

Service Agreement 2022-23

An agreement between the
Secretary, NSW Health and
Southern NSW Local Health District
for the period 1 July 2022 - 30 June 2023

NSW Health Service Agreement – 2022-23

Principal purpose

The principal purpose of the Service Agreement is to set out the service and performance expectations for funding and other support provided to Southern NSW Local Health District (the Organisation), to ensure the provision of equitable, safe, high quality and human-centred healthcare services. It facilitates accountability to Government and the community for service delivery and funding.

The agreement articulates direction, responsibility and accountability across the NSW Health system for the delivery of high quality, effective healthcare services that promote, protect and maintain the health of the community, in keeping with NSW Government and NSW Health priorities. Additionally, it specifies the service delivery and performance requirements expected of the Organisation that will be monitored in line with the *NSW Health Performance Framework*.

The *Health Services Act 1997* allows the Health Secretary to enter into performance agreements with public health organisations in relation to the provision of health services and health support services (s.126).

Through execution of the agreement, the Secretary agrees to provide the funding and other support to the Organisation as outlined in this Service Agreement.

1. Legislation, governance and performance framework

1.1 Legislation

The *Health Services Act 1997* (the Act) provides a legislative framework for the public health system, including setting out purposes and/or functions in relation to Local Health Districts (ss. 8, 9, 10).

Under the Act, the Health Secretary's functions include: the facilitation of the achievement and maintenance of adequate standards of patient care within public hospitals, provision of governance, oversight and control of the public health system and the statutory health organisations within it, as well as in relation to other services provided by the public health system, and to facilitate the efficient and economic operation of the public health system (s.122).

Under the Act, the Minister may attach conditions to the payment of any subsidy (or part of any subsidy) (s.127). As a condition of subsidy, all funding provided for specific purposes must be used for those purposes unless approved by the Health Secretary.

1.2 Variation of the agreement

The Agreement may be amended at any time by agreement in writing between the Organisation and the NSW Ministry of Health.

The Agreement may also be varied by the Secretary or the Minister in the exercise of their general powers under the Act, including determination of the role, functions and activities of Local Health Districts (s. 32).

Any updates to finance or activity information further to the original contents of the Agreement will be provided through separate documents that may be issued by the Ministry of Health in the course of the year.

1.3 National Agreement

The National Cabinet has reaffirmed that providing universal healthcare for all Australians is a shared priority and agreed in a Heads of Agreement for public hospitals funding from 1 July 2020 to 30 June 2025. That Agreement maintains activity based funding and the national efficient price.

1.4 Governance

The Organisation must ensure that all applicable duties, obligations and accountabilities are understood and complied with, and that services are provided in a manner consistent with all NSW Health policies, procedures, plans, circulars, inter-agency agreements, Ministerial directives and other instruments and statutory obligations.

1.4.1 Clinical governance

NSW public health services are accredited against the *National Safety and Quality Health Service Standards*.

The *Australian Safety and Quality Framework for Health Care* provides a set of guiding principles that can assist health services with their clinical governance obligations.

The NSW Health *Patient Safety and Clinical Quality Program (PD2005 608)* provides an important framework for improvements to clinical quality.

1.4.2 Corporate governance

The Organisation must ensure services are delivered in a manner consistent with the NSW Health Corporate Governance and Accountability Compendium.

1.4.3 Procurement governance

The Organisation must ensure procurement of goods and services complies with NSW Health Goods and Services Procurement Policy (PD2019 028).

1.4.4 Aboriginal Procurement Policy

The NSW Government support employment opportunities for Aboriginal people, and the sustainable growth of Aboriginal businesses by driving demand via Government procurement of goods, services and construction. NSW Government agencies must apply the Aboriginal Procurement Policy to all relevant procurement activities.

1.4.5 Performance Framework

Service Agreements are a central component of the NSW Health Performance Framework which documents how the Ministry of Health monitors and assesses the performance of public sector health services to achieve expected service levels, financial performance, governance and other requirements.

2. Strategic priorities

The delivery of NSW Health strategies and priorities is the responsibility of the Ministry of Health, health services and support organisations. These are to be reflected in the strategic, operational and business plans of these entities.

It is recognised that the Organisation will identify and implement local priorities to meet the needs of their respective populations taking into consideration the needs of their diverse communities. In doing so they will:

- work together with clinical staff about key decisions, such as resource allocation and service planning
- engage in appropriate consultation with patients, carers and communities in the design and delivery of health services.

2.1 Future Health: Strategic Framework

The Future Health Strategic Framework is the roadmap for the health system to achieve NSW Health's vision. It will guide the next decade of care in NSW 2022-32, while adapting to and addressing the demands and challenges facing our system. The framework is also a reflection of the aspirations of the community, our patients, workforce and partners in care for how they envisage our health system by 2031.

