medical services, and manages patients with acute and urgent illness and injury.
253913	Obstetrician Gynaecologist, not further defined	A specialist who provides diagnostic, treatment and preventative medical and surgical services related to the care of women, fetuses and children during pregnancy and childbirth, and to disorders of the female genital, urinary, rectal and reproductive organs.
253914	Ophthalmologist	Provides diagnostic, treatment and preventative medical services related to diseases, injuries and deficiencies of the human eye and associated structures.
253915	Pathologist, not further defined	A pathologist uses laboratory procedures to identify and diagnose the presence and stages of diseases and possible sources of infection in body tissues, fluids, secretions and other specimens.
253917	Diagnostic Interventional Radiologist, not further defined	<p>Diagnostic and interventional radiologists provide diagnostic and treatment medical services, and monitor patients with various diseases utilising imaging techniques such as general radiography, angiography, fluoroscopy, mammography, ultrasound, computed tomography, magnetic resonance imaging, nuclear medicine and bone densitometry. The images are interpreted to aid in the diagnosis of disease.</p> <p>Interventional radiologists treat as well as diagnose disease using imaging equipment. Interventional radiologists may sub-specialise further so that they only treat abnormalities of the brain or spinal cord (neurointervention) or of the blood vessels elsewhere in the body (angiointervention) Interventional radiology is a minimally invasive procedures using X-</p>

Code	Descriptive label	Definition
253918	Radiation Oncologist	<p data-bbox="773 262 1410 378">ray, magnetic or ultrasound images to guide the procedures, usually done with tiny instruments and thin plastic tubes called catheters inserted through an artery or vein.</p> <p data-bbox="773 390 1410 727">A radiation oncologist is a medical specialist who has specific postgraduate training in management of patients with cancer, in particular, involving the use of radiation therapy (also called radiotherapy) as one aspect of their cancer treatment. They also have expertise in the treatment of non-malignant conditions with radiation therapy. Radiation oncologists work closely with other medical specialists, especially surgeons, medical oncologists and palliative care physicians, as part of a multidisciplinary team caring for patients with cancer.</p> <p data-bbox="773 757 1410 1280">Most patients have a diagnosis of cancer prior to referral to a radiation oncologist. The radiation oncologist is responsible for assessing the patient by clinical evaluation, and organising imaging and other tests, in order to establish a management plan for an individual. Often, this is done in conjunction with other members of the team (both medical and non-medical). Radiation oncologists are an integral part of the initial and ongoing management process, and have an important role in communicating with patients, their family members and other carers in relation to all aspects of the management of the patient's disease and overall care. In particular, they are the experts managing the detail of the radiation therapy component of treatment. They work closely with medical physicists and radiation therapists to plan and deliver effective radiation treatment.</p> <p data-bbox="773 1310 1410 1803">Radiation oncologists have overall responsibility for determining and prescribing the most suitable dose of radiation (from high energy X-rays, electron beams or gamma rays) to deliver in a particular case, and the method and technique by which this will be achieved. They have skills and knowledge that enable the many relevant clinical, biological and pathological factors to be merged into an individual recommendation regarding a course of radiation treatment. The application of their clinical and technical expertise aims at optimising the benefit of radiation therapy for their patients, whether the goal be cure of cancer or alleviation of symptoms e.g. pain. Consideration of the patient's social situation, their beliefs and wishes, and the impact of any treatments on quality of life of a person is a critical part of decision-making.</p> <p data-bbox="773 1833 1410 2073">Many radiation oncologists work in hospital cancer departments or in larger cancer treatment centres. Many also do clinical research, asking their patients if they wish to enter clinical trials and some also do laboratory research. Most radiation oncologists are also involved with teaching – both medical students and especially trainees training on-the-job in the specialty.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253999	Medical Practitioners, not elsewhere classified	This occupation group covers Medical Practitioners not elsewhere classified.
254200	Nurse Educators Researchers, not further defined	Nurse Educators and Researchers provide clinical and theoretical education to and promote professional development of nurses and midwives, and conduct research into nursing practice.
254211	Nurse Educator	Designs, plans, implements and evaluates the delivery of nursing education and staff development programs, and manages educational resources.
254212	Nurse Researcher, not further defined	<p>Nurse researchers are scientists who study various aspects of health, illness, and health care. By designing and implementing scientific studies, they look for ways to improve health, healthcare services, and healthcare outcomes.</p> <p>Nurse researchers identify research questions, design and conduct scientific studies, collect and analyse data, and report their findings. They often rely on grants to fund their work, which requires writing grant proposals and meeting certain reporting requirements. Many teach in academic or clinical settings, and often write articles and research reports for nursing, medical, and other professional journals and publications.</p> <p>Nurse researchers may begin their research careers in positions such as research assistant, clinical data coordinator, and clinical research monitor. The title of principle investigator reflects the most senior research role and greatest responsibility and accountability associated with a research study. Studies conducted by these dedicated researchers are uncovering such things as new and better ways to:</p> <p>Deliver healthcare services more effectively and efficiently Improve quality of life for patients suffering from chronic illnesses Encourage patients to make healthy choices about nutrition, fitness, and lifestyle Assure patient safety and prevent injury and illness Provide care and comfort to patients at the end of life</p> <p>Nurse researchers often partner with scientists in other fields, such as pharmacy, nutrition, medicine, and engineering, to better address complex questions and problems.</p> <p>The results of nursing research help build the knowledge base and provide the evidence to guide interventions by nurses and other health care workers. For example, nursing research is improving prenatal care, patient recovery after heart transplant, and pain management for cancer and other patients.</p>
254311	Nurse Manager	A nurse responsible for a unit in a hospital, nursing home, or ambulatory care setting. The nurse manager supervises staff performance and patient care.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
254411	Nurse Practitioner	Provides advanced and extended nursing care to patients, such as ordering diagnostic tests, undertaking diagnosis and health assessments, prescribing patient care management, medicines and therapies, as authorised in relevant nursing legislation, and referring to specialist Medical Practitioners and other Health Professionals in a range of health, welfare and community settings.
254412	Registered Nurse - Aged Care	Provides nursing care to the elderly in community settings, residential aged care facilities, retirement villages and health care facilities. Also known as Gerontology.
254413	Registered Nurse - Child Family Health	Provides nursing care to children from birth to school age and their families with an emphasis on the prevention, early detection of, and early intervention in, physical, emotional and social problems affecting children and their families such as assistance with parentcraft, immunisation and developmental milestones.
254414	Registered Nurse - Community Health, not further defined	Provides nursing care, health counselling, screening and education to individuals, families and groups in the wider community with a focus on patient independence and health promotion.
254415	Registered Nurse - Critical Care Emergency, not further defined	Provides nursing care to critically ill patients and patients with unstable health following injury, surgery or during the acute phase of diseases, integrating new technological equipment into care in settings such as high dependency units, intensive care units, emergency departments or retrieval services.
254416	Registered Nurse - Developmental Disability	Provides nursing care to people with intellectual and development disabilities in a range of health, welfare and community settings.
254417	Registered Nurse - Disability Rehabilitation	Provides nursing care to patients recovering from injury and illness, and assists and facilitates patients with disabilities to live more independently.
254418	Registered Nurse - Medical	Provides nursing care to patients with conditions, such as infections, metabolic disorders and degenerative conditions, which require medical intervention in a range of health, aged care and community settings.
254421	Registered Nurse - Medical Practice	Provides clinical care to patients, undertakes clinical organisation and practice administration, and facilitates communication within a general practice environment and between the practice and outside organisations and individuals.
254422	Registered Nurse - Mental Health, not further defined	Provides nursing care to patients with mental health illness, disorder and dysfunction, and those experiencing emotional difficulties, distress and crisis in health, welfare and aged care facilities, correctional services and the community.
254423	Registered Nurse - Perioperative, not further defined	Provides nursing care to patients before, during and immediately after surgery, assesses patients' condition, plans nursing care for surgical intervention, maintains a safe and comfortable environment, assists Surgeons and Anaesthetists during surgery, and monitors patients' recovery from anaesthetic, prior to return to, or discharge from, ward.

		and cooling systems, gas appliances, water tanks, water heaters and solar water heating systems, and fixtures such as toilets, wash basins and industrial processing units weld and braise pipework (steel, copper, plastic and stainless steel) system testing and commissioning maintain and repair plumbing systems.
341111	Electrician (General)	<p>Electricians install, maintain, repair, test and commission electrical and electronic equipment and systems for industrial, commercial and domestic purposes. Electricians may also work on electrical transmission and distribution equipment.</p> <p>Electricians may perform the following tasks:</p> <p>read electrical, architectural and mechanical diagrams, drawings or specifications to determine job requirements; plan the layout of wiring systems; test for, locate and repair electrical malfunctions; install electrical and electronic control systems and insulated cables; install electrical equipment such as storage heaters, water heaters, electrical signs, switchboards and motors; assemble electrical and electronic components and appliances; connect electrical equipment to power supplies; connect switches, outlets and other fittings; connect circuit breakers; maintain automated production processes.</p>
341112	Electrician (Special Class)	An electrician that services and repairs intricate and complex electrical or electronic circuitry.
341113	Lift Mechanic	<p>Lift mechanics assemble, install, adjust, maintain and repair electric and hydraulic freight and passenger lifts and escalators.</p> <p>Lift mechanics may perform the following tasks:</p> <p>study drawings and lay out the position of steelwork, guide rails, motors, pumps and cylinders; install lift guide rails and check that they are correctly aligned; install cables, counterweights, pumps, motor foundations, escalator drives, lift cars, doors, entrance frames and safety and control devices; connect electrical wiring to control panels and electric motors; test and adjust assemblies, including cables, wiring and electric controls, and adjust safety devices such as brakes and speed governors; carry out regular maintenance programmes on lifts and escalators; use laptop computers in the field for tuning and diagnostic work in fault finding; find the causes of faults in motors, brakes, switches and electrical and electronic control systems; repair hydraulic or mechanical brakes by adjusting or replacing valves, ratchets, seals and brake linings.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
362211	Gardener (General)	A gardener plants and cares for trees, lawns, shrubs and flower beds in areas around public and private institutions, city squares, parks and gardens, playing fields, golf courses and bowling greens, as well as private homes.
362212	Arborist	An arboriculture worker cares for and maintains trees in urban environments. The work may include tree climbing using ropes and a harness or operating from elevated platforms. Senior workers, sometimes called tree surgeons, provide specialist tree evaluation, assessment and treatment.
362213	Landscape Gardener	A landscape gardener designs and constructs garden landscapes or renovates existing gardens. They work in a variety of sites, including public and private parks and gardens, to create a landscape that is aesthetically pleasing as well as functional.
411111	Ambulance Officer	<p>Ambulance officers provide pre-hospital emergency care, treatment and specialised transport for patients.</p> <p>Ambulance officers may perform the following tasks:</p> <ul style="list-style-type: none"> drive ambulances to sites of medical emergencies and accidents that may require the administration of advanced life support; lift and place patients on stretchers, load the stretchers into ambulances and transport patients to hospital; assess and treat patients at the site and on the way to hospital; administer pain-relieving drugs and replace fluids, often by inserting tubes into veins; prepare patient care records and other written reports on the state of patients' injuries and the treatment provided; attend public gatherings, such as large sporting events, where accidents or other health emergencies may occur; provide routine transport for patients between home and hospital (for patients requiring further treatment or specialised treatment such as occupational therapy and chemotherapy, for example); perform daily vehicle and equipment checks, making sure that medical supplies (including drugs) are accounted for and that equipment and ambulances are in good working order.
411112	Intensive Care Ambulance Paramedic	An intensive care paramedic attends life-threatening emergencies such as heart attacks and car accidents, and gives intensive treatment to patients before arrival at hospital. They receive more training in the areas of anatomy, physiology, pathophysiology and pharmacology to increase their capacity to make complex clinical decisions without medical consultation.
411211	Dental Hygienist	<p>Carries out preventative dental procedures under the direction of a Dentist.</p> <p>Dental hygienists use preventive, educational and therapeutic methods for controlling oral diseases to help individual patients and groups achieve and</p>

Code	Descriptive label	Definition
		<p>maintain oral health.</p> <p>Dental hygienists may perform the following tasks:</p> <ul style="list-style-type: none"> •assess and record oral health conditions and plan treatments •educate, counsel and provide instruction for people of all ages, as well as other healthcare professionals, on oral health and hygiene, plaque control and nutrition •remove deposits and stains from teeth by scaling, root debridement and tooth polishing •identify and apply prevention strategies and control mechanisms for dental caries (decay) and periodontal (gum) disease •select and use appropriate fluoride treatments, and polish tooth restorations •apply professional tooth whitening agents •place temporary dental restorations •expose, process and interpret dental X-rays •take impressions of patients' mouths for the construction of study casts, mouthguards and orthodontic appliances •carry out orthodontic procedures that do not initiate tooth movement (such as band sizing and selection or bonding of fixed retainers) •apply and remove periodontal dressings and rubber dams •stabilise teeth affected by gum disease •select and administer pain control techniques, including local anaesthesia •remove dental sutures (stitches) •instruct patients on looking after their teeth and mouth after operations. <p>Dental hygienists may work in a team with other dental practitioners.</p>
411212	Dental Prosthetist	<p>A dental prosthetist works as an independent practitioner in public or private clinics to provide complete and partial dentures and mouthguards to the public, consulting directly with patients about their removable dental prosthetic needs.</p>
411213	Dental Technician	<p>Dental technicians construct and repair dentures (false teeth) and other dental appliances, including crowns, bridges and orthodontic appliances. Dental technicians work closely with dentists and dental prosthetists and usually have no direct contact with patients.</p> <p>They use a wide range of materials and techniques in their work, including plaster casting, electro-spot welding, metal casting, metal polishing, wax modelling, ceramics, wire bending, electroplating and sandblasting. The use of small CAD/CAM (computer-aided design/manufacturing) units is increasing in the design and manufacture of some dental products.</p> <p>Dental technicians may perform the following tasks:</p> <ul style="list-style-type: none"> - make models of the mouth and teeth from impressions of the patient's mouth (taken by the dental prosthetist, dentist, dental hygienist or dental therapist) - use models and moulds to make dental restorations such as inlays, onlays, veneers, crowns and bridges - polish and finish the appliance prior to placement in the patient's mouth - make appliances for patients with cleft palates, braces and plates for correcting irregular teeth - make mouthguards.

Code	Descriptive label	Definition
		<p>Dental technology may be divided into the following specialisation categories:</p> <ul style="list-style-type: none"> -General prostheses: the largest field in dental technology, in which partial or full dentures (metal and non-metal) are constructed to replace the partial or total loss of natural teeth. -Crown and bridge: used in the restoration of teeth and fixtures in the patient's mouth. -Maxillo-facial: prostheses are made to replace missing facial and body tissues due to injury, disease or developmental abnormality. -Orthodontics: the manufacture of fixed or removable appliances for the correction of dental irregularities in the mouths of patients.
411214	Dental Therapist / Oral Health Therapist, not further defined	Examines and treats diseases of the teeth in preschool, primary and secondary school children under the general supervision of a Dentist.
411311	Diversional Therapist	Plans, designs, coordinates and implements recreation and leisure-based activity programs to support, challenge and enhance the psychological, spiritual, social, emotional and physical wellbeing of individuals.
411412	Mothercraft Nurse	Provides care to newborn infants, and provides advice and training on infant care to parents of newborn infants.
411611	Massage Therapist	<p>Massage therapists assess and treat the soft tissue of the body for therapeutic purposes.</p> <p>Massage therapists may perform the following tasks:</p> <ul style="list-style-type: none"> - take a case history and assess the client's physical condition - massage the soft tissues of the human body, such as muscles, tendons and ligaments, to assist healing - assess and treat specific injuries and other soft tissue dysfunction, and provide rehabilitation advice - administer treatments to promote relaxation, improve blood circulation and relieve muscle tension - use a range of techniques to enhance sports performance and prevent injury - provide advice about stretching exercises and relaxation techniques. <p>Massage Therapists may specialise in one or more of the following techniques:</p> <ul style="list-style-type: none"> -Remedial Massage - assists in rehabilitation, pain and injury management. -Therapeutic or Relaxation Massage - promotes wellbeing, improves sleep and treats anxiety and tension. -Sports Massage - treats and prevents injuries, improves recovery and increases flexibility and endurance. -Structural Bodywork - addresses injuries and dysfunction caused by postural and biomechanical strain. -Oncology, Palliative Care and Geriatric Massage - supports the primary care of patients with chronic illnesses, such as cancer. -

		homes and commercial buildings. Note: This category is intended to be used for selected home and community care services.
821412	Home Improvement Installer	Home improvement installers put in place home improvements such as awnings, curtains, blinds, flyscreens, garage doors, exterior cladding, shower screens and prefabricated windows and doors. Note: This category is intended to be used for selected home and community care services.
821511	Paving and Surfacing Labourer	Paving and Surfacing Labourers prepare, pave and finish laying materials to pave surfaces such as roads, sidewalks, parking lots, runways, etc. They are required to perform physical labour and be outdoors for long periods of time. They should be able to work effectively while directing traffic and being aware of their surroundings. Duties and tasks: Adhere to safety standards and set up safety signs and structures for general public; Manoeuvre trucks and other paving machines to release materials onto surfaces; Manually spread asphalt mix and rake mix to ensure that entire surface is covered and evenly spread; Mix asphalt, lay tar and road oils to spread over surfaces to help bond bases with asphalt and smooth out surface to prepare for base; Prepare surfaces prior to paving them by sweeping and clearing ground; Repair damaged road surfaces using a variety of hand and power tools Note: This category is intended to be used for selected home and community care services.
899311	Handyperson	Handypersons repair and maintain their clients' homes or other workplaces, such as residential buildings, schools, offices, holiday camps, or caravan parks and associated grounds. Handypersons may perform the following tasks: clear gutters; repair broken fixtures or fittings; apply paint and plaster; fit, maintain or repair irrigation systems; replace light bulbs repair or replace ceiling or exhaust fans and filters; clean smoke detectors; erect shelving units or other built-in furniture; undertake gardening duties such as weeding, digging, planting and pruning. Note: This category is intended to be used for selected home and community care services.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
0988-88	Inadequately Described	A provider discipline or specialty which has not been adequately described so as to be classified to any other provider discipline or specialty.
0988-88-B	Other Allied Health Specialist	An allied health speciality that is not separately identified in the set of disciplines or specialties.
0988-88-C	Allied Health Service Assistant	<p>Allied Health Assistants generally hold, or in the process of completing, a Certificate IV in Allied Health Assistance (or recognised equivalent qualifications). They work directly with allied health professionals such as physiotherapists, occupational therapists and speech therapists in providing clients with therapy and support to improve their quality of life.</p> <p>Assistants play an important role in the rehabilitation of clients/patients and promotion of optimal health outcomes. They work under the supervision and direction of the allied health professional and undertake only those tasks directly allocated and only those tasks the allied health professional determines they are competent to perform. Allied health assistants do not make clinical assessment or clinical judgment in this role; however they recognise changes in patient/client function and status and the possible impact on the planned program.</p> <p>The work undertaken by Allied health assistants varies by the allied health speciality but in all cases includes: - direct client related activities under the supervision of the delegating allied health professional and in accordance with NSW Health and LHD policies and procedures, to achieve patient/client outcomes. - clinical support tasks under the supervision of the delegating Allied health professional.</p> <p>Examples of the types of services allied health assistants provide include: - working with individuals or groups doing routine physiotherapy or hydrotherapy exercises - helping implement general care to assist with ongoing therapy - working with patients in recreational and leisure activities - supporting the training of disabled persons in self-care and daily living activities.</p>
0988-88-E	Non-Clinical Service Provider, not elsewhere classified	A health service provider that does not have a clinical specialty, and is not separately identified in the set of disciplines or specialties.
0988-88-J	Self Administered Home Based Clinical Care	A default value to be used for patients who are self-administering their own clinical care at home.
0999-10	Student	A person who is studying at a university or other place of higher education in order to enter a particular profession.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
134211-1	Director of Clinical Services	An executive officer who directs the operations, programs, and activities in clinical area. They plan, direct, and coordinate patient care activities to maintain standards of patient care, and advise medical staff in matters related to clinical services.
134211-2	Director of Medical Services	A physician who is usually employed by a hospital to serve in a medical and administrative capacity as head of the organised medical staff. He or she also may serve as liaison for the medical staff with the hospital's administration and governing board
134212-1	Assistant Director of Nursing	A registered nurse who oversees and manages the work and services provided by the nursing staff.
134212-2	Deputy Director of Nursing	The second most senior nurse in charge of nursing in a healthcare facility.
134212-3	Executive Director of Nursing	The senior nurse in charge of nursing in a healthcare facility.
134299-1	Director of Pharmacy	The director of pharmacy is responsible for the operation and management of the Pharmacy Department.
134299-2	Director of Physiotherapy Services	The director of physiotherapy is responsible for the operation and management of the Physiotherapy Department.
134299-3	Director of Speech Pathology	The director of speech pathology is responsible for the operation and management of the Speech Pathology Department.
134299-4	Manager of Allied Health Services	The senior allied health profession in charge of all allied health professionals in a healthcare facility.
233913-1	Bioengineer	Bioengineers use engineering principles to help solve medical problems. Bioengineers interact with a variety of medical professionals — biologists, physicians, biochemists, therapists and physiologists — to design, develop and manufacture instruments and devices, or to develop procedures to remedy clinical problems. Common medical advancements attributed to bioengineering include prosthetic limbs, miniature cardiac devices, dialysis machines and therapeutic equipment.
233913-2	Clinical Engineer	Clinical engineering is a specialty within Biomedical engineering responsible primarily for applying and implementing medical technology to optimise healthcare delivery. Roles of clinical engineers include training and supervising biomedical equipment technicians (BMETs), working with governmental regulators on

Code	Descriptive label	Definition
		hospital inspections/audits, and serving as technological consultants for other hospital staff (e.g. physicians, administrators and I.T). Clinical engineers also advise medical device producers regarding prospective design improvements based on clinical experiences, as well as monitor the progression of state-of-the-art devices in order to redirect hospital procurement patterns accordingly.
233913-3	Medical Engineer	Medical engineers work with doctors and medical scientists to design, manufacture and maintain medical equipment to improve health care and medical services. The discipline applies engineering and scientific methods to find solutions to problems in medicine and the life sciences.
234599-1	Parasitologist	A clinician who specialises in the study of the biology of parasites and parasitic diseases, including the distribution, biochemistry, physiology, molecular biology, ecology, evolution and clinical aspects of parasites, including the host response to these agents.
234599-2	Pharmacologist (non-clinical)	A person who carries out initial research and testing of drugs, often on animals, in a laboratory, before they are ready for clinical trials.
234599-3	Toxicologist	Toxicologists study the harmful effects of chemical, physical and biological agents on living organisms by detecting and examining the symptoms, mechanisms and treatments of poisoning (especially the poisoning of people). They also determine safe or acceptable levels of exposure to particular agents.
234599-A	Neuroanatomist	A specialist in the branch of anatomy dealing with the nervous system.
234611-1	Hospital Scientist	A type of medical laboratory scientist who conducts medical laboratory tests to assist in the diagnosis, treatment and prevention of disease
234611-2	Medical Scientific Officer	A type of medical laboratory scientist who conducts medical laboratory tests to assist in the diagnosis, treatment and prevention of disease
234611-A	Embryologist (IVF)	A specialist in the prenatal development of gametes (sex cells), fertilization, and development of embryos and fetuses.
251211-1	Medical Resonance Technologist	Operates X-ray and other medical imaging equipment to produce images for medical diagnostic purposes in conjunction with Diagnostic and Interventional Radiologists or other Medical Practitioners
251214-1	Obstetric and Gynaecological Ultrasound Specialist	Obstetrical and Gynaecological Ultrasound (OGU) subspecialists are specialists in Obstetrics and Gynaecology, awarded the FRANZCOG, who are trained and assessed as being competent all aspects of ultrasound diagnosis relating to obstetrics and gynaecology, including ultrasound guided interventional diagnostic and therapeutic techniques.
251311-1	Food safety auditor	Food safety auditors provide advice to local governments about accreditation of food safety programs, conduct audits of accredited food safety programs, prepare audit reports, and provide a copy

