During the development of its policies, programs and strategies, the Entity considered the potential impacts on the health of Aboriginal people and, where appropriate, engaged with Aboriginal stakeholders to identify both positive and negative impacts and to address or mitigate any negative impacts for Aboriginal people.

1. The Executive, with Board involvement, provides information and advice to consumers, the community and local providers about the local health district policies and initiatives and seeks their views on the District's plans for providing health services. Information dissemination and community voice is achieved through Consumer Forums and special interest group forums such as Carers, Youth, Disabled and Mental Health Consumer forums. The District also engages with consumers and the community via its committee governance structure with the Board Consumer Committee and local Consumer Participation Committees and Peer worker committees at the facility and service level.
2. Supported by the Board, the District is committed to enabling and enhancing opportunities for input and feedback. The District also strives to improve the health, well-being and the health literacy of our community through the availability and access to information and resources about our services and health-related topics tailored to the needs of consumers. An example of exemplary practice in health literacy is the District's purchase of the EIDO Patient Information Brochure Library, a suite of plain English and pictorial brochures for the intellectually challenged that simply explain clinical procedures, their risks, benefits and alternatives, for the purpose of achieving truly informed consent. In addition, Consumers co-design information for patients and the community in electronic and hard copy form. The Consumer Tick application on these resources ensures consultation from a minimum of five consumers. The Multicultural Access Committee also includes a consumer representative.
3. The NSLHD Consumer Committee is a Board Sub-Committee established to provide Board assurance and strategic advice in relation to the consumer and carer experience of health care and to develop effective communication and engagement strategies for the District's community. Currently Royal North Shore Hospital, Ryde Hospital, Mona Vale Hospital, Hornsby Hospital and Primary and Community Health have Consumer Participation Committees (CPC) or Consumer Advisory Councils (CACs) which meet regularly to discuss consumer engagement and the patient experience in these facilities and services. Consumers are also involved in many other aspects of service evaluation and development including involvement as team members on service co-design and quality improvement initiatives. Currently the District has more than 50 consumer advisors providing input in this capacity, with an ever increasing demand for their involvement.
5. Mental Health Drug and Alcohol (MHDA) has a Peer Workforce Committee (previously Consumer Participation Committee) and a Carer Network. Members from these committees also sit on the MHDA Clinical Council. Consumers and carers are members of a number of key committees, at both MHDA and sector/service level, and also participate in operational planning, service evaluation, education, quality improvement and research. MHDA employs consumer

 7. Sources of consumer feedback include complaints captured via the District's Incident Management System. Complaints are investigated and managed at the facility/service level with the support of local patient representatives. Reporting to the HCQC including reporting against target key performance indicators for acknowledgement and resolution of complaints.
 8. The NSW Bureau of Health Information Patient Survey Program provides consumer feedback data to the District regarding the patient's experience of their care at a facility level. The results of the Patient Survey Program are reviewed by a number of governing committees across the District including the NSLHD Consumer Committee and at each of the local CPC/CAC meetings. Within MHDA consumer feedback is obtained using national Your Experience of Services (YES) and Carer Experience of Services (CES) surveys. Results are reviewed by sector/services and by the MHDA Service Experience Working Group and action and change processes are implemented to respond to the feedback. The District is also developing a real-time patient experience feedback surveying tool (in conjunction with the CEC). The survey went live on 1 March 2022.