Strategic outcomes	Key objectives
 <p>Patients and carers have positive experiences and outcomes that matter: People have more control over their own health, enabling them to make decisions about their care that will achieve the outcomes that matter most to them.</p>	1.1 Partner with patients and communities to make decisions about their own care 1.2 Bring kindness and compassion into the delivery of personalised and culturally safe care 1.3 Drive greater health literacy and access to information 1.4 Partner with consumers in co-design and implementation of models of care
 <p>Safe care is delivered across all settings: Safe, high quality reliable care is delivered by us and our partners in a sustainable and personalised way, within our hospitals, in communities, at home and virtually.</p>	2.1 Deliver safe, high quality reliable care for patients in hospital and other settings 2.2 Deliver more services in the home, community and virtual settings 2.3 Connect with partners to deliver integrated care services 2.4 Strengthen equitable outcomes and access for rural, regional and priority populations 2.5 Align infrastructure and service planning around the future care needs
 <p>People are healthy and well: Investment is made in keeping people healthy to prevent ill health and tackle health inequality in our communities.</p>	3.1 Prevent, prepare for, respond to and recover from pandemic and other threats to population health 3.2 Get the best start in life from conception through to age five 3.3 Make progress towards zero suicides recognising the devastating impact on society 3.4 Support healthy ageing ensuring people can live more years in full health and independently at home 3.5 Close the gap by prioritising care and programs for Aboriginal people 3.6 Support mental health and wellbeing for our whole community 3.7 Partner to address the social determinants of ill health in our communities
 <p>Our staff are engaged and well supported: Staff are supported to deliver safe, reliable person-centred care driving the best outcomes and experiences.</p>	4.1 Build positive work environments that bring out the best in everyone 4.2 Strengthen diversity in our workforce and decision-making 4.3 Empower staff to work to their full potential around the future care needs 4.4 Equip our people with the skills and capabilities to be an agile, responsive workforce 4.5 Attract and retain skilled people who put patients first 4.6 Unlock the ingenuity of our staff to build work practices for the future
 <p>Research and innovation, and digital advances inform service delivery: Clinical service delivery continues to transform through health and medical research, digital technologies, and data analytics.</p>	5.1 Advance and translate research and innovation with institutions, industry partners and patients 5.2 Ensure health data and information is high quality, integrated, accessible and utilised 5.3 Enable targeted evidence-based healthcare through precision medicine 5.4 Accelerate digital investments in systems, infrastructure, security and intelligence
 <p>The health system is managed sustainably: The health system is managed with an outcomes-focused lens to deliver a financially and environmentally sustainable future.</p>	6.1 Drive value based healthcare that prioritises outcomes and collaboration 6.2 Commit to an environmentally sustainable footprint for future healthcare 6.3 Adapt performance measurement and funding models to targeted outcomes 6.4 Align our governance and leaders to support the system and deliver the outcomes of Future Health

2.2 NSW Premier's Priorities

In June 2019, the NSW Premier set new social priorities to tackle tough community challenges, lift the quality of life for everyone in NSW and put people at the heart of everything the Government does.

NSW Health is leading three priorities for improving the health system:

- **Improving outpatient and community care**
Reduce preventable hospital visits by 5% through to 2023 by caring for people in the community.
- **Improving service levels in hospitals**
100% of all triage category 1, 95% of triage category 2, and 85% of triage category 3 patients commencing treatment on time by 2023
- **Towards zero suicides**
Reduce the rate of suicide deaths in NSW by 20% by 2023.

NSW Health staff will continue to work together to deliver a sustainable health system that delivers outcomes that matter to patients and the community, is personalised, invests in wellness and is digitally enabled.

2.3 NSW Health Outcome and Business Plan

The NSW Health Outcome and Business Plan is an agreement between the Minister for Health, the Secretary, NSW Health and the NSW Government setting out the outcomes and objectives that will be the focus for the current period.

NSW Health has identified five state outcomes that it will achieve for the people of NSW:

1. Keeping people healthy through prevention and health promotion
2. People can access care in out of hospital settings to manage their health and wellbeing
3. People receive timely emergency care
4. People receive high-quality, safe care in our hospitals
5. Our people and systems are continuously improving to deliver the best health outcomes and experiences

To achieve these outcomes, NSW Health has set a series of ambitious targets and has a comprehensive program of change initiatives in place. These targets have been built into key performance indicators in the Service Agreement, the *NSW Health Performance Framework*, the *NSW Health Purchasing Framework* and the funding model.

3. NSW Health services and networks

Each NSW Health service is a part of integrated networks of clinical services that aim to ensure timely access to appropriate care for all eligible patients. The Organisation must ensure effective contribution, where applicable, to the operation of statewide and local networks of retrieval, specialty service transfer and inter-district networked specialty clinical services.

3.1 Cross district referral networks

Districts and Networks are part of a referral network with other relevant services, and must ensure the continued effective operation of these networks, especially the following:

- [Interfacility Transfer Process for Adult Patients Requiring Specialist Care \(PD2011_031\)](#)
- [Critical Care Tertiary Referral Networks \(Paediatrics\) \(PD2010_030\)](#)
- [Children and Adolescents - Inter-Facility Transfers \(PD2010_031\)](#)
- [Tiered Networking Arrangements for Perinatal Care in NSW \(PD2020_014\)](#)
- [NSW Critical Care Tertiary Referral Networks and Transfer of Care \(Adults\) \(PD2018_011\)](#)
- [Children and Adolescents with Mental Health Problems Requiring Inpatient Care \(PD2011_016\)](#)
- [Adult Mental Health Intensive Care Networks \(PD2019_024\)](#)
- [State-wide Intellectual Disability Mental Health Hubs - \(Services provided as per March 2019 Service Level Agreements with Sydney Children's Hospitals Network and Sydney Local Health District\).](#)

3.2 Supra LHD services

Under the [NSW Framework for New Health Technologies and Specialised Services \(GL2018_023\)](#), Supra LHD services are provided across District and Network boundaries to provide equitable access for everyone in NSW.

The following information is included in all Service Agreements to provide an overview of recognised Supra LHD services and Nationally Funded Centres in NSW.

4.5 Outcome and performance payment schedule

The schedule below lists indicative additional funding available to the Organisation for targeted strategic initiatives to deliver on key performance indicators and specified outcomes. This funding is not included in the *State Outcome Budget Schedule: Parts 1-3* and will be paid to the Organisation according to the Outcome performance metric described in this schedule.

Activity (NWAU22) is indicative only and relates to the funding available to the Organisation. It is not included in *4.1 State Outcome Budget Schedule: Part 1* or the activity targets in *5.1 Activity*.

FTE is the modelled full time equivalent staff required to deliver the targeted initiative.