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		of these reports to the local government and the holder of the accredited food safety program.
251311-2	Food safety officer	An authorised officer tasked with ensuring that all persons working in the food industry meet their obligations under the relevant legislation, and that all food products sold and consumed are correctly labelled and safe.
251312-1	Occupational Hygienist	An occupational/industrial hygienist identifies and investigates problems of occupational/industrial hygiene (chemical and biological hazards) in the workplace and alerts managers and professionals to possible health risks. They use scientific equipment to measure and control hazardous substances.
251312-2	Workplace Rehabilitation Officer	A health professional such as an occupational therapist, physiotherapist or psychologist who has expertise in addressing the physical, psychological and/or workplace barriers that may prevent an injured worker returning to work.
251513-1	Retail Pharmacist / Community Pharmacist	Retail or community pharmacists provide general healthcare advice and supply prescription and non-prescription medication to the public. A retail pharmacist works in a retail setting rather than in a hospital or GP surgery. Retail or community pharmacists are responsible for dispensing and controlling both prescription and non-prescription medicine. They also advise customers on general healthcare.
251513-2	Consultant Pharmacist	A consultant pharmacist is a pharmacist who works as a consultant providing expert advice on the use of medications or on the provision of pharmacy services to medical institutions, medical practices and individual patients.
251911-1	Asthma Educator	An asthma educator is an expert in teaching, educating, and counselling individuals with asthma and their families in the knowledge and skills necessary to minimize the impact of asthma on their quality of life.
251911-2	Childbirth Educator	A health professional that possesses professional sources of information, with skills to support for parents as they prepare for pregnancy, labour, birth, and parenthood.
251911-3	Diabetes Educator	A health professional that possesses comprehensive knowledge of and experience in diabetes prevention, prediabetes, and diabetes management. They educate, support, and advocate for people affected by diabetes, addressing the stages of diabetes throughout the lifespan. They promote self-management to achieve individualised behavioural and treatment goals that reduce risks and optimize health outcomes.
252299-A	Play Therapist	Play therapy refers to a method of psychotherapy with children in which a therapist uses a child's fantasies and the symbolic meanings of his or her play as a medium for understanding and communication with

		<p>recording patients' medical information</p> <ul style="list-style-type: none"> - ordering laboratory tests, X-rays and other diagnostic procedures, and interpreting findings to assist in diagnosis - providing overall care for patients, and prescribing and administering treatments, medications and other remedial measures - monitoring patients' progress and response to treatment - advising on diet, exercise and other habits which aid prevention and treatment of disease and disorders - referring patients to, and exchanging medical information with, specialist Medical Practitioners - reporting births, deaths and notifiable diseases to government authorities - arranging the admission of patients to hospitals
253111-2	General Practitioner w Women's Health Obstetrics Sub-specialisation	A GP who provides women's health and obstetrics services normally in a hospital theatre, maternity setting or other appropriately equipped facilities, that in urban areas are typically the province of a specific referral based specialty.
253111-3	General Practitioner w Anaesthetics Sub-specialisation	A GP who provides anaesthetic services normally in a hospital theatre, which in urban areas are typically the province of a specific referral based specialty.
253111-4	Proceduralist General Practitioner	A GP who provides non-referred services normally in a hospital theatre, maternity setting or other appropriately equipped facilities, that in urban areas are typically the province of a specific referral based specialty.
253111-5	General Practitioner w Surgery Sub-specialisation	A GP who provides surgical services normally in a hospital theatre, which in urban areas are typically the province of a specific referral based specialty.
253111-6	General Practitioner w Skin Cancer Sub-specialisation	A GP who provides skin cancer services normally in a hospital theatre or other appropriately equipped facilities, that in urban areas are typically the province of a specific referral based specialty.
253112-9	Career Medical Officer / Senior Medical Officer	Career Medical Officer means a Medical Officer who is employed and/or appointed to a position not being that of a medical officer in training in a hospital who may be required to undertake such duties and at such places as directed within such hospital. Medical Officer means a person licensed or registered by the Medical Board of New South Wales pursuant to the Medical Practice Act 1992 employed in a position covered by this Award.
253112-A	Medical Intern	<p>Australian and New Zealand medical school graduates must apply for provisional registration in order to undertake a period of approved intern training to become eligible for general registration.</p> <p>Interns are only permitted to work in accredited intern positions. They are not permitted to undertake any clinical work outside their allocated intern position.</p> <p>All terms must be accredited against approved accreditation standards by an authority approved by the Board. These authorities are commonly known as postgraduate medical councils.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253112-B	Resident Medical Officer	<p>After successful completion of intern training, provisional registrants can apply for general registration.</p> <p>Resident Medical Officers diagnose and treat physical and mental illnesses, disorders and injuries, recommend preventative action and refer patients to specialist Medical Practitioners, other health care workers, and social, welfare and support workers under the supervision of medical specialists or senior general practitioners.</p> <p>Tasks Include: - conducting examinations and questioning patients to determine the nature of disorders and illnesses, and recording patients' medical information - ordering laboratory tests, X-rays and other diagnostic procedures, and interpreting findings to assist in diagnosis - providing overall care for patients, and prescribing and administering treatments, medications and other remedial measures - monitoring patients' progress and response to treatment - advising on diet, exercise and other habits which aid prevention and treatment of disease and disorders - referring patients to, and exchanging medical information with, specialist Medical Practitioners - reporting births, deaths and notifiable diseases to government authorities - arranging the admission of patients to hospitals.</p> <p>Occupations in this unit group have a level of skill commensurate with a bachelor degree or higher qualification and at least one year of hospital-based training (ANZSCO Skill Level 1). Registration or licensing is required.</p> <p>In general, most doctors spend two to three years practicing as a Resident Medical Officer (RMO) in a hospital before commencing specialist training. Others may choose to continue practicing as an RMO for a longer period before deciding on the field in which they would like to specialise. Some may continue working as an RMO for the entirety of their medical careers, often because they enjoy the diversity that residency offers.</p>
253112-C	Registrar (Medical / Surgical)	<p>A registrar is a qualified doctor who has commenced specialist training through a Medical College (such as the Royal Australasian College of Surgeons), and who has completed the program to the level required for the college to refer to them a registrar.</p> <p>Most specialty training programs take between three and six years to complete. Some refer to the doctor as a registrar from commencement of the program, while others continue to refer to the doctor as a Resident Medical Officer until later in the program.</p> <p>The medical colleges also oversee and maintain professional standards for their areas of specialty, and as such the requirements of specialist training</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		programs vary between colleges.
		Those successful in completing the requirements of their college program become Fellows of that college and are then referred to as specialists. Specialists typically work in specialist private practice or as a staff specialist consultant in a hospital, or sometimes both.
		Once a doctor is a fellow, they must be re-classified to the provider type category that best represents their specialist field of practice.
		Note: This category includes registrars regardless of their speciality. This includes medical specialties, surgical specialties, and specialisation in anaesthetics.
253211-1	Anaesthetist - Intensive Care	Provides direct medical care to patients requiring general or local anaesthesia within an intensive care setting.
253211-2	Anaesthetist - Obstetrics	A sub-specialty of anaesthesiology that provides peripartum (time directly preceding, during or following childbirth) pain relief (analgesia) for labour and anaesthesia for caesarean deliveries.
253211-3	Pain Management Specialist	A pain management specialist is a physician with special training in evaluation, diagnosis, and treatment of all different types of pain. The pain medicine specialist serves both as a consultant to other physicians and often as the principal treating physician.
253211-4	Anaesthetist - Paediatrics	A subspecialty of anaesthesiology dealing with the anaesthesia of neonates, infants, special needs patients, and children up to 12 years of age.
253311-2	Specialist Rural Physician	A medical practitioner that has specialised in rural health needs.
253315-1	Diabetologist	A physician who specializes in the treatment of diabetes mellitus.
253321-1	Neonatologist	A neonatologist is responsible for the care of all newborn babies who need extra support shortly after birth. A neonatologist is responsible for liaising with obstetricians, providing antenatal and bereavement counselling to families, caring for babies on the neonatal unit during their acute stay, and following up babies in clinic after they have been discharged from the neonatal unit.
253321-10	Paediatric Gastroenterologist	Investigates, diagnoses and treats diseases and disorders of the human liver, stomach and associated organs of children from birth to early adolescence.
253321-11	Paediatric Intensive Care Specialist	An intensive care specialist diagnoses and provides intensive medical care for critically ill patients, often through the use of organ support systems of children from birth to early adolescence.
253321-12	Paediatric Medical Oncologist	An oncologist manages the care and treatment of patients diagnosed with cancer, and may further specialise in medical, radiation or surgical oncology of children from birth to early adolescence.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253321-13	Paediatric Neurologist	A paediatric neurologist studies and treats injuries and diseases affecting the brain, spinal cord, peripheral nervous system and muscle tissue of children from birth to early adolescence.
253321-14	Paediatric Palliative Care Specialist	Paediatric palliative care aims to provide the best quality of life for neonates, infants, children and adolescents faced with life threatening conditions.
253321-15	Paediatric Rehabilitation Specialist	Paediatric Rehabilitation specialists provide services to meet the complex rehabilitation needs of children and adolescents recovering from major injury, illness and elective procedures aimed at functional maximisation.
253321-16	Paediatric Renal Medicine Specialist / Nephrologist	<p>A paediatric nephrologist deals with the diagnosis, investigation and management of acute and chronic kidney disease, including the provision of dialysis and renal transplantation.</p> <p>Paediatric nephrologists have specialist competencies in the management of Acute Kidney Injury (peritoneal dialysis, haemodialysis and continuous venovenous haemodialysis/filtration) and Chronic Renal Failure (pre-dialysis, peritoneal dialysis, haemodialysis and transplantation). They are also trained to provide specialist health care services to children with congenital anomalies of the renal tract, nephrotic syndrome, glomerulonephritis, vasculitis, inherited and acquired forms of tubulopathy, urinary tract infection and vesicoureteric reflux, renal stone disease, inborn errors of metabolism and inherited nephropathies.</p> <p>Paediatric nephrologists work closely with many other sub-specialities including: Paediatric Urology Paediatric Intensive Care Paediatric Rheumatology Paediatric haematology/oncology Fetal Medicine and Neonatology Paediatric Radiology Histopathology Biochemistry.</p>
253321-17	Paediatric Rheumatologist	<p>Paediatric Rheumatologists are a sub-specialist paediatrician specifically trained in the management of diseases affecting the musculoskeletal system including the bones, joints, tendons and ligaments. Paediatric rheumatologists also provide specialised care of children with systemic inflammatory diseases.</p> <p>The following diseases are managed by paediatric rheumatologists: - Juvenile Idiopathic Arthritis (JIA) – also previously known as Juvenile Arthritis, Juvenile Rheumatoid Arthritis (JRA), Juvenile Chronic Arthritis (JCA), Still's Disease and Juvenile Akylosing Spondylitis (JAS) - Systemic Lupus Erythematosus (SLE) – also known as Lupus - Juvenile Dermatomyositis (JDM) - Juvenile Scleroderma (JSc) - Mixed Connective Tissue Disease (MCTD) - Sjogren's Syndrome - Uveitis – eye inflammation - Periodic Fever Syndromes such as Familial Mediterranean Fever (FMF), Periodic Fever with Aphous Stomatitis, Pharyngitis and Adenopathy (PFAPA), TNF-Receptor Associated Periodic Fever Syndrome (TRAPS), Hyper IgD Syndrome and</p>

		Cryopyrin Associated Periodic Syndromes (CAPS). - Inflammatory bone diseases such as Chronic Relapsing Multifocal Osteomyelitis (CRMO) - Hypermobility - Chronic musculoskeletal pain syndromes – Chronic Regional Pain Syndrome (CRPS), Reflex Sympathetic Dystrophy (RSD), Fibromyalgia (FM) - Mechanical joint pains of all sorts - Other rare inflammatory or musculoskeletal conditions.
253321-18	Paediatric Sexual Health Specialist	A sexual health physician is a doctor who specialises in the management of sexual problems in children from birth to early adolescence.
253321-19	Paediatric Thoracic Medicine Specialist / Respiratory Specialist / Sleep Specialist	Investigates, diagnoses and treats diseases and disorders of the human respiratory system, including sleep disorders and sleep-related conditions, of children from birth to early adolescence.
253321-2	Paediatric Addiction Medicine Specialist	An addiction medicine physician is a physician trained and certified to provide comprehensive care for addiction and substance related disorders, including the diagnosis, treatment and prevention of such health conditions, of children from birth to early adolescence.
253321-20	Community Child Health Specialist	<p>A physician who has an understanding of the complex interplay between physical, social and environmental factors and human biology affecting the growth and development of all young people.</p> <p>Practising community child health specialists use their skills in:</p> <ul style="list-style-type: none"> • clinical practice including the assessment and management of infants, children and young people with developmental, learning, behavioural and emotional problems, disabilities, obesity, victims and those at risk of child abuse and neglect, and those in out of home care • population child health encompassing needs assessment for child and adolescent populations, community diagnosis, screening and surveillance, infectious disease control, injury control, health program planning, evaluation, and research including the quantitative and qualitative measurement of health outcomes and wellbeing • effective health service provision and management, communication, team leadership, liaison and referral within and across disciplines and relevant government, non-government and private agencies • child and adolescent health promotion and advocacy through education, information provision, effective use of medicine and other preventive programs and advocacy
253321-21	General Paediatrics Specialist	General paediatrics is a broad based multidisciplinary specialty, which, on referral from primary care providers, provides expert diagnosis, treatment and care for infants, children and young people aged up to 19 years.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253321-22	Paediatric Emergency Medicine Specialist	Provides diagnostic medical services, and manages child patients from birth to early adolescence with acute and urgent illness and injury.
253321-23	Paediatric Nuclear Medicine Specialist	Medical specialists that use tracers, usually radiopharmaceuticals, for diagnosis and therapy, for children from birth to early adolescence.
253321-3	Paediatric Cardiologist	Investigates, diagnoses and treats diseases of the human heart of children from birth to early adolescence.
253321-4	Paediatric Clinical Geneticist	Clinical geneticists see referred children from birth to early adolescence for diagnosis, management, genetic testing and genetic counselling.
253321-5	Paediatric Clinical Pharmacologist / Paediatric Clinical Toxicologist	A clinical pharmacologist or clinical toxicologist who has specialised in the treatment of children and adolescents.
253321-6	Paediatric Endocrinologist	Investigates, diagnoses and treats diseases of the endocrine system of children from birth to early adolescence.
253321-7	Paediatric Haematologist	Investigates and diagnoses blood and other genetic disorders by studying cellular composition of blood and blood-producing tissues of children from birth to early adolescence.
253321-8	Paediatric Immunologist / Allergy Specialist	A specialist who has undergone general training in medicine, followed by postgraduate advanced training in clinical immunology and allergy, who investigates and treats children from birth to early adolescence.
253321-9	Paediatric Infectious Diseases Physician	An infection diseases specialist is a medical doctor who is qualified as an expert in the diagnosis and treatment of infectious diseases of children from birth to early adolescence.
253324-1	Respiratory Medicine Physician	A specialist under the title of Respiratory Medicine Physician who manages non-surgical care of serious respiratory ailments like pneumonia, tuberculosis and chest infections, as well as performs diagnostic tests like bronchoscopies.
253324-2	Thoracic Medicine Physician	A specialist under the title of Thoracic Medicine Physician who manages non-surgical care of serious respiratory ailments like pneumonia, tuberculosis and chest infections, as well as performs diagnostic tests like bronchoscopies.
253399-1	Clinical Allergist	A specialist who has undergone general training in medicine, followed by postgraduate advanced training in allergy.
253399-10	Sexual Health Physician	A sexual health physician manages the sexual health components of gynaecology, urology, dermatology, psychiatry, infectious diseases, cardiology and many other disciplines. They are trained in all aspects of sexual health ranging from sexually transmitted diseases and HIV, sexual assault, sexual dysfunction and medical sex therapy, fertility and reproductive medicine, genital dermatology, endocrinology and public health.
253399-11	Sleep Medicine Specialist	A sleep specialist is a medical doctor who has completed additional education and training in the field of sleep medicine. Sleep medicine focuses on sleep, sleep disorders, and sleep-related conditions.
		Sleep specialists are trained in the diagnosis,

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>management, treatment, and prevention of sleep disorders and sleep problems. They often work in sleep centres, also called sleep clinics and sleep labs (laboratories).</p> <p>Sleep medicine specialists diagnose and treat a number of sleep-related conditions, including excessive snoring, sleep apnoea (obstructive sleep apnoea; OSA), insomnia (inability to sleep or sleep well), narcolepsy (chronic, uncontrollable daytime sleepiness), and circadian rhythm disorders. Circadian rhythm sleep disorders, such as delayed sleep phase syndrome, jet lag, and shift work change, cause chronic (long term) or occasional disruptions in sleep patterns and may result in excessive sleepiness and/or difficulty sleeping.</p> <p>Sleep specialists also diagnose and treat parasomnias, which are abnormal conditions or events that occur during sleep.</p>
253399-12	Addiction Medicine Specialist	An addiction medicine physician is a physician trained and certified to provide comprehensive care for addiction and substance related disorders, including the diagnosis, treatment and prevention of such health conditions.
253399-2	Clinical Geneticist	Clinical Geneticists are physicians who have undergone speciality training in genetics after general professional training in Medicine or Paediatrics. Clinical geneticists see referred patients for diagnosis, management, genetic testing and genetic counselling.
253399-3	Clinical Immunologist	A specialist who has undergone general training in medicine, followed by postgraduate advanced training in clinical immunology.
253399-4	Clinical Pharmacologist	<p>Pharmacologists evaluate the origin, effects and mechanisms of drugs and develop them for human and animal use.</p> <p>Pharmacologists may perform the following tasks:</p> <p>discover, develop and evaluate substances for use in the treatment of disease;</p> <p>modify the chemical structure of an effective substance to eliminate undesirable side effects;</p> <p>devise and carry out experiments to determine how drug concentrations in the body change over time;</p> <p>test newly discovered or manufactured substances for their safety, characteristics and possible use as drugs;</p> <p>study what happens to a drug after it has been administered;</p> <p>investigate drugs for unwanted or dangerous side effects and if found establish why they occur;</p> <p>study other substances that affect living organisms, such as pollutants, poisons and insecticides;</p> <p>write scientific reports on research and investigations, as well as more general information for scientific, managerial, political and general audiences;</p> <p>provide policy and clinical advice to managers,</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		politicians, primary producers, healthcare workers and the general public.
253399-5	Geriatrician	A doctor specialising in the medical aspects of old age.
253399-6	Industrial Medicine Specialist	A doctor specialising in the study and practice of the health care of employees of large organisations, including measures to prevent accidents, industrial diseases, and stress in the workforce.
253399-7	Infectious Diseases Specialist	An infection diseases specialist is a medical doctor who is qualified as an expert in the diagnosis and treatment of infectious diseases. The special skills of the infectious diseases specialist are not confined to one organ system but include expertise in infections of any kind, whether they are of the sinuses, heart, brain, lungs, urinary tract, bowel, bones or pelvic organs. Infectious diseases specialists have extensive training in all kinds of infections, including those caused by bacteria, viruses, fungi and parasites. Along with this knowledge comes a particular insight into the use of antibiotics and their potential adverse effects. The infectious diseases specialist also has additional training and understanding in immunology (how the body fights infection), epidemiology (how infections spread), and infection control.
253399-8	Palliative Medicine Specialist	A doctor specialising in palliative medicine, involving the study and management of patients with active, progressive, far-advanced disease for whom the prognosis is limited and the focus of care is the quality of life.
253399-9	Rehabilitation Medicine Physician	A medical doctor who specialises in restoring optimal function to people with injuries to the muscles, bones, ligaments, or nervous system.
253411-1	Adolescent Psychiatrist	A physician who specialises in the diagnosis and the treatment of disorders of thinking, feeling and/or behaviour affecting adolescents.
253411-2	Child Adolescent Psychiatrist	The child and adolescent psychiatrist is a physician who specialises in the diagnosis and the treatment of disorders of thinking, feeling and/or behaviour affecting children, adolescents, and their families. The child and adolescent psychiatrist uses the knowledge of biological, psychological, and social factors in working with patients.
253411-3	Child Psychiatrist	A physician who specialises in the diagnosis and the treatment of disorders of thinking, feeling and/or behaviour affecting children.
253411-4	Forensic Psychiatrist	The medical discipline concerned with such matters as criminal intent and the capacity to form it; criminal evidence and the vulnerability of suspects; the investigation of possible wrongful convictions; confessions and how they are obtained; the psychopathology of sexual offenders; and the risks of schizophrenics in the community.
253411-5	Geriatric Psychiatrist	Geriatric Psychiatry, a psychiatric subspecialty, focuses on the assessment, diagnosis and treatment of complex mental disorders uniquely occurring in late life. Geriatric Psychiatrists focus on providing care for intensive-needs patients and their caregivers at the

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		end of the life cycle, a time when many complex physical and mental health issues coalesce.
253411-6	Medical Psychotherapist	Medical psychotherapists are trained psychiatrists (doctors who treat mental health problems) who have specialised in psychotherapy (psychological or talking treatments). This can include different therapies such as cognitive behaviour therapy, psychodynamic psychotherapy, and systemic (group or family) therapy.
253511-1	Breast Surgeon	Surgeons specialise in the management of disorders of the breast.
253511-2	Transplant Surgeon	A transplant surgeon is a surgeon who specialises in organ transplantation.
253511-3	Upper Gastrointestinal Surgeon / Hepato-Pancreato-Biliary Surgeon	A surgeon who has specialised in surgery of the upper gastrointestinal tract and the liver, pancreas, gallbladder and biliary tracts.
253511-4	Colorectal Surgeon	<p>A colorectal surgeon is a surgeon who specialises in the management of disorders of the small bowel, colon, rectum and anus. This includes both benign (non-cancerous) and malignant (cancerous) problems such as:</p> <ul style="list-style-type: none"> • Colorectal cancer and polyps • Inflammatory bowel disease including Crohn's disease and ulcerative colitis • Diverticular disease of the colon • Anorectal conditions including haemorrhoids, fissures, abscesses and fistulas • Pelvic floor disorders including bowel prolapse • Functional bowel problems such as constipation and incontinence <p>In particular colorectal surgeons have specifically trained in the diagnosis and treatment of rectal cancer. Rectal cancer treatment requires special investigations prior to surgery and specialised skills to remove the rectum. Colorectal surgeons have additional experience in this type of surgery.</p>
253511-5	Endocrine Surgeon	<p>Endocrine surgeons specialise in the management of disorders of the thyroid gland, parathyroid glands, adrenal glands and the endocrine pancreas.</p> <p>Endocrine surgery refers to operations on one or more of the endocrine glands. These glands secrete hormones into the bloodstream, and have an important influence over the functions of almost all cells in the body. Endocrine surgeons are surgeons with special expertise and training in operations on a number of the endocrine glands including the thyroid gland, the parathyroid glands, the adrenal glands, the endocrine pancreas, and some neuroendocrine glands. There are a number of other endocrine glands and these are treated by different surgeons. They include the pituitary gland in the brain, which secretes various stimulating hormones and which is treated by neurosurgeons, and the ovaries, which secrete sex hormones and which are treated by gynaecologists. Endocrine surgeons work closely with their medical colleagues (endocrinologists) who are often the doctors who will be responsible for both the initial</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		diagnosis and investigation of endocrine disorders. Endocrinologists may also be involved in long term follow up after endocrine surgery. Endocrine surgeons also work with nuclear medicine physicians, radiologists, pathologists, geneticists and anaesthetists, in order to provide the best care for their patients.
253511-6	Surgical Oncologist	A surgeon who has special training in performing biopsies and other surgical procedures in cancer patients.
253515-1	Laryngologist	A physician who specialises in the diagnosis and treatment of disorders of the larynx
253515-2	Otologist	A physician trained in the diagnosis and treatment of diseases and other disorders of the ear
253515-3	Rhinologist	A physician who specialises in the diagnosis and treatment of disorders of the nose.
253515-4	Head and neck surgeon	Performs surgery to correct diseases and disorders of the ear, nose and throat.
253913-1	Gynaecological Oncologist	A specialist in obstetrics and gynecology who by virtue of education and training is prepared to provide consultation on and comprehensive management of patients with gynecologic cancer and whose present activity includes the practice of gynecologic oncology in an institutional setting wherein all the effective forms of cancer therapy are available. Comprehensive management should include those diagnostic and therapeutic procedures necessary for the total care of the patient with gynecologic cancer or complications resulting therefrom.
253913-2	Reproductive Endocrinologist / Infertility Specialist	A Reproductive Endocrinologist is a fertility specialist that specializes in the following fields of study: Polycystic ovarian syndrome (PCOS) Endometriosis Hypothalamic pituitary dysfunction A congenital adrenal hyperplasia Tubal factor infertility Male factor infertility In vitro fertilization (IVF) Fertility preservation Congenital uterine anomalies Other disorders of the female reproductive tract
253913-3	Urogynaecologist	Urogynaecologists manage women with urinary incontinence and pelvic floor dysfunction
253913-4	Maternal-fetal Medicine Specialist	A physician who has advanced knowledge and training in medical, surgical, obstetrical, foetal, and genetic complications of pregnancy and their effects on both the woman and foetus.
253913-A	Gynaecologist	A physician who specializes in treating diseases of the female reproductive organs and providing well-woman health care that focuses primarily on the reproductive organs.
253913-B	Obstetrician	A physician with special training in how to care for pregnant women and deliver babies.
253915-1	Clinical Cytopathologist	A subspecialisation of a general anatomic pathologist who has undergone additional specialist training in a cytology laboratory.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
253915-2	Forensic Pathologist	A medical doctor who has completed training in anatomical pathology and has subsequently specialized in forensic pathology.
253915-3	General Anatomic Pathologist	This medical specialty involves the examination of surgical specimens removed from the body or sometimes the examination of the whole body (autopsy) to investigate and diagnose disease.
253915-4	Chemical Pathologist	Chemical pathologists are qualified doctors who combine practical laboratory and clinical skills. They use biochemical laboratory tests to diagnose disease and to manage patients. Chemical pathologists have a detailed understanding of biochemical processes and changes that occur in disease.
253915-5	Clinical Cytogeneticist	A geneticist who specializes in the cellular components associated with heredity.
253915-6	Molecular Geneticist	Molecular geneticists identify genes associated with specific functions, diseases, and disorders. They identify genetic mutations on a molecular level and establish genotypes to better understand the nature of genetic makeup.
253915-7	Immunopathologist	A specialist that that deals with immune responses associated with disease. It includes the study of the pathology of an organism, organ system, or disease with respect to the immune system, immunity, and immune responses.
253915-8	Medical Microbiologist	Specialists that study microbes, such as bacteria, viruses, fungi and parasites, which cause a human illness and their role in the disease.
253917-1	Diagnostic Radiologist	Diagnostic radiologists provide diagnostic and treatment medical services, and monitor patients with various diseases utilising imaging techniques such as general radiography, angiography, fluoroscopy, mammography, ultrasound, computed tomography, magnetic resonance imaging, nuclear medicine and bone densitometry. The images are interpreted to aid in the diagnosis of disease.
253917-2	Medical Imaging Specialist	Operates X-ray and other medical imaging equipment to produce images for medical diagnostic purposes in conjunction with Diagnostic and Interventional Radiologists or other Medical Practitioners. Registration or licensing is required.
253917-3	Nuclear Medicine Specialist	Medical specialists that use tracers, usually radiopharmaceuticals, for diagnosis and therapy.
253917-A	Dento-maxillofacial radiologist	A dentistry sub-specialist concerned with performance and interpretation of diagnostic imaging used for examining the craniofacial, dental and adjacent structures.
253999-1	Occupation Medicine Physician	Occupational Medicine Physicians are highly trained specialists who provide a wide range of services relating to the health of workers and employers. The specialty of Occupational Medicine focuses on the inter-relationships between workers, their workplaces and their work practices. The specialty encompasses prevention, treatment and rehabilitation. It deals with health issues of the individual worker, populations of workers, their interaction with their environment and the "health" of the employing organisation. Occupational Physicians consider medical issues

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		within the wider context of their psycho-social, industrial and motivational frameworks, and have a key role in communicating with employers, business and government.
253999-2	Public Health Physician	Public health physicians are primarily concerned with the health and care of populations. They provide medical diagnosis and patient care, conduct teaching and research and serve as program managers. Preventive medicine trained physicians work in primary care settings and managed care organisations, in public health and government agencies, in workplaces and in academia.
253999-3	Sports Physician	A medical practitioner concerned with the treatment of injuries resulting from athletic activities.
254111-B	Midwife (MBS eligible)	Provides care and advice to women during pregnancy, labour and childbirth, and postnatal care for women and babies in a range of settings such as the home, community, hospitals, clinics and health units. Midwives classified to this category are authorised to bill Medicare for their services.
254111-C	Midwife (MBS Ineligible)	Provides care and advice to women during pregnancy, labour and childbirth, and postnatal care for women and babies in a range of settings such as the home, community, hospitals, clinics and health units. Midwives classified to this category are those NOT authorised to bill Medicare for their services.
254414-1	Registered Nurse (Health Education Promotion)	Provides education to individuals, families and groups in the wider community with a focus on health promotion.
254414-2	Registered Nurse (Public Health)	A field of nursing that is concerned with the health needs of the community as a whole. Public health nurses may work with families in the home, in schools, at the workplace, in government agencies, and at major health facilities.
254414-3	Registered Nurse (School Nurse)	A specialised practice of professional nursing that advances the wellbeing, academic success, and life-long achievement of students. To that end, school nurses facilitate positive student responses to normal development; promote health and safety; intervene with actual and potential health problems; provide case management services; and actively collaborate with others to build student and family capacity for adaptation, self management, self advocacy, and learning.
254415-1	Registered Nurse (Acute Care)	Provides nursing care to critically ill patients and patients with unstable health following injury, surgery or during the acute phase of diseases.
254415-2	Registered Nurse (Emergency / Trauma)	Provides nursing care to critically ill patients in emergency departments or retrieval services.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
254415-3	Registered Nurse (High Dependency)	A registered nurse who has been certified as being able to provide specialist nursing care within a high dependency unit.
254415-4	Registered Nurse (Neonatal Intensive Care)	A registered nurse who has been certified as being able to provide specialist nursing care within a neonatal intensive care unit.
254415-5	Registered Nurse (Paediatric Intensive Care)	A registered nurse who has been certified as being able to provide specialist nursing care within a paediatric intensive care unit.
254417-1	Registered Nurse (Rehabilitation)	Rehabilitation nurses assist individuals with disability and/or chronic illness to attain and maintain maximum function. The rehabilitation nurse assists clients in adapting to an altered lifestyle, while providing a therapeutic environment for client's and their family's development. The rehabilitation nurse designs and implements treatment strategies that are based on scientific nursing theory related to self-care and that promote physical, psychosocial, and spiritual health. The rehabilitation nurse works in inpatient and outpatient settings that can be found in a range of acute to subacute rehabilitation facilities.
254422-1	Registered Nurse (Child Adolescent Mental Health)	Provides nursing care to patients with mental health illness, disorder and dysfunction, and those experiencing emotional difficulties, distress and crisis in health, welfare and aged care facilities, correctional services and the community, specialising in children and young adolescents.
254422-2	Registered Nurse (Drug Alcohol)	Provides nursing care to patients whose use of drugs and/or alcohol is sufficiently problematic that they require clinical intervention.
254422-3	Registered Nurse (Psychiatric Rehabilitation)	Provides nursing to patients that require restoration of community functioning and well-being in an individual diagnosed in mental health or mental or emotional disorder and who may be considered to have a psychiatric disability.
254422-4	Registered Nurse (Psychogeriatric Care)	A subspecialty of mental health nursing that focuses on older people's mental health.
254423-1	Registered Nurse (Anaesthetic)	A registered nurse who has completed additional training in anaesthesia and is qualified to serve as an anaesthetist under the supervision of a physician.
254423-2	Registered Nurse (Operating Room)	Provides nursing care to patients before, during and immediately after surgery, assesses patients' condition, plans nursing care for surgical intervention, maintains a safe and comfortable environment, assists Surgeons and Anaesthetists during surgery.
254423-3	Registered Nurse (Recovery)	A registered nurse who monitors patients' recovery from anaesthetic, prior to return to, or discharge from, ward.
254499-1	Registered Nurse (Defence Forces)	A registered nurse who has been employed by the Australian defence force.
254499-2	Registered Nurse (Infection Control)	A registered nurse who is assigned responsibility for surveillance and infection prevention, education, and control activities.
254499-4	Registered Nurse (Remote or Rural Area)	A registered nurse who has undertaken additional training and is able to provide a wider range of primary care and emergency services from rural health services.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
254499-5	Registered Nurse (Sexual Assault Nurse Examiner)	A registered nurse who has undertaken additional specialised training in forensic nursing to provide 24-hour-a-day, first-response medical care and crisis intervention to rape survivors in either hospitals or clinic settings.
272199-A	Genetic Counsellor	A health professional that advises patients or relatives at risk of an inherited disorder of the consequences and nature of the disorder, the probability of developing or transmitting it, and the options open to them in management and family planning.
272199-B	Sexual Assault Worker	A Sexual Assault Worker is a specialist clinician who provides evidence-based counselling and therapy to adult or child victims of sexual assault.
272311-1	Forensic psychologist	Forensic psychologists perform assessments, treatment, or consultations that revolve around clinical issues occurring in legal contexts.
272311-2	Health psychologist	Health psychologists study psychological and behavioural processes in health, illness, and healthcare. They are concerned with understanding how psychological, behavioural, and cultural factors contribute to physical health and illness.
272311-3	Clinical Neuropsychologist	A Clinical Neuropsychologist is a professional psychologist who applies principles of assessment and intervention based upon the scientific study of human behaviour as it relates to normal and abnormal functioning of the central nervous system.
272399-A	Community Psychologist	Community psychologists seek to understand the quality of life of individuals within groups, organisations and institutions, as well as communities and society. They study the individuals' contexts within communities and the wider society, and the relationships of the individual to communities and society.
272399-B	Counselling Psychologist	A professional specialist psychologist that focuses on facilitating personal and interpersonal functioning across the life span. The specialist pays particular attention to emotional, social, vocational, educational, health-related, developmental, and organizational concerns.
272399-C	Sport and exercise psychologist	Sport and exercise psychologists work in two principal areas: (a) helping athletes use psychological principles to achieve optimal mental health and to improve performance (performance enhancement) and (b) understanding how participation in sport, exercise and physical activity affects an individual's psychological development, health and well-being throughout the lifespan.
311299-A	Medical Technician (Clinical), not elsewhere classified	Clinical Medical Technicians have an appropriate certification and provide support to medical professionals in a variety of ways. They operate medical equipment in emergency rooms and operating theatres, perform and assist with laboratory tests, and at times may fill prescriptions in pharmacies. Duties and tasks: - Assisting in the diagnosing of disease by studying laboratory reports and samples - Operating and monitoring medical equipment under

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		the supervision of medical professionals - Performing laboratory test and analysing results - Preparing medications under the supervision of pharmacists - Recording heart, lung, and brain activity for the reference of the medical professional.
311299-B	Medical Technician (Non-Clinical), not elsewhere classified	Non-clinical Medical Technicians provide support to medical professionals in a variety of ways. They operate medical equipment in emergency rooms and operating theatres, perform and assist with laboratory tests, and at times may fill prescriptions in pharmacies. They do not have a clinical certification.
411214-A	Dental Therapist	Examines and treats diseases of the teeth in preschool, primary and secondary school children under the general supervision of a Dentist.
411214-B	Oral Health Therapist	Examines and treats diseases of the teeth in preschool, primary and secondary school children under the general supervision of a Dentist.
411411-A	Enrolled Nurse	<p>Enrolled nurses, under the direction and supervision of registered nurses, assist with the provision of acute, preventative, curative and rehabilitative nursing care in hospitals, aged-care facilities, the community and other healthcare settings.</p> <p>Enrolled nurses may perform the following tasks:</p> <ul style="list-style-type: none"> assist with initial and ongoing health assessments and the maintenance of patients' health; observe, measure and record patients' conditions (their temperature, pulse, respiration, blood pressure and blood sugar levels, for example); report changes in patients' conditions; attend to patients' hygiene and comfort by assisting with bathing, showering, dressing and bed-making; assist patients with meals when required; assist patients with rehabilitation exercises and programmes; assist in the care of wounds; assist in emergency situations; assist in providing education on health and lifestyle issues; maintain a safe environment for patients and assist with the prevention of injuries.
411411-B	Assistant in Nursing	An Assistant in Nursing is an employee who works under the direction and supervision of a Registered Nurse, assisting in the performance of nursing duties.
411511-C	Aboriginal Health Practitioner	The role provides direct clinical services to the Aboriginal community and holds a Certificate IV Aboriginal Primary Health Care (Practice) qualification.
411511-D	Principal Aboriginal Health Worker	This role provides relevant graduate tertiary level clinical / professional services to the Aboriginal community.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
411511-E	Aboriginal Community Health Worker	This role provides better access, liaison, health promotion and preventative health services to the Aboriginal community.
411511-F	Aboriginal Hospital Liaison Officer	This non-clinical role provides advocacy, support and liaison within an acute care health setting, eg. hospitals and multipurpose services.
423111-1	Home Support Worker	A home support worker provides in-home assistance and care for people unable to care for themselves and/or their families because of sickness, disability or old age. They may provide in-home support with health issues and daily living tasks such as washing, dressing, eating, transport and budgeting. They may cook and serve meals, clean premises, wash, iron and perform other household tasks
423111-3	Personal Care Worker	<p>Personal care workers provide care, supervision and support for children, disabled and aged people in residential establishments, clinics, hospitals and nursing homes.</p> <p>Personal care workers may perform the following tasks:</p> <ul style="list-style-type: none"> assist people with self-medication; implement care programmes for those in residential establishments; provide in-home support with health issues and daily living tasks such as washing, dressing, eating, transport and budgeting; assist with the delivery of activities to enhance the physical, social, emotional and intellectual development of those in residential care; ensure those in residential care are washed, dressed, fed and ready for educational and recreational activities; assist those in residential care during domestic activities such as eating meals and showering; provide companionship and support during daily activities for those who are sick or aged; cook and serve meals, clean premises, wash, iron and perform other household tasks; organise refuge accommodation; implement appropriate strategies for managing problems related to dementia; work with a team of health professionals, family, friends and carers to implement a programme of support.
423111-4	Aged or Disabled Care Worker	<p>An Aged Care Worker offers support to assist aged people with the maintenance of personal care, domestic duties and management of problems related to dementia. They also provide companionship and emotional support, and promote independence and community participation.</p> <p>A Disabled Care Worker provides direct support to people with disability in the home, at work and in social situations. They also work with other health professionals to maximise the individual's physical and mental wellbeing.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
423211-1	Dental Chairside Assistant	A non-nurse assistant that prepares patients for dental examination and assists Dental Practitioners, Hygienists and Therapists in providing care and treatment.
423211-2	Dental Nurse	A qualified nurse that prepares patients for dental examination and assists Dental Practitioners, Hygienists and Therapists in providing care and treatment.

Service Event Provider: Organisation Service Provider Local Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_PROVIDER].[OSP_LOCAL_ID]
Data Element ID:	12329 Version: 1.0
Definition:	The code allocated by the local source system to uniquely identify a health organisation or service unit.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 40
Representation Layout:	X{40}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	
	<p>The organisation service provider local identifier is an identifier set within the source system to uniquely identify the organisation service unit within the context of that source system instance / installation. These local identifiers need to be aliased with a state standard HERO organisation service provider identifier, which is reported is a separate field.</p> <p>The organisation service provider local identifier relates to:</p> <ol style="list-style-type: none"> 1. A health organisation, such as a hospital or residential care facility, for admitted patient activity reporting residential care reporting, 2. A non-admitted patient service unit for non-admitted patient activity reporting, and 3. An emergency department for emergency department presentation reporting.
Scope:	CONDITIONAL Mandatory where Service Provider Type Code is O - OSP
Justification:	The organisation service provider local identifier can be used to reconcile data back to the service unit in the source system. If the HERO organisation service provider identifier aliased is missing or incorrectly entered, the local source system identifier of the entity enables the entity that is missing the alias or has the incorrect alias to be identified and the oversight or error can then be corrected.

Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The Responsible Provider Flag is a mandatory field that must be reported for all Service Event Provider records irrespective of whether they are an Individual Service Provider or Organisation Service Provider record.</p> <p>Organisation Provider Records (Service Provider Type Code = "O")</p> <p>There must be one, and only one, SERVICE_EVENT_PROVIDER record with a "Service Provider Type Code" = "O" (Organisation) and a "Responsible Service Provider Flag" = 'Y' for each service event, irrespective of the Service Event Type.</p> <p>For services provided directly to the client (that is, the service has not been purchased under a contract), the "Responsible Service Provider Flag" must be reported as "Y".</p> <p>For services purchased / provided under contract, two SERVICE_EVENT_PROVIDER records with a "Service Provider Type Code" = "O" (Organisation) must be reported. The organisation entity that is purchasing / requesting the service to be provided must report a "Responsible Service Provider Flag" = "Y". The organisation entity that has been contracted to provide the service to the client must report a "Responsible Service Provider Flag" = "N".</p> <p>There may be only be one, or no, SERVICE_EVENT_PROVIDER record with a "Service Event Provider Type Code" = "O" (Organisation) and a "Responsible Service Provider Flag" = "N" for each service event, irrespective of the Service Event Type.</p> <p>Individual Service Provider (Service Provider Type Code = "I")</p>		

For non-admitted patient service events, there must be one and only one Service Event Provider record with a "Service Provider Type Code" = "I" (Individual) and a "Responsible Service Provider Flag" = "Y" for each service event. Where there are more than one individual service providers, the individual service provider who has over-arching / lead responsibility for the care must be reported with a "Responsible Service Provider Flag" = "Y" and the supporting individual service providers must be reported with a "Responsible Service Provider Flag" = "N". For example, if the both a surgeon and a nurse provide a service together at the same time, and the nurse is supporting the surgeon, report the surgeon with a "Responsible Service Provider Flag" = "Y" and the nurse with a "Responsible Service Provider Flag" = "N". Any additional individual service providers involved in the provision of the service to the client / patient must also be reported with a "Responsible Service Provider Flag" = "N".

For admitted patient and emergency department service events there must be at least one service event provider record with a "Service Provider Type Code" = "I" (Individual) and a "Responsible Service Provider Flag" = "Y" for each service event. For service events where the individual service provider with over-arching care or lead responsibility for the patient does not change during the service event there will be only one service event provider record with a "Service Provider Type Code" = "I" (Individual) and a "Responsible Service Provider Flag" = "Y". For service events where the individual service provider with over-arching care or lead responsibility for a patient transfers from one individual service provider to another during the service event, multiple Service Event Provider records with a "Responsible Service Provider Flag" = "Y" must be reported to reflect that transfer of over-arching care responsibility. As a set of records, based on the "Effective Start Date/time" and "Effective End Date/time", the records must be contiguous and cover the period from the Service Event Start Date/Time and Service Event End Date/Time.

For admitted patient service events the attending medical officer is to be reported as the individual service provider with a "Responsible Service Provider Flag" of "Y".

Scope:	All service events of any service event type.
Justification:	Required to identify service events that are the subject of a contract in order to facilitate analysis of health service unit expenditure compared to health services delivered.
Supporting Information:	

Domain	
Domain name:	Responsible Provider Flag (EDW)
Domain ID:	14270
Version:	1.0
Domain definition:	A flag indicating the service provider who / that is responsible for managing the patient's or client's health service.

Domain value set

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
N	Not the responsible service provider	In a collaborative care service event, the organisation provider in the role of service provider will NOT be the responsible service provider. For individual service providers for admitted patient service events individual service providers other than the attending medical officer will NOT be responsible individual service providers.
Y	Responsible service provider	In a single service provider service event, the service provider will be the responsible service provider. In a collaborative care service event, the organisation provider in the role of purchaser / requestor will be the responsible service provider. For individual service providers for admitted patient service events responsible service provider is the attending medical officer. For individual service providers for non-admitted patient and supplementary service events the responsible service provider is the individual who took primary responsibility for the service provided.

Service Event Provider: Collaborative / Contracted Care Role Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_PROVIDER].[COLLABORATIVE_CARE_ROLE_CODE]		
Data Element ID:	10914	Version:	1.0
Definition:	The role played by an Individual or Organisation Service Provider in the provision of a service event where two or more organisations are involved in the service provision either as a purchaser or provider.		
Status Allocation Date:			
Representation			
Data Type:	Alphanumeric		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 2
Representation Layout:	X(X)		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>If the patient received a collaborative care service for this admission (either a contract service, or a service partly provided by two public hospitals), report the facility that the collaborative care was with.</p> <p>For Contract Care: Facilities purchasing a contract service must report the Facility Code of the facility providing the service. Facilities providing a contract service must report the Facility Code of the facility purchasing the service.</p> <p>For A Service Partly Provided by Two Public Facilities: A public facility that sends a patient to another public facility for a same day service, must report the facility the patient has been transferred to. A public facility performing a same day service for a patient transferred from another public facility must report the facility from which the patient was transferred. Facilities providing an admitted patient service to a client registered as a resident in a Commonwealth Block Funded Residential Aged Care unit or facility, must report the facility in which the patient resides.</p> <p>Organisation Service Providers will fill roles such as responsible service unit and contracted service unit. Individual Service Providers play roles such as consultant specialist.</p> <p>Expect a null value for the Emergency Department stream.</p>		
Scope:	<p>This concept is relevant to primary health, community health, outpatient care and admitted patient care.</p> <p>Complete this data item for patients who are booked on the public hospital wait list where it is intended that part, or all, of the planned service will be provided by a private facility under contract. Reporting is a requirement at the time of booking. Also complete for patients / clients who receive part of their service in</p>		

	one public facility, and part of their service in another facility where the services provided by one of the facilities, is a same day service.
Justification:	<p>Collaborative care services need to be identified as they impact funding and expenditure. Service events provided under collaborative care arrangements may indicate that payment for the service is derived from a different source of funding than the majority of service events. Identification of service events that are funded by another responsible service provider under contract ensures the same service is not paid for twice.</p> <p>Collaborative care arrangements need to be identified in order to ensure the same service event is not double counted where both the purchaser and provider are required to report the activity.</p>

Supporting Information:

Domain	
Domain name:	Collaborative Care Role Code (EDW)
Domain ID:	10574 Version: 1.0
Domain definition:	The role played by an Individual or Organisation Service Provider in the provision of a service event where two or more organisations are involved in the service provision either as a purchaser or provider.

Domain value set

Code	Descriptive label	Definition
1	Contracting health service (purchaser)	The organisation or individual identifier reported is the purchaser in the contracted service relationship.
2	Contracted health service (provider)	The organisation or individual identifier reported is the service provider in the contracted service relationship.
3	Direct Health Service Provider	A direct service provided by a single health organisation, with no contract arrangement.

Service Event Provider: Effective Start DateTime (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_PROVIDER].[EFFECTIVE_START_DATETIME]
Data Element ID:	10451
Version:	1.0
Definition:	The date and time that the reported value begins to be a valid attribute, i.e. the datetime from which it applies.
Status Allocation Date:	
Representation	
Data Type:	DateTime
Form:	Date - Time
Field Size:	Minimum: 19 Maximum: 19
Representation Layout:	YYYYMMDD HHMMSS
Unit Of Measure:	
Additional Information:	YYYY-MM-DD HH:MM:SS
Collection and Usage Guide	
Guide for Use:	NB. Effective Dates are business attributes rather than automatically supplied by source systems. Active records may be distinguished by their Effective Dates. In the context of Data Mart Dimensions, Business dates (i.e. 'EFFECTIVE_...') are always provisioned as DATETIME, irrespective of whether they are DATE or DATETIME in the Core Storage layer. NB. this is applicable to Dimensions only.
Scope:	MANDATORY Mandatory for all Service Event Provider records
Justification:	In the Scheduling context, this is required for the calculation of waiting times, either at admission or at census date. This is the date when the priority category is changed to another category, or the date when the patient's status changes from ready for care to 'Not Ready For Care' (NRFC) (i.e. deferred or staged).

Service Event Provider: Organisation Service Provider Created Service Event Flag (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_PROVIDER].[OSP_CREATED_SERVICE_EVENT_FLAG]		
Data Element ID:	14617	Version:	1.0
Definition:	A flag indicating whether or not the organisation service provider reported is the organisation service provider that reported the service event.		
Status Allocation Date:			

Representation			
Data Type:	Char (Fixed Length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 1
Representation Layout:	A		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	Where the service event provider type code equals 'O' (for organisation), report a 'Y' on the service event provider record containing the OSP_ID of the organisation that created the service event record ID, else report 'N'. That is, set this flag to 'Y' where the reported service event is not part of collaborative care. See attached 'OSP_CREATED_SERVICE_EVENT_FLAG diagram.jpg' for an example.
Scope:	MANDATORY Mandatory for all Service Event Provider records
Justification:	
Supporting Information:	

Domain	
Domain name:	Organisation Service Provider Created Service Event Flag (EDW)
Domain ID:	14726
Version:	1.0
Domain definition:	A flag indicating whether or not the organisation service provider reported is the organisation service provider that reported the service event.

Domain value set

Code	Descriptive label	Definition
N	This organisation service provider did not create the service event record reported	
Y	This organisation service provider created the service event record reported	

Service Event Location

Data Object ID 142

Business context

This object holds information about the patient's physical location within the health campus from the service event start Datetime to the service event end Datetime. For Admitted Patient Service Events this object is intended to capture the bed movements of the patient.

Business rules for reporting

From the Service Event Start Datetime to the Service Event End Datetime, report a record for each bed movement of the patient.

- A single Service Event must have one or many Service Event Location records.
- Each Service Event Location record must contain the Health Service Location Source ID, the Health Service Campus Local ID, the Health Service Ward Local Id, and the Health Service Bed Local ID. The Health Service Bed Local ID field is the unique source system identifier of the bed. The Health Service Campus Local ID and Health Service Ward Local ID qualify the Health Service Bed Local ID and in combination these three fields must uniquely identify a bed within the source system and NSW Health. These must be populated in order to establish a join to the Health Service Bed reference / master data table, which describes the characteristics of the health service bed used to accommodate the patient during a service event.
- Any field that has a name "Local ID" should be sourced from a field in the source system that is stable and not able to be changed by end users.
- A Location Transfer Reason should be recorded, if available, for each bed movement.

Service Event Location: Health Service Campus / Centre Local Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	HEALTH_SERVICE_CAMPUS_LOCAL_ID
Data Element ID:	13980 Version: 1.0
Definition:	The local source system unique identifier assigned to the health care / hospital campus location.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 40
Representation Layout:	
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>The hospital campus local identifier is a stable source system identifier that can be sent / resent by the source system to the enterprise data warehouse to trigger a record insert, update or deletion. It must uniquely identify the hospital campus within NSW, and therefore may be represented by the hospital's main code.</p> <p>Hospital Campus Local Identifier is intended to be used in conjunction with Hospital Ward Local Identifier and Hospital Bed Local Identifier, to unique identify wards and beds within NSW health services.</p>
Scope:	Source systems (patient administration systems) used for reporting admitted patient service events, residential care services and emergency department service events.
Justification:	Used to uniquely identify hospital campus, wards and beds within NSW public health care facilities. Used as a primary key by EDWARD to determine inserts, updates and deletes.

Domain			
Domain name:	Health Service Location Transfer Reason Code (EDW)		
Domain ID:	14179	Version:	1.0
Domain definition:	The reason why a patient transferred from one health service location to another during an admitted patient or residential care encounter.		

Domain value set

Code	Descriptive label	Definition
01	New admission	The patient has moved into the bed at the start of the admission.
02	Service category / care type change	The patient has moved beds to a bed in a ward specialising in the care they require (e.g. transferred to bed in a rehabilitation or palliative care ward)
03	Patient's clinical status changed	The patient has moved beds to a bed providing a higher or lower level of care, such as moves between medical and surgical beds to beds in Intensive Care Unit, High Dependency Unit, Coronary Care Unit, Neonatal Intensive Care Unit, or Neonatal Special Care Nursery.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
04	Move to gender specific bed / room	The patient has moved from a mixed ward to a bed in a ward with patients of the same sex.
05	Attending / visiting medical officer request	The patient has moved beds on request of the attending or visiting medical officer, without any other specific reason being stated.
06	Patient required cardiac monitoring	The patient has moved beds because he / she requires cardiac monitoring in a specialised ward / bed set up for cardiac monitoring.
07	Patient clinical specialty requirement changed	
08	Patient requested bed transfer	The patient has moved beds because they have requested a transfer
09	Other patient needs	
10	Move to bed / ward appropriate to clinical need	
11	Move to bed appropriate to funding stream	
12	Patient requires isolation	The patient has moved beds because they have been identified as needing to be isolated from other patients.
13	Patient requires higher level care	Includes requirement for intensive care unit, coronary care unit, high dependency unit, neonatal intensive care unit, and neonatal special care nursery.
14	Patient no longer requires higher level care	Includes cessation of requirement for intensive care unit, coronary care unit, high dependency unit, neonatal intensive care unit, and neonatal special care nursery.
15	Bed management reasons	Patient moved beds because of bed management / access demands.
16	Patient requires telemetry	
17	Patient requires specialist nursing	
18	Care transferred from Ambulance Staff to Hospital Staff	
19	Patient died	
98	Other reason, not elsewhere classified	The reason for the bed movement was recorded but the reason is not covered by any other category in this classification.
99	Unknown reason	The reason for the bed movement was not recorded.

Domain value set

Code	Descriptive label	Definition
01	General - Mixed	A bed staffed 24 hours a day and designated by the facility for the accommodation of medical, surgical and/or obstetric patients of a non-specific age. Beds in this category are typically located in small and rural hospitals (such as Multi Purpose Services) where medical, surgical, and obstetric patients are accommodated in the same ward as standard practice.
02	Rehabilitation	A bed staffed 24 hours a day and designated by the facility for the accommodation of patients primarily requiring rehabilitation care.
03	Palliative	A bed staffed 24 hours a day and designated by the facility for the accommodation of patients primarily requiring palliative care.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
04	Psychiatric Acute	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who present with acute episodes of mental illness.
05	Psychiatric Rehabilitation	<p>A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients requiring care which has a primary focus on intervention to reduce functional impairments resulting from psychiatric disorders that limit the independence of patients.</p> <p>From 1 July 2007 this category includes Transitional Behavioural Assessment Intervention Service (T-BASIS) Units.</p> <p>Note: Beds in this category may be used for a mix of both day stay and overnight patients, but must be staffed for overnight patient care. Beds in this category may not be used for 'overflow patients'. Days spent in this type of bed are counted as "Days in a Designated Psychiatric Unit".</p>
06	Psychiatric Secure	<p>A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate of forensic patients (or other patients) requiring a higher level of care and containment than other mental health patients.</p> <p>Forensic patients are people with a mental disorder that has led them to commit criminal offences, or makes it likely that they will offend in the future if not adequately treated or contained.</p>
07	Drug and Alcohol	A bed staffed 24 hours a day that is officially recognised by NSW Health for the accommodation of patients requiring treatment for substance use/abuse on an admitted patient basis; excluding detoxification.
08	Brain Injury Rehabilitation	A bed staffed 24 hours a day and officially designated by NSW Health Department circular for the accommodation of admitted patients receiving care in a rehabilitation unit for a brain injury under the Brain Injury Rehabilitation Program.
12	Psychiatric Intensive Care	<p>A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients requiring a higher intensity of management than can be readily provided in a general acute psychiatric bed.</p> <p>These beds are staffed and designed for the accommodation of patients who:</p> <ul style="list-style-type: none"> • are severely disturbed and represent a high risk of being a danger to themselves, others or the environment • present with threatening or violent behaviours and cannot be safely managed in a less restrictive environment • require higher levels of nursing observation.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
13	Psychiatric Perinatal Acute Care	A bed staffed 24 hours 7 days, 365 days per year that is designated by the Mental Health Branch (MHB) to accommodate patients and their infants (0-12 months) who present with an acute episodes of mental illness. Beds in this category are at one end of the spectrum of state-wide mental health care for pregnant women and mothers with perinatal mental health problems, their infants and families. The purpose of joint mother–baby admission is to treat the mother’s psychiatric disorder; to facilitate and enhance mother–baby attachment; and to promote optimal child biopsychosocial development.
16	Neonate Special Care Nursery	A bed staffed 24 hours a day that is approved by the federal Government for the purpose of the provision of neonatal special care.
17	Emergency Department - Level 3 and Above	A bed, stretcher, trolley or chair in an area within the hospital staffed 24 hours a day and designated as an Emergency Department of Level 3 or above.
18	Mother Craft	A bed officially designated by the Department for accommodating patients receiving mothercraft services only.
20	Psychiatric Extended Care	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who require care over an indefinite period because they have a stable but severe level of functional impairment and an inability to function independently and thus require extensive care and support.
21	Neuro-Psychiatry	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who require neuro-psychiatric care. These beds are attended by specialists in Neurology or Neuropsychiatry.
22	Dual Diagnosis	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who require specialist care for co-existing mental health and substance use disorders.
25	Hospital in the Home - General	A “virtual” bed established on the patient administration system to record general admitted patient activity provided under a recognised “Hospital in the Home” program to patients in their private place of residence.
26	Hospital in the Home - Drug and Alcohol	A “virtual” bed established on the patient administration system to record drug and alcohol admitted patient activity provided under a recognised “Hospital in the Home” program to patients in their private place of residence.
29	Collaborative Care Service Provider - General	A “virtual” bed established on the patient administration system to record general admitted patient activity provided by another public or private hospital under a collaborative (or contract) care arrangement.
30	Collaborative Care Service Provider - Drug and Alcohol	A “virtual” bed established on the patient administration system to record drug and alcohol

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		admitted patient activity provided by another public or private hospital under a collaborative (or contract) care arrangement.
32	Collaborative Care Service Provider - Mental Health	A "virtual" bed established on the patient administration system to record mental health admitted patient activity provided by another public or private hospital under a collaborative (or contract) care arrangement.
33	Coronary Care	A bed staffed 24 hours a day that is designated by the facility to accommodate patients who require cardiac monitoring (both bedside and central), but which otherwise does not meet the criteria of '15 - Intensive Care'.
37	Neonatal Intensive Care	A bed staffed 24 hours a day that meets the Intensive Care role delineation of level 3 or higher, and used to accommodate neonates requiring intensive care. These beds must be capable of providing complex, multi-system life support for neonates for an indefinite period. They must be located in an area capable of providing mechanical ventilation and invasive cardiovascular monitoring; or care of a similar nature.
38	Transplant	A bed in a designated special State unit dedicated to care of transplant recipients. This category includes unit dedicated for bone marrow (haemopoietic stem cell), renal, heart, heart-lung, liver, and pancreas transplants.
39	Same Day Renal Dialysis	A chair/bed in a designated specialised day stay unit that is dedicated to the provision of renal dialysis services.
40	Specialist Spinal Injury	A bed staffed 24 hours a day that is designated as a special State unit dedicated to the initial treatment and subsequent ongoing management and rehabilitation of patients with acute spinal cord injury.
41	Severe Burns	A bed staffed 24 hours a day that is designated as a special State unit dedicated to the initial treatment and subsequent rehabilitation of severely injured burns patients. Patients accommodated in these beds usually have greater than 10 per cent of body surface affected for adults, and greater than 5 per cent of body surface affected for children.
42	Dental Service	A bed in a specialised unit designated for the treatment of the patients receiving dental services.
43	Paediatric	A bed staffed 24 hours a day that is designated by the facility for accommodation and treatment of patient's aged older than 29 days and less than 16 years.
46	Medical	A bed staffed 24 hours a day and designated by the facility to primarily accommodate medical patients of a non-specific age.
47	Surgical	A bed staffed 24 hours a day and designated by the facility to primarily accommodate surgical patients of a non-specific age.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
48	Medical Oncology	A bed staffed 24 hours a day in a unit designated by the facility to accommodate overnight patients who require medical oncology services.
49	Obstetrics	A bed in a unit designated by the facility to accommodate primarily obstetric/maternity patients of a non-specific age, or to accommodate neonates but does not meet the criteria of '16 - Neonate Special Care Nursery' or '37 - Neonate Intensive Care Unit'.
51	Respite - High: Federal Government Block Funded	<p>A residential aged care place operated in a high care residential aged care facility (nursing home) that is designated and funded by the Australian Government for the provision of respite care to allow a carer or care recipient a short term break from their usual care arrangement.</p> <p>In order to access respite care in a residential aged care facility, people must have been assessed by an Aged Care Assessment Team. Residential respite care places must not be used as a waiting facility for people seeking a permanent bed. The maximum period for the provision of respite care in a residential aged care facility is 63 days. Extensions can be granted for further 21-day periods.</p>
52	Respite - Low: Federal Government Block Funded	<p>A residential aged care place operated in a low care residential aged care facility (hostel) that is designated and funded by the Australian Government for the provision of respite care to allow a carer or care recipient a short term break from their usual care arrangement.</p> <p>In order to access respite care in a residential aged care facility, people must have been assessed by an Aged Care Assessment Team. Residential respite care places must not be used as a waiting facility for people seeking a permanent bed. The maximum period for the provision of respite care in a residential aged care facility is 63 days. Extensions can be granted for further 21-day periods.</p>
53	Transitional Living Unit Beds - Brain Injury Rehabilitation Program	A bed staffed 24 hours a day that is officially approved by NSW Health Department Circular under the Brain Injury Rehabilitation Program, for the accommodation of clients requiring transitional living care services following a brain injury.
54	Mental Health Community Residential (24 hour staffing)	A bed designated to accommodate mental health community residential care clients in a unit staffed 24 hours a day
55	Mental Health Community Residential (<24 hour staffing)	A bed designated to accommodate mental health community residential care clients in a unit that is not staffed 24 hours a day.
56	Mental Health Social Day Program	A 'virtual' bed established for the purpose of recording mental health social day program activity on a patient administration system.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
57	Aged and Disability Social Day Program	A 'virtual' bed established for the purpose of recording non admitted aged and disability social day program activity on a patient administration system.
58	Emergency Department - Level 1 or 2	A bed, stretcher, trolley or chair in an area within the hospital staffed 24 hours a day and designated as an Emergency Department of Level 1 or Level 2.
59	Emergency Department Short Stay Unit (EDSSU)	<p>Short stay medicine in Emergency Departments (EDs) offers intensive short-term assessment, observation or therapy, in a 'ward-like' environment, to optimise the early treatment and discharge of selected ED patients. The model is an alternative to extended stays in hospital EDs and/or the use of multi-day inpatient beds for short-term care.</p> <p>The aim of the EDSSU is to improve care of patients requiring short term inpatient clinical management. EDSSUs have been shown to reduce inpatient ward length of stay for appropriately selected patients who would otherwise have been admitted to a ward bed, and improve care of those who may have stayed within the ED for prolonged periods. EDSSUs improve the flow of patients through the ED, thereby improving access to care for new emergency patients.</p> <p>EDSSUs are designated for patients who are to be discharged within 24 hours. This includes stable patients who require observation and/or further investigation to ascertain the seriousness of their condition (e.g. minor head injury, chest pain, infections) or a short course of treatment for conditions that may be rapidly resolved (e.g. asthma, allergic reactions, snake bite and renal colic). Patients are admitted and managed under the care of local Specialist Emergency Physicians (EPs).</p> <p>EDSSUs also provide a location for ED patients who may require allied health and social support intervention, such as physiotherapy, occupational therapy or social welfare services prior to discharge.</p> <p>Note: This Bed Type Category was previously known as 'Emergency Medical Unit' 'EMU' or 'ESSU'. See NSW Health Policy Directive 2014_040 - Emergency Department Short Stay Units for policy details pertaining to this beds in this category.</p>
60	Bassinet	<p>A bed staffed 24 hours a day that is designated for the care of newborns, other than a Federal Government approved neonate special care nursery, or a designated neonate intensive care unit.</p> <p>Beds in this category may either be located next to the mother's bed, or in a separate nursery that does not meet the criteria of a neonate special care nursery.</p>
61	Detoxification	A bed staffed 24 hours a day that is designated by the facility for the accommodation of patients requiring drug detoxification care.
64	CAMHS Acute	A bed staffed 24 hours a day that is specifically designated by the NSW Health Centre for Mental

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		Health to accommodate child or adolescent mental health patients who require acute care. These beds are funded under the Child and Adolescent Mental Health Services(CAMHS) program.
65	CAMHS Non-Acute	A bed staffed 24 hours a day that is specifically designated by the NSW Health Centre for Mental Health to accommodate child or adolescent mental health patients who require non-acute care. These beds are funded under the Child and Adolescent Mental Health Services(CAMHS) program.
66	Delivery Suite	A bed able to be staffed 24 hours a day, that is dedicated for the delivery of newborns.
67	Operating Theatre / Recovery	A bed able to be staffed 24 hours a day, that is within a dedicated operating theatre or theatre procedure recovery area.
68	Mobile Service	A mobile bed located within a vehicle which is used to deliver admitted patient care, including routine procedures, outside the hospital setting. These services are generally run in remote rural areas, and generally intended for routine admitted patient services that can be provided on a same day basis.
69	Stroke	A bed staffed 24 hours a day that is designated by the facility to accommodate patients who are recovering from a stroke.
70	Drug and Alcohol Community Residential	A bed staffed 24 hours a day, located in a community or non-admitted patient setting, that is used to accommodate patients who require treatment for substance use/abuse on a non-admitted patient basis.
71	Same Day Chemotherapy	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day chemotherapy and radiation oncology services only.
72	Sleep Disorder (< 24 hour care)	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day sleep disorder patients only.
73	Same Day Mental Health	A chair or bed staffed for a limited period each a day that is designated by the NSW Health Centre for Mental Health for the provision of same day mental health services only.
74	Same Day Drug and Alcohol	A chair or bed staffed for a limited period each a day that is designated by the facility for the accommodation of patients requiring same day treatment for substance use/abuse; and/or detoxification.
75	Same Day, not elsewhere classified	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day services only, and not covered by any other same day Bed Type category.
76	Transit Lounge	A chair or lounge used to temporarily accommodate patients that no longer require care within a specific ward, are medically ready to be discharged, and unable to be formally discharged due to a requirement for further

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
77	Transitional Care – In Hospital – Federal State Mix Funding	<p>observation or limited care by nursing staff, return of test results, fulfilment of prescriptions, completion of administrative tasks, etc. These chairs or lounges are generally used to address the problem of access block to overnight wards.</p> <p>A flexible care place located within a facility under the terms of the Australian Government Transition Care Program Guidelines and the Aged Care Act 1997. The facility must be modified and designated for the provision of transitional aged care. Transitional Aged Care places must be used to provide a mix of services for older people at the conclusion of a hospital admission. Services will include low intensity therapy such as physiotherapy, occupational therapy and social work and nursing support and/or personal care for clients to complete their restorative process and optimise their functional capacity. Services are provided for a limited time period of up to 12 weeks with a possible extension of another 6 weeks.</p> <p>The clients accommodated in these places must:</p> <ul style="list-style-type: none"> • have completed their acute and sub-acute episodes of care, be medically stable and discharged from hospital upon entry to the Transitional Aged Care Program, • have an ACAT approval to receive transitional aged care, • be eligible to receive permanent residential aged care at least at a low level of care
78	Transitional Care – Community – Federal State Mix Funding	<p>A flexible care place located in the community under the terms of the Australian Government Transition Care Program Guidelines and the Aged Care Act 1997.</p> <p>Transitional Aged Care places must be used to provide a mix of services for older people at the conclusion of a hospital admission. Services will include low intensity therapy such as physiotherapy, occupational therapy and social work and nursing support and/or personal care for clients to complete their restorative process and optimise their functional capacity. Services are provided for a limited time period of up to 12 weeks with a possible extension of another 6 weeks.</p> <p>The clients accommodated in these places must:</p> <ul style="list-style-type: none"> • have completed their acute and sub-acute episodes of care, be medically stable and discharged from hospital upon entry to the Transitional Aged Care Program, • have an ACAT approval to receive transitional aged care,

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
79	Gynaecology	<ul style="list-style-type: none"> • be eligible to receive permanent residential aged care at least at a low level of care <p>A bed staffed 24 hours a day and designated by the facility to primarily accommodate gynaecology patients of a nonspecific age.</p>
80	Same Day Medical	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day medical services only.
81	Same Day Surgical	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day surgical services only.
82	Extended Short Stay Surgical (< 24 hrs)	<p>A chair or bed staffed for a time period within each 24 hours that is designated by the facility for the provision of surgical services only.</p> <p>23 Hour Care Units are based on the premise that the majority of surgical care can be administered within a 24-hour period in a non-ward environment. Patients can be admitted, prepared for the surgical procedure, then monitored and provided with appropriate pain relief post surgery before protocol based discharge occurs within 24 hours.</p> <p>Extended Day Only (EDO) can be for emergency or elective procedures (surgery and occasionally non surgery e.g. diagnostic procedures, medical procedures).</p> <p>EDO beds may be staffed on a 24/7 basis depending on the facility (hence emergency surgery of EDO type can be accommodated).</p> <p>Some units may choose to have Day Only Extended Day Only co-located.</p>
83	Residential Aged Care, Not Further Defined	<p>A bed block funded by the federal Government, for the provision of either high level (nursing home), low level (hostel) or respite residential aged care. These beds are NOT counted admitted patient beds.</p> <p>These beds may be located in Public Nursing Homes, Multi Purpose Services, and a small number specially approved public hospitals (for example, rural hospitals that have lodged an application to become a Multi Purpose Service).</p> <p>Note 1: From 1 July 2014 there is no longer the distinction between high care and low care residential aged care beds.</p> <p>Note 2: Beds in this category may not be used for 'overflow patients'. Ward transfers transactions to this Bed Type are not permitted. For all other ward transfers to this Bed Type a formal discharge and formal admission transaction must be performed.</p>
85	Psychiatric Emergency	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who present to hospital

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		Emergency Departments with acute mental illness and require specialised mental health care and observation prior to disposal (e.g. transportation, transfer to another admitted patient bed, transfer to another designated psychiatric bed or discharge). They may be admitted as either voluntary or involuntary patients under the Mental Health Act. These beds are co-located and associated with the Emergency Department of a hospital.
86	Respite - Not Further Defined	<p>A bed block funded by the federal Government, for the provision of residential aged care to short stay respite clients. These beds are NOT counted admitted patient beds.</p> <p>These beds may be located in Public Nursing Homes, Multi Purpose Services, and a small number specially approved public hospitals (for example, rural hospitals that have lodged an application to become a Multi Purpose Service).</p>
87	Medical Assessment Unit (MAU)	<p>A bed in a dedicated Medical Assessment Unit (MAU) which is a physical ward that is close to the Emergency Department although not co-located.</p> <p>The MAU is an alternative pathway for adult non-critical medical patients; in many cases these will be elderly complex medical patients with co-morbidities.</p> <p>Patients within the MAU can expect to stay for a period of up to 48 hours, after this time most will be discharged home (with community services where appropriate), while some who require specialised care will be transferred to an inpatient bed.</p>
88	Justice Health Clinical Observation Bed	This value is not in policy directive 2008_034 but is in the bed type admitted patient data collection instructions dated applicable from 1 July 2011. This inconsistency needs to be resolved.
89	Drug and Alcohol Involuntary Treatment Bed	An inpatient bed staffed 24 hours a day and designated for the accommodation of involuntary clients being treated under the Drug and Alcohol Treatment Act of 2007.
90	Transfer to Another Facility	<p>A 'virtual' bed established on the Patient Administration System to record a patient being transferred to another facility and for whom clinical care is being maintained during transfer while he/she remains admitted to the facility.</p> <p>When an admitted patient is being transferred to another facility for ongoing clinical care, and the sending facility is maintaining clinical care during the transfer, the patient remains admitted to the sending facility until handover of clinical care. In this instance the patient may be transferred on the facility's PAS to a 'Transfer to Another Facility' bed allowing the physical bed which he/she had occupied to be used for another patient during the transfer period in which the patient remains admitted to the facility.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
91	Intensive Care Unit 1	<p>Bed within a designated Intensive Care Unit occupied by a ventilated or other similarly critically ill patient (clinically determined), including those that may require complex management and require constant monitoring and care without interruption (e.g. ventricular assist device, ECMO). (Prior to 1 July 2018, identified as Bed Type 15 – General Intensive Care).</p> <p>An ICU is a specially staffed and equipped, separate and self-contained area of a hospital, dedicated to the management of patients with life-threatening illnesses, injuries and complications, and monitoring of potentially life-threatening conditions.</p> <p>Beds in this category may not be used for 'overflow patients'. Time in this Bed Type counts towards "Hours in Intensive Care".</p>
92	Intensive Care Unit 2	<p>Bed within a designated Intensive Care Unit occupied by a critically ill patient whose condition or acuity has been clinically determined as lower than that requiring an Intensive Care Unit 1 bed.</p> <p>An ICU is a specially staffed and equipped, separate and self-contained area of a hospital, dedicated to the management of patients with life-threatening illnesses, injuries and complications, and monitoring of potentially life-threatening conditions.</p> <p>Beds in this category may not be used for 'overflow patients'. Time in this Bed Type does NOT count towards "Hours in Intensive Care".</p>
93	Close Observation Unit	<p>Bed occupied by a patient whose condition or acuity has been clinically determined as requiring a higher level of clinical care or monitoring than is available in a general ward bed, but not requiring admission to a designated Intensive Care Unit. (Prior to 1 July 2018, identified as Bed Type 34 – High Dependency Care).</p> <p>A COU is a specially staffed and equipped area of a hospital that provides an intermediate level of care between intensive care and general ward care. A Level 3 COU is applicable to a hospital that has no intensive care service and a Level 4 COU is applicable to a hospital that has a Level 4, 5 or 6 intensive care service.</p> <p>Beds in this category may not be used for 'overflow patients'. Time in this Bed Type does NOT count towards "Hours in Intensive Care".</p>
99	Lodger / Boarder Beds	<p>Beds used to accommodate boarders and lodgers who are not in receipt of health care. People accommodated in these beds are commonly relatives (e.g. parents or children) of patients.</p> <p>Most activity reported under this Bed Type would</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		have a Service Category of "0 – Hospital Boarder", however where clinical coding needs to be reported for a local requirement non-admitted patient activity may also be reported as "6 – Other Care".

Collection and Usage Guide			
Guide for Use:	<p>The "Mental Health Financial Sub Program" is an attribute of a bed or unit and thus should be set-up in the patient administration system by a system administrator at the time the bed is established on the patient administration system.</p> <p>There is the potential that one bed may be used for multiple purposes and therefore have multiple bed types. The user may need to select the bed type and the mental health sub program from a short list where that is the case, and should select the value applicable at the time the patient is transferred to the bed. Where a physical bed is set up with only one bed type, the mental health sub program should also be set up as a bed attribute, and this should be reported as the default value with no end user selection required.</p> <p>This concept only applies to designated admitted patient psychiatric beds. All other bed types should be reported with a null value.</p> <p>Expect a null value for the Emergency Department stream.</p>		
Scope:	Designed admitted patient psychiatric beds.		
Justification:

Domain value set

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
B	Child Adolescent Care - Direct Client Services	A specialist psychiatric/mental health unit/staff person which principally targets children and young people up to the age of 18 years. Classification of services into this category requires recognition by the regional or central funding authority of the special focus of the service on children and adolescents.
C	General Adult Care - Direct Client Services	A specialist psychiatric/mental health unit/staff person, which provides general psychiatry services to the general adult population, but may provide services to children, adolescents or the aged in special circumstances when more appropriate service provision is unavailable. They are psychiatric/mental health services/staff which cannot be described as specialist child and adolescent, geriatric or forensic services.
D	Older People Psychiatric Care - Direct Client Services	A specialist psychiatric/mental health unit/staff person, which principally targets people in the age group 65 years and over. Classification of services into this category requires recognition by the regional or central funding authority of the special focus of the service on aged persons. This service category does not include the treatment of older people by general psychiatry services.
E	Forensic Psychiatric Care - Direct Client Services	<p>A specialist psychiatric/mental health unit/staff person which assesses, treats or cares for mentally disordered individuals whose condition has led them to commit criminal offences or makes it likely that they will offend in the future if not adequately treated or contained.</p> <p>These services will mainly be associated with Corrections Health Service or the secure units at Cumberland and James Fletcher Hospitals.</p> <p>Forensic legal status of a patient does not determine the forensic specialty of the service.</p>

Service Event Location: Service Event Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	SERVICE_EVENT_TYPE_CODE		
Data Element ID:	10339	Version:	1.0
Definition:	An indication of whether the service event is for a community health / outpatient care services, an admitted patient service, a residential aged care service, or an emergency department service.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 2
Representation Layout:	X{2}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The Service Event Type Code should always be set to 1 (Emergency) when service events are reported for via the emergency department data stream, even though the emergency department system may include some planned outpatient services.</p> <p>The Service Event Type Code should be set to either 2 - Admitted or 3 - Residential based on the type of health organisation being reported. Multi Purpose Services typically are created as both an admitted patient organisation and a residential aged care organisation, and this distinction should be used to assign the appropriate Service Event Type Code (via an alias of the health organisation).</p> <p>The Service Event Type Code should always be set to '4' (Outpatient / Community Health) when service events are reported via the community health and outpatient care data stream.</p>		
Scope:	All health services containing clinical and/or therapeutic content. Non-admitted patient support services. Residential care services.		
Justification:	Used to distinguish the setting of the service event. This determines the data elements that will be available for analysis and reporting.		
Supporting Information:

Domain definition:	An indication of whether the service event is for a community health / outpatient care services, an admitted patient service, a residential aged care service, or an emergency department service.		

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Domain value set

Code	Descriptive label	Definition
1	Emergency Department service	<p>Covers emergency services provided in an emergency department setting, and includes dead on arrival patients.</p> <p>This category may include some services provided in emergency department settings, such as planned outpatient clinic services delivered out of hours in the emergency department setting, however the preference is for these to be reported as 4 - Outpatient / Community Health services and comply with the community health and outpatient care service event reporting requirements.</p>
2	Admitted patient service	<p>Covers formal admissions to a recognised hospital or multi purpose service for admitted patient care.</p> <p>Prior to 1 Jan 2018, this included admissions where the patient was formally admitted and discharged as an inpatient while in the emergency department (where such activity was recorded in the admitted patient module of the patient administration system).</p>
3	Residential care service	<p>Includes residential aged care services reported by residential aged care facilities, including multi-purpose services and (rural) integrated health services. That is, Commonwealth funded designated residential aged care beds.</p> <p>Includes community residential care services (e.g. covering mental health services).</p>
4	Non-admitted patient service	<p>Includes all community health services, outpatient care services. May include some services provided in emergency department settings, and health support services (such as services provided under the National Disability Insurance Scheme). This category covers planned outpatient clinic services delivered out of hours in the emergency department setting.</p> <p>Note: This category may be used for reporting consultation liaison services provided by non-admitted patient service units to admitted patients, emergency department patients, and persons in living in residential care settings.</p>
6	Supplementary service	<p>Supplementary (auxiliary) services provided to an admitted patient either as part to an Admitted Patient team or Emergency Department team or as a consultation liaison service provided by a NAP team for reporting the following data set extensions:</p> <ol style="list-style-type: none"> 1. Allied Health Data Set Extension 2. Violence, Abuse Neglect (VAN) Data Set Extension
7	Specialist mental health service	<p>A specialist non-admitted patient mental health service.</p> <p>Note: These services have traditionally been referred to as "Community Health Ambulatory" clients and were reported to the HIE data warehouse via the "CHAMB" extract.</p>

Service Event Leave

Data Object ID 133

Business context

This object holds a record for every time that the client goes on leave.

Business rules for reporting

A SERVICE_EVENT_LEAVE record must be reported when a client goes on leave. An update to a SERVICE_EVENT_LEAVE record must be reported when the client returns from leave.

o The record is to be sent when the patient physically goes on leave and when they physically return from leave.

If the source system PAS has a tentative / projected leave start date then a record is NOT sent.

When the patient goes on leave and has an actual leave start date but only a tentative / projected leave end date then a leave record is sent with all fields populated but the leave end date is NOT included.

When the patient returns from leave and the actual return date is recorded then a leave record is sent with both dates and all other fields included.

o If the patient is on leave when a type change occurs then:

Send the previous Service Event Leave record with the end date populated with the corresponding Service Event end date / time set to the leave end date / time and

Send a new Service Event Leave record for the new Service Event with the leave start date / time set to the new service event date / time.

• Service Event Leave Type Code MUST be reported as Leave of Absence or Collaborative Care (refer AP dictionary for domain values). This is to ensure leave and bed day calculations performed by EDWARD are correct.

Diagnosis

Data Object ID 61

Business context

This object holds a record for every diagnosis for a client at the time of the reported service event.

Business rules for reporting

One or more diagnosis records may be reported for each service event. Each diagnosis must be reported as a separate record and all diagnoses recorded must be reported to EDWARD.

- Report the “Diagnosis Sequence Number” for the diagnosis in alignment with the order of the diagnoses as they are sequenced in the source system, as set by the data entry person.
- The classification for reporting Admitted Patient diagnoses is expected to be ICD-10-AM Incoming data will be validated against the ICD-10-AM reference set for the edition in effective at the Service Event End Datetime.
- For historical Admitted Patient service event records created prior to the implementation of ICD-10-AM, EDWARD will accept diagnoses reported in the ICD-9-CM classification.

Diagnosis: Diagnosis Source Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[DIAGNOSIS].[DIAGNOSIS_SOURCE_CODE]
Data Element ID:	14137 Version: 1.0
Definition:	The type of staff member who recorded the diagnosis classification in the electronic medical record.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 2
Representation Layout:	NN
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	<p>If the source of the diagnosis is obtained from a screen intended to be completed by administrative staff, report that the source is administrative support staff.</p> <p>If the source of the diagnosis is obtained from a screen intended to be completed by clinical coding staff, report that the source is clinical coding staff.</p> <p>If the source of the diagnosis is obtained from a screen intended to be completed by clinicians, report that the source is clinician.</p> <p>For admitted patient service event reporting, the diagnosis will be reported by the clinical coder.</p>
Scope:	Admitted patient, emergency department and community health and outpatient care service events.
Justification:	For some service events the same information may be reported by different roles, and a different value may be given to the information on the basis of which role recorded / reported it. It can also be useful in ensuring that clinical information is not double counted.
Supporting Information:	

Domain	
Domain name:	Clinical Code Assignment Source Code (EDW)
Domain ID:	10578 Version: 1.0
Domain definition:	A classification representing the broad staff profession group who recorded, classified or coded the diagnosis or presenting issues.

Domain value set

Code	Descriptive label	Definition
01	Clinical coder	<p>This is the default value for admitted patient data stream reporting of clinical codes reported as an ICD9CM, ACHI or ICD10AM classification.</p> <p>For admitted patient coding the principal diagnosis is the diagnosis established, after study by a clinical</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		<p>coder, to be chiefly responsible for occasioning an episode of admitted patient care, an episode of residential care or attendance at the health care establishment, as represented by a code.</p> <p>The phrase "after study" in the definition means evaluation of findings to establish the condition that was chiefly responsible for occasioning the episode of care. Findings evaluated may include information gained from the history of illness, any mental status evaluation, specialist consultations, physical examination, diagnostic tests or procedures, any surgical procedures, and any pathological or radiological examination. The condition established after study may or may not confirm the admitting diagnosis.</p>
02	Health service support staff	For use when a person that is not a clinician or a clinical coder enters information provided by the patient, such as his / her presenting problem / issue as provided and without any clinical assessment or advice.
03	Clinician, not further defined	<p>This is the default value for the diagnosis codes reported as an ICD9CM, ICD10AM, or SNOMED Concept classification code via the emergency department data stream.</p> <p>All diagnoses recorded in the emergency department source system should be determined by a qualified clinician, and there is no post assessment undertaken by a qualified clinical coder.</p>
04	Clinician, not elsewhere classified	<p>This is the default value for the diagnosis codes reported as an ICD9CM, ICD10AM, or SNOMED Concept classification code via the emergency department data stream.</p> <p>All diagnoses recorded in the emergency department source system should be determined by a qualified clinician, and there is no post assessment undertaken by a qualified clinical coder.</p>
05	Medical consultant	
06	Nurse / midwife	
07	Allied health practitioner	
08	Diagnostic health service profession	
90	Other health care professional, not elsewhere classified	Includes, but not limited to, professional home care support providers, medical technicians.
99	Unknown	The source of the diagnosis code is unknown, or not reported, such as for community health and outpatient care service events.

Diagnosis: Diagnosis Record Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[DIAGNOSIS].[DIAGNOSIS_RECORD_ID]
Data Element ID:	10463 Version: 1.0
Definition:	The source system record / row identifier that uniquely identifies one of the patient's diagnosis.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 100
Representation Layout:	X{100}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	The record identifier is a stable source system identifier that can be sent / resent by the source system to the enterprise data warehouse to trigger a record insert, update or deletion.
Scope:	Must be reported for every diagnosis record. Diagnosis records are reported for all service events, but generally do not apply to residential care service event types.
Justification:	Diagnosis is used for epidemiological analysis, and plays a role in determining the Diagnosis Related Group and other cost weights relating to service events of any type (other than residential care services).

18204	Non-admitted Patient Service Type	
23856	ICD10AM 11th Edition	Eleventh edition of the International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification. Used for admitted patient service event reporting from service events ending from 1/7/2019 to 30/6/22.

Diagnosis: Diagnosis Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[DIAGNOSIS].[DIAGNOSIS_CODE]
Data Element ID:	10469 Version: 1.0
Definition:	A code assigned through the coding process for each diagnosis, which may be principal or additional. Codes are assigned through the current ICD edition.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 30
Representation Layout:	
Unit Of Measure:	
Additional Information:	When reporting ICD codes it must include the relevant slashes and decimals prescribed in the national standards (but exclude daggers and asterisks) in the format below: Diagnosis / Topography/ External Cause / Place of Occurrence / Activity when Injured Codes - ANN.NN or ANN or ANN.N (depending on the diagnosis code Morphology Codes - ANNNN/N
Collection and Usage Guide	
Guide for Use:	<p>Each diagnosis code reported must be qualified with a DIAGNOSIS_REF_DOMAIN_ID, which indicates the classification and edition used (e.g. ICD10AM 11th edition, or SNOMED CT Concepts).</p> <p>There are no limitations on the number of diagnosis codes that can be reported in the EDWARD multi-file service event formats.</p> <p>Emergency Department Service Events</p> <p>For emergency department service events, the diagnosis should be reported as a SNOMED concept code, or ICD code of the latest edition, officially used by NSW Health based on the service event end date.</p> <p>Admitted Patient Service Events</p> <p>For admitted patient care data, the diagnosis must be reported as an ICD code of the latest edition, officially used by NSW Health, based on the service event (episode of care) end dates.</p> <p>There are five types of diagnosis codes that are reportable for admitted patient service events. Each type is defined below.</p> <p>Principal Diagnosis: The diagnosis established after study to be chiefly responsible for occasioning an episode of admitted patient care, an episode of residential care or attendance at the health care establishment, as represented by a code.</p>

The phrase “after study” in the definition means evaluation of findings to establish the condition that was chiefly responsible for occasioning the episode of care. Findings evaluated may include information gained from the history of illness, any mental status evaluation, specialist consultations, physical examination, diagnostic tests or procedures, any surgical procedures, and any pathological or radiological examination. The condition established after study may or may not confirm the admitting diagnosis.

Additional Diagnosis: A condition or complaint either coexisting with the principal diagnosis or arising during the episode of admitted patient care, episode of residential care or attendance at a health care establishment, as represented by a code.

These are conditions that affect patient management in terms of requiring any of the following:

1. Commencement, alteration or adjustment of therapeutic treatment
2. Diagnostic procedures
3. Increased nursing care and/or monitoring

Additional Diagnoses include the diseases, syndromes, pathological conditions, injuries, signs, symptoms, problems and other reasons for contact with the health services, that is, the type of information that would be recorded by a clinician.

External Cause of Morbidity and Mortality: The circumstances in which the violence occurred (eg fire, explosion, fall, assault, collision, submersion) and the drugs and other chemical substances giving rise to poisoning or other adverse effects. These include accidental poisoning and exposure to noxious substances, intentional self-harm, and poisoning, undetermined whether accidental or intentional. For drugs, medicaments and biological substances, these include substances causing adverse effects in therapeutic use.

Place of Occurrence: The place where the injury or poisoning (external cause) occurred.

Activity when Injured: The activity of the injured person at the time the event occurred. These include activity, accidents, intentional self-harm, assault, event of undetermined intent, legal intervention and operations of war, complications of medical and surgical care, sequelae (late effects) of external causes of morbidity and mortality, and supplementary factors related to causes of morbidity and mortality classified elsewhere (includes alcohol).

Morphology of Neoplasms: The histological type of the neoplasm and its behaviour.

A principal diagnosis must be reported for every episode of admitted patient care. All other diagnosis types must be reported where they are relevant for reporting according to coding standards.

For admitted patient service events, where it is appropriate for the reporting of External Cause of Injury or Poisoning, Activity

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

	When Injured and Place of Occurrence for a service event, these concepts must
Scope:	Emergency Department Service Event, Admitted Patient Service Events, Non-Admitted Patient and Supplementary Service Events.
Justification:	<p>The admitted patient principal diagnosis is one of the most valuable health data elements. It is used for epidemiological research, casemix studies and planning purposes. The principal diagnosis is a major determinant in the classification of Australian Refined Diagnosis Related Groups and Major Diagnostic Categories.</p> <p>Additional diagnoses give information on the conditions that are significant in terms of treatment required, investigations needed and resources used during the episode of care. They are used for casemix analyses relating to severity of illness and for correct classification of patients into Australian Refined Diagnosis Related Groups (AR-DRGs).</p> <p>External Cause enables categorisation of injury and poisoning according to factors important for injury control. It is necessary for defining and monitoring injury control targets, injury costing and identifying cases for in-depth research. It is also used as a quality of care indicator of adverse patient outcomes.</p> <p>Place of Occurrence enables categorisation of injury and poisoning according to factors important for injury control. It is necessary for defining and monitoring injury control targets, injury costing and identifying cases for in-depth research.</p> <p>Activity when Injured supports injury surveillance and enables categorisation of injury and poisoning according to factors important for injury control. It is necessary for defining and monitoring injury control targets, injury costing and identifying cases for in-depth research. It is the basis for identifying work-related and sport-related injuries.</p>

Diagnosis: Diagnosis Sequence Number (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[DIAGNOSIS].[DIAGNOSIS_SEQUENCE_NUMBER]		
Data Element ID:	10464	Version:	1.0
Definition:	A sequential number assigned to each diagnosis recorded by the clinician for each service event.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	2	Maximum: 2
Representation Layout:	X[2]		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The diagnosis sequence number must be reported as a two character field, with leading zeros for sequence '01' to '09'.</p> <p>For admitted patient, community health and outpatient care service events, the principal diagnosis must be recorded as sequence "01" and additional diagnoses reported with sequence number "02", "03" and so on in the order that they are listed in the source system.</p> <p>For emergency department service events, the provisional diagnosis must be record as sequence "01" and additional diagnoses reported with sequence number "02", "03" and so on in the order that they are listed in the source system.</p> <p>For admitted patient service events and emergency department service events, it is mandatory to report a diagnosis with a Diagnosis Sequence Number of "01" (representing the principal diagnosis) as it is used to assign the relevant casemix classification code and therefore the activity based funding cost weight / payment.</p> <p>Where there is a diagnosis code reported, there must be one diagnosis code record with a diagnosis sequence number of "01" and there must be no gaps or repeats in the sequence numbering for the other diagnosis records reported for the service event.</p>		
Scope:			
Justification:	Required to discriminate between the principal and other diagnoses so as to facilitate analysis of the range of conditions for which services are provided to support clinical management, service development, service planning, epidemiological analysis and possibly resource allocation.

Collection and Usage Guide	
Guide for Use:	Expect a null value for the Emergency Department stream.
Scope:	This item is not expected to be populated for non-admitted patient (NAP) / CHOC sources, and is a placeholder for future service provision, e.g. admitted patient (AP).
Justification:	This information is collected for the purpose of improved analysis of diagnostic information, especially in relation to patient safety and adverse event monitoring.
Supporting Information:	

Domain	
Domain name:	Condition Onset Type Code (EDW)
Domain ID:	13043
Version:	1.0
Domain definition:	A qualifier for each coded diagnosis to indicate if the onset of the condition occurred during the reported (admitted patient) episode of care / service event.

Domain value set

Code	Descriptive label	Definition
1	Condition with onset during the episode of admitted patient care	<p>A condition –</p> <p>Which arises during the episode of admitted patient care and would not have been present on admission</p> <p>Includes:</p> <ul style="list-style-type: none"> • Conditions resulting from misadventure during medical or surgical care during the episode of admitted patient care. • Abnormal reactions to, or later complication of, surgical or medical care arising during the episode of admitted patient care. • Conditions arising during the episode of admitted patient care not related to surgical or medical care (for example, pneumonia).

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
2	Condition not noted as arising during the episode of admitted patient care	<p>A condition -</p> <ul style="list-style-type: none"> • Present on admission such as the presenting problem, a comorbidity, chronic disease or disease status. • Previously existing condition not diagnosed until the episode of admitted patient care. <p>Includes:</p> <ul style="list-style-type: none"> • In the case of neonates, the conditions present at birth. • A previously existing condition that is exacerbated during the episode of admitted patient care. • Conditions that are suspected at the time of admission and subsequently confirmed during the episode of admitted patient care. • Conditions that were not diagnosed at the time of admission but clearly did not develop after admission (for example malignant neoplasm). • Conditions where the onset relative to the beginning of the episode of admitted patient care is unclear or unknown.
9	Not reported	<p>The condition onset flag was not reported due to limitations of the information system or business processes for collecting and recording the information.</p>

Diagnosis: Diagnosis Comments (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[DIAGNOSIS].[DIAGNOSIS_COMMENTS]		
Data Element ID:	10939	Version:	1.0
Definition:	Textual comments that may qualify the diagnosis code, or may be a substitute for the diagnosis code where information is not available in a coded form.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Text		
Field Size:	Minimum:	Maximum:	512
Representation Layout:	X{512}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	Diagnosis comments is intended to be used where diagnosis in a coded form is not available. For example, Emergency Department settings may not have coded diagnosis information.		
Scope:	Diagnosis comments is relevant to primary health care, community health care, outpatient care, admitted patient care and emergency department care.		
Justification:	<p>Diagnosis textual information can be used in data mining to identify trends and spikes in incidence of diagnosis.</p> <p>Diagnosis comments in emergency department settings have been used to identify increased incidence of presentations (e.g. disease outbreaks and increased incidence of injuries). Once such patterns have been identified actions can be taken to address the cause. Where trends are observed (for example, common diagnoses at certain days and times during the week), this data assists in planning services.</p>

Service Activity

Data Object ID 56

Business context

This object holds a record for an activity that was performed as part of the service event. Activities include clinical interventions, procedures, and a range of other activities which may not be considered clinical in nature (such as liaison with other human service agencies to ensure the client/patient receives additional services from them).

Business rules for reporting

For admitted patients one activity record (procedure) of type 'clinical intervention' must be reported for each procedure coded.

O If a procedure has been coded then Service Activity Source Code is to be set to value 01

O If no procedure has been coded then a record is not included in the extract.

- More than one procedure code may be reported for a single service event. Each procedure is reported as a separate record.
- The Australian Classification of Health Interventions (ACHI) classification is the standard for reporting an intervention that is a procedure or health intervention. These are more commonly known as ICD-10-AM codes.
- The sequence number in the record relates to the positional sequence of the procedure codes in the source system for the service event. The first procedure code has sequence number 01; the second has sequence number 02, etc.
- An Admitted Patient Service Event may have no service activity record, for example where the patient did not require a reportable health intervention.

Service Activity: Service Activity Source Identifier (EDW)

Defining Characteristics		
Data Element Type:	Data Element	
Physical Name:	[SERVICE_ACTIVITY].[SERVICE_ACTIVITY_SOURCE_ID]	
Data Element ID:	10481	
Version:	1.0	
Definition:	A unique identifier, issued by NSW Health, assigned to the instance of the source system providing the service activity identifier.	
Status Allocation Date:		
Representation		
Data Type:	VarChar (Variable length)	
Form:	Code	
Field Size:	Minimum: 1 Maximum: 20	
Representation Layout:	N(NNNN)-NNN	
Unit Of Measure:		
Additional Information:		
Collection and Usage Guide		
Guide for Use:	The service event source system may or may not be the same as the source system reporting this event. For example, in the case where two systems are in operation, one for booking scheduling events and another recording the provision of services, the booking system may issue a Service Event ID that the service provision system accepts and records activity against. In this scenario the service provision system will report activity against the Service Event ID issued by the booking system, resulting in different values for service event source system and source system. In the case where one system is used to both book schedule events as well as record the provision of services, the service event source system and source system will be the same.	
Scope:	MANDATORY Mandatory for all Service Activity records	
Justification:		
Supporting Information:		
Domain		
Domain name:	Service Event Source Identifier - All Service Event Types (EDW)	
Domain ID:	10398	
Version:	1.0	
Domain definition:	A code representing source systems for reporting service event data covering admitted patients, non-admitted patient, emergency department and residential care services.	
	Note: This is a subset of 'EDW - Record Source System Identifier 1.0'. ie does not contain alpha suffix identifiers or non patient source system identifiers. This domain is also used for both "Service Event Source Identifier" and Service Activity Source Identifier".

Representation Layout:	N(NNNN)-NNN		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	The service event source system may or may not be the same as the source system reporting this event, for instance where one system is used for booking and scheduling events and another for recording the provision of services. The booking system may issue service event ID that the service provision system accepts and records activity against. In this scenario the service provision system will report the activity against the Service Event ID issued by the booking system. In the case where the one system is used to both book schedule events as well as record the provision of services, the service event source system and source system will be the same.
Scope:	
Justification:	
Supporting Information:	

Domain			
Domain name:	Service Event Source Identifier - All Service Event Types (EDW)		
Domain ID:	10398	Version:	1.0
Domain definition:	A code representing source systems for reporting service event data covering admitted patients, non-admitted patient, emergency department and residential care services.		
	Note: This is a subset of 'EDW - Record Source System Identifier 1.0'. ie does not contain alpha suffix identifiers or non patient source system identifiers. This domain is also used for both "Service Event Source Identifier" and Service Activity Source Identifier".

9475-001	HERO	Note: This is only for use in the Service Event Provider file in the Service Provider Source ID field when reporting organisation service provider records.

Service Activity: Service Encounter Record Identifier (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	SERVICE_ENCOUNTER_RECORD_ID		
Data Element ID:	10928	Version:	1.0
Definition:	A source system assigned unique identifier for a record representing a client's continuous contact with a health organisation. One encounter may have one or many service events, each of a different or same service event type.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Identifier Value		
Field Size:	Minimum:	1	Maximum: 20
Representation Layout:	X{20}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	This may also be known as "Stay Number".		
	<p>In the admitted patient context, an encounter must represent at least a period of stay in hospital, and cover the period of the formal admission to the formal discharge (i.e. including one or more service category type changes). Such encounters may, or may not, also cover an emergency department presentation which results in an admission (note that this may vary based on the source system(s) used).</p> <p>In a non-admitted patient context, an encounter may represent a period where the patient has an on-going course of treatment for a particular issue / problem, with service events (contacts) on non-contiguous calendar days. For activity reported via some source systems, one encounter will always equate to one service event (due to the system design and implementation).</p> <p>For the Cerner HNA Millennium Source System this should be the HERO Identifier for the hospital concatenated with the Visit Number.</p>		
Scope:	Admitted patient service events, community health and outpatient care service events, emergency department service events.		
Justification:	This data element is required to ensure uniqueness of a service event identifier. To this extent it is necessary for source systems where one record is used for more than one type of service events when they are provided continuously back to back. This data element can be used to link such service events together.

Service Activity: Service Event Record Identifier (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	SERVICE_EVENT_RECORD_ID
Data Element ID:	10450
Version:	1.0
Definition:	The unique identifier assigned by the source system to the service event record. See also the definition of the Service Event concept.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Identifier Value
Field Size:	Minimum: 1 Maximum: 20
Representation Layout:	X{20}
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	In the context of admitted patient services, this represents the unique record identifier of the "episode of care". A new service event record identifier must be reported for each service category / care type change within a continuous stay in hospital. In the context of emergency department services, this represents the unique record identifier of a presentation of a patient to the emergency department, and includes patients who did not wait for the service. In the context of community health or outpatient care services, a service event is an instance of service provision to one client by one or more individual service providers where the service has clinical and/or therapeutic content targeted to a set of related problems or issues, and the service provided warrants an entry in the registered client's/patient's medical record case notes.
Scope:	All types of service events, including admitted, emergency department, residential care, community health and outpatient care.
Justification:	The service event record identifier is used as a primary key and foreign key. In the context of a primary key it is used in EDWARD to determine whether a service event record should be inserted, updated or aged.

Guide for Use:			
Scope:			
Justification:			
Supporting Information:			

Domain			
Domain name:	Reference Source Identifier (EDW)		
Domain ID:	10467	Version:	1.0
Domain definition:	The unique identifier assigned to the instance of the source system which reports reference data to EDWARD.		
	This is a subset of 'EDW - Record Source System Identifier 1.0'.		

Domain value set

Code	Descriptive label	Definition
7452-001	HIRD - Health Information Resources Directory	

Service Activity: Service Activity Reference Domain Identifier, Admitted Patient (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_ACTIVITY].[SERVICE_ACTIVITY_REF_DOMAIN_ID]		
Data Element ID:	15129	Version:	1.0
Definition:	The HIRD issued identifier associated with the codeset version describing the service activity reported for admitted patient service events, e.g. Australian Classification of Health Intervention (ACHI) 10 th Edition.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	4	Maximum: 6
Representation Layout:	N		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	HIRD issues a domain identifier for each classification. It appears in the URL of the domain identifier.		
Scope:	MANDATORY Mandatory for all Service Activity records		
Justification:	Used to identify the domain value set with which to validate reported clinical codes in the Enterprise Data Warehouse.		
Supporting Information:			
Domain			
Domain name:	Service Activity Reference Domain Identifier - Admitted Patient (EDW)		
Domain ID:	15130	Version:	1.0
Domain definition:	A list of the permissible HIRD Domains representing the codesets used for reporting health interventions / procedures for admitted patient service events. The code represents the HIRD domain identifier, and the 'Descriptive Term' is the codeset name, and version / edition.		
	Source: This is short list from "Service Activity Reference Domain Identifier, All Service Event Types (EDW)", used for the purpose of validating Service Activity Code and Service Activity Reference Domain Identifiers reported via the Admitted Patient Data Stream using Acquisition Validation Rules.		
Domain value set			
Code	Descriptive label	Definition	
22983	Australian Classification of Health Interventions (ACHI) 10th edition		

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
33995	Australian Classification of Health Interventions (ACHI) 11th edition	This edition is the mandatory version for reporting interventions for admitted patient activity from 1 July 2019 to 30 June 2022.

Service Activity: Service Activity Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_ACTIVITY].[SERVICE_ACTIVITY_CODE]
Data Element ID:	10486
Version:	1.0
Definition:	An act performed for, with or on behalf of a person whose purpose is to assess, improve, maintain, promote or modify health, functioning or health conditions. Service activities include clinical interventions, procedures, and health care related administrative tasks.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 30
Representation Layout:	
Unit Of Measure:	
Additional Information:	When reporting ACHI the codes must include the relevant dashes as prescribed in the national standards.
Collection and Usage Guide	
Guide for Use:	<p>For Non-admitted Patient and Supplementary Services report the service activity as a SNOMED Clinical Term Concept Identifier of type 'Procedure' or 'Regime/Therapy'. For privately referred non-admitted patient services a Medicare Benefit Scheme Item identifier must be reported. For oral health services a Australian Dental Service Schedule Fee code must be reported. In addition, a CHIME Service Activity Classification may be reported for administrative procedures.</p> <p>For admitted patient service events, the Australian Classification of Health Interventions should be used for clinical procedures and interventions. The edition must align with the edition declared as the edition to use for the reporting of activity based on the record's service event end date.</p> <p>For Emergency Department service events the Australian Classification of Health Interventions (ACHI) for clinical procedures and interventions may be reported, or SNOMED concept code may be reported. If ACHI is reported the edition should align with the edition declared as the edition to use for the reporting of activity based on the record's service event end date.</p> <p>Despite these guidelines, EDWARD will accept service activity (procedures and interventions) reported in other recognised classifications (e.g. ICD9CM).</p> <p>When reported, ACHI codes must be in the form "NNNNN-NN", that is the code is to be reported using the full 8-character ACHI codes, including the hyphen '-' format character.</p>
Scope:	MANDATORY Mandatory for all Service Activity records
Justification:	
Supporting Information:	

Domain	
Domain name:	Service Activity Code (EDW)
Domain ID:	20903 Version: 1.0
Domain definition:	<p>A code representing an act performed for, with or on behalf of a person whose purpose is to assess, improve, maintain, promote or modify health, functioning or health conditions. Service activities include clinical interventions, procedures, and health care related administrative tasks.</p> <p>This code must be qualified by Service Activity Reference Domain Identifier which specified the classification or nomenclature used.</p> <p>Note: As the domain values sets differ by the Service Activity Reference Domain Identifier, and are extensive they are not provided in NSW Health data dictionaries or available in HIRD.</p> <p>SNOMED Clinical Terms of type 'procedure' or 'regime/therapy' can be browsed on-line at the following URL: http://ontoserver.csiro.au/shrimp/</p>

Service Activity: Service Activity Source Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_ACTIVITY].[SERVICE_ACTIVITY_SOURCE_CODE]
Data Element ID:	10487
Version:	1.0
Definition:	The source of the service activity (procedure / intervention) information reported on the service activity record.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 2 Maximum: 2
Representation Layout:	NN
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>This data element describes the broad type of health service staff who recorded the service activity in the client's / patient's service contact electronic record.</p> <p>The person who records the service activity in the electronic record may be different to the individual service provider who provided the service such in circumstances where data is recorded on behalf of the care provider.</p> <p>Service activities may be recorded in the electronic record by:</p> <ul style="list-style-type: none"> • the individual service provider who performed the activity • administrative support staff or clinical coders, based on the information provided to them by the individual service provider • a nurse or midwife supporting a surgeon, obstetrician or other medical consultant • by one team member on behalf of all care providers in a multiple disciplinary team direct service (e.g. surgery), or case conference.
Scope:	Admitted patient, emergency department and community health and outpatient care service events. Operating theatre procedures reported via the operating theatre source system data stream.
Justification:	For some activity the same information may be reported by different roles, and a different value may be given to the information on the basis of which role recorded / reported it. It can also be useful in ensuring that clinical information is not double counted.
Supporting Information:	
Domain	
Domain name:	Clinical Code Assignment Source Code (EDW)
Domain ID:	10578
Version:	1.0
Domain definition:	A classification representing the broad staff profession group who recorded, classified or coded the diagnosis or presenting issues.

Domain value set

Code	Descriptive label	Definition
01	Clinical coder	<p>This is the default value for admitted patient data stream reporting of clinical codes reported as an ICD9CM, ACHI or ICD10AM classification.</p> <p>For admitted patient coding the principal diagnosis is the diagnosis established, after study by a clinical coder, to be chiefly responsible for occasioning an episode of admitted patient care, an episode of residential care or attendance at the health care establishment, as represented by a code.</p> <p>The phrase “after study” in the definition means evaluation of findings to establish the condition that was chiefly responsible for occasioning the episode of care. Findings evaluated may include information gained from the history of illness, any mental status evaluation, specialist consultations, physical examination, diagnostic tests or procedures, any surgical procedures, and any pathological or radiological examination. The condition established after study may or may not confirm the admitting diagnosis.</p>
02	Health service support staff	For use when a person that is not a clinician or a clinical coder enters information provided by the patient, such as his / her presenting problem / issue as provided and without any clinical assessment or advice.
03	Clinician, not further defined	<p>This is the default value for the diagnosis codes reported as an ICD9CM, ICD10AM, or SNOMED Concept classification code via the emergency department data stream.</p> <p>All diagnoses recorded in the emergency department source system should be determined by a qualified clinician, and there is no post assessment undertaken by a qualified clinical coder.</p>
04	Clinician, not elsewhere classified	<p>This is the default value for the diagnosis codes reported as an ICD9CM, ICD10AM, or SNOMED Concept classification code via the emergency department data stream.</p> <p>All diagnoses recorded in the emergency department source system should be determined by a qualified clinician, and there is no post assessment undertaken by a qualified clinical coder.</p>
05	Medical consultant	
06	Nurse / midwife	
07	Allied health practitioner	
08	Diagnostic health service profession	
90	Other health care professional, not elsewhere classified	Includes, but not limited to, professional home care support providers, medical technicians.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
99	Unknown	The source of the diagnosis code is unknown, or not reported, such as for community health and outpatient care service events.

Service Activity: Service Activity Type Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_ACTIVITY].[SERVICE_ACTIVITY_TYPE_CODE]		
Data Element ID:	10488	Version:	1.0
Definition:	An indicator as to whether the service activity being reported is a clinical health intervention / procedure, or is a supportive / non-clinical administrative activity associated with the service event.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 2
Representation Layout:	N(N)		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	For reporting of admitted patient service events, only clinical health interventions are expected to be reported.		
	For reporting of community health service events, both clinical health interventions / procedures and supporting administrative activities may be reported.		
Scope:			
Justification:			
Supporting Information:			
Domain			
Domain name:	Service Activity Type Code (EDW)		
Domain ID:	10570	Version:	1.0
Domain definition:	Code indicating whether the activity is clinical or otherwise.		
Domain value set			
Code	Descriptive label	Definition	
1	Clinical intervention / procedure	A clinical intervention or procedure that is performed during a service event that warrants a notation that the clinical intervention or procedure has been performed in the client's medical record.	
2	Non-clinical supporting activity	Administrative and other non-clinical activities that support the provision of a service during, immediately before, or immediately after a service event that do warrant a notation in the client's medical record, such as entering data into a data reporting system.	
9	Unknown activity type	It is unknown as to whether the service activity reported is a non-clinical supporting activity or a clinical intervention / procedure.	

Service Activity: Service Activity Comments (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_ACTIVITY],[SERVICE_ACTIVITY_COMMENTS]

Domain			
Domain name:	Service Activity Provider Indicator (EDW)		
Domain ID:	14415	Version:	1.0
Domain definition:	An indication of whether the service activity / intervention was performed by the hospital / health service responsible for reporting the activity or another hospital (e.g. as a collaborative care service), and whether it was performed on an admitted or non-admitted patient basis at the other site.		

Domain value set

Code	Descriptive label	Definition
1	This Facility as a Direct Service	Procedures or operations that were performed at the facility, which is reporting the episode of care, where the service was provided out-side a contract arrangement.
2	Other Facility as an Admitted Patient	Procedures or operations that were performed at another facility where the patient was admitted to that other facility under a Multi-Facility Care arrangement. This includes: <ul style="list-style-type: none"> • Same day or overnight procedures or operations performed by a private facility under contract. • Same day procedures or operations performed by one public hospital on behalf of another

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		public hospital in a collaborative care arrangement.
3	Other Facility as a Non-admitted Patient	Procedures or operations that were performed at another facility where the patient was not admitted to that facility as an inpatient.
4	Patient's Home as an Admitted Patient	Procedures that were performed in the patient's home on an admitted patient basis under a recognised "Hospital in the Home" program.
5	This Facility on behalf of a Public Hospital	Same Day Procedures or operations that were performed at this public facility, where the service was provided under a Collaborative Care arrangement with another public hospital.
6	This Facility on behalf of a Private Facility	Same day or overnight procedures or operations that were performed at this facility, where those procedures were purchased by a private facility under a contract arrangement.
		Note: This category is only for use by Public Facilities

Service Activity: Service Activity Start Datetime (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_ACTIVITY].[SERVICE_ACTIVITY_START_DATETIME]
Data Element ID:	10494
Version:	1.0
Definition:	The date and time that the service activity commenced.
Status Allocation Date:	
Representation	
Data Type:	DateTime
Form:	Date - Time
Field Size:	Minimum: 19 Maximum: 19
Representation Layout:	YYYY-MM-DD HH:MM:SS
Unit Of Measure:	
Additional Information:	YYYY-MM-DD HH:MM:SS
Collection and Usage Guide	
Guide for Use:	<p>For admitted patient services the Service Activity Start Date/Time is the procedure / intervention date recorded by the clinical coder for the reported Service Activity Code. Where the time is not captured, report midday.</p> <p>For admitted patient services, the Service Activity Start Date/Time should be between the Service Event Start Date/Time and the Service Event End Date/Time.</p> <p>For non-admitted patient services, the Service Activity Start Date/Time is the start date/time of the particular procedure, intervention or service activity related to the service event and reported on the row as the Service Activity Code.</p>
Scope:	<p>For admitted patient services, Service Activity Start Date/Time is an optional reporting requirement for each coded procedure. It is generally reported for the 1st listed procedure. The date should be reported where it is available.</p> <p>For non-admitted patient services Service Activity Start Date/Time is an optional reporting requirement for each service activity. The requirement relates currently to mental health services only. The source of this requirement in the Mental Health Data Dictionary.</p>
Justification:	For admitted patients the procedure date can be used to determine whether the patient's surgery was delivered on the day of formal admission, which is better practice to improve patient flow.

Service Event Delay Data Object ID 137

Business context

This object holds a record which covers delay codes and reasons for any service provision for a service event.

Business rules for reporting

This is a mandatory data object where there has been a delay in the formal discharge of the patient. It is only to be reported for the last Service Event in the Service Event and Admitted data object

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Service Event General Practitioner Data Object ID 115

Business context

This object holds a record of the client's general practitioner details at the time of discharge from a service event.

Business rules for reporting

A service event general practitioner must be reported for each service event where the patient has a nominated general practitioner where the effective from and to date covering the service event end date falls.

The general practitioner details with start and end effective dates that fall over the data of diagnosis of the primary site of cancer must be reported for all cancer notifications, if one is with such effective dates is recorded for the patient. This is required to enable the cancer institute to follow up with the GP about the particular cancer.

The general practitioner with start and effective end dates that cover the service event end date must be reported for every service event, whether it involved a cancer notification or not. This means for service events with cancer notifications there may be two or more general practitioners reported in the source system the General Practitioner details may be recorded in a cancer notification module, or a specific module for general practitioner details held against the patient and used for the purpose of discharge referrals.

100	NSW State Organisation Provider Identifier Issued by HERO	Assigned where SERVICE_PROVIDER_TYPE code = "O"

Service Event General Practitioner: General Practitioner Practice Organisation Source Identifier (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_GENERAL_PRACTITIONER].[GP_PRACTICE_OSP_SOURCE_ID]		
Data Element ID:	13899	Version:	1.0
Definition:	The unique identifier of the source system used to maintain details of the general practitioner's practice, where the patient's medical records are held.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum: 1	Maximum:	20
Representation Layout:	N(NNNN)-NNN		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	When reporting ISP or OSP details, the source system must also provide all the three data elements: <ul style="list-style-type: none"> GP_PRACTICE_OSP_ID_TYPE_CODE GP_PRACTICE_OSP_Source_ID GP_PRACTICE_OSP_ID
Scope:	CONDITIONAL <ul style="list-style-type: none"> Mandatory when reporting a General Practitioner Practice record
Justification:	The source system identifier indicates the source of data. It is used for investigating data quality and completeness issues that relate to a particular source system or implementation / build of a particular source system. The source system identifier will also be used in the reconciliation of data reported against source and to manage migration of data from one data repository to another.
Supporting Information:	

Domain			
Domain name:	Organisation Service Provider / Service Location Record Source Identifier (EDW)		
Domain ID:	9604	Version:	1.0
Domain definition:	Source systems identifiers for source systems that report Organisation Service Provider details or Service Locations details. Note: HERO currently reports this data.		
Based on 'EDW - Record Source System Identifier 1.0'.

Domain			
Domain name:	Australian Localities (EDW)		
Domain ID:	9541	Version:	1.0
Domain definition:	List of all Suburbs (updated July 2018), containing locality and postcode.		
	NB. Localities cannot be included in HIRD as codes as they typically exceed the maximum allowed (10 characters). Localities are therefore not validated against HIRD by EDWARD.		

Service Event General Practitioner: General Practitioner Practice Postcode (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_GENERAL_PRACTITIONER].[GP_PRACTICE_POSTCODE]		
Data Element ID:	13942	Version:	1.0
Definition:	The post code of the business address for the general practitioner's practice, where the patient attends.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 12
Representation Layout:	NNN(N)		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	Service events where the patient has a recorded general practitioner effective at the service event end date/time or at the time of diagnosis.
Scope:	CONDITIONAL <ul style="list-style-type: none"> Optional where General Practice details are reported.
Justification:	Postcode is an important part of a postal address and facilitates written communication. It is one of a number of geographic identifiers that can be used to determine a geographic location and supports service planning and distribution.
Supporting Information:	

Domain			
Domain name:	Postcodes - Australian (EDW)		
Domain ID:	9539	Version:	1.0
Domain definition:	List of all postcodes from Australia Post's 'Full Postcode Database' (updated October 2019).		
	NOTE: As a postcode can be associated to multiple suburbs, and Australia Post does not assign a single title to a postcode, this list assigns the first listed suburb to the postcode for ease of listing.

Service Event General Practitioner: General Practitioner Practice State Territory Abbreviation (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[SERVICE_EVENT_GENERAL_PRACTITIONER].[GP_PRACTICE_STATE_TERRITORY_ABBREV]
Data Element ID:	13943
Version:	1.0
Definition:	The defined State or Territory in Australia (in abbreviated format) of the business address for the general practitioner's practice, where the patient attends.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 1 Maximum: 3
Representation Layout:	AA(A)
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	Service events where the patient has a recorded general practitioner effective at the service event end date/time or at the time of diagnosis.
Scope:	CONDITIONAL Optional where General Practice details are reported.
Justification:	State/territory is an important part of a postal address and facilitates written communication. It is one of a number of geographic identifiers that can be used to determine a geographic location and supports service planning and distribution.
Supporting Information:	

Domain	
Domain name:	State Territory National Standard Abbreviation (EDW)
Domain ID:	9886
Version:	1.0
Domain definition:	Based on 'State/Territory' codeset in HERO. A subset of 'State Abbreviation 1.1' in HIRD.

Domain value set

Code	Descriptive label	Definition
ACT	Australian Capital Territory	
NSW	New South Wales	
NT	Northern Territory	
OS	Overseas	
OT	Other Territories	
QLD	Queensland	
SA	South Australia	
TAS	Tasmania	
VIC	Victoria	
WA	Western Australia	

Service Event General Practitioner: General Practitioner Practice Country of Address Code (EDW)

Defining Characteristics	
Data Element Type:	Composite Element
Physical Name:	[SERVICE_EVENT_GENERAL_PRACTITIONER].[GP_PRACTICE_COUNTRY_OF_ADDRESS_CODE]
Data Element ID:	13944
Version:	1.0
Definition:	The country of the business address for the general practitioner's practice, where the patient attends.
Status Allocation Date:	

Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 4 Maximum: 4
Representation Layout:	NNNN
Unit Of Measure:	
Additional Information:	

Collection and Usage Guide	
Guide for Use:	Recorded where the country of address is other than Australia ('1101'). Countries in this classification include: (1) Fully independent countries (sovereign nations states); (2) Administrative subdivisions of the United Kingdom; (3) External territories and dependencies of independent countries; (4) Units which are recognised geographic areas, the ownership or control of which is in dispute, e.g. Gaza Strip and West Bank; and (5) Residual categories (e.g. not elsewhere classified) comprised of geographic areas which are not separately identified in the classification and which are not part of one of the separately identified base-level units.
Scope:	CONDITIONAL <ul style="list-style-type: none"> Optional where General Practice details are reported.
Justification:	
Supporting Information:	

Domain	
Domain name:	Country (EDW) (MASTER LIST)
Domain ID:	13041
Version:	1.0
Domain definition:	ABS 1269.0 - Standard Australian Classification of Countries (SACC) - Updated to 2016 edition.

Domain value set

Code	Descriptive label	Definition
0000	Inadequately Described	The country of origin has been inadequately described by the respondent such that it could not be located in any other part of the classification scheme
0001	At Sea	
0003	Not Stated	To be used when the patient or their representative has not stated the country.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
0004	Unknown	Until 30/06/2017, this value was labelled "Unknown". To be used when the question about country has not been able to be asked of the person or their representative.

Onward Referral

Data Object ID 64

Business context

This object holds a record for each referral made to another service unit/team or organisation.

Business rules for reporting

- In an admitted patient setting at least one onward referral record must be reported for each service event, including where the service event results in a service category type change. Where the staff indicated that there was no onward referral, an onward referral record must be reported with the code value that indicates no onward referral.
- The “Referred to on Separation” value recorded at the encounter / stay in hospital level must be reported as a Referral Target Type Code for the last service event in an encounter only.
- For service events ending as a service category type change (rather than a formal discharge) the Referral Target Type Code must be reported as “05.26” - ‘Public Hospital Admitted Patient - Service Category Type Change’.
- Where an onward referral (or transfer) is made, and it is to another health organisation, the NSW state (HERO) health organisation identifier must be reported. Note that where the patient was formally transferred and the care is continuous, the organisation must also be reported in the service event transfer object.
- Where an onward referral is made to a named individual service provider, who is registered as an individual service provider on the same source system, the individual provider identifier must be reported. Otherwise report the individual service provider identifier as null.

Onward Referral: Referral Target Type Code (EDW)

Defining Characteristics	
Data Element Type:	Data Element
Physical Name:	[ONWARD_REFERRAL].[REFERRAL_TARGET_TYPE_CODE]
Data Element ID:	10498 Version: 1.0
Definition:	The type of organisation entity or individual that a client was referred to by a NSW Health service.
Status Allocation Date:	
Representation	
Data Type:	VarChar (Variable length)
Form:	Code
Field Size:	Minimum: 2 Maximum: 5
Representation Layout:	NN(.NN)
Unit Of Measure:	
Additional Information:	
Collection and Usage Guide	
Guide for Use:	<p>The 'referral target' should not be another Individual Service Provider within the same health service unit (registered entity in HERO). Where an ISP assumes responsibility for the care of the client or patient within the same unit it is not classed as an onward referral.</p> <p>The data domain is hierarchically structured. Wherever possible the selected value should be at the lowest level of the hierarchy (i.e. at the four-digit level 'NN.NN').</p> <p>For residential aged care services that are part of a Multi Purpose Service, code 05.62 should be used rather than any of the codes beginning with 07.</p> <p>Emergency Department Data Stream This concept is equivalent to Referred to on Separation.</p>
Scope:	MANDATORY
Justification:	This information is collected for the purpose of monitoring additional services required after patients are separated, and assists in analysis of client/patient flow and health care planning. This field can also assist in identifying areas for targeting the promotion of services as well as highlighting areas in which new services should be developed.
Supporting Information:	
Domain	
Domain name:	Referral Target Type Code (EDW)
Domain ID:	13562 Version: 1.0
Domain definition:	A classification describing the type of organisation or individual that a patient / client has been referred to by NSW Health health service.

Onward Referral: Referral Target Individual Provider Identifier (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[ONWARD_REFERRAL].[REFERRAL_TARGET_ISP_ID]		
Data Element ID:	10946	Version:	1.0
Definition:	The code assigned by the source system for the Individual Service Provider to whom the client is being referral.		
Status Allocation Date:			
Representation			
Data Type:	Alphanumeric		
Form:	Identifier Value		
Field Size:	Minimum:	1	Maximum: 7
Representation Layout:	X{7}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:			
Scope:	CONDITIONAL <ul style="list-style-type: none"> Mandatory for all Onward Referral records 		
Justification:	This field is required to allow multiple onward referrals for one service event, so that all referral targets can be identified. It facilitates linking of service events to referrals to analyse how clients/patients are being referred within the system, and to monitor the patient journey.		
Supporting Information:			
Domain			
Domain name:			
Domain ID:	Version:		
Domain definition:			

Onward Referral: Onward Referral Issued DateTime (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[ONWARD_REFERRAL].[ONWARD_REFERRAL_ISSUED_DATETIME]		
Data Element ID:	10502	Version:	1.0
Definition:	The date and time that the onward referral was issued by the referring service provider.		
Status Allocation Date:			
Representation			
Data Type:	DateTime		
Form:	Date - Time		
Field Size:	Minimum:	19	Maximum: 19
Representation Layout:	YYYY-MM-DD HH:MM:SS		
Unit Of Measure:			
Additional Information:	YYYY-MM-DD HH:MM:SS		
Collection and Usage Guide			
Guide for Use:	<p>In circumstances where a clinician makes multiple referrals within the service event for their client / patient, the Referral Target identifier (whether ISP or OSP) and ONWARD_REFERRAL_ISSUED_DATETIME should be reported for each referral. Referrals must relate to a service event but they need not be made on the day of the service event. In circumstances where a clinician makes a referral on the day of the service event, the ONWARD_REFERRAL_ISSUED_DATETIME will be the same as the SERVICE_EVENT_END_DATETIME.</p>		
Scope:	<p>MANDATORY Mandatory for all Onward Referral records</p>		
Justification:	<p>This field is required to assist in the analysis of client/patient journeys. It supports analysis of the linkage between services. It is also required to support the calculation of a range of Key Performance Indicators, as time to onward referral is increasingly regarded as an important indicator of evidence-based clinical practice for a range of conditions.</p>

Service Event Transfer

Data Object ID 130

Business context

This object holds a record when the formal admission arose from the transfer of the client from another facility, and when the formal discharge results in the transfer of the client to another facility. This means there can be zero, one, or two records.

Business rules for reporting

A Service Event Transfer record must be reported with a service event transfer type code set to value "1" (Inbound Transfer of Care), where the care of the patient has been transferred from one health organisation / hospital to the health organisation / hospital reporting the service event. This will be indicated by selected Service Event Request Source Type Code values, and the population of the referred from / transferred from field in the source system with the relevant health organisation.

- A Service Event Transfer record must be reported with a service event transfer type code set to value "2" (Outbound Transfer of Care), where the care of the patient has been transferred from the health organisation / hospital reporting the service event to another health organisation / hospital. This will be indicated by selected Formal Discharge Mode Code values, and the population of the referred to / transferred to field in the source system with the relevant health organisation.

Health Service Ward

Data Object ID 134

Business context

This object holds one or more current records for each defined ward in an Admitted Patient – Public setting.

Business rules for reporting

A HEALTH_SERVICE_WARD record must be reported where:

- o A new Ward is established.
- o An existing Ward is closed.
- o One or more other characteristics of an existing Ward are changed.
- Health Service Wards include virtual and physical wards.

Form:	Identifier Value		
Field Size:	Minimum:	1	Maximum: 20
Representation Layout:	X{20}		
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>Health care campus /centre service location identifiers are assigned by HERO: http://hero.health.nsw.gov.au/.</p> <p>A search facility is provided in HERO, and a HERO user account is not required to search for, or view, HERO registrations. HERO can only be accessed inside the NSW Health network.</p> <p>Only HERO Service Locations classified to the HERO Establishment Type "04.11: Location - Health Care Campus / Centre" are valid for reporting. While lower level locations may</p>		

be registered in HERO, they are not valid for reporting to the Non-admitted Patient Data Collection in the field allocated to "Health Care Campus / Centre Service Location Identifier". Note: Will generate a mLOAD error if the identifier is not listed in DOMAIN 14181 - Health Care Campus / Centre Service Location Identifier (EDW)

If a Health Care Campus / Centre Service Location Identifier is not found in HERO, contact the Local Health District HERO administrator who can register the health care campus / centre location and submit it for Ministry of Health approval.

All NSW Health managed and leased health care campuses and centres, and all Justice Health and Forensic Health Network campus locations are expected to be registered in HERO. Campus / centre service locations of private sector and not for profit organisations that NSW Health has contracted to provided services are also expected to be registered in HERO as health care campus / centre locations.

Conditional Mandatory Business Rules:

The Health Care Campus / Centre Service Location Identifier must be reported if the location that the service is provided at was:

- operated by, owned by or leased by a NSW Health organisation entity OR
- operated by, owned by or leased by a private sector organisation entity and the service provided was delivered by a private sector health organisation contracted by NSW Health to provide services on its behalf OR
- operated by, owned by or leased by a private sector organisation entity and the service provided was delivered by a NSW Health service unit that is based at the location (Service Off Base Site Indicator = "1" (On the health care campus of the healthcare provider).

AND the Primary Setting Type Code is reported as one of the following codes:

- 1 Hospital, not further defined
 - 1.1 Hospital - Emergency Department
 - 1.2 Hospital - Admitted Patient Mental Health Ward
 - 1.3 Hospital - Admitted Patient Ward, Not Elsewhere Classified
 - 1.4 Hospital - Outpatient Department / Clinic Location
 - 1.5 Hospital - Ambulatory Procedure Centre
 - 1.6 Hospital - Co-located General Practice
 - 1.9 Hospital - Location Not Elsewhere Classified
 - 2 Community Health Setting, not further defined
 - 2.1 Community - Aboriginal Medical Health Centre
 - 2.2 Community - Mental Health Centre
 - 2.3 Community - Day Care Centre / Respite Care Centre
 - 2.4 Community - Needle Exchange Centre
 - 2.9 Community - Health Setting, Not Elsewhere Classified
 - 3 Home, not further defined #
 - 3.2 Home - Community residential mental health facility
-

	<p>3.3 Home - Community residential drug and alcohol therapeutic treatment facility</p> <p>3.4 Home - Community Supported Living / Group Home</p> <p>3.5 Home - Community Residential Care Facility, not further defined</p> <p>3.6 Home - Residential Aged Care Facility</p> <p>3.7 Home - Correctional / Justice Facility</p> <p>4 Other Setting, not further defined ##</p> <p>4.1 Other Setting - Specialist Private Medical Practice</p> <p>4.2 Other Setting - General Practice / Primary Care</p> <p>Note: # Health Care Campus / Centre Service Location Identifier must be reported for category 3 if the location meets the definition of categories 3.2 to 3.7</p> <p>Note: ## Health Care Campus / Centre Service Location Identifier must be reported for category 4 if the location meets the definition of categories of 4.1 or 4.2</p>
Scope:	For all other services, where the Primary Setting Type Code is on Non-admitted patient services provided by NSW public hospitals, integrated health services, multi purpose services and community health services.
Justification:	<p>For Admitted Patient services this field is used in conjunction with other key fields to uniquely identify a bed, and its location, within the NSW Health system.</p> <p>For Non-admitted Patient services this field is used for health service planning. It is required because service units may perform outreach services and provide services on different health care campuses. In these cases the service unit, and the health organisation that funds and managers that service unit, is not representative of the location at which services are provided. It may also be used in allocating overhead costs (maintenance, rent, cleaning, energy costs etc) to cost centres.</p>

Health Service Ward: Health Service Building Location Identifier (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[HEALTH_SERVICE_WARD].[HEALTH_SERVICE_BUILDING_LOCATION_ID]		
Data Element ID:	13983	Version:	1.0
Definition:	The NSW state unique identifier (allocated by HERO) assigned to the health service building on a health care (including hospital) campus.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Identifier Value		
Field Size:	Minimum: 1	Maximum:	20
Representation Layout:			
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The hospital building location identifier is an optional field that can be used to support drill through reporting by location, should a local health district be interested in producing such reports / functionality.</p> <p>The hospital building location local identifier, may also be reported, but will not form part of the standard location hierarchy supported in EDWARD.</p> <p>Hospital building location identifiers are assigned by HERO: http://hero.health.nsw.gov.au/</p> <p>Assigned hospital building location identifiers can be found by searching HERO (a user account is not required to view HERO data). The hospital campus location identifiers in HERO have an establishment group of "Locations" and an establishment type of "Location - Hospital Building".</p> <p>If a hospital campus location is not found, contact the local HERO administrator to register the building as a location.</p>		
Scope:	NSW public hospitals, integrated health services and multi purpose services.		
Justification:	Used in conjunction with other key fields to uniquely identify a bed, and its location, within the NSW Health system.

Additional Information:			

Collection and Usage Guide	
Guide for Use:	In some builds of patient administration systems each ward is assigned a primary bed / unit type, to indicate the principle clinical intent of the ward. Where this is recorded against the ward in the ward details, report the primary bed / unit type for the ward.
Scope:	NSW public hospitals, integrated health services and multi purpose services.
Justification:	Supports reporting of activity by the type of ward, where data is reported at the ward level rather than the bed level.
Supporting Information:	

Domain			
Domain name:	Health Service Ward Type Code (EDW)		
Domain ID:	14419	Version:	1.0
Domain definition:	A high level classification of the type of health service / hospital ward established on a patient administration systems.		

Domain value set

Code	Descriptive label	Definition
01	Emergency Department Ward	A ward established on the patient administration system to allow the admission of patients while they are accommodated in the hospital's emergency department.
02	Admitted Patient Ward	A ward established on the source system to represent a physical area containing beds or treatment chairs within the facility that is reporting admitted patient activity.
03	Residential Aged Care Ward	Only wards dedicated to residential aged care that contain federally funded residential aged care beds.
04	Community Residential Care Ward	
05	Virtual Ward, Collaborative Care	A ward established to admitted patients provided services at another facility under a collaborative care or contractual arrangement, where the facility

Domain name:	Bed/Unit Type (EDW)		
Domain ID:	13042	Version:	1.0
Domain definition:	The designation of the bed used to accommodate a patient during a service event. Bed designations relate to a range of issues resource usage, funding arrangements, functional areas, and specialised use for particular clinical conditions or procedures.		

Domain value set

Code	Descriptive label	Definition
01	General - Mixed	A bed staffed 24 hours a day and designated by the facility for the accommodation of medical, surgical and/or obstetric patients of a non-specific age. Beds in this category are typically located in small and rural hospitals (such as Multi Purpose Services) where medical, surgical, and obstetric patients are accommodated in the same ward as standard practice.
02	Rehabilitation	A bed staffed 24 hours a day and designated by the facility for the accommodation of patients primarily requiring rehabilitation care.
03	Palliative	A bed staffed 24 hours a day and designated by the facility for the accommodation of patients primarily requiring palliative care.
04	Psychiatric Acute	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
05	Psychiatric Rehabilitation	<p>accommodate patients who present with acute episodes of mental illness.</p> <p>A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients requiring care which has a primary focus on intervention to reduce functional impairments resulting from psychiatric disorders that limit the independence of patients.</p> <p>From 1 July 2007 this category includes Transitional Behavioural Assessment Intervention Service (T-BASIS) Units.</p> <p>Note: Beds in this category may be used for a mix of both day stay and overnight patients, but must be staffed for overnight patient care. Beds in this category may not be used for 'overflow patients'. Days spent in this type of bed are counted as "Days in a Designated Psychiatric Unit".</p>
06	Psychiatric Secure	<p>A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate of forensic patients (or other patients) requiring a higher level of care and containment than other mental health patients.</p> <p>Forensic patients are people with a mental disorder that has led them to commit criminal offences, or makes it likely that they will offend in the future if not adequately treated or contained.</p>
07	Drug and Alcohol	<p>A bed staffed 24 hours a day that is officially recognised by NSW Health for the accommodation of patients requiring treatment for substance use/abuse on an admitted patient basis; excluding detoxification.</p>
08	Brain Injury Rehabilitation	<p>A bed staffed 24 hours a day and officially designated by NSW Health Department circular for the accommodation of admitted patients receiving care in a rehabilitation unit for a brain injury under the Brain Injury Rehabilitation Program.</p>
12	Psychiatric Intensive Care	<p>A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients requiring a higher intensity of management than can be readily provided in a general acute psychiatric bed.</p> <p>These beds are staffed and designed for the accommodation of patients who:</p> <ul style="list-style-type: none"> • are severely disturbed and represent a high risk of being a danger to themselves, others or the environment • present with threatening or violent behaviours and cannot be safely managed in a less restrictive environment • require higher levels of nursing observation.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
13	Psychiatric Perinatal Acute Care	A bed staffed 24 hours 7 days, 365 days per year that is designated by the Mental Health Branch (MHB) to accommodate patients and their infants (0-12 months) who present with an acute episodes of mental illness. Beds in this category are at one end of the spectrum of state-wide mental health care for pregnant women and mothers with perinatal mental health problems, their infants and families. The purpose of joint mother–baby admission is to treat the mother’s psychiatric disorder; to facilitate and enhance mother–baby attachment; and to promote optimal child biopsychosocial development
16	Neonate Special Care Nursery	A bed staffed 24 hours a day that is approved by the federal Government for the purpose of the provision of neonatal special care.
17	Emergency Department - Level 3 and Above	A bed, stretcher, trolley or chair in an area within the hospital staffed 24 hours a day and designated as an Emergency Department of Level 3 or above.
18	Mother Craft	A bed officially designated by the Department for accommodating patients receiving mothercraft services only.
20	Psychiatric Extended Care	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who require care over an indefinite period because they have a stable but severe level of functional impairment and an inability to function independently and thus require extensive care and support.
21	Neuro-Psychiatry	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who require neuro-psychiatric care. These beds are attended by specialists in Neurology or Neuropsychiatry.
22	Dual Diagnosis	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who require specialist care for co-existing mental health and substance use disorders.
25	Hospital in the Home - General	A “virtual” bed established on the patient administration system to record general admitted patient activity provided under a recognised “Hospital in the Home” program to patients in their private place of residence.
26	Hospital in the Home - Drug and Alcohol	A “virtual” bed established on the patient administration system to record drug and alcohol admitted patient activity provided under a recognised “Hospital in the Home” program to patients in their private place of residence.
29	Collaborative Care Service Provider - General	A “virtual” bed established on the patient administration system to record general admitted patient activity provided by another public or private hospital under a collaborative (or contract) care arrangement.
30	Collaborative Care Service Provider - Drug and Alcohol	A “virtual” bed established on the patient administration system to record drug and alcohol admitted patient activity provided by another public or

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		private hospital under a collaborative (or contract) care arrangement.
32	Collaborative Care Service Provider - Mental Health	A "virtual" bed established on the patient administration system to record mental health admitted patient activity provided by another public or private hospital under a collaborative (or contract) care arrangement.
33	Coronary Care	A bed staffed 24 hours a day that is designated by the facility to accommodate patients who require cardiac monitoring (both bedside and central), but which otherwise does not meet the criteria of '15 - Intensive Care'.
37	Neonatal Intensive Care	A bed staffed 24 hours a day that meets the Intensive Care role delineation of level 3 or higher, and used to accommodate neonates requiring intensive care. These beds must be capable of providing complex, multi-system life support for neonates for an indefinite period. They must be located in an area capable of providing mechanical ventilation and invasive cardiovascular monitoring; or care of a similar nature.
38	Transplant	A bed in a designated special State unit dedicated to care of transplant recipients. This category includes unit dedicated for bone marrow (haemopoietic stem cell), renal, heart, heart-lung, liver, and pancreas transplants.
39	Same Day Renal Dialysis	A chair/bed in a designated specialised day stay unit that is dedicated to the provision of renal dialysis services.
40	Specialist Spinal Injury	A bed staffed 24 hours a day that is designated as a special State unit dedicated to the initial treatment and subsequent ongoing management and rehabilitation of patients with acute spinal cord injury.
41	Severe Burns	A bed staffed 24 hours a day that is designated as a special State unit dedicated to the initial treatment and subsequent rehabilitation of severely injured burns patients. Patients accommodated in these beds usually have greater than 10 per cent of body surface affected for adults, and greater than 5 per cent of body surface affected for children.
42	Dental Service	A bed in a specialised unit designated for the treatment of the patients receiving dental services.
43	Paediatric	A bed staffed 24 hours a day that is designated by the facility for accommodation and treatment of patient's aged older than 29 days and less than 16 years.
46	Medical	A bed staffed 24 hours a day and designated by the facility to primarily accommodate medical patients of a non-specific age.
47	Surgical	A bed staffed 24 hours a day and designated by the facility to primarily accommodate surgical patients of a non-specific age.
48	Medical Oncology	A bed staffed 24 hours a day in a unit designated by the facility to accommodate overnight patients who require medical oncology services.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
49	Obstetrics	A bed in a unit designated by the facility to accommodate primarily obstetric/maternity patients of a non-specific age, or to accommodate neonates but does not meet the criteria of '16 - Neonate Special Care Nursery' or '37 - Neonate Intensive Care Unit'.
51	Respite - High: Federal Government Block Funded	<p>A residential aged care place operated in a high care residential aged care facility (nursing home) that is designated and funded by the Australian Government for the provision of respite care to allow a carer or care recipient a short term break from their usual care arrangement.</p> <p>In order to access respite care in a residential aged care facility, people must have been assessed by an Aged Care Assessment Team. Residential respite care places must not be used as a waiting facility for people seeking a permanent bed. The maximum period for the provision of respite care in a residential aged care facility is 63 days. Extensions can be granted for further 21-day periods.</p>
52	Respite - Low: Federal Government Block Funded	<p>A residential aged care place operated in a low care residential aged care facility (hostel) that is designated and funded by the Australian Government for the provision of respite care to allow a carer or care recipient a short term break from their usual care arrangement.</p> <p>In order to access respite care in a residential aged care facility, people must have been assessed by an Aged Care Assessment Team. Residential respite care places must not be used as a waiting facility for people seeking a permanent bed. The maximum period for the provision of respite care in a residential aged care facility is 63 days. Extensions can be granted for further 21-day periods.</p>
53	Transitional Living Unit Beds - Brain Injury Rehabilitation Program	A bed staffed 24 hours a day that is officially approved by NSW Health Department Circular under the Brain Injury Rehabilitation Program, for the accommodation of clients requiring transitional living care services following a brain injury.
54	Mental Health Community Residential (24 hour staffing)	A bed designated to accommodate mental health community residential care clients in a unit staffed 24 hours a day
55	Mental Health Community Residential (<24 hour staffing)	A bed designated to accommodate mental health community residential care clients in a unit that is not staffed 24 hours a day.
56	Mental Health Social Day Program	A 'virtual' bed established for the purpose of recording mental health social day program activity on a patient administration system.
57	Aged and Disability Social Day Program	A 'virtual' bed established for the purpose of recording non-admitted aged and disability social day program activity on a patient administration system.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
58	Emergency Department - Level 1 or 2	A bed, stretcher, trolley or chair in an area within the hospital staffed 24 hours a day and designated as an Emergency Department of Level 1 or Level 2.
59	Emergency Department Short Stay Unit (EDSSU)	<p>Short stay medicine in Emergency Departments (EDs) offers intensive short-term assessment, observation or therapy, in a 'ward-like' environment, to optimise the early treatment and discharge of selected ED patients. The model is an alternative to extended stays in hospital EDs and/or the use of multi-day inpatient beds for short-term care.</p> <p>The aim of the EDSSU is to improve care of patients requiring short term inpatient clinical management. EDSSUs have been shown to reduce inpatient ward length of stay for appropriately selected patients who would otherwise have been admitted to a ward bed, and improve care of those who may have stayed within the ED for prolonged periods. EDSSUs improve the flow of patients through the ED, thereby improving access to care for new emergency patients.</p> <p>EDSSUs are designated for patients who are to be discharged within 24 hours. This includes stable patients who require observation and/or further investigation to ascertain the seriousness of their condition (e.g. minor head injury, chest pain, infections) or a short course of treatment for conditions that may be rapidly resolved (e.g. asthma, allergic reactions, snake bite and renal colic). Patients are admitted and managed under the care of local Specialist Emergency Physicians (EPs).</p> <p>EDSSUs also provide a location for ED patients who may require allied health and social support intervention, such as physiotherapy, occupational therapy or social welfare services prior to discharge.</p> <p>Note: This Bed Type Category was previously known as 'Emergency Medical Unit' 'EMU' or 'ESSU'. See NSW Health Policy Directive 2014_040 - Emergency Department Short Stay Units for policy details pertaining to this beds in this category.</p>
60	Bassinet	<p>A bed staffed 24 hours a day that is designated for the care of newborns, other than a Federal Government approved neonate special care nursery, or a designated neonate intensive care unit.</p> <p>Beds in this category may either be located next to the mother's bed, or in a separate nursery that does not meet the criteria of a neonate special care nursery.</p>
61	Detoxification	A bed staffed 24 hours a day that is designated by the facility for the accommodation of patients requiring drug detoxification care.
64	CAMHS Acute	A bed staffed 24 hours a day that is specifically designated by the NSW Health Centre for Mental Health to accommodate child or adolescent mental health patients who require acute care. These beds are

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		funded under the Child and Adolescent Mental Health Services(CAMHS) program.
65	CAMHS Non-Acute	A bed staffed 24 hours a day that is specifically designated by the NSW Health Centre for Mental Health to accommodate child or adolescent mental health patients who require non-acute care. These beds are funded under the Child and Adolescent Mental Health Services(CAMHS) program.
66	Delivery Suite	A bed able to be staffed 24 hours a day, that is dedicated for the delivery of newborns.
67	Operating Theatre / Recovery	A bed able to be staffed 24 hours a day, that is within a dedicated operating theatre or theatre procedure recovery area.
68	Mobile Service	A mobile bed located within a vehicle which is used to deliver admitted patient care, including routine procedures, outside the hospital setting. These services are generally run in remote rural areas, and generally intended for routine admitted patient services that can be provided on a same day basis.
69	Stroke	A bed staffed 24 hours a day that is designated by the facility to accommodate patients who are recovering from a stroke.
70	Drug and Alcohol Community Residential	A bed staffed 24 hours a day, located in a community or non-admitted patient setting, that is used to accommodate patients who require treatment for substance use/abuse on a non-admitted patient basis.
71	Same Day Chemotherapy	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day chemotherapy and radiation oncology services only.
72	Sleep Disorder (< 24 hour care)	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day sleep disorder patients only.
73	Same Day Mental Health	A chair or bed staffed for a limited period each a day that is designated by the NSW Health Centre for Mental Health for the provision of same day mental health services only.
74	Same Day Drug and Alcohol	A chair or bed staffed for a limited period each a day that is designated by the facility for the accommodation of patients requiring same day treatment for substance use/abuse; and/or detoxification.
75	Same Day, not elsewhere classified	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day services only, and not covered by any other same day Bed Type category.
76	Transit Lounge	A chair or lounge used to temporarily accommodate patients that no longer require care within a specific ward, are medically ready to be discharged, and unable to be formally discharged due to a requirement for further observation or limited care by nursing staff, return of test results, fulfilment of prescriptions, completion of administrative tasks, etc. These chairs or lounges are

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
77	Transitional Care – In Hospital – Federal State Mix Funding	<p>generally used to address the problem of access block to overnight wards.</p> <p>A flexible care place located within a facility under the terms of the Australian Government Transition Care Program Guidelines and the Aged Care Act 1997. The facility must be modified and designated for the provision of transitional aged care. Transitional Aged Care places must be used to provide a mix of services for older people at the conclusion of a hospital admission. Services will include low intensity therapy such as physiotherapy, occupational therapy and social work and nursing support and/or personal care for clients to complete their restorative process and optimise their functional capacity. Services are provided for a limited time period of up to 12 weeks with a possible extension of another 6 weeks.</p> <p>The clients accommodated in these places must:</p> <ul style="list-style-type: none"> • have completed their acute and sub-acute episodes of care, be medically stable and discharged from hospital upon entry to the Transitional Aged Care Program, • have an ACAT approval to receive transitional aged care, • be eligible to receive permanent residential aged care at least at a low level of care
78	Transitional Care – Community – Federal State Mix Funding	<p>A flexible care place located in the community under the terms of the Australian Government Transition Care Program Guidelines and the Aged Care Act 1997.</p> <p>Transitional Aged Care places must be used to provide a mix of services for older people at the conclusion of a hospital admission. Services will include low intensity therapy such as physiotherapy, occupational therapy and social work and nursing support and/or personal care for clients to complete their restorative process and optimise their functional capacity. Services are provided for a limited time period of up to 12 weeks with a possible extension of another 6 weeks.</p> <p>The clients accommodated in these places must:</p> <ul style="list-style-type: none"> • have completed their acute and sub-acute episodes of care, be medically stable and discharged from hospital upon entry to the Transitional Aged Care Program, • have an ACAT approval to receive transitional aged care, • be eligible to receive permanent residential aged care at least at a low level of care

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
79	Gynaecology	A bed staffed 24 hours a day and designated by the facility to primarily accommodate gynaecology patients of a nonspecific age.
80	Same Day Medical	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day medical services only.
81	Same Day Surgical	A chair or bed staffed for a limited period each a day that is designated by the facility for the provision of same day surgical services only.
82	Extended Short Stay Surgical (< 24 hrs)	<p>A chair or bed staffed for a time period within each 24 hours that is designated by the facility for the provision of surgical services only.</p> <p>23 Hour Care Units are based on the premise that the majority of surgical care can be administered within a 24-hour period in a non-ward environment. Patients can be admitted, prepared for the surgical procedure, then monitored and provided with appropriate pain relief post surgery before protocol based discharge occurs within 24 hours.</p> <p>Extended Day Only (EDO) can be for emergency or elective procedures (surgery and occasionally non surgery e.g. diagnostic procedures, medical procedures).</p> <p>EDO beds may be staffed on a 24/7 basis depending on the facility (hence emergency surgery of EDO type can be accommodated).</p> <p>Some units may choose to have Day Only Extended Day Only co-located.</p>
83	Residential Aged Care, Not Further Defined	<p>A bed block funded by the federal Government, for the provision of either high level (nursing home), low level (hostel) or respite residential aged care. These beds are NOT counted admitted patient beds.</p> <p>These beds may be located in Public Nursing Homes, Multi Purpose Services, and a small number specially approved public hospitals (for example, rural hospitals that have lodged an application to become a Multi Purpose Service).</p> <p>Note 1: From 1 July 2014 there is no longer the distinction between high care and low care residential aged care beds.</p> <p>Note 2: Beds in this category may not be used for 'overflow patients'. Ward transfers transactions to this Bed Type are not permitted. For all other ward transfers to this Bed Type a formal discharge and formal admission transaction must be performed.</p>
85	Psychiatric Emergency	A bed staffed 24 hours a day that is designated by the NSW Health Centre for Mental Health to accommodate patients who present to hospital Emergency Departments with acute mental illness and require specialised mental health care and observation prior to disposal (e.g.

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		transportation, transfer to another admitted patient bed, transfer to another designated psychiatric bed or discharge). They may be admitted as either voluntary or involuntary patients under the Mental Health Act. These beds are co-located and associated with the Emergency Department of a hospital.
86	Respite - Not Further Defined	<p>A bed block funded by the federal Government, for the provision of residential aged care to short stay respite clients. These beds are NOT counted admitted patient beds.</p> <p>These beds may be located in Public Nursing Homes, Multi Purpose Services, and a small number specially approved public hospitals (for example, rural hospitals that have lodged an application to become a Multi Purpose Service).</p>
87	Medical Assessment Unit (MAU)	<p>A bed in a dedicated Medical Assessment Unit (MAU) which is a physical ward that is close to the Emergency Department although not co-located.</p> <p>The MAU is an alternative pathway for adult non-critical medical patients; in many cases these will be elderly complex medical patients with co-morbidities.</p> <p>Patients within the MAU can expect to stay for a period of up to 48 hours, after this time most will be discharged home (with community services where appropriate), while some who require specialised care will be transferred to an inpatient bed.</p>
88	Justice Health Clinical Observation Bed	This value is not in policy directive 2008_034 but is in the bed type admitted patient data collection instructions dated applicable from 1 July 2011. This inconsistency needs to be resolved.
89	Drug and Alcohol Involuntary Treatment Bed	An inpatient bed staffed 24 hours a day and designated for the accommodation of involuntary clients being treated under the Drug and Alcohol Treatment Act of 2007.
90	Transfer to Another Facility	<p>A 'virtual' bed established on the Patient Administration System to record a patient being transferred to another facility and for whom clinical care is being maintained during transfer while he/she remains admitted to the facility.</p> <p>When an admitted patient is being transferred to another facility for ongoing clinical care, and the sending facility is maintaining clinical care during the transfer, the patient remains admitted to the sending facility until handover of clinical care. In this instance the patient may be transferred on the facility's PAS to a 'Transfer to Another Facility' bed allowing the physical bed which he/she had occupied to be used for another patient during the transfer period in which the patient remains admitted to the facility.</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
91	Intensive Care Unit 1	<p>Bed within a designated Intensive Care Unit occupied by a ventilated or other similarly critically ill patient (clinically determined), including those that may require complex management and require constant monitoring and care without interruption (e.g. ventricular assist device, ECMO). (Prior to 1 July 2018, identified as Bed Type 15 – General Intensive Care).</p> <p>An ICU is a specially staffed and equipped, separate and self-contained area of a hospital, dedicated to the management of patients with life-threatening illnesses, injuries and complications, and monitoring of potentially life-threatening conditions.</p> <p>Beds in this category may not be used for 'overflow patients'. Time in this Bed Type counts towards "Hours in Intensive Care".</p>
92	Intensive Care Unit 2	<p>Bed within a designated Intensive Care Unit occupied by a critically ill patient whose condition or acuity has been clinically determined as lower than that requiring an Intensive Care Unit 1 bed.</p> <p>An ICU is a specially staffed and equipped, separate and self-contained area of a hospital, dedicated to the management of patients with life-threatening illnesses, injuries and complications, and monitoring of potentially life-threatening conditions.</p> <p>Beds in this category may not be used for 'overflow patients'. Time in this Bed Type does NOT count towards "Hours in Intensive Care".</p>
93	Close Observation Unit	<p>Bed occupied by a patient whose condition or acuity has been clinically determined as requiring a higher level of clinical care or monitoring than is available in a general ward bed, but not requiring admission to a designated Intensive Care Unit. (Prior to 1 July 2018, identified as Bed Type 34 – High Dependency Care).</p> <p>A COU is a specially staffed and equipped area of a hospital that provides an intermediate level of care between intensive care and general ward care. A Level 3 COU is applicable to a hospital that has no intensive care service and a Level 4 COU is applicable to a hospital that has a Level 4, 5 or 6 intensive care service.</p> <p>Beds in this category may not be used for 'overflow patients'. Time in this Bed Type does NOT count towards "Hours in Intensive Care".</p>
99	Lodger / Boarder Beds	<p>Beds used to accommodate boarders and lodgers who are not in receipt of health care. People accommodated in these beds are commonly relatives (e.g. parents or children) of patients.</p> <p>Most activity reported under this Bed Type would have a Service Category of "0 – Hospital Boarder", however where clinical coding needs to be reported</p>

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
		for a local requirement non-admitted patient activity may also be reported as "6 – Other Care".

Health Service Bed

Data Object ID 135

Business context

This object holds one or more current records for each defined bed in an Admitted Patient – Public setting.

Business rules for reporting

A HEALTH_SERVICE_BED record must be reported where:

- A new Bed is established.
- An existing Bed is closed.
- One or more other characteristics of an existing Bed are changed.
- Health Service Beds include virtual and physical beds.

Health Service Bed Attribute

Data Object ID 136

Business context

This object holds the attributes of each bed reported in the Health Service Bed object.

Business rules for reporting

HEALTH_SERVICE_BED_ATTRIBUTE records are mandatory for this bed attribute type:

- o "01" (Health Service Bed Type)

HEALTH_SERVICE_BED_ATTRIBUTE records are conditionally mandatory for the following bed attribute types:

- o "02" (Virtual Bed Flag), where the bed is flagged as a virtual bed or not.
- o "03" (Single Room Flag), where the bed is flagged as being either in a single room or not.
- o "04" (Day Stay Only Flag), where the bed is flagged as a being a dedicated day stay bed or not.
- o "05" (Mental Health Sub Program Code), where the Health Service Bed Type is a designated mental health bed.

Where a flag is represented on the source system as a tick box or pick list report a record for the flag. Where the attribute is attached to the bed, report a record with the recorded value or code. Where the attribute is not attached to the bed do not report a record.

Where an attribute values ceases to apply to a bed report an update with the Health Service Bed Attribute End Datetime set to the date / time that the attribute value ceased to apply.

Where a new attribute value starts to apply to a bed report an insert record with the Health Service Bed Attribute Start Datetime set to the effective start date / time.

A bed can have multiple bed types and mental health sub programs effective at the same time. Where there are multiple bed types and / or multiple mental health sub programs each must be reported. For all other attributes there should only be one value effective at the same time.

Bed attributes must be reported where

- o A new Bed is established / first opened or permanently closed.
- o Attributes are added, updated, or end dated.

Domain value set

Code	Descriptive label	Definition
B	Child Adolescent Care – Direct Client Services	A specialist psychiatric/mental health unit/staff person which principally targets children and young people up to the age of 18 years. Classification of services into this category requires recognition by the regional or central funding authority of the special focus of the service on children and adolescents.
C	General Adult Care – Direct Client Services	A specialist psychiatric/mental health unit/staff person, which provides general psychiatry services to the general adult population, but may provide services to children, adolescents or the aged in special circumstances when more appropriate service provision is unavailable. They are psychiatric/mental health services/staff which cannot be described as

EDWARD Public Admitted Patient Care Data Stream Data Dictionary Version: 2021

Code	Descriptive label	Definition
D	Older People Psychiatric Care – Direct Client Services	<p>specialist child and adolescent, geriatric or forensic services.</p> <p>A specialist psychiatric/mental health unit/staff person, which principally targets people in the age group 65 years and over. Classification of services into this category requires recognition by the regional or central funding authority of the special focus of the service on aged persons. This service category does not include the treatment of older people by general psychiatry services.</p>
E	Forensic Psychiatric Care – Direct Client Services	<p>A specialist psychiatric/mental health unit/staff person which assesses, treats or cares for mentally disordered individuals whose condition has led them to commit criminal offences or makes it likely that they will offend in the future if not adequately treated or contained.</p> <p>These services will mainly be associated with Corrections Health Service or the secure units at Cumberland and James Fletcher Hospitals.</p> <p>Forensic legal status of a patient does not determine the forensic specialty of the service.</p>

Service Event Notifiable Cancer Data Object ID 114

Business context

This object holds a record for every primary site of cancer diagnosed for a client at the time of the reported service event.

Business rules for reporting

A primary site of cancer record must be reported for each diagnosis record that is reported where the diagnosis is a primary site of cancer. Patient administration systems have triggers to identify these diagnosis codes and enforce completion of the cancer notification.

- Only one primary site of cancer record may be reported for each diagnosis record. However, the primary site of cancer record may or may not be reported in the same container as the diagnosis record. This may be due to tardiness of completing the primary site of cancer fields in the source system, or due to updates to the primary site of cancer record but not the diagnosis record.
- If the related diagnosis record is sent through as a delete to EDWARD, the related primary site of cancer record must also be notified as a delete to EDWARD.
- If the related diagnosis record is modified to a different code, then the primary site of cancer record must be notified as a delete (if the diagnosis code is no longer a primary site of cancer code) or as an update (if the diagnosis code is changed to another primary site of cancer code) and the change of that diagnosis code has altered the data recorded about the primary site of cancer.
- The morphology code must be reported as an ICD-10-AM code or equivalent classification code relevant at the point of extract.
- Where the GP at the time of the diagnosis of the primary site of cancer is known, report the Service Event GP Record Id.

Additional Information:			
Collection and Usage Guide			
Guide for Use:	The record identifier is a stable source system identifier that can be sent / resent by the source system to the enterprise data warehouse to trigger a record insert, update or deletion.		
Scope:	Must be reported for every diagnosis record. Diagnosis records are reported for all service events, but generally do not apply to residential care service event types.		
Justification:	Diagnosis is used for epidemiological analysis, and plays a role in determining the Diagnosis Related Group and other cost weights relating to service events of any type (other than residential care services).

Service Event Notifiable Cancer: Cancer Morphology Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_NOTIFIABLE_CANCER].[CANCER_MORPH_CODE]		
Data Element ID:	14050	Version:	1.0
Definition:	The histology of the neoplasm, reported as an ICD diagnosis code.		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum: 1	Maximum:	20
Representation Layout:	X{20}		
Unit Of Measure:			
Additional Information:	3 digit disease codes: ANN 4 digit disease codes: ANN.N 5 digit disease codes (full): ANN.NN Morphology codes: ANNNN/N		
Collection and Usage Guide			
Guide for Use:	<p>The morphology is usually obtained from a pathology report.</p> <p>The morphology axis provides five-digit codes ranging from M-8000/0 to M-9989/3. The first four digits indicate the specific histological term. The fifth digit after the slash (/) is the behaviour code, which indicates whether a tumour is malignant, benign, in situ, or uncertain (whether benign or malignant).</p> <p>A separate one-digit code is also provided for histologic grading (differentiation).</p> <p>The data domain to be used for this data item for separations with episode end dates on or after 1 July 2010 is described in the following publication: The International Statistical Classification of Diseases and Related Health Problems, 10th Revision, Australian Modification, 7th Edition, 1 July 2010, National Centre for Classification in Health, Faculty of Health Science, University of Sydney, Australia.</p> <p>Any errata issued by the National Casemix and Classification Centre must be complied with from the date the errata are received. The "/" in the morphology code must be reported as part of the code.</p> <p>Unknown Morphology of Primary Site</p> <p>In some situations the pathology reporting containing the information required to complete this data item may not be available at the time of initial reporting. To meet reporting due dates the code of "M8000/3" (Neoplasm, Malignant, Not Otherwise Specified) should be used as a temporary default code until the required information is available.</p> <p>The standard data quality checks as issued by NSW Ministry of</p>		

	<p>Health will be applied to this data item. The table of clinical data quality checks will be issued separately.</p> <p>In addition, the following checks are recommended:</p> <ul style="list-style-type: none"> • If “Morphology of Primary Site of Cancer” is not a valid morphology code, then raise error. • If “Morphology Code of Primary Site of Cancer” has not been reported as an “Additional Diagnosis”, then raise error. <p>Note: See “Morphology of Neoplasms” page 575 of “ICD-10-AM Tabular List of Diseases, Volume 1 of the International Statistical Classification of Diseases and Related Health Problems, 10th Revision, Australian Modification, 7th Edition, 1 July 2010” for list of valid morphology codes.</p>
Scope:	This item is mandatory for reporting to the NSW Cancer Registry for all admitted patient service events where there is a reported primary site of cancer.
Justification:	This information is collected for the purpose of determining the histological basis of the primary cancer site, and determining the behaviour of the cancer (using the last digit of the morphology code) .

Service Event Notifiable Cancer: Cancer Topography Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_NOTIFIABLE_CANCER].[CANCER_TOPO_CODE]		
Data Element ID:	14053	Version:	1.0
Definition:	The anatomical position (topography) of the tumour expressed as a diagnosis, that represents a primary site of cancer, that is the site of origin of the tumour (as opposed to the secondary or metastatic sites).		
Status Allocation Date:			
Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	1	Maximum: 20
Representation Layout:			
Unit Of Measure:			
Additional Information:			
Collection and Usage Guide			
Guide for Use:	<p>The diagnosis code for each Cancer Topography Code for a primary site of cancer must also be reported as a "Principal Diagnosis" or an "Additional Diagnosis".</p> <p>This item should be completed for all patients who were diagnosed with a primary cancer site reportable to the Cancer Registry.</p> <p>"Primary Site of Cancer" must be reported as an ICD10AM disease code in the edition appropriate to the episode end date.</p> <p>For episodes with a separation end dates on or after 1 July 2010, 7th Edition must be used. The edition changes bi-annually on 1st July.</p> <p>ICD10AM clinical codes and related coding standards are described in "The International Statistical Classification of Diseases and Related Health Problems, 10th Revision, 7th Edition, 1 July 2010, Australian Modification, National Centre for Classification in Health, Faculty of Health Science, University of Sydney, Australia."</p> <p>Any errata issued by the National Casemix and Classification Centre, must be complied with from the date the errata are received.</p> <p>Australian and NSW State coding standards must also be followed</p> <p>Basal Cell Carcinoma</p> <p>Basal Cell Carcinoma of the skin should be excluded from notifications.</p>		

Squamous Cell Carcinoma

Squamous Cell Carcinomas of the skin are not notifiable unless they are one of the following:

- Squamous cell carcinomas of skin of anus NOS: C44.5, with morphology code in the range of 'M805x/3' to 'M808x/3'.
- Squamous cell carcinomas of the vermilion surface and border of the lip: C00.0 to C00.9 with morphology code in the range of 'M805x/3' to 'M808x/3'.
- Squamous cell carcinomas of skin of vulva: C51.9 with morphology code in the range of 'M805x/3' to 'M808x/3'.
- Squamous cell carcinomas of skin of penis: C60.9 with morphology code in the range of 'M805x/3' to 'M808x/3'.
- Squamous cell carcinomas of skin of scrotum: C63.2 with morphology code in the range of 'M805x/3' to 'M808x/3'.

HIV Cases

Where the Diagnosis code of "B21 – HIV resulting in malignant neoplasms" is reported, there must also be a "Diagnosis" code and "Primary Site of Cancer" code in the range of:

- "C00.0" to "C76.8" or
- "C80" to "C96.9" or
- "D03.0" to "D03.9" or
- "D05.0" to "D05.9" or
- "D45" to "D46.9" or
- "D47.3" to "D47.9" or
- "L41.2"

This data element equates to the national data element "Person with Cancer – Primary Site of Cancer, Code (ICD-10-AM 5th Edition)", Meteor Identifier: 333927, published by the Australian Institute of Health and Welfare.

The standard data quality checks as issued by NSW Health, will be applied to this data item. The table of clinical data quality checks will be issued separately.

In addition, the following checks are recommended:

- "Primary Site of Cancer" must be in the list of notifiable "primary site of cancer" codes.
- If a "Diagnosis" code has been reported that is in the range of "C77.0" to "C79.88" then "Primary Site of Cancer" must not be null.
- If the "Primary Site of Cancer" code begins with "C" or is "D45" to "D46.9" (excluding "D46.6") or "D47.1", "D47.3" or "L41.2" and the "Morphology Code of Primary Site of Cancer" is in the range "M8000" to "M9989" with 5th digit = "3", "6" or "9" then the fields "Date of Diagnosis of this Primary Cancer", "State of Residence at Time of Diagnosis of Primary Cancer", "Name of

Additional Information:			

Collection and Usage Guide	
Guide for Use:	Report the NSW unique organisation identifier assigned by HERO to the pathology service. This is required for each cancer notification record where the pathology laboratory that confirmed the diagnosis of the primary site of cancer is known.
Scope:	All cancer notification where the pathology laboratory that confirmed the diagnosis of the primary site of cancer is known. HERO Health Org 02.14 (Pathology Laboratory, Freestanding) or Service Unit - Ancillary Services 13.01 Pathology (Micro, Haem , Biochem) units
Justification:	This data element is part of a foreign key set, used to uniquely identify an organisation within the EDWARD database design. The pathology laboratory organisation identifier is used by the NSW Cancer Registry to follow up notifications of cancer from pathology laboratories that have failed to notify in line with their legal obligations under the Public Health Act.

Supporting Information:

Domain			
Domain name:	Pathology Laboratory Organisation Provider Identifier (EDW)		
Domain ID:	14254	Version:	1.0
Domain definition:	A list of pathology laboratories within NSW, and other Australian State / Territories, that provide pathology services, listed with their NSW state unique organisation identifier issued by HERO as the code value.

Justification:	
Supporting Information:	

Domain	
Domain name:	Cancer N Stage Score (EDW)
Domain ID:	14139 Version: 1.0
Domain definition:	Indicator of the N Stage Score applicable to a cancer. The TNM Classification of Malignant Tumours (TNM) is a globally recognised standard for classifying the extent of spread of cancer. It is a classification system of the anatomical extent of tumor cancers. The N dimension describes nearby (regional) lymph nodes impacted by the cancer.

Domain value set

Service Event Notifiable Cancer: Cancer M Stage Score (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_NOTIFIABLE_CANCER].[CANCER_M_STAGE_SCORE]		
Data Element ID:	14066	Version:	1.0
Definition:	Metastasis values within the TNM staging scheme. The M value records the absence of presence of distant metastases as a part of the TNM cancer staging system, used to describe the extent of cancer at the time of first diagnosis.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Quantitative Value		
Field Size:	Minimum:	1	Maximum: 4
Representation Layout:			
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	New data element for Cancer Registry: not yet available in patient administration systems, and not required for reporting to EDWARD Release 2A.
Scope:	Cancer notifications.
Justification:	This data element supports the objective of cancer care services in NSW: To increase the survival of cancer patients. It is collected for the following core indicators: 1) Stage adjusted survival by time since diagnosis (absolute, relative or cause-specific) and 2) Distribution of patients by cancer type, stage and staging scheme used. It is also used in cross-classification of cancer features in the assessment of disease burden, access to services and outcomes.
Supporting Information:	

Domain			
Domain name:	Cancer M Stage Score (EDW)		
Domain ID:	14255	Version:	1.0

Service Event Notifiable Cancer: Cancer Intended Treatment Mode Code (EDW)

Defining Characteristics			
Data Element Type:	Data Element		
Physical Name:	[SERVICE_EVENT_NOTIFIABLE_CANCER].[CANCER_INT_TREATMENT_MODE_CODE]		
Data Element ID:	13853	Version:	1.0
Definition:	An indication of the clinical intention to treat cancer at the time of the notification of a primary site of cancer.		
Status Allocation Date:			

Representation			
Data Type:	VarChar (Variable length)		
Form:	Code		
Field Size:	Minimum:	2	Maximum: 2
Representation Layout:	X{2}		
Unit Of Measure:			
Additional Information:			

Collection and Usage Guide	
Guide for Use:	This is a new data element for Cancer Registry. As at December 2011, this is not available in patient administration systems. Not required for reporting to EDWARD Release 2A. The inclusion of these additional data elements will be negotiated by Cancer Institute NSW at a later date.
Scope:	Cancer Notifications
Justification:	Cancer Notifications to Cancer Registry
Supporting Information:	

Domain			
Domain name:	Cancer Intended Treatment Mode Code (EDW)		
Domain ID:	13854	Version:	1.0
Domain definition:	The clinical coders reporting of the documented intended treatment mode when a primary site of cancer is diagnosed during an admitted patient or non-admitted patient service event.		
	Note: See Cancer Institute NSW for further details.		

Domain value set
